1905	870,346	921,328	per barrel, 1.05
1906	936,779	994,832	per barrel, 1.06

The charge for 1906 for management salaries was $65,000 and for depreciation $187,356, with a proportionate charge for the prior years.

The assets Jan. 1 1907 were $7,930,902, viz.:

Plants & equip., book vals.	$3,914,679	Chattel mtges. (good)	$1,746,712
Saloon & outside real est.	*189,925	Unsecured notes (good)	569,848
Sundry invest's, book vals.	9,170	Customers' licenses & sundry accts. rec'le (good)	434,463
Beer, ale, &c., on hand	473,057		
Real estate mortgages	223,067	Cash	369,981

*Book value, $304,475; mortgages thereon, $114,550, net, $189,925.

The book value of the plants and other real estate we believe to be conservative. The above assets will be transferred according to the contracts free and clear of all liabilities except mortgages on plants amounting to $1,457,500 and sundry notes, &c., amounting to $161,597.

Chadwick-Boston Lead Co.—See United Lead Co., below.—V. 72, p. 677.

Cherry Valley Iron Co.—See United Iron & Steel Co. below.—V. 83, p. 1592.

Chicago Edison Co.—*Debentures Offered.*—N. W. Halsey & Co., A. B. Leach & Co. and Illinois Trust & Savings Bank, all of Chicago, Ill., and the National City Bank of New York, are offering at 97¼ and interest (at which rate the investor receives 6% per annum), $2,500,000 5% 3-year gold debentures dated March 1 1907 and due March 1 1910, but subject to call as an entire issue, but not any part thereof, on any interest day, at 101 and interest, on 90 days' notice. Total authorized issue, $5,000,000. Interest payable March 1 and Sept. 1 in Chicago. Illinois Trust & Savings Bank, trustee. These bonds have the benefit of an important agreement with the Commonwealth Electric Co. as to the payment of their principal and interest, as below stated.

Abstract of Letters from Samuel Insull, President of Both Companies, March 15 1907.

The proceeds of these debentures will be used in making extensions and acquiring the property to provide for the co.'s rapidly growing business.

Chicago Edison Co.—Capitalization.		Commonwealth Elec. Co.—Capitaliz'n.	
Capital stock authorized	$15,000,000	Capital stock authorized	$15,000,000
Do outstanding Feb. 1 '07	13,614,115	Stock issued	10,000,000
First M. 5s, due 1926, optional 1911	6,000,000	Bonds outstanding	8,000,000
Deb. 6s, due 1913, now op.	1,483,000	Debentures guaranteed by Chicago Edison Co., principal and interest	500,000
Present debentures (auth)	5,000,000		

In addition the Chicago Edison Co. has guaranteed the principal and interest on $227,000 and the interest (but not the principal) on $33,000 of the bonds of the Chicago Sectional Electric Underground Co.

Income Accounts for Year ending March 31 1906.

	Chicago Edison.	Commonwealth.		Chicago Edison.	Commonwealth.
Gross income	$4,744,823	$2,507,772	Int. on 1st M.	$300,000	$338,888
Net income	1,550,025	704,558	Balance	1,250,025	365,669

Interest on Chicago Edison debentures, both old issue and entire new issue $338,080

For eleven months ending Feb. 28 1907 the Chicago Edison Co. showed an increase in gross earnings of 8.7% and the Commonwealth Electric Co. of 45% over the same period of the previous fiscal year.

The Chicago Edison Co. with its associate company, the Commonwealth Electric Co., practically controls the central station business of producing and selling electric current in the city of Chicago, supplying a territory having a population of nearly two million. The Commonwealth Electric Co. was organized in 1898 and took over various independent electric lighting plants in the outlying districts of the city of Chicago. The property and franchises of the Commonwealth represent an investment of over $18,000,000. The property of the Chicago Edison Co., when the proceeds of these debentures have been expended, will have cost over $28,000,000.

Growth of Business—Equivalent 16 Candle Power Lamps Connected March 31.

	1906.	1905.	1904.	1903.	1902.
Chicago Edison Co.	1,660,108	1,475,699	1,307,631	1,138,866	901,848
Commonwealth Elec. Co.	973,752	727,975	604,194	447,507	341,355

The Chicago Edison Co. is practically protected from serious competition by the fact that its conduits lawfully occupy the chief business streets of Chicago and by the consequent expense that would be involved in duplicating its plant. A trust agreement provides that while these debentures are outstanding no bonds or other obligations may be issued under any mortgage hereafter placed on the present property and franchises of the Chicago Edison Co.

These debentures are further secured by an agreement between the Commonwealth Electric Co. and the trustee, deposited with said trustee, whereby the Commonwealth Co. agrees that on or before the maturity of the debentures it will consolidate with the Edison Co. or will purchase its properties in such way as to become bound to pay said debentures, or in the alternative will, upon default in payment, assume and pay the principal and interest of the debentures according to their terms. The agreement of the Commonwealth Co. also provides against the issuance, while these debentures are outstanding, of any bonds or other obligations under any mortgage hereafter placed on the present property and franchises of the Commonwealth Co.—V. 84, p. 627.

Chicago Pneumatic Tool Co.—*Acquisitions.*—The company recently purchased the Franklin (Pa.) Machine & Tool Co., formerly the Grant Tool Co., for a sum said to be $200,000, in stock of the Pneumatic Company. The plant, it is reported, will be used to increase the facilities of the Air Compressor Works.—V. 84, p. 389, 341.

Cleveland-Sandusky Brewing Co.—*New President, &c.*—Simon Fishel has been elected President and General Manager. The number of directors also has been reduced from fourteen to ten by the retirement of Ernest Mueller, Carl F. Schroeder, Herman Schmidt and L. Schlather.

Earnings.—The Cleveland "Finance" says:

The financial statement submitted showed earnings for the last fiscal year amounting to $804,832; $363,420 paid for interest on bonds; $60,000 paid to the sinking fund for retirement of bonds; $155,122 (6½%) paid in dividends upon the 6% preferred stock, one month extra being added to bring the time of payment on both common and preferred stocks to the same date; $95,460 paid in dividends (4%) on common stock, and $130,830 carried to surplus account. Undivided profits to date, $882,932; the company has working capital of $1,000,000; Charged off for depreciation, $134,156; sinking fund amounts to $534,971.—V. 82, p. 572.

Colorado Telephone Co.—*New Stock.*—Stockholders of record April 1 are offered the right to subscribe on or before that date pro rata at par ($50 per share) for $1,500,000 additional stock, subscriptions to be paid in full April 15 or 50% April 1 and the balance July 1. Stock paid for in full April 15 receives the July 15 dividend.—V. 84, p. 573.

Columbia Gas & Electric Co., Cincinnati, Cleveland, &c.—*Official Statement.*—President Archibald S. White recently gave out the following:

The company has acquired about 250,000 acres of gas-producing territory in West Virginia. It has six times as much gas as Cleveland can consume. Experts say that this gas will last for 30 years. It is going to construct a pipe line from West Virginia to Cincinnati, where the natural gas will be sold at 30 cents a thousand, in place of the artificial gas.

It has also been invited to pipe its gas to Louisville, where it can get 40 cents a thousand for it, and to Indianapolis, where the price has been established at 60 cents. Artificial gas in Washington sells for $1 25 a thousand, and is only about 200 miles from its West Virginia gas fields. In Baltimore gas sells for $1 25 a thousand and the city is only 40 miles from Washington. In order to avoid the necessity of installing a new system of piping it proposes to acquire a majority of the stock of the People's Gas Light Co. and the Cleveland Gas Light & Coke Co., whose mains now reach more than 50,000 houses in Cleveland, or about half of its inhabitants, who are now without natural gas. These companies have made application to the Council for permission to distribute natural gas at a price which shall not exceed 30 cents a thousand cubic feet.—V. 84, p. 452.

Commonwealth Electric Co., Chicago.—*New Stock.*—This ally of the Chicago Edison Co. has filed a certificate of increase of capital stock from $10,000,000 to $15,000,000.—

Debentures Offered.—See Chicago Edison Co. above.—V. 84, p. 627.

Consolidation Coal Co. of Maryland.—*Report.*—The results for the year ending Dec. 31 were:

Year.	Gross.	Net.	Other Income.	Charges, &c.	Dividends.	Balance, Surplus
1906	$4,310,608	$1,522,580	$497,232	$591,108	(8%) $820,000	$608,704
1905	4,165,437	1,336,359	312,047	631,117	(6%) 615,000	402,289
1904	4,130,589	1,231,605	331,703	632,973	(4%) 410,000	502,336

—V. 84, p. 161.

Corn Products Refining Co.—*Payment of all Arrears of Dividends on Preferred Stock.*—As foreshadowed last week, the directors declared on March 19, along with the regular quarterly dividend of 1% on the preferred shares, an extra dividend of 3%, both payable April 10 to holders of record March 29, thus discharging all the arrears of dividends concurrently with the end of the first full year of the company's existence. The preferred stock is $28,238,000 7% cumulative. The preliminary statement for the year, it is said, shows a small surplus after the payment of 7% on the preferred stock, interest, depreciation, &c., and expenditures of about $1,250,000 for new construction. The "New York Times" says:

The dividends for the past year were paid out of the earnings of the Corn Products Refining Co. The earnings of the Corn Products Manufacturing Co. (formerly known as the Glucose Sugar Refining Co., V. 83, p. 1414) are to be devoted toward the building of its new plant, which will cost, when completed, in the neighborhood of $5,000,000 (V. 83, p. 689, 1101). President Bedford says: "We shall pursue the same conservative policy as in the preceding year. In other words, the usual rate of 1% quarterly will be declared and back dividends satisfied at the close of the year if there is sufficient surplus to meet such payments.—V. 84, p. 628.

Crescent Coal Co.—*Bonds Called.*—All of the outstanding bonds secured by mortgage dated May 1 1901 have been called for payment on May 1 at the office of the Union Trust Co. of Pittsburgh, trustee, on May 1 1907.

Crucible Steel Co. of America, Pittsburgh, Pa.—*Earnings.*—The following earnings for the quarter and also for the half year ending Feb. 28 1906 were made public on March 19:

	Three mos.	Six mos.
Total net earnings, after deducting all expenditures for repairs, interest on bonds, mortgages, &c	$741,244	$1,283,589
Less amount set aside as reserve for contingencies	$14,922	$25,671
Dividend on $24,436,500 7% cumulative preferred stock	(1½) 366,548	(3) 733,095
Surplus for the quarter	$359,774	$524,823

The statement is based on inventory values as of Aug. 31 1906 for all finished material. Raw and process material is valued at cost as of Feb. 28 1907.—V. 84, p. 573, 223.

Davenport (Ia.) Locomotive Works.—*New Stock.*—A technical journal says:

The company has increased its capital stock to $1,100,000, about $500,000 of which will be spent in the next two years for extensive improvements and additions. Five new buildings are in immediate contemplation When the additions are all completed the capacity of the plant will be increased to two locomotives a day and will enable the company to build the heavy type of locomotives which are in use upon standard-gauge roads.—V. 82, p. 1442.

Dering Coal Co.—*Purchase.*—The Kelley Coal Co. of Danville, Ill., has been sold to R. R. Hammond, J. K. Dering and the two Shirkies, all identified with the Dering Coal Co. While no official information is at hand, it is thought that the purchase, which probably includes the acquisition of the $3,000,000 outstanding bonds, may be a private transaction of the men named, at least for the present. A press despatch from Danville says:

It is stated the consideration was $4,000,000. The property was owned equally by John R. Walsh of Chicago and the Illinois Traction System interests, and consists of five shafts with an average output of 2,000,000 tons annually and many thousands of acres of land.—V. 83, p. 753.

Diamond Rubber Co., Akron, O.—*Purchase.*—This company, which recently purchased the Bryant Steel Wheel & Rim Co. of Columbus, O., will, on April 15, increase its outstanding capital stock from $3,500,000 (all common, par $100) to $5,000,000, for the purpose of "increasing the plant," presumably in part, at least, through the aforesaid purchase. There is no mortgage on the property and no bonds will be issued.—V. 81, p. 1852.

Distillers Securities Corporation.—*Dividend of Subsidiary Increased.*—This company's subsidiary, the Distilling Company of America, has declared a quarterly dividend of 1½% on its preferred stock, payable April 15, contrasting, it is said, with 1¼% Jan. 15 1907 and Oct. 15 1906 and 1% previously.—V. 84, p. 341.

Dominion Iron & Steel Co.—*Right to Guarantee Securities of Coal Company.*—A bill has been introduced in the Nova Scotia Legislature to authorize the company to guarantee the payment of principal or interest of bonds or other securities the majority of whose capital stock is held or controlled by the company or of any company holding shares, stock, debentures, debenture stock, bonds or other obligations of any company carrying on any trade or business within the objects of the company. The company has recently acquired coal areas in Cape Breton, and the object, it is understood, is to empower the company to form a subsidiary company to operate the same. No name has been mentioned for any company that may be organized under the proposed legislation.—V. 83, p. 1473.

Edison Phonograph Co., Orange, N. J.—*Decision.*—See New York Phonograph Co. below.—V. 79, p. 2798.

Edison United Phonograph Co.—*Bonds.*—At auction sale on Feb. 27 $15,000 4% collateral trust gold bonds due Jan. 15 1908 were offered with Jan. 1906 coupons on. Compare V. 79, p. 2798.

Electric Storage Battery Co.—*Report.*—For calendar year:

Year.	Gross.	Net.	Other Inc.	Dividends.	Bal., surp.
1906	$1,331,800	$930,707	$128,666	(5%) $812,450	$246,923
1905	1,467,487	1,078,455	135,532	(5%) 812,440	401,547
1904	1,344,536	965,659	117,249	(5%) 812,435	270,473

New Director.—H. H. Vreeland of New York has been elected a director, succeeding Thomas F. Ryan, resigned.—V. 82, p. 801.

Fairmont Coal Co.—*Report.*—This company, controlled by the Consolidation Coal Co. of Maryland, reports:

Cal. Year.	Gross Earnings.	Net Earnings.	Other Income.	Charges to Income.	Dividends Prev. Year.	Balance, Surplus.
1906	$4,516,588	$1,335,258	$448,524	$710,353	(4½) $540,000	$533,429
1905	3,518,674	669,709	320,996	618,389	(2%) 240,000	132,316
1904	3,754,152	874,654	332,333	563,053	(3%) 360,000	283,934

—V. 84, p. 628, 162.

(Wm. L.) Gilbert Clock Co., Winsted, Conn.—*Increase.*—This company has applied to the Connecticut Legislature for authority to increase its capital stock from $500,000 to $2,000,000. The increase will be used for working capital, and improvements which will enable it to add watches to its list of products. The officers are: James G. Woodruff, President and Treasurer; Geo. B. Owen, Vice-President and General Manager; Eugene S. Brown, Secretary.

Hecker-Jones-Jewell Milling Co.—*Re-Incorporated.*—See Standard Milling Co., below.—V. 71, p. 344.

Hoster-Columbus Associated Breweries, Columbus, O.—*Report.*—For the calendar year 1906:

Net earnings, $559,227 (against $640,914 as reported for 1905); deduct bond interest, $312,000; sinking fund, $50,000; dividend on preferred stock, $40,500; adjustments, $8,387; balance, surplus for year, $148,340. There was charged off for depreciation, &c., $138,838. Bonds in sinking fund, $100,000; undivided profits, $424,253. Expenditures for additions and improvements during the year amounted to $28,563.—V. 84, p. 393.

Houston Oil Co.—*Litigation.*—Charles Dillingham, as receiver of the Houston Oil Co., has filed an intervention in the Federal Court of Texas, asking that the receivers of the Kirby Lumber Co. be compelled to pay him at once the sum of $2,374,424.

This amount, it is alleged, is the difference between payments made by the receivers of the Lumber Company to the intervenor as receiver of the Oil Company, and the amount which should have been paid as provided for under the timber contract.

It is alleged, among other things in the bill, that the Kirby Lumber Co. is amply able to make the payments in accordance with the contract, as evidenced by receiver's statement filed with the Court, showing a profit in its operations during 1906 of over $1,500,000.

The intervention is set down for hearing on March 22.

Interest on Timber Certificates.—See Kirby Lumber Co. below.—V. 83, p. 1173, 99.

International Harvester Co.—See Wisconsin Steel Co. below.—V. 84, p. 162, 106.

International Paper Co.—*Resignation of Director.*—Albrecht Pagenstecher, one of the original directors of the company, has resigned, owing, it is said, to a disagreement

with the management regarding matters of policy.—V. 83, p. 1039, 1036.

International Smokeless Powder & Chemical Co., Philadelphia.—*Dividends.*—The company has declared a semi-annual dividend of 4% on the $600,000 preferred stock, payable May 15, as registered April 30, and a quarterly dividend of ¾ of 1% on the $9,000,000 common stock, payable April 1, as registered March 20. Touching the dividends on the common shares, the "Philadelphia Financial Bulletin" of Nov. 29 1906 said:

The company has fulfilled its implied contract by gradually increasing its dividend from 3% in 1904 to 3.85% for this year as follows: April 1906, none; July 1906, 0.75%; October 1906, 1.60%; January 1907, 1.50%; total, 3.85%. It is understood the dividend will continue to be increased until it reaches 4½% annually, this rate being necessary to pay the maximum dividend of 8% on DuPont International preferred, after which even more substantial returns are expected.—V. 83, p. 1350, 439.

Kirby Lumber Co.—*Payment of Overdue Coupons.*—Coupons due Feb. 1 1907 on the Maryland Trust Co. timber certificates of beneficial interest in Kirby Lumber Co. contract with Houston Oil Co. of Texas will be paid on April 1, together with interest on said coupons at the rate of 6% per annum from Feb. 1.

Report.—For calendar years 1906 and 1905:

Year.	Gross.	Net.	Dividends.	To Reserve.	Bal., Sur.
1906	$24,526,098	$12,970,937	(7¾%) $10,195,233	$1,773,737	$1,001,967
1905	21,712,831	13,034,038	(7½%) 9,866,355	1,743,295	1,424,388

In his application to the Court for permission to pay these past-due coupons out of funds in hand, the receiver estimates that by July 20 he will have sufficient funds with which to pay the principal of timber certificates which matured Feb. 1 1907, amounting to $400,000.

Litigation—Alleged Profits.—See Houston Oil Co. above.—V. 84, p. 53.

Lake Superior Corporation.—See Michigan Lake Superior Power Co. below.—V. 83, p. 1527.

Lawyers' Mortgage Co., New York.—*Dividend Increased.*—The directors on Wednesday declared a quarterly dividend of 2½%, placing the stock on a 10% basis, an advance of 2% in the annual rate. The following also is confirmed:

All the stock of the company held by the Mutual Life and the Equitable Life, formerly amounting to 7,000 shares, it was learned this week, has been sold to stockholders of the Lawyers' Mortgage Co., stockholders in the Lawyers' Title Insurance Co. and in the Mortgage Bond Co., two institutions closely allied with the Lawyers' Mortgage Co.—V. 84, p. 163.

Macon (Ga.) Gas, Light & Water Co.—*Dividends.*—A dividend of 2½% has been declared on the first preferred stock; 3% was also paid March 7 1906.

Capitalization at last accounts, $230,830 first preferred, $179,100 second preferred and $300,000 common stock; par, $100. Bonds: $75,000 first 6s, interest M. & N., and $413,000 consol. 30-year 5s, interest M. & N., due October 1910.—V. 68, p. 380.

Marion (O.) Manufacturing Co.—*Receivership.*—James Bastable, recently appointed receiver, on March 5 filed the required bond. Compare V. 84, p. 224.

Mexican Electric Light Co.—See report of Mexican Light & Power Co. under "Annual Reports" on a preceding page.—V. 83, p. 1415.

Michigan Lake Superior Power Co.—*Reorganization—Reasons for Delay.*—The Philadelphia "Financial Bulletin" of March 19 said:

Several causes have contributed to delay the reorganization: (1) The failure to dispose of the $500,000 receivers' certificates, owing to the tightness of the money markets. (2) The excessive bids received for rehabilitating the power plant, which the receivers estimate are more than 50% of what the work is worth. (3) The litigation with the Chandler-Dunbar Co. of Cleveland over certain water rights. In this litigation an adverse decision was recently handed down against the Michigan Company in the United States courts, but the case will be carried to the United States Supreme Court, and the receivers are confident of a reversal of the lower court's decision. The litigation involves considerable of the Michigan company's water rights, but it will probably take some time to decide and is not materially affecting the reorganization.—V. 84, p. 106; V. 83, p. 1102.

National Dump Car Co., Chicago.—*New Stock.*—The company, it is stated, has increased its capital stock from $3,000,000 to $4,000,000.

National Phonograph Co.—*Decision.*—See New York Phonograph Co. below.—V. 82, p. 632.

National Fire-Proofing Co.—*Earnings for Calendar Year.*—

Cal. Yr.	Net Earns.	Preferred Dividend.	Replace. Res've.	Balance for Year.	Tot. Sur. Jan. 1.	Adjusts., &c.	Tot. Sur. Dec. 31.
06.	$943,180 (3%)	$237,015	$100,000	sur$606,165	$1,487,473	$1,065,025	$1,028,612
'05.	472,053 (5¼)	417,540	100,000	def 45,487	1,691,065	158,105	1,457,473

The "Adjustments, &c.," in 1906 above include: "Depreciation to Jan. 1 1906, $516,672; discount on bond issue, $200,000; other, $48,353.—V. 83, p. 1594.

New York Phonograph Co.—*Suits Against Dealers.*—Justice Keogh in the Supreme Court at New Rochelle on March 16, in a test case against a dealer in Edison phonograph records and other supplies, held that the plaintiff is entitled to recover from the latter all profits accruing from the sale of the articles named during the year 1896 to the present time. There are said to be 940 dealers and jobbers in New York State against whom actions have been brought. The suits are the result of the decisions in the United States Courts holding that the company had the exclusive license to sell phonographs, records and supplies in New York State during the time named. Compare V. 82, p. 632; V. 80, p. 1858, 166.

Pennsylvania Sugar Refining Co.—*Foreclosure.*—At the request of Receiver Earle, the Real Estate Trust Co. has instituted proceedings to foreclose the $3,000,000 mortgage dated July 1 1901.—V. 84, p. 629, 106.

Pittsburgh Plate Glass Co.—*Dividend Increased.*—The directors on Thursday declared a quarterly dividend of 1¾% on the common stock, payable April 1. This increases the annual rate to 7%, as against 6% from 1900 to January 1907, both inclusive, and 4% in 1889. Compare V. 84, p. 342.

Pullman Company.—*All-Steel Pullman Car.*—An all-steel Pullman car has this week been on exhibition on the Pennsylvania road between Philadelphia and Jersey City. The company is reticent concerning its plans for a steel car plant, but a newspaper report asserts that such a plant, costing $1,500,000, will be ready for use next fall.—V. 84, p. 274.

Quaker Oats Co.—*Reduction of Stock by Subsidiary.*—See American Cereal Co. above.—V. 84, p. 576.

Rhode Island Perkins Horse Shoe Co., Providence.—*Extra Dividend Continued.*—The directors have declared a quarterly dividend of 1¾% and an extra dividend of ½ of 1% on the $1,750,000 preferred stock (7% cumulative), payable April 15 to holders of record April 1, being the same amounts as paid last January. The preferred stock is now on a regular 7% basis with extras as above; during 1906 it received 5% regular and 2% extra in April and ½% extra in October—total 7½%. Compare V. 83, p. 1595.

Rubber Goods Manufacturing Co.—*Suspension of Dividends on Common Stock.*—The directors have decided to discontinue the payment of dividends on the common stock, pending consummation of the merger with the United States Rubber Co. in order that there may be no doubt about there being sufficient funds available in the liquidation to satisfy the claims of the preferred stockholders.

Dividends on the common shares were resumed last October, after an interval of six years, by the payment of a semi-annual dividend of 1% on Oct. 15. The United States Rubber Co. owns practically all of the outstanding common stock and over 90% of the preferred.—V. 84, p. 342.

Shawinigan Water & Power Co.—*Listed in London.*—The London Stock Exchange has listed a further issue of $200,000 consolidated first mortgage bonds.

Report.—Copies of the report for the calendar year 1906 are withheld, but according to the Canadian papers it shows:

Gross earnings, $357,147; other revenue, $5,249; total revenue, $362,396; operating expenses, $26,745; general expenses, $16,409; all charges, $243,242; net profit, $76,000, which has been disposed of by carrying sufficient to contingent fund to make that fund $100,000, leaving a balance to profit and loss of $5,363. Earnings have increased steadily. The annual rate of income Jan. 1905 was $235,994; in Jan. 1906 it was $322,000; for Jan. 1907 it was at the rate of $500,000. Capital stock outstanding is $6,500,000; treasury stock $500,000. Bonds (5%) outstanding are $4,500,000 of an authorized issue of $5,000,000. Bills and accounts payable aggregated $1,144,982 on Dec. 31 but this included interest due on Jan. 1, and has since been reduced to $656,857. It will later be reduced to $166,430. The capacity of the plant is 35,000 electrical and 45,000 water-power. New contracts have been made to the extent of 5,000 electrical horse-power and further contracts are in negotiation. Northern Aluminum Co. operating by water from the Shawinigan Co., is largely extending its works, and The North American Cotton Co., connected with the Dominion Textile Co. of Montreal, will build next spring at the Falls, and will become at once a large consumer of power.—V. 83, p. 1175.

Somerset Coal Co.—*Report.*—This company, controlled by the Consolidation Coal Co. of Maryland, reports:

Cal. Year.	Gross Earnings.	Net Earnings.	Other Income.	Charges to Income.	Balance, Surplus.
1906	$1,957,371	$398,231	$26,840	$264,834	$160,237
1905	1,606,271	247,175	21,445	240,289	28,331
1904	975,298	202,243	29,361	206,865	24,739

—V. 83, p. 1040.

Standard Milling Co.—*Subsidiary Re-Incorporated.*—This company's subsidiary, the Hecker-Jones-Jewell Milling Co., heretofore a New Jersey Corporation with $5,000,000 capital stock, of which $2,000,000 was preferred, mostly owned by the Standard Milling Co. (as shown in foot-note to balance sheet in V. 83, p. 968), was on March 8 re-incorporated under the laws of New York with $1,000,000 share capital.—V. 83, p. 968.

Staten Island (N. Y.) Water Supply Co.—*Purchase by City.*—On March 15 1907 the Board of Estimate and Apportionment of the City of New York, agreeably with the report made March 12 1907 by the special committee, consisting of Comptroller Herman A. Metz and George Cromwell, President of the Borough of Richmond, voted to authorize the purchase by the Commissioner of Water Supply, Gas and Electricity of the property, rights, franchises and business of the company located within the city of New York. The board also authorized the Comptroller to issue for this purpose $1,100,000 corporate stock of the city of New York. The committee was advised under date of March 7 that an offer of $1,100,000 would be accepted.

United Iron & Steel Co., Philadelphia.—*Plan Consummated.*—This company, incorporated under the laws of Pennsylvania on Nov. 27 1906, has increased its capital stock from $5,000 to $2,000,000, all common (par of shares $100), and on Feb. 8 absorbed the plant and properties formerly owned or operated by the Cherry Valley Iron Co. (V. 83, p. 1592). The company's properties and directors are officially reported as follows:

Two Blast Furnaces, Total Annual Capacity, 210,000 Tons.

(1) Cherry Valley Furnace, Leetonia, Ohio.—One stack, first blown in Nov. 1 1904, product, foundry, "Fort Pitt" special car-wheel and gray forge pig iron; annual capacity, 110,000 tons. (2) Fannie Furnace, West Middlesex, Pa. One stack entirely re-built in 1903-04; product, Bessemer and foundry pig iron; annual capacity, 100,000 tons.

Iron Ore Lands, Coal Lands and Coke Ovens.

The company owns a controlling interest in the Pittsburgh Iron Ore Co., which owns and operates the Brunt iron ore mine in the Mesabi Range in Minnesota and leases and operates the Hobart, Nassau, La Rue and Croxton mines in the same range. These mines have an annual capacity of from 800,000 to 1,000,000 tons. The company also owns 732 acres of undeveloped coking coal lands in Fayette County, Pa., and 200 bee-hive coke ovens at Leetonia, with an annual capacity of about 120,000 tons.

Directors (and officers): Edwin N. Ohl, (President); Wm. H. Schoen (Vice-President and Secretary); A. W. Thompson, formerly President of the Republic Iron & Steel Co. (Treasurer); William H. Rhodes, Joshua W. Rhodes, Harry Rubens, L. L. Block, who is Vice-President of the Inland Steel Co. of Chicago. Office, People's Building, Pittsburgh, Pa.

United Lead Co.—*Called Bonds.*—Ten gold 5s of 1901 of the Chadwick-Boston Lead Co. (V. 72, p. 677) are payable at 110 and interest at the State Street Trust Co., Boston, on April 1. At last accounts $271,000 of the bonds (due April 1921) were outstanding.—V. 82, p. 701.

United Metals Selling Co.—*Commission.*—The "Wall Street Summary" of March 16 said:

It is stated in some quarters that the commission on sales is 1½%. It is well understood, however, in well-informed circles that the company is only receiving 1% on its sales, and this has been the rate for some considerable time. Compare V. 84, p. 630.

United States Realty & Improvement Co.—*First Dividend.*—The directors on March 12 declared an initial quarterly dividend of 1½% on the $16,162,800 capital stock, payable April 1 to stockholders of record April 21.—V. 84, p. 630.

Universal Caster & Foundry Co., Newark, N. J.—*Called Bonds.*—Fifteen first mortgage 6% bonds secured by mortgage dated Dec. 14 1903 and due 1929 will be paid at par and interest at the Fidelity Trust Co. of Newark, trustee, on July 2.—V. 82, p. 1383.

Waltham Watch Co.—*New Stock.*—The shareholders on March 20 duly authorized the directors to issue a part or the whole of the $1,000,000 preferred stock now in the treasury, to be offered to stockholders at par in proportion to their holdings. Compare V. 84, p. 630.

Shareholders of record March 25 are offered the right to subscribe at par on or before April 25 for $500,000 of the new preferred stock in the proportion of one share of new for each 22 shares of their respective holdings, whether common or preferred. Receipts will be issued bearing interest at 6% from the date of subscription to June 3 1907. The American Trust Co. of Boston will buy or sell at $1.50 each the rights attaching to shares of old stock.—V. 84, p. 630.

Wellman-Seaver-Morgan Co., Cleveland.—*New President*—Willard N. Sawyer has been elected President to succeed S. T. Wellman, who has retired.—V. 81, p. 1563, 1440.

Western Canada Cement & Coal Co., Limited. *Listed in London.*—The London Stock Exchange has listed £225,000 6% first mortgage debentures of £100 each (Nos. 1 to 2,250).

Wisconsin Steel Co.—*Ally of International Harvester Co.*—The "Iron Age" of March 7 said:

Announcement is made of the transfer by the International Harvester Co. to the Wisconsin Steel Co. of that part of its properties consisting of blast furnaces, steel plants, rolling mills, ore mines and coal lands previously operated by the steel department of the International Harvester Co. The facilities of the Wisconsin company will be largely increased by the new 14-in. and 16-in. Morgan continuous mills now under construction at the company's South Chicago works, and at the same location there will be erected this year a third blast furnace. The management of the Wisconsin Steel Co. will be the same as that of the steel department of the International Harvester Co. (A Wisconsin Steel Co. was incorparated in Wisconsin in Aug. 1905 with $1,000,000 capital stock, John A. McCormick being an incorporator.)

—Goulding Marr, the well-known banker and broker of Nashville, Tenn., will shortly occupy his handsome new bank building, which has been constructed entirely for his own use. It is of white limestone, with massive stone columns. The banking room proper is particularly striking; it is wainscoted 10 feet high with Georgia white marble, with a base of Irish green marble. The ceiling is 25 feet high and has two stained glass domes. The decorations are in green and gold. Solid mahogany is used throughout for fixtures and furnishings. Altogether it constitutes one of the most attractive private banking establishments in the South.

—Redmond & Co. are offering a number of standard railway obligations to net 5¼% to more than 6½%. Included in the list are New York Central, Michigan Central, Lake Shore, Louisville & Nashville, Atlantic Coast Line, Pennsylvania RR., Missouri Pacific and Southern Railway 5% gold notes; also Rock Island 4½% notes and Portland Railway Lighting & Power 5% secured notes.

—The Guaranty Trust Co. of New York have issued a circular presenting considerations to show that railroad equipment bonds possess security equal or superior to that of first mortgage bonds, combined with a net return considerably higher than such bonds yield, thus affording a most desirable class of railroad obligation for investment. The circular will be mailed on request.

—Coffin & Company, the New York bond house, 34 Pine Street, announce that Walter S. Place has been admitted to full membership in the firm. Mr. Place has been associated with the firm for the past seven years and will continue in charge of the Boston office at 35 Congress Street. The Philadelphia office is located at 421 Chesnut Street.

—Announcement of the death of George S. Stillman on the 15th inst has been made by the banking firm of Rosen, Stillman & Co. of this city, in which he was a partner. Mr. Stillman was twenty-eight years of age. His death was due to meningitis, which developed from typhoid fever.

—Henry Talmadge, founder of the banking firm of Henry Talmadge & Co. of this city, died on the 19th inst. He was Vice-President of the Cossitt Land Company, a trustee of the Central Trust Company, and a director of the Mechanics' National Bank. He was eighty-two years of age.

—Howard A. Haven, formerly of the Stock Exchange firm of Haven & Stout, which later became Haven & Clement, died on the 16th inst. Mr. Haven withdrew from the firm some time ago, the business being continued under the name of Clement & Smith.

—The banking and brokerage house of Steiner Brothers, Birmingham Ala., has opened a New York office at No. 11 Wall Street, under the firm name of B. & S. Steiner. They will deal largely in high-grade Southern securities.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, March 22 1907.

If any reaction in trade has set in, it has been very moderate, business as a rule still being active, with prices well sustained and a feeling of confidence universal. In not a few lines trade and manufactures have increased, notwithstanding the recent occurrences in Wall Street. The iron and steel trade has been so active that premiums are being paid for prompt deliveries. The textile production is enormous.

LARD on the spot has declined, owing to the break in future prices at the West. Trade has been at a standstill and supplies are increasing. The receipts of hogs for the week have been considerably larger than for the same week last year and liberal receipts are expected to continue. City 8.80c. and Western 8.90@9c. Refined lard has been dull and weak. Refined Continent 9.50c., South America 10.50c. and Brazil in kegs 11.50c. The market for lard futures at the West has declined, owing to the larger movement of live hogs, heavy liquidation, selling on stop orders, the dulness of the spot trade and a lack of support. Packers have been selling of late.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri
May delivery	9.00	9.05	8.72½	8.82½	8.67½	8.72½
July delivery	9.07½	9.15	9.00	8.92½	8.77½	8.80
September delivery	9.15	9.25	9.12½	9.00	8.85	8.92½

PORK on the spot has been easier, owing to the weakness in lard and the future market at the West. The spot demand has shown some increase of late. Mess $17 75@$18 50, clear $17 75@$19 50 and family $19 50@$20. Cut meats have been dull and irregular. Pickled shoulders 10c., pickled hams 12@12½c. and pickled bellies, 14@10 lbs., 10½@10¾c. Tallow has been steady with demand and offerings light; City 6¾c. Stearines have been dull and easier; oleo 9½@10c. and lard 10¼@10½c. Butter firm with a fair demand. Creamery extras 30½@31c. Cheese moderately active and steady. State factory, fancy, 15c. Eggs advanced on speculative buying. Western firsts 18¼c.

OIL.—Cottonseed has been dull and easier. Prime summer yellow 47@47½c. and prime winter yellow 51@52c. Linseed has been firm with an increased demand, due to favorable weather of late. City, raw, American seed, 42@43c.; boiled 43@44c.; Calcutta, raw, 70c. Lard has been easier, owing to the decline in the raw material. Some increase in the demand is reported. Prime 77@79c., No. 1 extra 58@60c. Olive has been quiet and steady; yellow 75@80c.; green 70@78c. Cocoanut has been quiet but firm, owing to the smallness of available supplies; Cochin 10¾c., Ceylon 10c. Peanut has been quiet and steady; yellow 50@60c. Cod has been strong, with an increased demand; domestic 38@40c., Newfoundland 40@42c.

COFFEE on the spot has been easier, owing to the dulness of trade and a sagging market for futures. Rio No. 7, 7@7⅛c.; Santos No. 4, 8¼c. West India growths have been in moderate demand and firm; fair to good Cucuta 8½@9½c. The market for future contracts has been quiet, with narrow fluctuations in prices. On the whole the tone has been easier, owing to large receipts at Rio and Santos, scattered liquidation by tired holders and selling against firm offers from Brazil. Wall Street interests have sold to some extent. Chief support has come from covering by shorts.

The closing prices were as follows:

March	6.00c.	July	5.80c.	November	5.80c.
April	6.05c.	August	5.80c.	December	5.80c.
May	6.05c.	September	5.80c.	January	5.85c.
June	5.85c.	October	5.80c.	February	5.90c.

SUGAR.—Raw has been quiet and steady. Centrifugal, 96-degrees test, 3½c., muscovado, 89-degrees test, 3c., and molasses, 89-degrees test, 2¾c. Refined has been steady; a moderate business has been done on withdrawals, but new orders have been small. Granulated 4.60c. Teas have been in moderate jobbing demand and firm. Spices have been firm and fairly active. Hops have been quiet and steady.

PETROLEUM has been active and strong with barrels and cases higher. A large export business has been reported of late. Refined, barrels, 8.20c., bulk 4.75c. and cases 10.65c. Naphtha has been fairly active and steady; 73@76 degrees 13c. in 100-gallon drums. Gasoline has been active and firm; 86 degrees 21c. in 100-gallon drums. Spirits of turpentine has been moderately active and firm at 78c. Rosin has been in fair demand and firm; common to good strained $4 45@$4 50.

TOBACCO.—There has been no noteworthy developments in the general situation. The demand for domestic leaf has been fairly active with prices firm. Interest continues to centre largely in the Amsterdam inscriptions. At the first inscription Sumatras were of inferior quality; at the second the quality was better and the prices paid higher than at the first inscription, when unusually high quotations were paid. Some American buyers have withdrawn on account of high prices.

COPPER has been quiet and easier; lake 25½@25⅝c.; electrolytic 25⅛@25¼c. Lead has been quiet and easy at 6¼c. Spelter has been in moderate demand and steady at 6.85@6.90c. Tin has been quiet and easier; Straits 41c. Iron has been more active and firm; No. 1 Northern $23 20@$25 20; No. 2 Southern $22 75@$24.50.

COTTON.

Friday Night, March 22 1907.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 159,389 bales, against 169,294 bales last week and 171,823 bales the previous week, making the total receipts since the 1st of September 1906, 8,674,771 bales, against 6,545,708 bales for the same period of 1905-06, showing an increase since Sept. 1 1906 of 2,129,063 bales.

Speculation in cotton for future delivery has been somewhat more active at irregular prices, closing lower, however, for the week. Militating against an advance have been the continued enormous receipts and bearish weekly statistics, to say nothing of the fact that although professional trading has increased somewhat, the outside public for the most part has continued to hold aloof. Then, too, a further decline at the Stock Exchange has not been without its effect and for a time the Liverpool market gave very plain evidences of liquidation, attributed partly to Egyptian operators. Liquidation has also at times been very noticeable here, many who had been inclined to favor the long side parting with their holdings because of the continued large receipts, especially at the Southwest, where the predictions of an early falling off in the movement have been so plainly belied by the event as to cause a good deal of discouragement among recent buyers. But the ginners' report of March 20, giving the quantity ginned up to March 10 at 13,290,677 bales, against 10,725,602 bales for the same time last season and 13,697,310 for a like period two years ago, though regarded by not a few as a bearish exhibit, was powerless to prevent a rally in prices, as the market had evidently become, in a speculative sense, somewhat oversold. A further advance came on Thursday, when it was seen that Liverpool, so far from regarding the Census Report as bearish, really concurred with not a few here who deemed it a bullish document. Moreover, the spot markets have continued firm, the dry goods reports have been in the main very favorable, and the financial situation was regarded by many in the cotton trade as more promising. Receipts continue large, but it is believed that in the near future considerations as to the present crop will be displaced as a market factor by weather news and the prospects for the next yield. Many of the bulls here think the present yield is not over 13,000,000 to 13,250,000 bales, while their opponents in many cases put it at 13,750,000 to 14,000,000 bales, a wide diversity of opinion which may of itself in some degree account for the narrowness of the speculation. As regards the next yield, the impression is very general that there will be an increase in the acreage, especially west of the Mississippi River. Developments will be watched very carefully, however. To-day large receipts, disappointing Liverpool advices and liquidation caused a decline. Spot cotton has been dull and easy, closing at 11.10c. for middling, a decline within a week of 15 points.

The rates on and off middling, as established Nov. 21 1906 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

Fair ..... c. 2.00 on	Strict low mid .. c. 0.14 off	Middling tinged .c. 0.12 off
Strict mid. fair ... 1.75 on	Fully low mid .... 0.32 off	Strict low mid. ting 0.46 off
Middling fair ..... 1.50 on	Low middling .... 0.50 off	Low mid. tinged .. 0.90 off
Barely mid. fair .. 1.25 on	Barely low mid ... 0.70 off	Strict g'd ord. ting 1.25 off
Strict good mid ... 1.00 on	Strict good ord ... 0.90 off	Fully mid. stained 0.42 off
Fully good mid ... 0.88 on	Fully good ord ... 1.07 off	Middling stained .. 0.50 off
Good middling .... 0.76 on	Good ordinary .... 1.25 off	Barely mid. stained 0.78 off
Barely good mid .. 0.57 on	Strict g'd mid. tgd. 0.30 on	Strict low m. stain. 1.50 off
Strict middling ... 0.38 on	Good mid. tinged .. Even	Fully l. m. stained 1.75 off
Middling ..... Basis	Strict mid. tinged . 0.06 off	Low mid. stained .. 2.00 off

On this basis the official prices for a few of the grades for the past week would be as follows:

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

March 22.	1907.	1906.	1905.	1904.
Stock at Liverpool ------bales	1,216,000	1,123,000	843,000	575,000
Stock at London ----------	9,000	10,000	12,000	12,000
Stock at Manchester -------	76,000	66,000	50,000	63,000
Total Great Britain stock-----	1,301,000	1,199,000	905,000	650,000
Stock at Hamburg----------	11,000	11,000	9,000	8,000

Total, 33 towns	115,616	6,678,001	132,380	512,820	66,912	4,946,615	101,950	543,270

The above totals show that the interior stocks have *decreased* during the week 16,764 bales, and are to-night 30,450 bales less than at the same period last year. The receipts at all the towns have been 48,704 bales more than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

	1906-07		1905-06	
March 22—	*Week.*	*Since Sept. 1.*	*Week.*	*Since Sept. 1.*
Shipped—				
Via St. Louis----------	16,072	641,634	15,395	389 963
Via Cairo ----------	3,775	189,206	3,306	171,619
Via Rock Island ----------	2,960	63,161	776	38,816
Via Louisville ----------	1,984	66,628	1,531	75,876
Via Cincinnati----------	1,734	44,658	2,132	46,422
Via other routes, &c----------	16,769	352,363	2,073	202,466
Total gross overland----------	43,294	1,357,650	25,213	924,745
Deduct shipments—				
Overland to N. Y., Boston, &c---	7,276	133,337	2,472	118,150
Between interior towns----------	2,946	58,167	349	16,362
Inland, &c., from South--------	1,915	42,057	1,153	31,503
Total to be deducted----------	12,137	233,561	3,974	166,015
Leaving total net overland-*a*------	31,157	1,124,089	21,239	758,730

a Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 31,157 bales, against 21,239 bales for the week last year, and that for the season to date the aggregate net overland exhibits an increase from a year ago of 365,359 bales.

	1906-07		1905-06

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic reports from the South this evening denote that the conditions have been quite favorable during the week. In most sections comparatively high temperature has prevailed and rainfall has been light, with dry weather prevailing in Texas. As a result, on the whole, crop preparations have progressed well.

Galveston, Texas.—There has been no rain the past week. The thermometer has averaged 69, ranging from 60 to 78.

Palestine, Texas.—There has been no rain during the week. The thermometer has ranged from 46 to 86, averaging 66.

Corpus Christi, Texas.—Dry all the week. Average thermometer 69, highest 80, lowest 58.

Fort Worth, Texas.—We have had no rain during the week. The thermometer has averaged 77, the highest being 86 and the lowest 64.

Abilene, Texas.—There has been no rain this week. The thermometer has averaged 70, ranging from 46 to 94.

San Antonio, Texas.—No rain the past week. The thermometer has ranged from 46 to 90, averaging 68.

Taylor, Texas.—Dry all the week. Average thermometer 66, highest 90 and lowest 46.

New Orleans, Louisiana.—We have had no rain during the week. The thermometer has averaged 74.

Shreveport, Louisiana.—There has been no rain the past week. The thermometer has averaged 62, ranging from 38 to 86.

Leland, Mississippi.—It has rained during the week, the rainfall reaching twenty-six hundredths of an inch. Average thermometer 61.3.

Vicksburg, Mississippi.—It has been dry all the week. The thermometer has averaged 70, the highest being 85 and the lowest 45.

Helena, Arkansas.—The weather has been dry, warm and fine for farming operations during the week. Some land is yet overflowed outside the levee; in fact, the river is rising. The thermometer has averaged 65.8, ranging from 40 to 86.

Little Rock, Arkansas.—The weather the past week has been exceedingly favorable for farm work which is progressing rapidly. Prospects are for an exceptionally early planting. There has been no rain during the week. The thermometer has ranged from 42 to 88, averaging 65.

Memphis, Tennessee.—Dry all the week. With fine weather plowing is progressing actively. Average thermometer 66.4, highest 84.4, lowest 38.

Mobile, Alabama.—Clear weather in the interior with temperature high. Farm work is active and there is a large demand for fertilizers. Cotton planting has begun in some sections. There has been rain on one day the past week, to the extent of one inch and twenty-two hundredths. The thermometer has averaged 67, ranging from 51 to 82.

Montgomery, Alabama.—Unusually hot to-day. Farmers are progressing finely with work. There has been rain on one day during the week, the rainfall being fifteen hundredths of an inch. The thermometer has ranged from 45 to 90, averaging 67.

Selma, Alabama.—Planting has commenced, and farmers are well advanced with their work. There has been no rain during the week. Average thermometer 68, highest 87 and lowest 57.

Madison, Florida.—Dry all the week. The thermometer has averaged 60, the highest being 88 and the lowest 46.

Augusta, Georgia.—Planting starts next week. Warmer weather now prevailing over the State induces rushing of work. The week's rainfall has been thirteen hundredths of an inch on one day. The thermometer has averaged 65, ranging from 42 to 91.

Savannah, Georgia.—There has been rain on one day during the week to the extent of thirteen hundredths of an inch. The thermometer has ranged from 47 to 90, averaging 66.

Charleston, South Carolina.—The week's rainfall has been forty-six hundredths of an inch on one day. Average thermometer 64, highest 90 and lowest 46.

Greenwood, South Carolina.—Rain has fallen on two days of the week, the precipitation being one inch and fifty-one hundredths. The thermometer has averaged 61, the highest being 72 and the lowest 50.

Stateburg, South Carolina.—There has been a thunderstorm on one night of the week, with heavy rain and a barely appreciable precipitation on one other night. The thermometer has averaged 66, ranging from 41 to 90.

Charlotte, North Carolina.—There has been rain on one day during the week to the extent of one hundredth of an inch. The thermometer has ranged from 39 to 82, averaging 60.

The following statement we have also received by telegraph, showing the height of rivers at the ports named at 8 a. m. of the dates given:

CENSUS BUREAU'S REPORT ON COTTON-GINNING.—The Division of Manufactures in the Census Bureau completed and issued on March 20 the final report on cotton-ginning the present season as follows:

The following is a summary of the final report on cotton-ginning for this season, showing the total cotton production of 1906, accompanied by comparative statistics for 1905 and 1904.

The total crop reported from ginning establishments and cotton-seed oil mills is summarized as follows:

	Crop of— 1906. *Bales.*	1905. *Bales.*	1904. *Bales.*
Total crop, counting round as half and including linters	13,290,677	10,725,602	13,697,310
Equivalent 500-lb. bales (incl. linters)	13,576,225	10,777,510	13,679,954
Distribution—			
Square (upland) reported rom ginn's	12,778,837	10,214,059	13,198,944
Round (upland) reported from ginn's	266,795	279,836	296,151
Sea Island reported from ginneries	57,352	112,539	104,317
Linters reported from cotton oil mills	321,160	230,497	245,973

The cotton crops grown in 1906, 1905, 1904 and 1903, expressed in running bales, and the average weight of bale for the crop of 1906 by States are given as follows:

State or Territory.	*Running bales, counting round as half and including linters.* 1906.	1905.	1904.	1903.	*Aver. Gross Wt.** 1906.
United States	13,290,677	10,725,602	13,697,310	10,015,721	510.7
Alabama	1,264,572	1,249,685	1,471,170	1,000,735	506.8
Arkansas	913,947	615,337	916,945	733,859	530.0
Florida	62,832	80,180	89,002	95,317	454.7
Georgia	1,663,456	1,759,083	1,992,757	1,327,596	487.8
Kentucky	3,424	2,578	2,614	644	547.8
Kansas	------	15	14	75	----
Louisiana	978,424	523,871	1,107,271	836,334	516.7
Indian Territory	404,905	347,518	469,519	274,052	516.7
Mississippi	1,534,262	1,198,568	1,808,617	1,441,718	515.6
Missouri	53,790	41,612	50,766	37,904	524.9
North Carolina	624,423	664,923	758,846	563,694	474.4
Oklahoma	474,871	328,044	342,033	190,360	511.9
South Carolina	928,643	1,129,426	1,208,180	829,777	480.2
Tennessee	304,383	278,364	329,627	251,016	522.2
Texas	4,063,901	2,490,128	3,132,503	2,454,616	526.4
Virginia	14,629	16,259	17,446	14,024	474.8
New Mexico	148	------	------	------	524.3

*Average gross weight in pounds, counting round as half bales.

Kentucky figures include linters of establishments in Illinois.

Active ginneries reported are 28,702 in 1906, 29,038 for 1905, 30,337 for 1904 and 30,218 for 1903.

In the final canvass, where ginners had not finished ginning, they were requested to prepare careful estimates of the quantity of cotton which remained to be ginned at their establishments. These estimates, amounting to 155,704 running bales, have been included in the totals for 1906.

LIVERPOOL.—By cable from Liverpool we have the following statement of the week's sales, stocks, &c., at that port:

	Mch. 1.	*Mch. 8.*	*Mch. 15.*	*Mch. 22.*
Sales of the week ... bales	53,000	66,000	63,000	52,000
Of which speculators took	1,000	2,000	1,000	1,000
Of which exporters took	1,000	3,000	4,000	2,000
Sales, American	42,000	58,000	56,000	47,000
Actual export	7,000	18,000	6,000	11,000
Forwarded	88,000	102,000	84,000	82,000
Total stock—Estimated	1,089,000	1,128,000	1,207,000	1,216,000
Of which American—Est	995,000	1,024,000	1,101,000	1,098,000
Total import of the week	208,000	159,000	169,000	101,000
Of which American	173,000	125,000	150,000	68,000

BREADSTUFFS.

Friday, March 22 1907.

Prices for wheat flour have shown no quotable change, but of late the undertone of the market has been rather easy, and it is reported that some small transactions have taken place at five to ten cents below market quotations. The general situation has undergone no essential change. Buyers continue to pursue the policy of taking only enough flour to fill immediate requirements. Export trade has been stagnant and the clearances from the seaboard for Europe have continued on a small scale. Corn meal and rye flour have been quiet and steady.

Wheat declined early in the week, partly owing to more favorable weather, denial of the reports of damage to the winter-wheat crop in this country and liquidation, as well as not a little selling for short account. Moreover, the stocks at the Northwest have been rapidly increasing, receipts there being liberal. Foreign markets as a rule have been anything but encouraging for a rise and the stock market at times has exhibited a weakness which has been to some extent reflected in all the commodity markets, wheat by no means excepted. The export demand, too, was light early in the week. Intimations that rather heavy liquidation had taken place in Chicago for account of large operators also played its part in the decline which occurred in the fore part of the week. Within a few days, however, the complexion of the market has somewhat changed. The tone has become firmer by reason of a better export demand and stronger foreign market, due partly to unfavorable crop reports from Hungary, Spain and some other parts of Europe, and reports of damage to the crop in the Southwest by hot weather —90 degrees Fahrenheit at some points—and the ravages of bugs. This has led to quite a little covering of shorts here and not a little new buying for a rise both in New York and Chicago. Some bad crop reports have also been received from Indiana and Ohio, which have not been without their effect. Then, too, the firmness of what are termed coarse grains, such as corn and oats, has been imparted in some degree to the wheat market. The market, however, is what is usually termed a two-sided one. It is worth while to remember that many of the crop reports are distinctly favorable. Even in the Southwest the damage from insects is said to be greatly exaggerated, while reports by three different experts who have been examining the crop conditions are of a decidedly assuring character. Then, again, the flour trade has been poor, and of late it has been asserted that very large quantities of wheat are being held back at country elevators in the Northwest. To-day prices advanced on unfavorable crop reports from the Southwest, where further damage from bugs was reported, a rather bullish crop statement by the "Modern Miller," buying by influential Chicago operators and covering of shorts. Large Argentine shipments and disappointing cables had little effect.

September delivery in elevator	77 7/8	77 3/8	78 1/4	77 1/2	78 1/8	78 3/8

Indian corn futures have advanced, owing mainly to bull manipulation, covering of shorts and light offerings. Here the speculation has been dull, but at Chicago it has been broad and active at times. Bulls have been encouraged to act aggressively by the smallness of contract stocks and arrivals at Chicago. At times there has been no contract corn in the receipts at Chicago. Then, too, farmers will soon be busy with farm work, and it is expected that the crop movement will diminish. The cash demand has been quiet, and in the main and at times leading bulls have taken profits. But the generality of the trade have been more disposed to buy than to sell. To-day the market declined on liquidation, bearish pressure and the dulness of the cash trade. Covering of shorts and supporting orders caused a partial rally before the close.

September delivery in elevator	45 3/4	46 1/8	46 3/4	46 1/2	46 3/8	46 1/4

Oats for future delivery in the Western market have advanced sharply with the trading active and at times excited. Leading operators there have bought and bid the market up and frightened shorts have covered. Commission houses have been good buyers. The crop movement has been light. At times leading bulls have taken profits, but on all setbacks buying has been active and prices have quickly responded. There has been an absence of opposition to the upward movement of prices. The cash demand has been quiet as a rule, though within a day or two a larger business has been transacted at firm quotations. Contract stocks continue relatively small. To-day prices declined on heavy liquidation and selling for a decline, but part of the loss was recovered before the close, on covering of shorts and bull support.

THE DRY GOODS TRADE.

New York, Friday Night, March 22 1907.

Practically all divisions of the dry goods trade have worked into a stronger position this week and prices in many lines are tending higher. The local and out-of-town spot demand, not only for cottons but for woolens, linens, silks and other lines, continues extraordinarily large and the scarcity of merchandise for near-by delivery has become more pronounced. Buyers, however, manifest some conservatism in contracting for future requirements, particularly in fine goods, owing, doubtless, to money stringency and uncertainty as to deliveries; but the present lull is considered healthful. The lessened activity does not extend to mills, which are making energetic efforts to catch up on back orders, or to jobbers, who are enjoying an enormous trade in all seasonable lines. In cotton goods, especially, top prices are uniformly maintained by sellers for near-by delivery. Print cloth mills are sold for months ahead on narrow goods; prices continue firm and for immediate delivery are largely nominal, owing to the scarcity. Wide gray goods, as well as brown sheetings, 4-yard 56x60s, are firmer. Bleached goods are virtually unobtainable in any quantity for early delivery. In hosiery and underwear lines present indications point to the greatest scarcity experienced in years; premiums are freely offered for lace and lisle hosiery for women, while fine men's wear hosiery is also scarce and high. Trade in silk piece goods is the best seen in years; supplies are inadequate, prices have been advanced and are expected to go higher, owing to the increased cost of raw silk. Dress goods lines for fall have been moving satisfactorily, fair recorders having been placed on medium and low grades. Export trade is practically dead.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending March 16 were 6,525 packages, valued at $327,031, their destination being to the points specified in the tables below:

	1907		1906	
New York to March 16—	*Week.*	*Since Jan. 1.*	*Week.*	*Since Jan. 1.*
Great Britain	43	612	20	171
Other European	27	158	10	508
China	2,050	6,191	----	27,134
India	899	3,780	----	3,586
Arabia	1,831	14,202	154	7,267
Africa	386	2,587	13	2,370
West Indies	547	5,512	417	5,362
Mexico	88	482	37	430
Central America	48	3,667	350	3,835
South America	527	10,563	1,150	13,661
Other Countries	79	9,879	67	3,222
Total	6,525	57,633	2,218	67,546

The value of these New York exports since Jan. 1 has been $3,491,799 in 1907, against $3,717,611 in 1906.

Demand continues exceedingly active for bleached goods in all counts and widths and stocks are sold ahead to a greater extent than witnessed in years. The situation in all domestic cottons, in fact, is acute; few goods are available for reasonable deliveries, and even the higher prices recently made on bleached and half-bleached cloth and ginghams, the ¼c. advance on ticketed brown muslins and the shorter discounts on prints have not curtailed buying. Whatever falling off in business has occurred in staple lines has been due to scarcity of goods rather than to any decrease in the demand. Standard grades of linings have been advanced with the price tendency upward; the demand continues remarkably heavy, several well-known lines have been withdrawn and most mills are unable or unwilling to accept additional business, being fully sold ahead for some time. Shirtings have moved freely at higher prices than in any recent season. Tickings, denims, sheetings and other domestics are in urgent request, with little prospect of sellers meeting all requirements. Wash dress goods and printed cottons for spring and summer are being rapidly cleaned up and everything points to a record business this season. Export trade with China is at a standstill, and only moderate business has been done in other quarters.

WOOLEN GOODS.—On fall dress goods prices on high and medium grades, though considerably above last year's, are considered legitimate and orders have been placed freely by jobbers and cutters-up. Medium and heavy-weight cloakings are being shown and are bringing firm prices. In manufacturing quarters interest now centres in Fall lines of dress goods; broadcloths appear to be favored as the leader, although other lines, such as plaids, checks and fine stripe worsteds form a large part of initial orders. Purchases of cheviots, heavy staple worsteds, woolens and manipulated fabrics are about up to last year's volume. Fancy domestic woolens continue in heavier demand than for many seasons past, with light colored goods in increased favor. Spring lines of dress goods are well cleaned up in first hands. In men's wear, re-orders on medium-weight and fancy overcoatings have brought the total yardage about up to last season's. Light-weight lines are practically out and mills are unwilling to accept supplementary orders for spring even at premiums. The outlook for fall favors fancy woolens for first place and heavy duplicate orders have been sent in by manufacturing clothiers. Mills are now preparing elaborate new lines for the spring of 1908 and indications are that all-worsted and all-wool fancy goods will show material advances, owing to the increased cost of production. In the primary market many fall lines of men's wear have been withdrawn.

FOREIGN DRY GOODS.—The linen situation is becoming more acute as the season progresses. The shortage which at first was pronounced in certain lines has extended to practically all lines, and importers are hard pressed for goods to meet orders falling due. Manufacturers are being urged to forward immediately shipments ranging up to next fall. Buyers are constantly being confronted with advances; union goods especially are higher, reflecting the increased cost of cotton yarn. Silks and ribbons are very active and stronger. Burlaps are in greater demand; stocks are exceedingly low and prices have been advanced within the past week, with an upward tendency. Woolens and worsteds continue firm and active.

Importations and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending March 16 1907 and since Jan. 1 1907, and for the corresponding periods of last year, are as follows:

STATE AND CITY DEPARTMENT.

News Items.

California.—*Legislature Adjourns.*—The thirty-seventh session of the California Legislature ended March 12.

Kansas.—*Legislature Adjourns.*—The Legislature of 1907 adjourned March 13.

Missouri.—*Legislature Adjourns.—Special Session.*—The Legislature of this State adjourned March 16. Governor Folk has called an extra session, to convene April 9, for the consideration of excise legislation, the public utilities bill authorizing municipal assemblies to fix schedules of rates for the service rendered by public service corporations police regulations for the cities and the quo warranto bill.

Porto Rico.—*Loan Offering.*—Proposals will be received until 3 p. m. April 3 by J. & W. Seligman & Co. of New York City (fiscal agents of the loan) for $1,000,000 4% gold coupon bonds to be issued under authority of an Act of the Legislative Assembly of Porto Rico, approved March 8 1906. Denomination $1,000. Date Jan. 1 1907. Interest semi-annually at the office of J. & W. Seligman & Co., in New York City. Maturity $50,000 yearly on Jan. 1 from 1908 to 1927 inclusive. Registered bonds of $5,000 each will be issued in exchange for coupon bonds, if desired. The bonds are exempt from all taxes in the Island of Porto Rico. The United States Treasury Department authorizes the statement that it will accept these bonds as security for public deposits on precisely the same conditions as the Philippine bonds; that is, the Department will accept these bonds as security for public deposits, should further deposits be made, and permit them to be sbustituted for Government bonds now held as security for deposits, on condition that the Government bonds thus released be used as security for additional circulation, whenever, in the judgment of the Secretary of the Treasury, it is desirable to stimulate an increase in national bank circulation. The legality of the bonds has been passed upon by the Attorney-General of the United States and by Messrs. Cravath, Henderson & de Gersdorn. Certified check for 2% of the face value of bonds applied for, payable to J. & W. Seligman & Co., is required.

The official notice of this bond offering will be found among the advertisements elsewhere on page xv.

Washington.—*Legislature Adjourns.*—The Legislature of 1907 adjourned March 14.

Bond Proposals and Negotiations this week have been as follows:

Aberdeen School District (P. O. Aberdeen), Brown County, S. D.—*Bond Election.*—An election will be held next month to vote on the question of issuing $40,000 5% funding and school-building bonds.

Adams County (P. O. Decatur), Ind.—*Bond Offering.*—Proposals will be received until 10 a. m., March 26, by J. F. Lachot, County Treasurer, for the following bonds:

$4,880 4½% coupon Root & Preble macadam road extension No. 2 (Root & Preble Township) bonds. Denomination $244.
8,540 4½% coupon Reiter & Buhlman macadam road (Root Township) bonds. Denomination $427.
5,560 4½% coupon French Township extension No 2 macadam road (French Township) bonds. Denomination $278.
6,820 4½% coupon Brushwood College extension No. 2 macadam road (Hartford Township) bonds. Denomination $341.
4,180 4½% coupon Root & Preble macadam road extension No. 1 (Preble and Root Townships) bonds. Denomination $209.

The above bonds will be dated March 15 1907. Interest semi-annually at the First National Bank in Decatur. Maturity one bond of each issue payable each six months from Nov. 15 1907 to May 15 1917 inclusive. Certified check for 3% of the amount bid, drawn on a bank in Adams County and made payable to the Board of Commissioners, is required. Purchaser to pay accrued interest.

Adel, Berrien County, Ga.—*Bond Offering.*—Proposals will be received until 12 m. April 15 by A. D. Wisenant, Treasurer, for $25,000 5% water-works and city-hall-building bonds. Authority Section 16, Laws of 1900. Denomination $500. Date July 1 1907. Interest semi-annual. Maturity July 1 1937. Certified check for $250 is required. Official circular states that there is no controversy threatened or pending and that default has never been made in the payment of principal or interest. Purchaser to furnish blank bonds. Bonded debt, including this issue, $35,000. Assessed valuation for 1906, $525,000; real value, estimated, $650,000.

Allegheny County (P. O. Pittsburgh), Pa.—*Bonds Not Sold.*—No bids were received on March 20 for the $500,000 4% 30-year coupon road-improvement bonds described in V. 84, p. 644.

Allendale, Barnwell County, S. C.—*Bond Offering.*—Proposals will be received until 12 m., April 15, by C. B. Farmer, Town Treasurer, for $10,000 6% coupon school-building bonds. Securities are dated April 1 1907. Interest semi-annually at the Allendale Bank of Allendale. Maturity April 1 1937. Certified check for $100, payable to C. B. Farmer, Town Treasurer, is required. The town has no bonded debt at present. Assessed valuation $250,000.

Altoona School District (P. O. Altoona), Blair County, Pa.—*Bond Sale.*—On March 18 the $120,000 4% 30-year coupon funding bonds described in V. 84, p. 644, were awarded to Denison & Farnsworth of Cleveland and Boston at 100.11—a basis of about 3.994%.

Amarillo, Potter County, Tex.—*Bonds Registered.*—On March 14 $1,900 5% 10-40-year (optional) engine-house-repair bonds dated March 1 1907 were registered by the State Comptroller.

Schroyer, District Treasurer, for $60,000 4% gold coupon school-building and refunding bonds. Denomination $1,000. Date Jan. 15 1907. Interest semi-annually at the Treasurer's office. Maturity $20,000 on Jan. 15 1932, $20,000 on Jan. 15 1933 and $20,000 on Jan. 15 1935. Certified check for 2%, payable to H. A. Schroyer, District Treasurer, is required. Bonds are exempt from taxation.

Larimore, Grand Forks County, N. D.—*Bond Election.*—The City Council has adopted a resolution to submit to a vote of the people the question of issuing water-works bonds. Election will be held April 1.

Lawrence County (P. O. Deadwood), S. D.—*Bonds Authorized.*—The Board of County Commissioners on Jan. 22 adopted a resolution authorizing the issuance of $235,550 5% coupon refunding bonds. Denomination $1,000. Date. Nov. 1 1907. Interest semi-annually at the County Treasurer's office or at the Fourth National Bank of New York City. Maturity Nov. 1 1927, subject to call Nov. 1 1917.

Lawton, Comanche County, Okla.—*Bonds Voted.*—At an election held March 12 it was decided to issue the $260,000 5% 30-year water-works and sewer-system-extension bonds of which mention was made in V. 84, p. 647.

Lee County (P. O. Bishopville), So. Caro.—*Bond Offering.*—Proposals will be received until 12 m. April 2 by R. W. McLendon, Chairman of Court House Commissioners, for $40,000 coupon court-house bonds. Bids to be based on bonds carrying 4½% or 5% interest. Denominations $500 and $1,000. Date Feb. 1 1907. Interest annually at place to be named by purchaser. Bonds are exempt from taxation. Maturity Feb. 1 1937, subject to call after Feb. 1 1922. Bids must include expense of printing and issuing bonds and must be accompanied by a check for 5% of the bonds, payable to R. W. McLendon, Chairman of Court House Commissioners.

Leeds, Benson County, N. D.—*Bond Sale.*—On March 4 the $8,000 3-18-year (serial) coupon water-works bonds described in V. 84, p. 465, were awarded to the Board of University and School Lands of North Dakota at par for 4 per cents.

Livingston School District No. 4 (P. O. Livingston), Park County, Mont.—*Bond Offering.*—Proposals will be received until 8 p. m. April 9 by Frank Beley, Chairman, for $18,000 gold coupon bonds at not exceeding 4½% interest. Authority election held March 2 1907. Denomination $1,000. Date July 1 1907. Interest semi-annually in New York City. Maturity July 1 1927, subject to call after July 1 1917. Certified check for $500, payable to Frank Beley, is required.

Lohrville, Calhoun Co., Ia.—*Bond Offernig.*—Proposals will be received until April 15 by Hugh Baird, City Clerk, for $5,000 5½% gas-light bonds. Authority Section I, Chapter 49, Laws of 1906. Denomination $500. Date May 1 1907. Maturity May 1 1927, $1,000 being subject to call after May 1 1912 and $4,000 after May 1 1917. Certified check for $200 is required. Bonded debt, including this issue, $9,500. Assessed valuation $117,875; real value (estimated), $471,500.

Lorain, Lorain County, Ohio.—*Bonds Authorized.*—On March 4 the City Council authorized the issuance of $4,840 6% side-walk-construction bonds. Denomination $1,000 except one bond for $840. Date January 1 1907. Interest semi-annually at the office of the City Treasurer. Maturity $1,000 each six months from March 15 1908 to March 15 1909 inclusive and $1,840 on Sept. 15 1909.

Los Feliz School District, Los Angeles County, Cal.—*Bond Offering.*—Proposals will be received until 2 p. m. March 25 by the Board of Supervisors for $10,000 5% 1-10-year (serial) bonds.

Los Gatos School District, Santa Clara County, Cal.—*Bond Offering.*—Proposals will be received until 11 a. m. April 1 by F. E. Mitchell, Chairman of the Board of Supervisors (P. O. San Jose), for the $30,000 4½% gold coupon high-school building bonds (mentioned in V. 84, p. 526). Denomination $1,000. Date April 1 1907. Interest semi-annually at County Treasurer's office. Maturity $2,000 yearly on April 1 from 1913 to 1927 inclusive. Accrued interest to be paid by purchaser. Certified check for 5% of the amount of bonds bid for, payable to Henry A. Pfister, ex-officio Clerk of Board of Supervisors, is required.

Lumberton, Robeson County, N. C.—*Bond Sale.*—On March 1 the $20,000 water-works-extension and $5,000 electric-light-extension 20-30-year (optional) gold coupon bonds described in V. 84, p. 408, were awarded to John Nuveen & Co. of Chicago at 100.20 for 5½s.

Madison, Morgan County, Ga.—*Bonds Voted.*—An election held March 15 resulted in favor of a proposition to issue water-works bonds.

Mahoning County (Ohio) Road District No. 1.—*Bonds Not Sold.*—No sale was made on March 20 of the $100,000 4% road-improvement bonds, a description of which was given in V. 84, p. 526.

Mamaroneck, Westchester County, N. Y.—*Bond Offering.*—Proposals will be received until 8:30 p. m., March 25, by Charles W. Buckster, Village Clerk, for $60,000 5% paving bonds at not exceeding 5% interest. Denominations $1,000 and $400. Date April 1 1907. Interest semi-annual. Maturity $2,400 yearly on April 1 from 1912 to 1936 inclusive. Certified check, payable in New York City, for 10% of bonds, is required.

Mamaroneck Union Free School District No. 1 (P. O. Mamaroneck), N. Y.—*Bond Offering.*—Proposals will be received until 8:30 p. m. April 2 by C. M. Bingham, District Clerk, for $41,000 registered school-house-addition bonds at not exceeding 5% interest. Denomination $2,050. Date May 1 1907. Maturity one bond yearly on May 1 from 1911 to 1930 inclusive. Certified check for 5% of bid, drawn on a State or national bank or trust company, is required. These bonds were offered as 4s on Feb. 5 and all bids received on that day were rejected. See V. 84, p. 351.

Manitowoc, Manitowoc County, Wis.—*Water-Works Election.*—The following in regard to the proposed water-works-system is taken from the St. Paul "Pioneer Press":

> Manitowoc, Wis., March 14.—Mayor Henry Stolze won a great victory at the special election, where the question of building a new water-works plant to be owned and operated by the city was carried by a vote of 1,589 to 532. The negative votes favored the purchase of the present plant owned by a private corporation, which offered it to the city at its appraised value of $235,389.

Marlin, Falls County, Tex.—*Bond Offering.*—Proposals will be received until 12 m. April 3 by I. L. Peterson, Mayor, for the $16,000 4% coupon water-works-improvement bonds mentioned in V. 84, p. 408. Denomination $500. Date Feb. 1 1907. Interest semi-annually at the office of the City Treasurer. Maturity Feb. 1 1947, subject to call Feb. 1 1912. Certified check for $200, payable to the "City of Marlin," is required.

Marquette County (P. O. Marquette), Mich.—*Bond Sale.*—This county, it is stated, has awarded $100,000 road-improvement bonds to Farson, Son & Co. of Chicago at 102.28 and accrued interest.

Marshall, Harrison County, Tex.—*Bond Sale.*—On March 14 the $45,000 5% 10-40-year (optional) city-hall bonds described in V. 84, p. 526, were awarded to Spitzer & Co. of Toledo for $46,033 (102.295) and accrued interest—a basis of about 4.71% to the optional date and about 4.87% to full maturity.

Marshall County (P. O. Lewisburg), Tenn.—*Bond Election Proposed.*—There is talk of calling an election to vote on the question of issuing $100,000 road bonds.

Massachusetts.—*Bond Offering.*—Proposals will be received until 12 m. April 3 by Arthur B. Chapin, State Treasurer and Receiver-General, for the following bonds:

$22,000	3½%	gold Medfield insane asylum loan. Maturity April 1 1936.
250,000	3½%	gold abolition of grade crossings loan. Maturity Nov. 1 1936.
65,000	3½%	gold hospital for epileptics loan. Maturity Nov. 1 1936.
126,000	3½%	gold prisons and hospital loan. Maturity Nov. 1 1936.
230,000	3½%	gold armories loan. Maturity March 1 1937.
300,000	3½%	gold Metropolitan sewerage loan. Maturity Jan. 1 1946.
300,000	3½%	gold Metropolitan park loan. Maturity Jan. 1 1947.
300,000	3½%	gold Metropolitan parks, series 2, loan. Maturity Jan. 1 1947.
1,150,000	3½%	gold Charles River Basin loan. Maturity Jan. 1 1947.
360,000	3½%	gold highway loan. Maturity $12,000 yearly on April 1 from 1908 to 1937 inclusive.
180,000	3½%	gold Suffolk County court-house loan. Maturity $6,000 yearly on March 1 from 1908 to 1937 inclusive.

Bids will be received for registered bonds, except $300,000 of the Charles River Basin bonds, which will be coupon if requested. "In case coupon bonds are issued, negotiable interim certificates will be issued pending the printing of the bonds." Certified check on a national bank or trust company doing business in the Commonwealth of Massachusetts or New York City for 2% of the amount bid for, payable to the State Treasurer and Receiver-General, is required. Securities will be delivered $1,283,000 on or before May 1 1907, $1,000,000 on or before July 10 1907 and the remainder on or before Sept. 4 1907.

Medina, Orleans County, N. Y.—*Bond Offering.*—Proposals will be received until 7:30 p. m. March 26 by W. B. Eckert, Village Clerk, for $60,000 sewer bonds, at not exceeding 5% interest. Maturity one-fifth yearly on Aug. 1 from 1908 to 1912 inclusive. Certified check (or cash) for 5% of the amount of bonds bid for, payable to the Village Treasurer, is required. Purchaser will be required to take $40,000 of the bonds within ten days from date of sale, and to take and pay for so much of the remainder of bonds within three months from date of sale from time to time but as may seem necessary in the judgment of the Board of Trustees for the construction of the sewer system.

Memphis School District (P. O. Memphis), Tenn.—*Bond Offering.*—Proposals will be received until 12 m. April 8 by A. B. Hill, Secretary of Board of Education, for $150,000 4% coupon bonds, with the understanding that the purchaser will take an additional $50,000 at the same price if the Board of Education desires to sell such an additional amount. Authority House Bill No. 294, of the Acts of the Legislature, approved Feb. 12 1907. Securities will be dated April 1 1907. Interest semi-annually in Memphis. Maturity April 1 1947. Certified check on a Memphis Bank for $3,000, payable to A. B. Hill, Secretary of Board of Education, is required.

Milledgeville, Baldwin County, Ga.—*Bonds Defeated.*—The election held March 12 resulted in the defeat of the proposition to issue $50,000 5% 30-year paving and city-hall bonds.

Milwaukee, Milwaukee County, Wis.—*Bond Sale.*—On March 20 the $100,000 west sewerage, $50,000 south sewerage, $110,000 permanent street-improvement and $10,000 public bath 4% coupon bonds were awarded to the Citizens' Trust Co. of Milwaukee for $271,150 (100.125) and accrued interest—a basis of about 3.95%. A bid of $270,270 was also received from S. A. Kean of Chicago. Authority Chapters 40b and 41 of the Wisconsin Statutes of 1898. Denomination $1,000 and $500. Date Jan. 1 1907. Interest semi-annually at the office of the City Treasurer or at the Morton Trust Co. in New York City. Maturity one-twentieth of each issue yearly.

Monroe County (P. O. Bloomington), Ind.—*Bond Sale.*—On March 20 the $51,000 3½% 14½-year (average) coupon court-house bonds described in V. 84, p. 466, were awarded to Bloomington National Bank of Bloomington at 102.50 and accrued interest—a basis of about 3.283%. Following are the bids:

Bloomington Nat. Bk., Bl.	$55,350 00	E. M. Campbell & Co., Ind.	$54,537 00
J. F. Wild & Co., Ind.	55,007 00	Harris Tr. & Sav. Bk., Chic.	54,307 53
Chas. C. Wedding & Co.	54,940 00	Dick Miller & Co.	54,305 50
J. T. Elliot & Sons, Ind.	54,892 60	R. Kleybolte & Co., Chic.	54,250 00

Montevideo, Chippewa County, Minn.—*Bond Sale.*—The State of Minnesota recently purchased at par $7,000 4% water bonds of this village. Denomination $1,000. Date March 4 1907. Interest annual. Maturity $1,000 yearly on July 1 from 1912 to 1918 inclusive.

Moose Jaw, Sask.—*Debenture Sale.*—On March 11 the three issues of 5% debentures, aggregating $135,865 67, described in V. 84, p. 526, were awarded to Aemilius Jarvis & Co. of Toronto at 98.442 and accrued interest. The bids were as follows:

Aemilius Jarvis & Co., Tor.	$133,750 00	National Trust Co., Ltd.,	
O. Leger, Montreal	134,507 01	Saskatoon	$131,553 00

2,300 5% 20-year "land for water-works" debentures.

Red River County (P. O. Clarksville), Tex.—*Bonds Registered.*—On March 13 the State Comptroller registered $678 5% bridge-repair bonds. Securities are dated Feb. 14 1907. Maturity ten years, subject to call at any time.

Richmond County (P. O. Rockingham), N. C.—*Bond Sale.*—On March 4 the $10,000 30-year coupon Wolf Pit Township road bonds described in V. 84, p. 352, were awarded to MacDonald, McCoy & Co. of Chicago at 101.56 and accrued interest for 5s. This is on a basis of about 4.90%. Date Jan. 1 1907.

Rushsylvania Union School District (P. O. Rushsylvania), Logan County, Ohio.—*Bond Offering.*—Proposals will be received until 1 p. m. April 5 by C. E. Huston, Clerk Board of Education, for $12,000 4% school-building bonds mentioned in V. 84, p. 587. Authority Sections 3991 and 3992 of the Revised Statutes of Ohio. Date April 12 1907. Interest semi-annual. Maturity as follows:

$1,600—one bond of $200 each six months from March 15 1908 to Sept. 15 1911 inclusive.
2,000—one bond of $250 each six months from March 15 1912 to Sept 15 1915 inclusive.
2,400—one bond of $300 each six months from March 15 1916 to Sept. 15 1919 inclusive.
2,800—one bond of $350 each six months from March 15 1920 to Sept. 15 1923 inclusive.
3,200—one bond of $400 each six months from March 15 1924 to Sept. 15 1927

Accrued interest to be paid by purchaser. Certified check for 5% of the amount of bonds bid for, payable to the Treasurer of the Board of Education, is required. Bonded debt this issue. Assessed valuation 1905, $244,840.

Ripley, Lauderdale County, Tenn.—*Bonds Voted.*—On March 14 this city authorized the issuance of $10,000 6% 10-20-year (optional) coupon street-improvement bonds, mentioned in V. 84, p. 528, by a vote of 134 to 53.

St. Joseph, Buchanan County, Mo.—*Bond Election Proposed.*—The question of submitting to a vote of the people a proposition to issue $25,000 bonds for a workhouse and industrial school is being considered.

St. Louis, Mo.—*Bonds Not Sold.*—No bids were received on March 18 for the eight issues of 3.65% gold bonds aggregating $3,000,000 and described in V. 84, p. 352.

St. Mary's, Elk County, Pa.—*Bonds Voted.*—At the election of March 16 it was decided by a vote of 531 to 134 to issue $50,000 sewer-system bonds.

St. Paul, Ramsey County, Minn.—*Bond Sale.*—On March 20 the $100,000 4% 30-year coupon Fort Snelling bridge bonds described in V. 84, p. 587, were awarded to the Harris Trust & Savings Bank of Chicago at 100.675—a basis of about 3.962%.

Sandusky, Erie County, Ohio.—*Bonds Authorized.*—The City Council on March 4 passed an ordinance providing for the issuance of $22,000 4% coupon Monroe Street paving (city's portion) bonds. Denomination $1,000. Date March 1 1907. Interest semi-annual Maturity March 1 1917.

Sarcoxie, Jasper County, Mo.—*Bond Sale.*—On March 18 the $10,000 5% 5-20-year (optional) water-works-system bonds, described in V. 84, p. 468, were awarded to S. A. Kean, of Chicago, at 100.60. Bids of par were also received from the First National Bank of Sarcoxie and from the State Bank of Sarcoxie.

Shelby, Richland County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. April 9 by C. C. Moore, Village Clerk, for $3,500 4% coupon sanitary-sewer bonds. Authority Sections 91, 95, 96 and 97 of the Municipal Code of Ohio. Denomination $700. Interest semi-annually on April 1 and Oct. 1. Maturity $700 yearly on April 1 from 1908 to 1912 inclusive. Accrued interest to be paid by purchaser. Cash or certified check for $300 is required.

Snyder, Kiowa County, Okla.—*Bond Sale.*—This city has sold the $30,000 water-works bonds mentioned in V. 84, p. 588, to R. J. Edwards of Oklahoma.

South Sharon, Mercer County, Pa.—*Bond Election.*—This borough, it is stated, will vote March 25 on the question of issuing bonds for the erection of a municipal lighting plant.

Stevens Point, Portage County, Wis.—*Bond Offering.*—Proposals are being requested for $10,000 4% bonds. Denomination $500. Accrued interest to be paid by purchaser.

Summit, Union County, N. J.—*Bonds to Be Taken by Sinking Fund.*—We are informed that the $6,500 sewer and $11,000 improvement bonds, mention of which was made in V. 84, p. 650, will be taken by the Sinking Fund Commission when issued.

Sweetwater, Monroe County, Tenn.—*Bond Offering.*—Further details are at hand relative to the offering on April 1 of the $30,000 water and $10,000 street 5% gold coupon bonds mentioned in V. 84, p. 650. Proposals will be received until 7 p. m. on that day by S. T. Jones, Mayor. Denomination $500. Date April 1 1907. Interest semi-annually in New York. Maturity April 1 1937. Certified check for $500, payable to the Town of Sweetwater, is required. Assessed valuation 1906, $525,000.

Tecumseh, Johnson County, Neb.—*Bonds Voted.*—The election held March 5 resulted in a vote of 277 to 75 in favor of the proposition to issue $12,750 4½% 10-20-year (optional) electric-light-plant bonds. Date of sale not yet determined.

Tekamah, Burt County, Neb.—*Bond Election.*—An election will be held March 26 to vote on the question of issuing the $10,000 electric-light-plant and $2,500 water-extension bonds mentioned in V. 84, p. 469.

Thorold, Ont.—*Debenture Offering.*—Proposals will be received until 8 p. m. April 1 by D. J. C. Munro, Town Clerk, for $80,000 4% water-works debentures.

BONDS

of the

STATE OF NEW YORK

for

CANAL IMPROVEMENT

EXEMPT FROM TAXATION

Notice is hereby given that pursuant to the provisions of Chapter 147 of the Laws of 1903 and Chapter 302 of the Laws of 1906, sealed proposals will be received at the office of the State Comptroller, in the city of Albany, until Friday APRIL 5, 1907, AT TWELVE O'CLOCK NOON of that day, for the purchase in whole or in part of

Five Million Dollars in Bonds

to be issued by the people of the State of New York, in either registered or coupon form at the option of the purchaser, bearing interest at the rate of three per cent per annum from January 1, 1907, payable semi-annually on the first days of January and July of each year, and the principal payable on the first day of January in the year 1957. Principal and interest payable in gold coin of the United States of America, of the present standard of weight and fineness, at the Bank of the Manhattan Company in the City of New York.

Coupon bonds will be issued in the denomination of One Thousand Dollars and registered bonds in denominations of One Thousand, Five Thousand, Ten Thousand and Fifty Thousand Dollars.

A sinking fund is established by law for the extinguishment of the indebtedness created by the sale of the aforesaid bonds and for the payment of the interest thereon as the same become due.

The bonds are exempt from taxation.

No proposal will be accepted for less than the par value of the bonds nor unless accompanied by a deposit of money or by a certified check or bank draft upon a bank or trust company of the city of Albany or New York, payable to the order of the Comptroller of the State of New York, for at least two per cent of the par value of the bonds bid for.

All proposals, together with the security deposits, must be sealed and endorsed "Loan for Canal Improvement" and inclosed in a sealed envelope directed to the "Comptroller of the State of New York, Albany."

The successful bidder or bidders will be required to pay for the bonds, on the acceptance of the proposal, by deposit in the bank of the Manhattan Company in the City of New York to the credit of "Treasurer of the State of New York on account of the Canal Fund," of the amount of the award, together with premium and accrued interest from January 1, 1907, less the amount of the deposit of such successful bidder or bidders, which will be applied toward the payment for the bonds. All other deposits will be returned by mail to the respective bidders, within three days after the bonds have been awarded, unless different instructions to the Comptroller as to the return of the deposit are duly given.

The Comptroller reserves the right to reject any or all bids which are not in his opinion advantageous to the interests of the State.

MARTIN H. GLYNN,
Comptroller.

Blodget, Merritt & Co,
BANKERS,
16 Congress Street, Boston.
36 NASSAU STREET, NEW YORK.
STATE, CITY & RAILROAD BONDS.

M. Bethcel Co. of Davenport at 102 and interest. Denomination $1,000. Date April 1 1907. Interest semi-annual.

Utica, N. Y.—*Bond Sale Postponed.*—We are informed that the sale of the three issues of 4% registered street bonds aggregating $30,833 74, mentioned in V. 84, p. 590, which was to have taken place on March 15, was postponed until April 19. For description of these bonds see V. 84, p. 530.

Vernon, Conn.—*Bonds Proposed.*—This town seeks authority from the State Legislature to issue bonds.

Vernon Centre, Blue Earth County, Minn.—*Bonds Voted.*—On March 12 this village authorized the issuance of $5,000 water-works bonds by a vote of 61 to 27.

Viborg, Turner County, S. D.—*Bonds Voted.*—An election held recently resulted in favor of the proposition to issue bonds for a water-works system.

Vicksburg, Warren County, Miss.—*Bonds Authorized.*—The Mayor and Board of Aldermen of this city have given notice of their purpose to issue $250,000 sewerage bonds.

Virden School District No. 144 (P. O. Virden), Man.—*Debenture Sale.*—This district has awarded the $5,000 5% debentures described in V. 84, p. 292, to Geo. A. Stimson & Co. of Toronto at a premium.

Walla Walla, Wash.—*Bond Election.*—The following regarding the $100,000 5% 20-year gold city-hall and fire-station bonds, bids for which were rejected on March 12 (V. 84, p. 650), is taken from the Seattle "Post-Intelligencer":

Walla Walla, March 12.—The City Council decided to-night to issue a call for a special election to decide on the question of a bond issue of $100,000 for a new city hall and fire station. It is probable that the proposition to issue $50,000 of funding bonds will also be submitted to voters. After seven bids on city hall bonds had been opened, it was discovered that the city could not legally issue them without a special election. The highest bid submitted was by M. A. Anderson of Cleveland, O., for $105,500 on the $100,000 issue, which was advertised for a month since. All were rejected.

Warren County (P. O. McMinnville), Tenn.—*Bonds Proposed.*—A bill will be introduced in the State Legislature providing for the issuance of pike-road bonds.

Warrenton, Warren County, N. C.—*Bonds Voted.*—An election held March 10 resulted unanimously in favor of a proposition to issue bonds for a municipal building.

Warrenton, Fauquier County, Va.—*Bond Sale.*—On March 7 the $25,000 5% 20-30-year (optional) coupon reservoir bonds, described in V. 84, p. 469, were awarded to W. H. Gaines & Co., of Ullman, at par.

Washington C. H., Fayette County, Ohio.—*Bonds Proposed.*—The City Council is considering an ordinance providing for the issuance of $9,000 street-improvement and $6,000 sewer bonds.

Wellsboro, Tioga County, Pa.—*Bonds Voted.*—On March 12 this town authorized the issuance of $15,000 street-improvement bonds by a vote of 295 to 63.

West Palm Beach, Dade County, Fla.—*Bond Sale.*—On March 19 the $7,500 5% 10-30-year (optional) gold coupon street-improvement and sewer-extension bonds, offered without success on Feb. 5 (V. 84, p. 512), were awarded to the Dade County State Bank of West Palm Beach at par.

West Springfield, Mass.—*Bond Sale.*—This town has awarded $25,000 bridge bonds to Merrill, Oldham & Co. of Boston.

Wrightsville, Johnson County, Ga.—*Bonds Not Yet Sold.*—No disposition has yet been made of the $25,000 5% coupon water-works bonds offered without success on Jan. 2. See V. 83, p. 1552, for description of these securities.

York Township School District (P. O. Toronto), Ont.—*Debenture Sale.*—On March 18 $17,000 4½% school debentures were awarded to Geo. A. Stimson & Co. of Toronto at 100.36 and accrued interest.

Youngstown, Mahoning County, Ohio.—*Bond Sale.*—On March 18 the following bids were received for the $6,380 5% Glenwood Avenue grading and the $58,000 5% West Federal Street paving bonds described in V. 84, p. 471:

	$6,380 Glenwood Av. Grading Bonds.	$58,000 Federal St., Paving Bonds
Hayden, Miller & Co., Cleveland	a$6,549 00	$60,831 00

$1,000,000

CITY OF CHARLESTON, S. C.,

4% 30-Year Bonds

The City of Charleston proposes to offer One Million Dollars ($1,000,000) of 30-year bonds, with interest at 4 per cent, payable semi-annually, on the 1st of July and January, under the authority of an Act of the General Assembly, entitled, "An Act to authorize the City Council of Charleston, S. C., to issue Coupon Bonds at a rate of interest not exceeding 4 per cent per annum, for the purpose of taking up or exchanging the 4 per cent coupon bonds of said city, maturing on January 1 and July 1, 1909," approved on the 13th day of February, 1907.

And of an Ordinance of the City of Charleston entitled, "An Ordinance to provide for issuing Coupon Bonds with interest at the rate of 4 per cent per annum for the purpose of taking up or exchanging the 4 per cent Coupon Bonds maturing on January 1 and July 1, 1909," ratified on the 12th day of March, 1907; "in exchange for One Million Dollars ($1,000,000) of the aforesaid 4 per cent City of Charleston 4 Per Cent Coupon Bonds, maturing January 1 or July 1, 1909, with all coupons on the said bonds falling due subsequent to July 1, 1907, and for this purpose invites the following:

Sealed bids will be received by the City Treasurer on or before 12 o'clock on WEDNESDAY, MAY 15, 1907.

FIRST.—For the purchase of all or any portion of an issue of $1,000,000 of the aforesaid 30-year 4 Per Cent Bonds; the principal payable in 4 Per Cent Coupon Bonds of the City of Charleston, maturing January or July, 1909, with all Coupons thereon falling due subsequent to July 1, 1907; and any premium bid payable in cash; settlements to be made on July 1, 1907.

SECOND.—For the purchase of all or any portion of an issue of $1,000,000 of the aforesaid 30-year 4 Per Cent Bonds, payable in cash; said bonds, however, to be issued upon cancellation of similar amounts of the 4 Per Cent Coupon Bonds of the City of Charleston, falling due January 1 or July 1, 1909, which may be held by the City of Charleston, or purchased under the terms of the bid next hereafter called for.

THIRD.—For the sale of portion of the present issue of 4 Per Cent Coupon Bonds of the City of Charleston maturing July 1 or January 1, 1909, not exceeding $1,000,000, with all Coupons thereto attached falling due after July 1, 1907, payable in cash on the first day of July, 1907.

In the event of over-subscription at acceptable figures in any of the above cases a proportionate allotment will be made.

Each successful bidder will be required to deposit with City Treasurer within 24 hours a satisfactory Surety Bond or a certified check for 5 per cent of the amount of bid awarded to him as security for his compliance with the terms of the bid; and in the event of non-compliance, sealed bids to be called for at a period not less than 15 days for the amount defaulted on, and any loss to the city by reason of the re-sale to be deducted out of the deposit or to be paid by the makers or sureties on the bonds of bidders.

In the event of any bidder not depositing a certified check or a bond within 24 hours, the city to have the right either of canceling the said bid and of accepting that of another bidder, or of holding the bidder liable thereon.

The city further reserves the right to reject any or all bids made.

These Bonds are exempt from State, County and City Taxes, and in the hands of banks in Charleston exempt their shareholders from all taxes to the extent of the holding as is now the case with 4½ per cent Brown State Bonds.

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, &c., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day have been $3,139,463,836, against $3,258,631,766 last week and $2,654,650,918 the corresponding week last year.

Clearings—Returns by Telegraph. Week ending March 30.	1907.	1906.	*Per Cent.*
New York	$1,708,139,560	$1,370,329,190	+24.7
Boston	145,240,812	115,290,598	+26.0
Philadelphia	102,004,239	120,289,081	—15.2
Baltimore	18,021,963	19,347,623	—6.9
Chicago	190,669,953	158,601,917	+20.2
St. Louis	49,379,939	43,883,673	+12.5
New Orleans	15,900,166	14,672,884	+8.4
Seven cities, 5 days	$2,229,356,632	$1,842,405,966	+21.0
Other cities, 5 days	405,000,711	325,907,418	+24.3
Total all cities, 5 days	$2,634,357,343	$2,168,313,384	+21.5
All cities, 1 day	505,106,493	486,337,534	+3.9
Total all cities for week	$3,139,463,836	$2,654,650,918	+18.3

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, March 23, and the results for the corresponding week in 1906, 1905 and 1904 are also given. Contrasted with the week of 1906 the total for the whole country shows a gain of 22.5%. Outside of New York the increase over 1906 is 18.9%.

Clearings at—	*Week ending March 23.* 1907.	1906.	*Inc. or Dec.*	1905.	1904.

THE FINANCIAL SITUATION.

When a man like Andrew Carnegie joins in the crusade against Wall Street and the railroads, one almost despairs of ever being able to set public opinion right in this regard. Mr. Carnegie is concerned about the doings of what he calls Wall Street gamblers, and in a characteristic speech delivered Thursday night he said it was time for business men to decline to recognize them. We say so, too. Unfortunately, Mr. Carnegie makes the common mistake of confusing Wall Street with the Stock Exchange. He treats the two as if they were synonymous. The fact is, however, the Stock Exchange exists not for the purpose of fostering speculation or encouraging gambling, but to provide a place for legitimate dealings in securities —a market for the investor, either as buyer or seller. Requirements for admission to dealings on the Exchange are, as is well known, of the most rigid character. As a place for dealings in stocks and bonds, the Exchange has become the largest security market in the world.

That there is more or less speculation carried on at that great mart, that there may even be gambling, admits of no question. But who are the people, who mainly use this security market for purpose of speculation or to promote speculative ends? It cannot be truthfully affirmed that it is Wall Street people. The banking and brokerage houses located on Wall Street, or concentrated in the vicinity of the Stock Exchange, are the most conservative to be found anywhere. It would be an exceedingly rare thing to find them engaged in speculation. They are content, too, with very moderate profits, confining themselves, in the main, to doing a legitimate banking business or earning their commissions as buyers and sellers of the things dealt in on the Exchange. When there is speculation, it is carried on by their clients who employ these Wall Street houses simply for the purpose of executing their orders. And who are these clients who indulge in speculation or in stock gambling? Not Eastern men, as a rule, but the business men from the interior and from the remoter parts of the country —the men from the West, the South, the South-West, the North-West. It is there where the speculative spirit is rife. Here in the East sentiment is always more conservative.

About the first thing that a Western business man does when he has accumulated a little money or made some profits from his business is to take "a flyer" in the stock market. At times of great activity on the Stock Exchange the transactions consist very largely of orders given by Pittsburgh millionaires, some of them former associates of Mr. Carnegie, by Chicago "plungers," and by other people of the same class; and they usually deal on an enormous scale. It is these persons that are in the main responsible for whatever of ill character is connected with the business of the Stock Exchange. Obviously, therefore, in that sense the Stock Exchange does not represent Wall Street nor even New York City, but the concentrated speculative spirit of the whole country. It is time that this fact were recognized and the Stock Exchange no longer treated as a thing apart by itself and as if Wall Street were responsible for it. We agree with Mr. Carnegie in condemning "gambling" and speculation wherever they are found, whether in the security markets or elsewhere; but there should be a clear understanding as to who is indulging in the reprehensible practice.

Mr. Carnegie is also wrong in supposing that speculators or stock gamblers are responsible for the great shrinkage in prices which has recently occurred on the Stock Exchange. We know that Mr. Carnegie's views are shared in by large numbers of intelligent people not familiar with the nature of the dealings on the Exchange, but these views are nevertheless wrong. While there is nothing to prevent short selling on the Exchange, those selling short must of course furnish the stock for delivery. They may succeed in borrowing it for a time, but eventually they must buy an amount of stock equal to that which they have sold in order to close up the transaction. This second operation is called "covering," and the stock to cover can only be obtained—where the deals are large, as they have been in recent periods—when there is extensive liquidation. The fact that operators for a decline have been able to cover their short sales and that prices have nevertheless continued to decline is clear proof that holders of stock have been selling out. As a matter of fact, those acquainted with the course of things know that the selling has been on a huge scale. There has in truth been nothing but selling, the buying orders, except to cover the short sales, being very meagre. This is due to the circumstance that confidence in the stability of railroad investments has almost completely vanished. Mr. Carnegie thinks this lack of confidence is the work of Wall Street interests, declares that President Roosevelt's railroad policy is just right, and dilates upon the advantages of early poverty. What he says on this latter point—what a benefit it is to the youth to be in close touch with his parents, a condition that poverty induces, the father being his guide, philosopher and friend, the mother "his nurse, his teacher, his cook, his seamstress, his angel, his saint"—is altogether correct. But when he goes into an analysis of the railroad situation and Stock Exchange affairs, we could wish that some of that shrewdness characteristic of his business career, dominated his utterances.

There are quite enough causes to explain the decline in security values without referring it to stock gambling or Wall Street scheming. For over a year the railroads have been unable to borrow money freely to supply their capital needs, and latterly they have not not been able to borrow at all except on onerous terms. The price of everything they need in their operations —labor, fuel, materials, and supplies—has gone up, and yet they are not allowed to recoup themselves by raising rates. When a manufacturer finds the cost of labor and the materials needed by him rising he obtains compensation by advancing the price of his goods. Indeed, if he did not he would have to sell at a loss, and that would mean bankruptcy. But the railroads are notified in advance that they are not to be allowed to adopt a course of that kind. What this is leading to is shown in a conspicuous way in the February statement of earnings of the Atchison Topeka & Santa Fe Railway, made public the present week. That return shows that while gross earnings, as compared with the same month last year, increased $640,356 (nearly 10%), this was attended by an augmentation in expenses of no less than $937,412 (over 23%), producing an actual loss in net for the month of

$297,055. The severity of the winter could not have been much of an influence in swelling expenses in this case, as the greater part of the Atchison mileage lies far to the south. Vice-President Jansen, we see, is quoted in a Chicago despatch as saying that the expenses include charges for improvements and betterments. It appears, nevertheless, that of the $937,412 augmentation in expenses for the month, only $290,000 can be ascribed to that cause. We may say, too, that the Atchison's unfavorable return is only one among many instances of the same kind. Then it must not be forgotten that last year Congress enacted the Hepburn Rate Bill, placing the affairs of the railroads almost completely in the hands of the Inter-State Commerce Commission. The spirit of hostility embodied in that measure has since found further expression in the attempts of most of the State Legislatures to emulate the example of the national legislative body. Two-cent fare bills galore are marking the path of legislative achievement and every effort is being made to add to their taxes and to impose new burdens and restrictions upon them. In this State a new railroad board is to be created and the papers are discussing whether there is to be allowed a broad court review of its orders and acts, or only a limited court review.

Mr. Carnegie with a well-earned show of pride points out that he sold the Carnegie Steel Company for $460,000,000, but if he had it to-day he would sell it for not less than $640,000,000. This statement simply means that through improvement the great steel property referred to has increased in value in a few years $180,000,000 and that if Mr. Carnegie still owned it he would undertake to get the benefit of the increase. Here again we see the difference between the treatment of the railroads and the treatment accorded to all other classes of property. In a manner similar to that pursued with the steel property our railroads have been developed and improved. Are their owners now allowed to get the benefit of the resulting increment in value? No. Instead, our Government authorities are devising schemes for determining on a comprehensive scale whether in some remote period in the past there may not have been some water injected into their capitalization. The simple truth is, the railroads are treated as an outcast among the industrial agencies of the day. Other businesses are aided and encouraged. Mr. Carnegie, for instance, in his business has been greatly helped by a high protective tariff. But every hand is raised against the railroads. That explains the great decline on the Stock Exchange and the complete loss of confidence in security values. There will be no enduring recovery—there can be none—until this fact is recognized and the railroads are again treated with the same degree of justice as other industries.

Our new Secretary of the Treasury failed to relieve the monetary situation as speedily as was anticipated by an impatient and suffering public; consequently there was an inclination among some to criticize the delay. It was only reasonable that Mr. Cortelyou should move slowly. He had a new law to deal with, many of the provisions of which were by no means clear, while his duties in the Treasury Department were of a class his previous official experience had not familiarized him with. He was consequently in a measure experimenting. We may assume that he thought the notice granting permission to depositaries indefinitely to retain the $30,000,000 of deposits which were marked to be returned to the Sub-Treasury, would in a measure relieve affairs. Of a like promise was his offer on March 15 to buy $25,000,000 of the 4s of 1907, paying interest to July 1; as the offer was more advantageous to the bondholders than Mr. Shaw's previous similar offer, Mr. Cortelyou was encouraged to anticipate a better response. On the same day the Secretary likewise gave notice that he would allow the substitution for Government bonds held, against special deposits, of any collateral authorized by New York or Massachusetts as security for savings bank deposits; at the same time he also directed that interest due April 1 on registered 2% consols of 1903 and the 4% funded loan of 1907 should be anticipated at once.

None of these devices, however, had any immediate effect on the money or stock market, as the fearful panic of Monday at the New York Stock Exchange bore witness. But the stupendous declines in stock values on that day brought forth the announcement of measures from the Secretary that for the time being arrested the discredit and turned the tide of affairs towards a restoration of confidence. The vital feature of Mr. Cortelyou's new proposal showed that he had studied the irritation, knew its source, and was determined to apply the remedy at the point where it was most needed. In this latter particular he was more happy in his method than Mr. Shaw, who in such cases always acted in some measure on the principle of a counter-irritant; that is to say, when he wanted to relieve a morbid condition in New York he would apply his remedies very likely in San Francisco. For this reason his devices so often failed in the intended effect. New York on this occasion was not only the centre of the panicky condition, but was the location of the chief money movement in and out of the Treasury which was every day increasing the strain — that is, adding to the cash accumulation in the Sub-Treasury at the expense of the cash holdings of the Clearing House institutions. Moreover, with the first of April the public knew that a special supply of funds was called for at this centre to meet the large interest payments due then and which were sure to work mischief in the depleted state of our bank reserves if aid was not extended.

Mr. Cortelyou consequently ordered on Tuesday the turning of the customs dues paid at New York day by day into the Sub-Treasury back again into the New York City banks in the amount of $15,000,000. In addition to this actual contribution to the money market at this critical moment, there was a further assumed relief felt to be probable growing out of a rumor connected with the foregoing that the Secretary proposed to deposit the bulk of the customs receipts hereafter in the banks rather than in the Sub-Treasury; coupled with which was the statement that a probability existed of a speedy redemption of all the outstanding 4s of 1907. Altogether these acts and rumors, together with the purchase of $1,750,000 gold in London on Monday, made a material change on Tuesday in the financial sentiment, the panicky tendency being arrested and a general advance in

stock values taking place. This comparative buoyancy did not, however, outlast the day.

By that time it became evident that even the $15,000,000 provided under the order was not an immediate payment of that amount of money into the depository banks but a gradual effect produced by the simple turning of the stream of customs dues from a Sub-Treasury inflow back again into the banks, or into a Sub-Treasury outflow of the same amount; furthermore, there was nothing in the rumors attached to that order to the effect that it foreshadowed an underlying change of policy of the Treasury Department as to customs duties for the whole country. Finally, it became evident on a second thought that the paying off of the whole of the 1907 loan at once might be a disturbing incident rather than a wholesome one, as 28 1-3 millions of these bonds are held by the Government for national bank circulation and 10¾ millions held as security for Government deposits; hence the redemption of the currency and the exchange of the underlying securities for other securities could not be done so quickly as to facilitate in a marked degree the first of April payments.

But there is a further feature in the monetary situation to-day which we almost weary of calling the attention of our readers to, and yet it is such an obvious hindrance to a greatly enlarged bank reserve that it must be done once more. We refer to the obvious fact that the Sub-Treasury is beyond a doubt the agency which is working the discomfiture of our money market. The vaults of that attachment to our Treasury arrangements hold to-day 20 million dollars more cash than was so held on the first of January 1907. In other words, during those three months, while our people have been so fearfully harassed on account of the growing stringency in money, that rapacious piece of machinery has been allowed to go on working so as to take away day by day—by a sort of slow torture—from our bank reserves 20 million dollars of cash. Suppose the banks had continued to have that money through these three months. Besides, that is by no means the worst phase of the harm the trading public has recently suffered through the action of this fearful contrivance. Go back six or seven months further and study its working since, say, the first of June 1906. On that day (June 1 1906) the Sub-Treasury balance was only $316,673,545; now, less than 10 months after, it is, as we have seen, $362,899,983. Those figures declare that in those months, which have been about as trying in the money market as any that have come within the country's experience, there has been taken from the country's bank reserves —substantially from the New York City banks—and locked up in Sub-Treasury vaults over 46 millions of dollars. Or let us state the position exactly:

Sub-Treasury cash holdings March 25 1907	$362,899,983
Sub-Treasury cash holdings June 1 1906	316,673,545
Loss to bank reserves from June 1 1906 to March 25 1907	$46,226,438

The foregoing means that had our Clearing House institutions not suffered this wholly unnecessary drain on their reserves—other factors remaining unchanged—instead of the increasing stringency, which has been the history of the above specified period, there would have been a plethora of cash and banks would have been pushing loans upon their customers

As our readers are aware, nearly a dozen States have recently enacted laws intended to reduce railway passenger fares to 2 cents per mile, the latter being taken up as the present standard. The "present" standard, we should clearly note, because there is nothing of sanctity or finality in a 2-cent rate, and if it is lawful and possible to put rates at that figure now there is no reason why 1 cent might not be declared the limit in some early following year.

Nor should we fail to note that the recent laws have been passed without any inquiry whatever about differences in situation or probable results. It is quietly assumed that what can be done, without producing speedy bankruptcy, in Ohio or Pennsylvania can be done in Arkansas, Nebraska, Missouri and the Dakotas; indeed, a memorial from the Georgia branch of the National Farmers' Union (so-called) has been sent to the Georgia Railroad Commission, asking for lower fares and suggesting "that you take into consideration the adoption of the 2-cent rate so generally fixed by various States during the past few months."

It is not only assumed without inquiry that what can be done in one State can and should be copied in another, but there is no attempt to discriminate within the State itself. All differences between railroads in respect to first cost, expense of operating, amount and character of traffic, and so on, are ignored; a perverted application of "the square deal" is proposed; no inquiry is made whether any roads at all, or some particular roads, can make such reduction without being bankrupted. A lower fare is agreeable; reductions have been enacted elsewhere; apply the same in our State, and treat all alike. The emotional treatment even goes so far that when railroads propose to reduce expenses to correspond, as every business which finds its receipts reduced is compelled to do, this is pronounced "retaliation," instead of being self-defense.

It is popularly assumed that rich men, and especially men in Wall Street, own the railroads. This is a delusion. Control is one thing; ownership is another. The roads may be controlled by a few rich men; they are, in fact, owned by the common people. In proof of this, about 15% of savings bank deposits in this State, 37% in Connecticut and 35% in Massachusetts are invested in them; and in 36 States, as far as figures can be had, about 21½% of deposits are so invested. In the life insurance companies doing business in Massachusetts, about 31% of total assets are invested in railroads. In fire insurance, more than 25% of the assets on which the policies depend are in railroads. The educational institutions of the country have about one-third of their total endowment in railroads. Looking at it in the other direction, the figures which are available indicate that the railroads of the country are owned, to at least one-eighth, by the financial and educational institutions.

If, then, the coercive attempts now made upon railroad rates and traffic should be pushed far enough—and we may well ask ourselves what is to prevent this except a material reaction from vehement rashness to cool common-sense—there would be no escape from an era of receiverships. There is always a tendency to shortness of memory, and yet it ought not to be hard to imagine the effect of such an era upon industries and prosperity. But, aside from all that, inasmuch as

financial institutions generally, in which the common man of small savings is more sharply concerned than the rich man who he imagines his enemy, stand upon the integrity of railroad finances and the prosperity of their operations, is it not quite time for that common man to stop and begin to think?

Legislation, though at times needful for correcting evils, proves often a clumsy way of working cures in industrial affairs. This has frequently proved to be especially true with reference to labor troubles, the detrimental results arising therefrom being a frequent cause of complaint. A recent statement of the kind referred to comes from Mr. Walter Langshaw, President of the Dartmouth Mills (Cotton) of New Bedford, Mass. Upon being questioned as to the correctness of a report that the corporation of which he is the head intended increasing its capacity, he remarked in effect that any material increase in the industry in New Bedford would depend largely upon the attitude of the lawmakers of the State on labor legislation. Mr. Langshaw maintains the right of corporations to pay a premium for really efficient work against the view of labor organizations, which is that every man be paid the same wage regardless of what he produces. Mr. Langshaw's position is, of course, unassailable from any just point of view. Commenting upon the overtime bill now under consideration by the Massachusetts Legislature, he said he did not believe that there are any cotton mill operatives that have occasion for complaint in regard to their treatment by employers when the mills have had occasion to run overtime. The picketing bill he also criticizes, characterizing it as "simply granting a license to a few to intimidate a large body of operatives." Furthermore, bills already passed have, according to Mr. Langshaw, placed New Bedford at a disadvantage in the cotton-spinning business. Summing up the situation, he tersely remarks: "We are legislated to death, and the time is not far distant when the workingman will be convinced of this fact. It would be well for him to take a more active interest in matters that pertain to his calling, rather than leave it to the walking delegate and the collector."

The new Immigration Law passed in February, and which becomes operative July 1, will interfere seriously with the plan adopted by Southern States to obtain new settlers; such is the opinion recently made public by Attorney-General Bonaparte. The growing scarcity of efficient labor at the South, and the tendency of newly-arrived aliens to hug the larger cities or go to the West and Northwest, induced leading interests in the South some few years ago to adopt a plan of assisting immigration to that section of the country by the use of funds contributed for the purpose. Under the old Federal law of 1903, according to the Attorney-General, contributions might be received from persons or associations or corporations and expended in inducing or assisting immigrants to come into the State without subjecting such immigrants to the penalty of being barred out or deported. Even under that law, however, those who contributed to the fund would be liable to prosecution for violation of the provision, had any actions been brought, against helping people into the country for the purpose of giving them work. But under the new law, which goes into effect July 1, the penalty to the contributor to the fund is unchanged, but the assisted immigrant will become also liable to exclusion.

This is certainly an unfortunate turn of affairs for the South, for no other section of the country is in such pressing need of an influx of laborers. The younger generation of negroes does not, on the whole, take kindly to farm work, and is consequently less efficient and reliable than desired. Efforts, therefore, have been making through agents abroad to induce men capable of farm work to emigrate to the South, and various steamship lines have offered to assist by dispatching vessels direct to such ports as New Orleans, Savannah, &c. The new law will (according to Mr. Bonaparte, whose opinion coincides with Southern representatives who have studied the Act) render all these efforts nugatory unless some modification of its provisions can be secured. To secure the modification of this unwise legislation Southern interests should make speedy endeavor.

Railroad managers are doing much to enlighten the public mind, now-a-days, regarding railroad affairs, and this should in the end help in bringing about a solution of the problem. We have referred recently to the speeches at various points in the South which President Finley of the Southern Railway is making, and we see that he is still keeping up the work with a view to promoting good relations with employees and with the public. Other railroad men are pursuing the same policy. We note, for instance, a speech made two weeks ago by Vice-President E. L. Russell of the Mobile & Ohio Railroad. Colonel Russell well says that fair-minded citizens realize that the manager of a railroad must charge sufficient compensation for service rendered in the transportation of the different products and materials of the country, to pay the employees, maintain the roadbed and bridges and also the motive power and equipment. But such a manager has about lost control over the rate of compensation to be paid for labor and has no control over the prices to be paid for the materials entering into the construction of locomotive engines, freight equipment and passenger equipment and the material employed in keeping the roadbed and bridges in an efficient state of repair. Colonel Russell has faith in the fairness of the American people, just as we have, and feels convinced that if the railroad officials of the country will, in a conciliatory spirit, explain frankly the difficulties to be overcome, the people will meet them half way. We like particularly his statement that arbitrary methods on the part of railroad officials, governments, and the public generally, should be abolished, and there should be established in lieu thereof a broad, reasonable and liberal method of disposing of the difficult and serious questions connected with the transportation of the products of the country from one section to another.

There was no change in official rates of discount by any of the European banks this week; compared with last week unofficial, or open market, rates were unaltered at London and at Paris and ¼ of 1% lower at Berlin and Frankfort.

The feature of the statement of the New York Associated Banks last week was an increase of $1,676,350 in surplus reserve to $4,709,150, which was the result of a gain of $1,218,900 in cash and of a reduction of $457,450 in reserve requirements. Loans decreased $3,-

587,000 and deposits $1,829,800. It may be noted that the statement was somewhat deranged by the exclusion of the Astor National Bank from the return, this institution having been converted into a trust company. The bank in the previous week reported $5,768,000 loans, $806,000 specie, $377,000 legal tenders and $5,560,000 deposits. Therefore the statement of March 23 should, it would seem, have shown, by comparison with that of the previous week, a gain of $2,181,000 in loans, of $2,326,000 in specie, of $75,900 in legal tenders and of $3,730,200 in deposits. The bank statement of this week is expected to reflect the receipt of $1,000,000 gold from Europe, the deposit of $12,000,000 public funds derived from customs collections, in the banks, and $2,500,000 anticipated April interest on bonds. Payments for redeemed 4s of 1907 are reported from Washington to have amounted, thus far, under the circular of March 14, to $9,556,600; but as disbursements therefor are made by check from the Department, the amount distributed at this centre cannot be accurately stated. It is thought, however, that such payments this week have been about $5,500,000 at New York.

The market for money was sentimentally influenced by the announcement by Secretary Cortelyou on Tuesday of his intention to deposit about $15,000,000 customs collections in New York depositories; by his order to anticipate April interest on the 3s of 1898 and the 4s of 1907, amounting to $2,500,000, and by his device to facilitate redemptions of 4s of 1907 by permitting national banks which hold these bonds as pledge for public deposits to substitute for such bonds United States or other acceptable securities, thus enabling these banks to have such released 4s redeemed without being called upon to surrender their public deposits. The actual effect of these measures for the relief of the monetary situation did not begin to be perceptible until later in the week, owing to unavoidable delays in carrying into execution such measures, because of the requirement that substituted securities for released 4s pledged for public deposits and similar pledges for customs collections, which were to be placed in local depositories, should be submitted for acceptance to the Department at Washington. It was not, therefore, until Thursday that new deposits in local banks were placed therein to any important amount; then, it may be noted, the customs dues, instead of being deposited by the Collector of the Port, were withdrawn from the Sub-Treasury for deposit. The money market was, though, directly influenced almost immediately upon Mr. Cortelyou's announcement of his devices by quite liberal loaning by local banks, which contributed, at least temporarily, to more normal conditions for money on call. Time loans grew easier because of the expectation by borrowers that the market for fixed-date funds would be abundantly supplied, through the disbursement of April interest and dividends next week, and also by the new deposits in the banks and the proceeds of redeemed 4% bonds. Therefore borrowers generally resorted to the call-loan branch of the market and refrained from bidding for time loans.

Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 14% and at 2½%, averaging about 6%. Banks and trust companies quoted 3% as the minimum. On Monday loans were at 14% and at 6%, with the bulk of the business at 9%. On Tuesday transactions were at 10% and at 4% with the majority at 10%. Wednesday loans were at 6% and at 3% with the bulk of the business at 5%. On Thursday transactions were at 5% and at 2½% with the majority at 4½%. On Friday loans were at 5% and at 2¾% with the bulk of the business at 4½%. Time contracts on good mixed Stock Exchange collateral were quoted at 6½% for sixty days and 6% for ninety days to six months; the offerings of money for the shorter period were quite meagre and at the same time, for the reason above assigned, the demand was small. Commercial paper quotations remain unchanged at 6@6½% for sixty to ninety day endorsed bills receivable, 6@6½% for prime and 6¾@7% for good four to six months single names. Railroad notes are quoted as steady for the most desirable, while others are offered at fractional concessions.

The Bank of England rate of discount remains unchanged at 5%. The cable reports discounts of sixty to ninety day bank bills in London 5@5⅛%. The open market rate at Paris is 3½% and at Berlin and Frankfort it is 5⅜@5½%. According to our special cable from London, the Bank of England lost £1,137,614 bullion during the week and held £34,996,242 at the close of the week. Our correspondent further advises us that the loss was due wholly to large shipments to the interior of Great Britain. Purchases in the open market reached an important aggregate. The details of the movement into and out of the Bank were as follows: Imports, £676,000 (wholly bought in the open market, and including £201,000 French coin and £9,000 Austrian coin); exports, £96,000 (of which £27,000 to South America, £30,000 to Malta and £39,000 to sundry places), and shipments of £1,718,000 *net* to the interior of Great Britain.

The foreign exchange market was active and higher at the beginning of the week and on Saturday it was influenced by the panicky conditions at Berlin, which seemed to foreshadow the development of extreme discount tension at London and at Paris. The critical situation at Berlin was apparently due chiefly to the liquidation in New York of Canadian Pacific on the previous day; this property being largely held by German speculators and investors. Selling of this and other stocks in London and in this city for German account caused an urgent demand for exchange, chiefly London cables, for remittance. On Monday the deranged markets abroad and apprehensions of serious failures at the London and the Berlin settlements contributed to a further rise early in the day, but in the afternoon London bought largely in our market, which arrested the advance in exchange through liberal offerings, though by the close there was a partial recovery in rates. On Tuesday, before the announcement of the intervention of Secretary Cortelyou for the relief of our money market, news of a more confident feeling in London regarding the results of the settlement and some evidence of support to the Berlin Bourse contributed to liberal offerings of bills, and under this influence there was a feverish fall during which sight sterling sold at 4 8275, the lowest since Dec. 28 1906, when 4 8260 was recorded. Then followed a sharp rally on the announcement of Treasury

relief, buying for remittance became large and the market was active and strong, so continuing until the last hour, when realizations caused recessions in rates. On Wednesday cable advices of a successful settlement in London, with few and unimportant failures, and of the absence of trouble at Berlin, led to free selling, and there was a notable pressure of security bills against London purchases of stocks, which caused the market to close generally lower with cables weakest. On Thursday the tone was heavy at the opening but selling of stocks for London account and easier money brought about a recovery and there was a good demand for remittance by Saturday's steamer.

There was an engagement of $1,625,000 gold in London on Monday for shipment hither, the first consignment of the metal since Feb. 1, when $500,000 was obtained. The price paid for the gold is said to have been 77 shillings 10¾ pence per ounce, though 77 shillings 10½ pence was quoted in the market; it is expected that further engagements will be made by our bankers next week if exchange conditions shall be favorable.

Nominal quotations for sterling exchange are 4 80 for sixty day and 4 84½ for sight. On Saturday of last week there was an advance in long, compared with the previous day, of 25 points to 4 7925@4 7935, of 15 points in short to 4 8365@4 8375 and of 15 points in cables to 4 8435@4 8450. On Monday long fell 30 points to 4 79@4 7905, short 40 points to 4 8320@4 8335 and cables 30 points to 4 8405@4 8410. On Tuesday long declined 30 points to 4 7870@4 7875, short 10 points—after selling off 45 points at 4 8275—to 4 8320@4 8325, while cables rose 25 points to 4 8420@4 8435. On Wednesday long declined 5 points to 4 7865@4 7870, short was unchanged and cables were 25 points lower at 4 8405@4 8410. On Thursday long rose 25 points to 4 7890@4 79 and short 5 points to 4 8320@4 8339, while cables fell 5 points to 4 84@4 8410. The market was easy on Friday at a decline of 25 points for long, 15 for short and 10 for cables.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

		Fri., Mch. 22	Mon., Mch. 25	Tues., Mch. 26	Wed., Mch. 27	Thurs., Mch. 28	Fri., Mch. 29
Brown Bros. & Co.	60 days	4 80	80	80	80	80	80
	Sight	4 84½	84½	84½	84½	84½	84½
Baring & Co	60 days	4 80	80	80	80	80	80

Merchants' Bank of Canada	60 days	4 80	80	80	80	80	80
	Sight	4 84½	84½	84½	84½	84½	84½

The market closed on Friday at 4 7875@4 79 for long, 4 8310@4 8315 for short and 4 8390@4 84 for cables. Commercial on banks 4 7830@4 7840 and documents for payment 4 77¾@4 79¼. Cotton for payment 4 77¾@4 78, cotton for acceptance 4 7830@4 7840 and grain for payment 4 79@4 79¼.

The following gives the week's movement of money to and from the interior by the New York banks.

Week ending March 29 1907.	Received by N. Y. Banks	Shipped by N. Y. Banks.	Net Interior Movement
Currency	$3,931,000	$4,806,000 Loss	$872,000
Gold	1,607,000	1,100,000 Gain	507,000
Total gold and legal tenders	$5,541,000	$5,906,000 Loss	$365,000

With the Sub-Treasury operations and gold imports, the result is as follows.

Week ending March 29 1907.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement as above	$5,541,000	$5,906,000	Loss $365,000
Sub-Treasury operations	25,200,000	20,700,000	Gain 4,500,000
Total gold and legal tenders	$30,741,000	$26,606,000	Gain $4,135,000

The following table indicates the amount of bullion in the principal European banks:

Bank of	March 28 1907.			March 29 1906.		
	Gold.	Silver.	Total.	Gold	Silver.	Total.
	£	£	£	£	£	£
England	34,996,242		34,996,242	38,450,218		38,450,218

THE CONFUSION IN THE MARKETS.

Writing last week on the advance in its rate by the Bank of France, we pointed out the unusual and in many respects the disquieting nature of this action. That particular episode in the general situation must, in fact, be kept in mind in order to understand the extraordinary series of events which have followed it on the European stock exchanges. The aspect of foreign markets on the news of the French Bank's announcement, which they at first appeared to receive with indifference, was undoubtedly misleading. As the week drew to a close, it became plain that the unsettling influence of so notable a move was gaining control over most of Europe's markets. The situation in this respect was considerably complicated by the fact that the fortnightly settlement on the London Stock Exchange was to begin this present week, and that the requirements of that settlement would test both the extent to which financial London had been hurt by the violent New York decline of the past two weeks and the manner in which it had been hurt by the French Bank's action.

This, as it may now be seen, was the reason for the spasm of pessimism into which London appeared to fall last Saturday. Very rarely of recent years have rumors of so disturbing a character been sent from the European centre to New York. Predictions of serious failures at London's Stock Exchange settlement this week were made with the utmost freedom and in usually well-informed quarters. Naturally, under such circumstances, Wall Street awaited the early foreign news of Monday with much apprehension, expecting a break in prices such as should test the staying powers of the New York market. Instead, the early cables reported London as having passed out of its nightmare with prices recovering and with its bids, even for our own securities, substantially advanced, the somewhat remarkable fact being that, despite all of Saturday's predictions, the present week has passed without any serious disturbance either on the London market or at Berlin, from both of which quarters unpleasant news had been confidently predicted. We are within the facts in saying that if European markets such as have been witnessed this present week had not been preceded by such rumors and assertions as those of Saturday, the general comment would have been that the situation presented no cause whatever for misgiving.

What, then, is to be said of the extraordinary outburst of alarm on last Saturday's foreign markets? Partly it may be explained by somewhat belated

pessimism over the rise in the Paris Bank rate. In a measure it may be ascribed to the doubts and uncertainties with which London had contemplated the recent liquidation in New York. Beyond these two reasonable explanations we should say, however, that what frightened the foreign markets was their discovery that real and heavy liquidation was in progress on their own stock exchanges, the source of that liquidation not being plain enough to answer disquieting rumors which might be set afloat in connection with it. We should suppose that such stock liquidation—which in the preceding fortnight had included not only American securities, but English railway stocks and British consols—was, like our own recent liquidation, in the nature of the easing of an oppressive burden. That the strain on the world's available reserves of capital had reached the point of actual distress had been quietly admitted during many weeks by observant home and foreign bankers. Last autumn's 6% rate at the Bank of England, the 7% German Bank rate, and Berlin's maintenance this month of 6%, the highest figure ever known at this time of year in the history of the institution, were as distinct indices to the real nature of the situation as were the numerous phenomena in our own money market. That heavy liquidation of the burden of liabilities resting upon the banks was an absolute necessity no one disputed; the only question of debate was where such liquidation, forced or otherwise, should converge.

There was a disposition at the opening of the year, not only in Europe but in our own financial circles, to assert that widespread reaction in the industrial activity, both of this country and of Europe, would be requisite to the needed release of capital. Whether that position was theoretically correct or not, the trade reaction has not yet occurred, here or abroad. Something of the sort may be witnessed later, or may not. However this may be, the fact remained this year, as always, that liquidation on the stock exchanges was the line of least resistance and would provide not only great relief to the strain on capital but the only relief that could be applied immediately.

That such relief has been obtained not only in this market, but at London and Berlin, is surely in itself no cause for misgiving—especially when the always unpleasant process has been completed with a minimum of disturbance or unsettlement and with practically no financial disaster. Whether this liquidating process on the stock exchanges is to be followed by reaction in the domain of general trade is a question more or less in debate. We do not share the notion, sometimes stated, that trade reverses are the necessary consequence of a break in Wall Street prices, and are caused by the break on the Stock Exchange. On the basis thus presupposed, we can see no necessary connection between the two phenomena. The most that can at ordinary times be said of a sensational collapse on the Stock Exchange is that influences which will later be felt in all branches of finance and industry are always felt first on the Stock Exchange, and that the Wall Street movement may, therefore, be an accurate harbinger of the movement in general trade.

Yet even to this there are notable exceptions. It is only when capital is involved to such extent in speculative markets that it cannot be withdrawn without widespread financial disaster that the fall on the Stock Exchange is genuine portent of catastrophe.

THE REPORT OF THE LAKE SHORE & MICHIGAN SOUTHERN RAILWAY.

Doubtless the thing regarding which the annual report of the Lake Shore Co. for the calendar year 1906 will be especially scrutinized is as to the amount of the year's revenues which have been applied for new construction and new equipment. In the preliminary income statement for the twelve months, given out just before the close of the year, there was nothing to indicate what had been the aggregate of the outlays of this character paid for from earnings and charged to expenses. Only the total of the expenses was given, and there was no way of determining the precise sum included for the purpose named. The Lake Shore has always been distinguished for the magnitude of its appropriations of this character, and in more recent years the application of income in that manner has been particularly striking. This makes it interesting to know what the outlays have been in 1906. Of course everyone was aware that the amount had been large. The point as to which there was particular curiosity was how this amount compared with previous years—whether it was larger or smaller. The subject has been invested with additional importance by reason of the fact that the company in December increased its dividend, making the semi-annual declaration 6% as against the previous 4%.

It appears from the report that the sum added to the expenses for new construction and equipment was not of the exceptional extent of the previous year and yet was of very large proportions. For new construction the outlay was $4,221,846 and for new equipment $1,201,877, making $5,424,723 together. In 1905 the appropriation of earnings for new construction was $3,743,020 and for new equipment $3,360,773, being together $7,103,793. In 1904 the expense accounts included $2,781,201 for new construction and $2,776,034 for new equipment, making together $5,557,235. The call for dividends at 10% (4% for the first six months and 6% for the second six months) was $4,946,650, and hence it is manifest that of the year's earnings, more in amount by nearly half a million dollars was applied for new construction and new equipment than was applied in dividend payments. However, this last is no new feature, having been observed in other years, too—in most of which, indeed, the contrast between the amounts applied for construction and equipment and the amount distributed in dividends to the shareholders was still more marked.

The strength of the Lake Shore's income position has long been a matter of comment, and the 1906 results afford further testimony to the fact. For, even after the contribution of $5,423,723 for additions and betterments, a surplus remains in amount of $1,539,962 over and above the call for the 10% dividends charged against the year's accounts. Gross earnings increased $3,943,568 on top of the increase of $3,439,756 in the year preceding and large and continuous increases for the years preceding back to 1896. The total of the gross for 1906 is up to $42,544,378. What a noteworthy record of improvement and expansion this represents will be evident when we say that in 1898 the total of the gross was only $20,753,683. Thus in the eight years the gross has considerably more than doubled, rising 21¾ million dollars. But

with this increase of 21¾ million dollars in the gross revenues, the gain in the net revenues has been hardly more than 1½ million dollars, the total of net (after taxes) now at $8,429,937 comparing with $6,825,664 in 1898. All the rest of the gain in gross has been consumed by augmented expenses, and this augmentation in the expenses is evidence of the way operating cost has been added to through advances in wages and the higher prices of materials and supplies and the various other things entering into the operating accounts of the railroads—making due allowance for the enlarged amounts spent for new construction and new equipment.

Another point stands out prominently on an examination of the report, and that is that there has been no let-up in the development of operating efficiency and economy so far as this is under the control of the management—which the course of prices of materials and supplies obviously is not. The Lake Shore has always been distinguished for its large train load, that having been one of its characteristics before the subject of operating economy had engaged the attention of railroad men generally, and in the late year the average train load was raised to a still higher level. The further increase in the average was, roughly, 5 tons, bringing the train load up to 624½ tons. This, it will be admitted by those familiar with railroad affairs, is quite a remarkable figure. Of course, the Lake Shore is favorably situated for attaining a record in that respect because of the fact that so considerable a portion of its track is main line (branch road mileage as a rule not admitting of very high train loads) and that the volume of its through tonnage is large. Furthermore, over the Ashtabula branch, which forms part of the line to Pittsburgh, the mineral tonnage—coal, ore, &c.—must be of perfectly enormous extent. We may compare the Lake Shore's train load of 624½ tons with the train records of the Pennsylvania Railroad system east of Pittsburgh and Erie, which possesses many of the same characteristics as regards traffic conditions as the Lake Shore. On all the lines of the Pennsylvania Railroad directly operated east of Pittsburgh and Erie the average train load in the late year was 529 tons. Even on the Pennsylvania Railroad division by itself the average was no more than 552 tons. These are both good records, but are excelled, it will be seen, by the Lake Shore. The Pennsylvania, as it happens, gets somewhat better average rates, it having realized in 1906 5.95 mills per ton mile on all the lines directly operated and 5.54 mills on the Pennsylvania Railroad division, while the average of the Lake Shore for the same period of twelve months works out only 5.21 mills per ton mile.

In the company's finances there has been one important change in recent years. For a long period no additions to debt were made, practically all the company's needs being provided for out of income. More recently, however, these needs have been of such proportions that excess revenues and betterment appropriations no longer suffice for the purpose, and recourse has had to be had to the money market. Furthermore, the company has undertaken the financing of some of its allied properties, in some cases unreservedly, in others because it was a large shareholder in the same and was obliged to furnish its portion of the new capital required by such roads. In 1903 it created an issue of $50,000,000 4% bonds, all of which are outstanding, and in 1906 it created another issue of $50,000,000 4 per cents, of which $35,000,000 are out. All these latter $35,000,000 were issued in the late year, and the only decrease in the funded debt was $920,000, due to the retirement of $920,000 Detroit Monroe & Toledo bonds which matured in August 1906.

We get an idea how most of the money obtained from this new issue of bonds was applied when reference is made to the company's holdings of stocks and bonds in other companies. It will be recalled that the Cleveland Cincinnati Chicago & St. Louis Ry. considerably increased its stock during the year. The Lake Shore took $4,395,400 of the additional shares. It also took $7,000,000 mortgage bonds of the Chicago Indiana & Southern RR., one of its subsidiary properties. As against the $5,000,000 stock of the Indiana Illinois & Iowa RR. that appeared in the accounts in the previous year, there now stand $5,000,000 of the preferred and $12,000,000 of the common stock of the Chicago Indiana & Southern RR. The company also purchased $1,154,000 of the stock of the Hocking Valley Ry. and $1,692,200 more of the stock of the Merchants' Despatch Transportation Co. All these are in the nature of investments, and that they are profitable is evident from the steady increase in the company's income from interest and dividends on stocks and bonds owned, the further increase in such income in the late year having been $490,048.

We see, too, that in 1906 the company spent $7,500,000 for additional new equipment, aside from the $1,201,877 paid out for equipment purchased and charged to operating expenses. The discount and commission on the $35,000,000 bond sale of 1906 was $875,000 —2½%—and this amount has been wiped off the books by deducting the same from the year's surplus revenues.

THE GREATER PITTSBURGH DECISION AND LEGISLATIVE POWERS.

In the litigation regarding the constitutionality of the Act of the Pennsylvania Legislature providing for the creation of the Greater Pittsburgh through the union of the City of Pittsburgh with the City of Allegheny, some interesting questions were raised which have been judicially determined by the decision the present month of the Pennsylvania Supreme Court upholding the validity of the consolidation. Three main objections had been urged against the legislation creating the Greater Pittsburgh. The first was that the Governor's proclamation convening the Legislature in special session had been subsequently modified or altered. The question raised was whether it was within the power of the Governor to make such alteration or modification. The second objection urged against the Act of Consolidation was that it was in the nature of special legislation and therefore forbidden under the Constitution. A third point made was that the method of consolidation was contrary to that "due process of law" guaranteed by the Federal Constitution, inasmuch as a majority of the votes cast in the two cities combined was allowed to determine the question of annexation and not a majority of the voters in each city—the vote in Allegheny having been adverse to the proposition.

All three objections have been overruled by the Supreme Court, which affirms the decision of the Superior Court declaring the consolidation legal; and though an appeal has now been taken to the Supreme Court

of the United States, there appears little likelihood of a reversal, as in such matters the Federal courts always follow the State courts. The reasoning by which the Pennsylvania Supreme Court reaches its conclusions on the questions involved is indicated in the opinion of Judge Brown and is very interesting and would seem to be of wide bearing and application. It appears that on Nov. 11 1905 the Governor of Pennsylvania called the General Assembly into extraordinary session to meet Jan. 15 1906 for the consideration of legislation upon seven subjects mentioned in his proclamation. The first of these subjects was "to enable contiguous cities in the same counties to be united n one municipality, in order that the people may avoid the unnecessary burdens of maintaining separate city governments." On Jan. 9 1906 he issued a second proclamation in which, after calling attention to the then approaching extraordinary session, he designated additional subjects for the consideration of the General Assembly, one of them being "to enable cities that are now or may hereafter be contiguous or in close proximity, including any intervening land, to be united in one municipality, &c." The title of the Act providing for the consolidation passed at this special session employs the language contained in the so-called second proclamation, and the first section of the Act reads as follows: "That wherever in this Commonwealth, now or hereafter, two cities shall be contiguous or in close proximity to each other, the two, with any intervening land other than boroughs, may be united and become one by annexing and consolidating the lesser city and the intervening land other than boroughs, if any, with the greater city, and thus making one consolidated city, if at an election to be held as hereafter provided, there shall be a majority of all the votes cast in favor of such union." At the election held for the purpose a majority of 20,154 was cast in favor of consolidation out of a total vote in the two cities of 55,574.

According to the Pennsylvania Constitution, when the General Assembly of Pennsylvania is called in special session there may be no legislation upon subjects other than those designated in the proclamation. But the Court was not particularly impressed with the idea that the Governor could not alter his proclamation or change its phraseology. Judge Brown, who wrote the opinion, in discussing this point, says that whether the General Assembly ought to be called together in extraordinary session is always a matter for the Executive alone. How it shall be called, and what notice of the call is to be given are also for him alone. The Pennsylvania Constitution is silent as to these matters, and the Court thinks wisely so, for emergencies may arise, such as riots, insurrections, wide-spread epidemics, or general calamities of any kind, requiring the instant convening of the Legislature, and, in the power given to the Governor to call it, no time for the notice is too short if it can reach the members of the General Assembly. If after one proclamation has been issued it occurs to the Executive that other subjects than those designated in it should be passed upon by the Legislature, he can issue another proclamation, fixing the same time for the meeting of the General Assembly as was fixed in the first and designate other subjects for its consideration. The proclamation of Jan. 9 was in effect a second proclamation. In it the Governor adopts his original call for the purpose of fixing the time of the meeting of the General Assembly, and then proceeds to designate the additional subjects of legislation. Judge Brown declares that with every presumption in favor of compliance by the Executive with the Constitutional requirements, it would be judicial hypercriticism to declare the second notice or proclamation insufficient to authorize the Legislature to pass the Act under consideration.

As to the contention that the Act violates the Constitutional mandate prohibiting the Legislature from passing any local or special law regulating the affairs of cities, the Court found this objection also untenable. The law in question provides for the consolidation of two cities of no particular class, but of any two cities belonging to the same or different classes wherever situated and whether in the same or in different counties. Judge Brown says whether two cities ought to be consolidated is purely a legislative question, and a General Act providing for their consolidation is not forbidden legislation. The power of the Legislature to provide for the annexation of cities is not limited by the Constitution. What it may not do is to regulate by a local or special law the affairs of cities. In providing for the annexation of any two cities there is no regulation of the affairs of any two particular cities. The Legislature might, without transgressing the Constitution, have provided for the consolidation of cities without regard to the distance between them, absorbing in their consolidation all the intervening space, whether occupied by boroughs or townships. Such legislation however, is not conceivable, for the common sense of the people would not tolerate it.

In providing for annexation in the Act of 1906, the Legislature restrained its power to authorize consolidation in declaring that certain natural, reasonable and necessary conditions must exist if two cities are to be united. No arbitrary, unnecessary conditions are prescribed; only reasonable ones are required. The Legislature might have limited the right to consolidate to contiguous cities, but it extended this right to those in close proximity, and, in making contiguity or close proximity a condition of the right to consolidate, the affairs of no special city are regulated. No two contiguous cities are excluded from its provisions, and any two in close proximity may be united, provided that by their union they do not absorb and swallow up an intervening borough.

The Court differentiates the present law from the previous law attempting consolidation of the two cities, and which the Court then condemned. In this earlier law (Act of April 20 1905) the language of the statute served to identify Pittsburgh and Allegheny so completely—it being required that the two cities must be situated in the same county, and there being even a provision that cities separated by a stream or river should be included under the term contiguous—that its character as special local legislation was palpably manifest. So much was this true that it might well have been labeled, the Court declared in that case, an Act for the consolidation of the cities of Pittsburgh and Allegheny. But in the law under consideration the circumstances are entirely different. Its operation is not confined to cities within certain territorial limits. It is general in its terms and refers to no classes of cities, but to cities generally. It does not provide that it shall operate only "upon two cities situated in the same

county," as did the earlier law. It does not exclude "from its provisions and deny its privileges to all cities separated by a county line, or which are not wholly within the same county," but extends them to any two cities within the Commonwealth having natural, reasonable and necessary conditions of consolidation.

That the law applies now, and for the present can apply, only to the cities of Pittsburgh and Allegheny, and that it was passed for them, the Court declares can make no difference if the legislation is general in form and substance and is not within the prohibition of the Constitution. Individual needs and requirements are responsible for much legislation which must be general, and when it is so, the causes that lead to it, or the particular purposes it is to serve at the time of its enactment have nothing to do with its constitutionality.

As to the third point of objection, namely that the method of consolidation is not by "due process of law," in that it permits qualified electors of the larger city to overpower or outnumber those of the lesser city and to annex the lesser city without the vote or consent of a majority of the qualified voters or electors of the lesser city—the Court holds this contention also as being without force. The people of municipalities do not define for themselves their own rights, privileges and powers, nor is there any common law which draws a definite line which may be exercised by the State and those which must be left to the local government. The creation of municipal corporations and the conferring upon them of certain powers, and subjecting them to corresponding duties, does not deprive the Legislature of the State of that general control over their citizens which they before possessed. It still has authority to amend their charters, enlarge or diminish their powers, extend or limit their boundaries, consolidate two or more into one and overrule their legislative action whenever it is deemed unwise, impolitic or unjust, and even abolish them altogether in the legislative discretion and substitute those which are different. In the case of the City of Allegheny, neither the municipality as such nor any of the persons residing therein, had any vested rights in the municipal powers as against the State which created the municipality. The latter is merely an agency instituted by the sovereign for the purpose of carrying out in detail the objects of Government—essentially a revocable agency—subject to legislative control which may destroy its very existence.

THE PUBLIC SERVICE CORPORATION OF NEW JERSEY AND ITS PROBLEMS.

The speech which President Thos. N. McCarter of the Public Service Corporation of New Jersey delivered before the Board of Trade of Plainfield, N. J., last month has been reprinted in pamphlet form and throws a good deal of light on the problems confronting that combination of street railway, gas and electric properties—one of the largest of its kind in the country. The company operates all the important gas, electric and street railway properties in New Jersey as far south as Camden, with the exception of the gas property in and about Elizabeth and the street railway system in Trenton. As Mr. McCarter well says, this is a vast undertaking. And the task of administering it and rendering efficient and economical service is increased by the fact that the Public Service Corporation came into possession over night, as it were, of the numerous properties of different kinds, in all stages of efficiency and decomposition, as he calls it.

Mr. McCarter shows how the company, which has been in existence only four years, had its inception. He points out that he was not one of the gentlemen concerned in the original exploitation of these various enterprises. That work was done by others—"by some of the strongest men New Jersey has produced." He thinks it undoubtedly shortened the lives of Vice-President Hobart and the late B. M. Shanley of Newark. He finds much to admire in the work of these gentlemen and their associates. They quickened the growth and development of the State, they gave employment to thousands of people, and they made living more comfortable. But they made mistakes, too, in that they overdiscounted the future and overcapitalized some of the great properties they constructed. It was all done, however, in the open, under due forms of law. In fact, those who were given an opportunity to "come in" were regarded as highly fortunate. But it gradually became apparent that, while in the main gas and electric properties were profitable, and justified expectations, the street railroads did not. By the winter of 1902-03 it was evident to those in touch with the situation that without new capital for necessary improvements and for the restoration of impaired credits the railroads could not go on. Just at this time came the dreadful catastrophe in Newark, where a car full of school children collided with a Lackawanna train, resulting in much loss of life and great personal injury. This was the last straw, and it became apparent that something would have to be done very quickly to avert financial disaster. It was then that Mr. McCarter, who had been counsel for the various underlying companies, suggested the idea of the formation of the Public Service Corporation, in order to provide a large cash capital and acquire upon fair terms all the constituent properties, good and bad. The theory was that during the critical period the strong and prosperous should carry the financially and physically weak properties.

Thus, the Public Service Corporation was formed with a cash capital of $10,000,000, fully paid up without one dollar of water. It acquired all of its gas and many of its electric properties by lease. The stocks of the financially embarrassed railroads and of the United Electric Co. of New Jersey, which served Essex, Hudson and a part of Union counties electrically, and which was also in a struggling condition, were exchanged for the obligations—not the cash—of the new company; and in this operation $60,000,000 of stock obligation was transformed into approximately $20,000,000 of new obligations. Public Service stock was subsequently increased by $2,500,000, making $12,500,000 in all, on which thus far there has been no return.

But this represents only a portion of the new money put into the undertaking. In the four years upwards of $26,000,000 have been spent in the improvement, extension and rehabilitation of the properties, besides which, over $6,000,000 have been appropriated for similar expenditure the present year. This money, over and above the $12,500,000 of capital stock, was raised by the sale of securities. The task of rehabilitation was a colossal one. Many of the railways were in

a state of physical, as well as financial, collapse, and have had to be rebuilt. This work is progressing, but will require several years more for completion, we are told. The company has built and rebuilt over 110 miles of track. It has purchased 568 new cars, has built new power stations, has extended the Camden gas pipe line from Trenton to Plainfield, &c., &c.

Mr. McCarter refers to some of the things that have been accomplished for the benefit of the public. A complete transfer system has been put into effect between the nine railroad systems, at all connecting points, where none formerly existed, and the five-cent-fare zone has been so extended that it is now possible to ride over fifteen miles for a nickel in certain localities. The price of gas, which ranged from $1 80 down, at the time of the formation of the company, is gradually being reduced to the dollar standard—a fair price for a city like Newark, but an extremely low figure for a smaller or suburban locality. In Plainfield, when the Public Service took hold, the price of illuminating gas was $1 40. It is now $1 15 and Jan. 1 1909 it is to be only $1 00. The electric base rate is being reduced to 10 cts., involving in some cases a reduction of 50%. This new rate becomes generally effective, with one or two exceptions, on Jan. 1 next. Four years ago the base rate in Plainfield was 18 cents. Mr. McCarter truthfully says that such a low rate as 10 cents never could have been obtained for a community of this character except as a result of consolidation. After the Hughes gas investigation in New York the base rate for Manhattan was put at 10 cents and for Brooklyn at 12 cents, which shows how favorable a rate 10 cents is for a suburban locality like New Jersey.

Mr. McCarter declares it takes, and will continue to take, for some years, if not indefinitely, about $4,000,000 annually of new money to finance the needs of the Public Service Corporation. This does not include a mile of extended railroad track. Yet in these troublous times even this comparatively small sum of money is not easily acquired. The situation, so far as new extensions are concerned, is accentuated by the passage of the so-called limited franchise law, restricting the period for which franchises may be granted to twenty years, except where by vote of the people the period is lengthened to forty years. While in a sense this is a direct benefit to the Public Service Corporation, inasmuch as it prevents others from obtaining what the Public Service already has, it must serve to retard the development of the rural sections of the State. In times like the present it is utterly futile to consider the financing of rural country lines upon any such limited basis. He gives a pointed illustration of how such a law works to the detriment of the community. The New Jersey authorities have chosen as a site for a new normal school a location between Montclair and Paterson, not now reached by the company's lines. They have requested the company to fill in this gap between these places, and he says the company ought to do it, but for the reason stated it is simply out of the question.

The cost of labor and of everything else has been going up—not to omit taxes, which for the year 1906 amounted to the vast sum of $920,000. As stated above, the company has been in operation four years. In 1906, for the first time, it earned a little over 5%, and that on a gross business of $21,000,000 and a stock capital of $12,500,000. Nevertheless, Mr. McCarter is very hopeful, if only the company is not further hampered and fettered. With the great increase in the company's business each year, unless all conditions change, earnings within a reasonable time will substantially increase. New Jersey is about to be linked to the metropolis of the nation by a wonderful system of tunnels, built for electric railways. The influx of population should then be enormous and increased prosperity for all should follow. Mr. McCarter lays emphasis on the fact that the day of stock watering and over-capitalization of properties of this character is over. He himself at the request of Governor Stokes drafted the bill that became a law last year in New Jersey, which positively forbids public utility companies in the State from issuing their obligations for less than par, except a reasonable banker's commission, and forbids the issue of all stock except for par.

He thinks that, with further watering forbidden, stockholders of existing companies should be allowed to receive 10% annually, a fair business profit upon their investment, before any further restriction is placed upon these companies by taxation or otherwise. He suggests that for anything beyond 10% it might be well to employ the principle adopted in some of the New England States of requiring companies able to pay dividends in excess of what is considered a reasonable amount to pay a sum equal to the excess dividend over the so-called reasonable dividend by way of additional taxation. By such a method the prosperity of the company and additional taxation, he says, would go hand in hand.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO.'S.

—The public sales of bank stocks this week aggregate 65 shares, of which 55 shares were sold at the Stock Exchange and 10 shares at auction. The transactions in trust company stocks reach a total of 68 shares. The first public sale of stock of the Hudson Trust Co. (of New York), which commenced business August 1 1906, was made this week at 97.

xSold at the Stock Exchange.

—The New York Stock Exchange was open yesterday (Good Friday), but will remain closed to-day. An endeavor was made by the members to secure a double holiday—Friday and Saturday—but the Board of Governors at a meeting on Wednesday decided to grant but one holiday, and that on Saturday. In 1898 and 1906 the Exchange was also kept open on Good Friday. The Boston and Chicago Stock Exchanges were likewise open yesterday. In Philadelphia and Pittsburgh the Exchanges were closed, Good Friday being a legal holiday in Pennsylvania.

—That trust companies in Indiana may conduct what amounts to a general banking business would appear to follow from the opinion delivered March 14 by State Attorney-General James Bingham. An opinion rendered by him in February had encouraged a contrary notion. The first opinion, the "Indianapolis News" says, was given in answer to a question raised by State Auditor J. C. Billheimer. Mr. Bingham, in response to this query, gave it as his opinion that trust companies under the Acts of March 4 1893 and the amendatory Acts thereof, had no right to engage in a general banking business. In order that there might be no disturbance in the business of trust companies which included banking features in their operations, steps were taken to have enacted a bill under which they would be authorized to conduct a banking business. This bill passed the Senate but was defeated in the House. Thereupon, to determine definitely the regulation and supervision of the companies

in accordance with the law, another inquiry was addressed by Mr. Billheimer to the Attorney-General propounding certain specific questions, and asking that the former opinion be reviewed. Mr. Bingham, in his latest opinion, defines the powers of trust companies with regard to banking as follows:

"A trust company may receive deposits and allow them to be checked against, and pay such checks that may be given by depositors to third parties in the same manner as checks are usually paid by banks.

"A trust company may issue drafts to third parties to the extent that it amounts to issuing its check upon a bank holding a deposit of such trust company, in payment of a check drawn on account of a depositor in such trust company.

"A trust company may loan its funds and moneys on personal securities, and buy commercial paper."

—Dividend payments on the stock of the Mechanics' National Bank of this city have been changed from semi-annual to quarterly, a dividend of 3% having been declared payable April 1. This is an increase in the rate per annum from 10% to 12%.

—The Hudson Trust Company of this city has decided to discontinue the practice of remaining open evenings and announces that, beginning Monday next, its banking hours will be from 9 a. m. until 4 p. m. Since September 4 the company has been conducting business daily up to 1 a. m., but finds that there does not exist sufficient demand for the continuance of business beyond the usual banking hours. A month ago the Times Square branch of the Mechanics' & Traders' bank also gave up the experiment of conducting business at night.

—The additional capital, amounting to $77,300, authorized a year ago by the stockholders of the Pacific Bank of this city, has been admitted to the Stock Exchange, making the total amount listed $500,000. The bank has a surplus fund of $500,000 and undivided profits of $284,029.

—The new stock of the New Amsterdam National Bank of this city has also been admitted to listing on the Stock Exchange. The additional amount, $500,000, brings the total capital up to $1,000,000. The proposition to enlarge the capital was approved by the shareholders May 14 1906. On the following day the directors declared a dividend of $500,000 out of surplus and profits, to shareholders of record May 4, which was applied as payment for the new stock. On December 31 1906 the institution reported, in addition to its capital of $1,000,000, surplus of $200,000 and a profit and loss fund of $59,947. The deposits on the same date were $6,834,979 and the total resources $8,539,260.

—In response to the application made on March 19 by the Irving National Exchange Bank of this city, its total capital of $2,000,000 was admitted to the Stock Exchange list on Wednesday. The capital of the bank (formerly the New York National Exchange) was increased from $1,000,000 to $2,000,000 at the time of consolidation with the Irving National, the stockholders ratifying the proposition February 19. A cash dividend, equal in the aggregate to $275,674, was declared from accumulated surplus of the National Exchange Bank to shareholders of record January 21, in accordance with the resolution of the directors that the surplus and undivided profits in excess of an appraised capital and surplus of $1,500,000, be distributed to stockholders of record at that date.

—James Henry Smith, whose death in Kioto, Japan, was announced this week, was a trustee of the Union Trust Company and Equitable Trust Company of this city and a director of the Hanover National Bank, the Hanover Safe Deposit Company and the Empire Trust Company. Mr. Smith in 1899 had inherited the bulk of the large fortune of the late George Smith, his uncle; it is stated that he received about $56,000,000.

—The Corbin Banking Company of 192 Broadway, this city, a private banking firm consisting of George S. Edgell and Austin Corbin, filed an assignment on Thursday for the benefit of its creditors. The assets, it is claimed in a statement made by the assignee, George C. Austin, exceed the liabilities by over a million dollars. It is stated, however, that the assets consist principally of real estate, which could not be sold except at a sacrifice in time to meet maturing obligations. The principal real estate interests in the East are on Long Island, at Manhattan Beach and Rockaway. The deposits, it is stated, do not exceed $300,000. The business of the company was founded in 1851 at Davenport, Iowa, by the late Austin Corbin. In 1869 Mr. Corbin removed to New York and the following year formed the firm of Austin Corbin & Co.; in 1874 the name was changed to the present title of the Corbin Banking Co. Mr. Edgell, a son-in-law of the late Mr. Corbin, became a partner in 1890, and in 1896 the other existing member, a son of the founder, was admitted to partnership.

—Gen. James M. Varnum, who died on Tuesday as a result of injuries received in an automobile accident, was one of the founders of the Fulton Trust Co. of this city. He served as trustee, and on the executive committee since its organization, and was for many years the counsel of the company. Appropriate resolutions with respect to his death were adopted by the trustees of the company at a meeting this week.

—Subscriptions are being received by Ira A. Manning, 147 Fourth Avenue, this city, to the stock of a new institution which is being organized under the name of the United People's Trust Company. Mr. Manning assisted in the organization of a similar Philadelphia institution, the People's Trust Company, which began business last month. The stock of the New York company will have a par value of $50 per share, and will be sold at $66, so as to create a surplus. It has not as yet been determined what the capital will be, but in any event it will not be less than $500,000, it is stated.

—The new Montauk Bank of Brooklyn Borough, which completed its organization last month, commenced business on the 4th inst. at Fifth Avenue and Union Street. The bank has a capital of $100,000 and surplus of $50,000. For the convenience of its patrons the institution is open on Saturday nights from 7 to 9 p. m. Henry M. Randall is President and H. B. Conlin Cashier.

—The Northern New Jersey Trust Company, organizing at Edgewater, New Jersey (opposite 130th Street, New York City), has had its application to do business approved by the State Commissioner of Banking. The institution will have offices in the five-story building at Dempsey and River avenues, standing opposite the ferry entrance, and commence about May 1st. The capital is to be $100,000, surplus $50,000, shares selling at $150. The company's organizers are: R. Ross Appleton, President Fourteenth Street Bank of New York; Frank E. Knox and Thomas H. Rothwell of the Columbia Investment & Real Estate Company at Times Building, New York; C. B. Warner, of the Warner Sugar Refining Co.; William G. Brady, August E. Neuman and other local business men in the vicinity of Edgewater.

—On the 2d inst. the stockholders of the First National Bank of Morristown, N. J., ratified the proposition, mentioned in this department Feb. 2, to increase the capital from $100,000 to $200,000. The selling-price of the new shares was $150 each, and surplus and profits are now about $365,000.

—The title of the Citizens' National Bank of Hornellsville, N. Y., has been changed to the Citizens' National Bank of Hornell, to conform to the change made last year in the name of the town.

—H. S. Shelton has advanced from the cashiership to the vice-presidency of the Connecticut National Bank of Bridgeport, Conn. L. B. Powe has become Cashier and T. C. Cumming Assistant Cashier.

—Robert B. Fairbairn, President of the National Rockland Bank of Roxbury (Boston), died on the 22d inst. in his sixtieth year. Mr. Fairbairn entered the bank as messenger, becoming Cashier about 1873 and President in 1898.

—Treby Johnson has been chosen to succeed the late J. W. Chase as President of the Granite National Bank of Augusta, Me. A. E. Barbour replaces Mr. Johnson as Cashier.

—The new stock, amounting to $400,000, to be put out by the Merchants' National Bank of Philadelphia will be offered pro rata to the present shareholders at $150 per share. Of this, $100 will be placed to capital, increasing it to $1,000,000, and the premium added to the surplus, raising that item from $600,000 to $800,000. Payments will be made in six monthly installments of $25 each. The stockholders are to act on the proposition April 16.

—The directors of the Fourth Street National Bank of Philadelphia on Tuesday appointed R. J. Clark as Cashier to succeed the late W. Z. McLear. W. A. Bulkley was appointed Assistant Cashier.

—William W. Brown, heretofore Cashier of the Merchants' National Bank of Cincinnati, was elected Vice-President and General Manager of the institution on Tuesday. Edwin C. Goshorn was also made a Vice-President, and William P. Stamm, the Assistant Cashier, was promoted to the post of Cashier. These elections complete the roster of the bank, from which two Vice-Presidents—Albert S. Rice and Howard S. Rodgers—recently resigned, in order to give more attention to personal interests. It is stated that no further changes will be made; H. C. Yergason, who has been a Vice-President for a number of years, will remain in that capacity. As General Manager, Mr. Brown will practically be the head during President Ingalls's absences.

—In an account filed on the 23d inst., Receiver William H. English of the East End Savings Bank Company of Columbus, Ohio, reports that four dividends, aggregating 52½%, have thus far been paid to the creditors. The institution suspended Jan. 23 1905.

—The Franklin Savings & Banking Company of Cleveland, a new organization, opened for business on the 21st inst. at St. Clair Avenue and 55th Street. W. E. Patterson is President and Charles A. Melcher Secretary and Treasurer. The institution has $50,000 capital.

—James M. McIntosh, who recently retired as National Bank Examiner, to take the presidency of the Union National Bank of Indianapolis, has assumed the duties of his new office. He succeeds William J. Richards, who has become Vice-President of the bank.

—Henry H. Sanger lately resigned his position as Assistant Cashier of the Commercial National Bank of Detroit (which has arranged to consolidate with the First National) to become Secretary of the organization committee of a new bank about to be established in that city. The institution is to be known as the National Bank of Commerce.

—The Lincoln Bank of Springfield, Ill., to the organization of which we referred Dec. 29, commenced business on the 11th inst. at Sixth and Monroe streets. The institution has a capital of $100,000 and is under the management of Jas. R. B. Van Cleave, President; Alfred Booth, Charles M. Woods and Henry A. Diksen, Vice-Presidents; Albert H. Rankin Cashier, and A. L. Bowen, Secretary.

—Two Chicago bank removals, reported in these columns last week as probable, are now confirmed. The Federa National Bank has already moved to the Hetty Green Building, on the southwest corner of Monroe and Dearborn streets, and the Hamilton National will on May 1 remove to the ground floor corner of the New York Life Building, Monroe and La Salle, reeently vacated by the American Trust & Savings Bank.

—The unexpected call of the U. S. Comptroller for national bank statements on the 22d inst. found some of the Chicago banks perhaps less prepared to make a handsome comparative showing than if it had come a fortnight later; but the figures on the whole are creditable, considering the disturbed state of the money market throughout the country. In the sixteen Chicago National banks a gain of more than a million in deposits over the totals of Jan. 26 is shown; the loans during the same period expanded over $17,000,000. The banks showing increased deposits are: The Prairie National, $150,000; Fort Dearborn, nearly $400,000; National Bank of the Republic, $650,000; Bankers' National, $700,000 and Continental, $4,400,000. The growth of the Continental National Bank during the past year has been quite noteworthy. Its statement of April 6 1906 showed $53,518,796 deposits; that of Jan. 26 1907, $60,359,561, or a gain in one year of $11,216,170. Going back still further, we find in 1905 the Continental's deposits were $51,000,000; in 1900, $31,000,000; in 1895, $9,000,000; in 1890, $7,600,000; in 1885, $5,100,000 and in 1883, $3,600,000. The administration of President Geo. M. Reynolds is certainly bringing increasing prosperity to this institution.

—The current reports of the twenty-eight Chicago State banks disclose a condition differing but slightly from that of Jan. 28, when their last previous statements were published. The increase in loans is a little over two million and in deposits a little under two million dollars. The greatest gain in deposits since the last previous report is shown by the American Trust & Savings Bank, viz., $1,300,000. The Western Trust & Savings Bank reports an increase of $900,000 and the Union Trust Company over $500,000. The Harris Trust & Savings Bank, successor to N. W. Harris & Co., in this its first public statement makes the announcement of $4,200,000 deposits.

—The National City Bank of Chicago, of which David R. Forgan is President, under its first call shows $3,562,000 deposits. This bank opened for business in February.

—A useful booklet, citing "The Powers of Trust Companies," has been compiled by Alfred C. Millican for the Wisconsin Trust Company of Milwaukee. An idea of the nature of the publication is perhaps best obtained by quoting from the "Foreword," which states that it is the endeavor to give a digest of the powers exercised by trust companies in the various States and Territories. These powers are segregated and catalogued in a table under the following heads: (1) Trust company powers proper, i.e., fiduciary; (2) The powers of guaranty, which include the three subdivisions of fidelity insurance, surety and title insurance, together with other forms of guaranty or trust insurance which may be exercised; and (3) the powers of banking. Under the last-named head there has been included three various degrees of banking as they have appeared in the several laws: (a) Strong banking powers—by which is understood the right to exercise all the functions lawfully exercised by banks in the State in question; (b) medium banking powers—by which is understood the right to do a savings bank business, receive deposits subject to check, &c.; (c) weak banking powers—by which is understood the right to buy and sell bonds, stocks, exchange, warrants, negotiable and non-negotiable paper, and other securities. A table has been added to show the number of trust companies in each State, with gross capitalization and gross deposits.

—The final report of Henry M. Beatty, assignee of the Western Bank of Denver, was filed on the 20th inst. A third dividend was paid to the depositors within the last few months, making in all 68 2-3% since the suspension of the bank in August 1905. In the District Court on the 23d inst. Judge G. W. Whitford refused to issue an order allowing several of the stockholders to compromise the judgments against them by paying 85 cents on the dollar.

—Officers for the newly organized Bankers' National Bank of Kansas City, Kan., have been elected as follows: Jno. W. Breidenthal, President; George M. Gray, Vice-President, and W. R. Berry, Cashier. The bank has a capital of $250,000.

—From Dec. 31 1906 to March 1 1907 the deposits of the Bank of Commerce & Trust Company of Memphis have grown from $5,959,915 to $6,116,443. This latter amount is the largest in the history of the company and it is also claimed to be the largest of any bank in the State. The institution has a capital of $1,500,000 and total assets of $8,292,923. The officers are. J. T. Fargason, President; John H. Watkins, Vice-President; James H. Fisher, Secretary; S. J. Shepherd, Trust Officer; L. S. Gwyn and E. L. Rice, Assistant Cashiers.

—The United States Trust & Savings Bank has been organized in Memphis, Tenn., with a capital of $100,000. M. S. Buckingham, President of the State National Bank of Memphis, has been chosen President of the new institution. The other officers of the latter are W. H. Wood and M. G. Buckingham, Vice-Presidents, and W. W. Stevenson, Cashier.

—Hiram T. Gates has been elected President of the Southern Interstate Bank of Richmond, Va., to succeed S. Galeski, resigned. D. A. Ritchie is successor to Mr. Gates as Vice-President.

—It has been decided to hold the current year's meeting of the West Virginia Bankers' Association at Clarksburg on June 12 and 13.

—The Comptroller of the Currency has approved an application to organize the Union National Bank of Fresno, Cal., capital $150,000. C. R. Puckhaber, A. Sachs, J. D. Collins, W. O. Miles, C. L. Walter and A. B. Clark are interested in the project.

—The Bank of San Francisco, at San Francisco, Cal., capital $200,000, has been incorporated. The proposed institution will be affiliated with the Crocker National Bank and will, it is said, supersede the Citizens' National, organized about two years ago. The change will occur about June 1.

—The Merchants' Trust Company of Los Angeles announces that G. G. Blymyer has been placed in charge of its bond department, dealing in railroad, municipal and corporation bonds and Eastern commercial paper. Mr. Blymyer was formerly with the banking and bond house of Plympton, Gardiner & Co. of New York and Chicago.

—John Harlan has replaced L. A. McConnell as Vice-President of the National Bank of Commerce, Los Angeles.

—The Harbor Bank of Oakland, Cal., has filed articles of incorporation. It is to have an authorized capital of $200,000. The incorporators are A. Kendall, J. F. Rooney, Frank W. Bilger, H. B. Belden, H. C. Coward, B. F. Woolner, John J. Haynes, John J. McDonald, George Samuels, J. R. Tallman and A. G. Taft.

—The Bank for Savings in Seattle, Wash., for which articles of incorporation were filed recently, opened for business on the 16th inst. The capital is $400,000. The institution will not enter the commercial field, but will conduct purely a savings bank business.

Monetary and Commercial English News

(From our own correspondent.)

London, Saturday, March 16 1907.

The heavy fall in New York this week has over-shadowed all other considerations in this market, and has brought about a general decline here. At one time, indeed, on Wednesday there was an exceedingly apprehensive feeling, for the fall in American securities was accompanied by a fall in consols and all other Government securities. To what the fall in British Government securities was due is much debated in the market. By some it is attributed to selling on the part of large operators who had lost heavily in Americans. By others it is accounted for by supposing that some of the insurance companies which had lost heavily because of earthquakes and unfavorable marine policies have been selling.

Whatever the true explanation, all British Government securities have declined during the week, and this has given rise to alarmist rumors. One was to the effect that a discount company was in difficulties. Whether the discount company works in London or upon the Continent, no two versions of the rumor agreed. That the rumors were quite false is certain. The large British discount companies are so very strong that a fall of one or two points in British Government securities would certainly not involve them in difficulties. Even the small discount companies could hardly be driven to sell on the scale that would have brought about the fall of this week by such a decline as has taken place. As that came to be recognized, the version was modified, and it was said that the discount company was a Berlin or a Hamburg company. Again versions varied. The best German authorities assert that both statements are absolutely false; that there is no difficulty in any discount house or of any company dealing in money either in Berlin or in Hamburg. However, the rumors had their effect in alarming holders and leading them to sell.

There has up to the present been no material recovery. There have of course been ups and downs, but upon the whole consols are even lower than on Wednesday. At the fortnightly settlement which closed on Thursday there were two failures. One of them was of a firm, the head of which had been a member of the Stock Exchange for 49 years. The firm had at one time a very large business, and though the business has shrunk, still it stood well in the House. It is believed that its misfortune is due not so much to over-speculation on its own part as to reckless gambling on the part of a client whom it trusted unwisely.

All departments of the Stock Exchange shared more or less in the decline, but the department which suffered least has been that for South African mining shares. The speech made by General Botha, the new Prime Minister of the Transvaal, has made an exceedingly good impression. He declares that his policy will be loyalty to the flag and an earnest endeavor to unite the two great white races. Telegrams from Mr. J. B. Robinson, one of the important mining magnates, have also made a favorable impression. He declares that the mines with which he is connected are able to secure as many native laborers as they require. In fact, he states that he is at present compelled to refuse offers of laborers because he has not ready accommodation for them on the Rand.

In Paris the Bourse has been very unfavorably affected by the state of the New York and London Stock Exchanges. Moreover, the dislike of the Income Tax Bill grows stronger; and, what is still more serious, there are again apprehensions regarding Germany. Germany alleges that France is overstepping the authority given to her by the Algeciras Conference. In other words, France and Germany differ as to the interpretation to be put upon the convention adopted by the Conference. France alleges that she cannot give way; that if she showed that she is not free to act in Morocco she would encourage the Mussulmans of Algeria to revolt; and that therefore her position in Algeria makes it indispensable for her that she shall have a free hand in Morocco. Germany, it is feared, is unwilling to agree, and consequently there has been more or less of apprehension in Paris this week, and there has been heavy selling of copper and diamond shares, which recently had such a very remarkable rise.

In Germany, also, there is an unsettled feeling. On the one hand, there is anxiety because it is believed that the negotiations between this country and Russia are progressing most favorably, and therefore Germans fear that they may find themselves confronted by a coalition of England, Russia and France. The fear is quite ungrounded, unless of course Germany meditates offensive action. Still the fear exists. Moreover, there is a fear in certain sections of society in Germany that the Emperor, dissatisfied with his isolation, may effect a coup d'etat. These political apprehensions have added to the effect of the fall in New York and business has been exceedingly dull in Berlin. Lastly, the unfavorable impression has been heightened by the rise of the Bank of the Netherlands rate of discount. In the Netherlands speculation, especially in Americans, has been rampant for some time past, and as gold was being shipped very freely to New York the Bank of the Netherlands judged it to be essential to put up its rate to protect its reserve. Money in London, in consequence of all the foregoing, is exceedingly stringent, the rate for three months' bills being 5 to 5¼%.

The India Council offered for tender on Wednesday 80 lacs, and the applications exceeded 308 lacs, at prices ranging from 1s. 4 1-16d. to 1s. 4 5-32d. per rupee. Applicants for bills at 1s. 4 1-16d. and for telegraphic transfers at 1s. 4⅛d. per rupee were allotted about 5% of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last four years.

Messrs. Pixley & Abell write as follows under date of March 14:

GOLD.—The Bank succeeded in buying the gold in the open market, amounting to about £250,000, but only by putting the price up to ¾d. so as to avoid the American demand. Since our last, the Bank has received £942 000, of which £663,000 is in bars, £206,000 in U. S. gold coin from Paris and £73,000 in French gold. Against this, £1,060,000 has been withdrawn, consisting of £500,000 on Indian account and £560,000 sent to South America. For the week: Arrivals: Cape, £376,000; Australia, £6,000; total, £382,000. Shipments—Bombay, £116,800; Colombo, £8,500 Calcutta, £45,000; total, £170,300. For the month of February: Arrivals—Germany, £180,000; Egypt, £750,000; Brazil, £30,000; South Africa, £1,878,000; India, £209,000. Shipments—Egypt, £200,000; Brazil, £877,000; Argentine, £1,020,000; India, £691,000.

SILVER.—The market rallied to 31 15-16d. on some inquiry for the Indian Bazaars, but this was soon satisfied and, with some signs of the Indian Government being less eager to buy, the price reacted to 31 7-16d., at which the market closes dull. Forward is now ¼d. under cash. The Indian price is Rs. 80¼ per 100 Tolahs. For the week: Arrivals—New York, £317,000; Chili, £8,000; total, £325,000. Shipments—Bombay, £136,200; Colombo, £2,500; Calcutta, £203,300; Singapore (coins), £61,500; total, £403,500. For the month of February: Arrivals—U. S. A., £719,000; India, £150,000; France, £47,000. Shipments—India, £1,839,000; France, £258,000.

MEXICAN DOLLARS.—There is no business to report in dollars. Arrivals—New York, £45,000; Shipments—Bombay, £10,200; Calcutta, £128,400; total, £168,600.

The quotations for bullion are reported as follows:

GOVERNMENT REVENUE AND EXPENDITURES.—Through the courtesy of the Secretary of the Treasury, we are enabled to place before our readers to-day the details of Government receipts and disbursements for the month of February. From previous returns we obtain the figures for previous months, and in that manner complete the statement for the eight months of the fiscal years 1906-07 and 1905-06. *For statement of February* 1906 *see issue of April* 21 1906, *page* 908.

21	Standard Cordage Co. com. 4		

DIVIDENDS.

We have changed the method of making up our weekly list of dividends. Heretofore our record has included only the dividends announced each week, but for the convenience of our readers we now enlarge the scope of the compilation so as to show also dividends previously declared, but the date of payment of which has not yet arrived. In the new form the statement indicates all the dividends announced for the future by all large or important corporations.

Dividends announced this week are printed in italics.

a Transfer books not closed. *b* On account of deferred payments. *c* Two per cent declared, five-eighths thereof payable April 1 and three-eighths held up awaiting outcome of legal proceedings. *e* On account of accrued dividends to date. *f* Also 1½% on common, payable Oct. 15 1907.

Statement of New York City Clearing-House Banks.—The following statement shows the condition of the New York City Clearing-House banks for the week ending March 23. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

We omit two ciphers (00) in all cases.

Banks 00s omitted.	Capital.	Surplus.	Loans.	Specie.	Legals.	Deposits. a	Reserve

a Including for Boston and Philadelphia the item "due to other banks" and also Government deposits. For Boston these Government deposits amounted on March 23 to $3,479,000; on March 16 to $3,478,000.

Imports and Exports for the Week.—The following are the imports at New York for the week ending March 23; also totals since the beginning of the first week in January:

FOREIGN IMPORTS AT NEW YORK.

For week.	1907.	1906.	1905.	1904.
Dry Goods	$4,687,839	$3,300,592	$3,044,331	$2,374,075
General Merchandise	16,111,624	11,102,847	10,219,739	8,914,699
Total	$20,799,463	$14,403,439	$13,264,070	$11,288,774
Since January 1.				
Dry Goods	$50,106,131	$43,377,562	$38,054,971	$33,744,666
General Merchandise	162,934,044	135,014,244	141,107,617	118,654,421
Total 12 weeks	$213,040,175	$178,391,806	$179,162,588	$152,399,087

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending March 23 and from Jan. 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1907.	1906.	1905.	1904.
For the week	$12,690,296	$11,645,328	$9,212,177	$10,030,901
Previously reported	137,647,217	138,230,571	112,737,110	110,531,392
Total 12 weeks	$150,337,513	$149,875,899	$121,949,287	$120,562,293

The following table shows the exports and imports of specie at the port of New York for the week ending March 23 and since Jan. 1 1907, and for the corresponding periods in 1906 and 1905:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold	Exports. Week.	Exports. Since Jan. 1	Imports. Week.	Imports. Since Jan. 1
Great Britain	-----	-----	-----	$754,673
France	-----	-----	$241,250	331,087
Germany	-----	-----	938,434	1,033,634
West Indies	$200	$347,090	32	94,712
Mexico	-----	-----	1,759	38,819
South America	-----	1,355,336	30,462	540,895

Wall Street, Friday Night, March 29 1907.

The Money Market and Financial Situation.—Influences which recently caused an almost unprecedented decline in Stock Exchange values have been more or less effective throughout the week. They were decidedly so on Monday, when of a list of thirty prominent and active stocks, fifteen made a lower record than on the previous sharp decline, March 14th. Since Monday there has been a fairly substantial recovery and a somewhat more hopeful feeling in the Street. The latter is stimulated by the action of the Secretary of the Treasury in depositing customs receipts in national banks, by the judicial decision in Minnesota declaring that the Great Northern Railway has a right to issue the proposed $60,000,000 of new stock, by some abatement of the tension that recently existed in financial circles abroad, by the engagement of $1,625,000 gold in London for shipment to New York, and by easier money market conditions here. Moreover, the fact that no failures of Stock Exchange houses have resulted from the enormous shrinkage of values during the past three months is regarded with favor.

On the other hand, some of the railway traffic reports recently given out show a considerable decrease in net earnings, and the threatening attitude of railway labor in certain sections of the West is causing more or less uneasiness.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2½ to 14%. To-day's rates on call were 2¾@5%. Prime commercial paper quoted at 6@6½% for endorsements and 6@6½% for best single names.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £1,137,614, and the percentage of reserve to liabilities was 40.95 against 44.00 last week.

The discount rate remains as fixed Jan. 17 at 5%. The Bank of France shows a decrease of 6,250,000 francs in gold and 975,000 francs in silver.

NEW YORK CITY CLEARING-HOUSE BANKS.

	1907. March 23.	Differences from previous week.	1906. March 24.	1905. March 25.
	$	$	$	$
Capital	125,800,000	----------	116,472,700	115,972,700
Surplus	155,486,700	----------	145,655,100	137,656,500
Loans and discounts	1,049,989,600	Dec. 3,587,000	1,029,333,600	1,109,701,700
Circulation	50,920,300	Dec. 642,000	51,359,700	43,059,800
Net deposits	a1002,144,600	Dec. 1,829,800	1,013,071,300	1,150,661,900
Specie	184,974,400	Inc. 1,520,000	182,424,500	210,350,200
Legal tenders	70,271,200	Dec. 301,100	77,207,100	83,794,600
Reserve held	255,245,600	Inc. 1,218,900	259,631,600	294,144,800
25% of deposits	250,536,150	Dec. 457,459	253,267,825	287,665,475
Surplus reserve	4,709,450	Inc. 1,676,350	6,363,775	6,479,325

a $14,512,100 United States deposits included, against $14,583,400 last week and $11,815,200 the corresponding week of 1906. With these United States deposits eliminated, the surplus reserve would be $8,337,475 on March 23 and $6,678,950 on March 16.

Note.—Returns of separate banks appear on the preceding page.

Foreign Exchange.—The market was active and higher at the beginning of the week, owing to unsettled conditions abroad, later falling because of large offerings of security bills and the successful adjustments on the foreign bourses, and it recovered by the close on easy money.

To-day's (Friday's) nominal rates for sterling exchange were 4 80 for sixty day and 4 84½ for sight. To-day's (Friday's) actual rates for sterling exchange were 4 7875@4 79 for long, 4 8310@4 8315 for short and 4 8390@4 84 for cables. Commercial on banks 4 7830@4 7840 and documents for payment 4 77¾@4 79¼. Cotton for payment 4 77¾@4 78¾, cotton for acceptance 4 7830@4 7840 and grain for payment 4 79@4 79¼.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 26¼@5 25⅝ for long and 5 23⅛*d*@5 23⅛ for short. Germany bankers' marks were 93 7-16@93½ for long and 94 3-16*d*@94 3-16 for short. Amsterdam bankers' guilders were 39 81@39 83 for short.

Exchange at Paris on London to-day 25f. 29c. Week's range 25f. 30½c. high and 25f. 29c. low.

The week's range for exchange rates follows:

	Long	Short	Cables
Sterling, Actual			
High	4 7925 @4 7935	4 8365 @4 8375	4 8435 @4 8450
Low	4 7865 @4 7870	4 8310 @4 8315	4 8390 @4 84
Paris Bankers' Francs—			
High	5 26¼ @5 25⅝	5 23¼ @5 22½	----------
Low	5 26¼ @5 25⅝	5 23¼*a* @5 23⅛	----------
Germany Bankers' Marks—			
High	93½ @ 93 9-16	94 3-16 @ 94 5-16	----------
Low	93⅝ @ 93½	94 3-16 @ 94¼	----------
Amsterdam Bankers' Guilders—			
High	----------	39 15-16 @ 39¾	----------
Low	----------	39 81 @ 39 83	----------

Low [illegible] 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus [illegible] 1-16 of 1%. *x* 1-32 of 1%. *y* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah buying 50c. per $1,000 discount; selling 75c. per $1,000 premium. Charleston selling $1 per $1,000 premium. New Orleans bank 75c. per $1,000 discount; commercial $1 per $1,000 discount. Chicago 25c. per $1,000 premium. St. Louis 30c. per $1,000 premium. San Francisco 40c. per $1,000 premium.

State and Railroad Bonds.—No sales of State bonds have been reported at the Board this week. The market for railway bonds, which was more active than usual and irregular during the early part of the week, has become relatively dull and narrow. A few issues are fractionally higher but a large proportion of the active list is down an average of about one point. Convertible issues have been weak features, but declines are by no means limited to this class of bonds.

United States Bonds. Sales of Government bonds at the Board include $1,000 3s coup. 1908-18, at 103¾, $5,000 4s coup., 1925, at 130½ and $15,000 4s reg., 1925 at 130¾. The following are the daily closing quotations; *for yearly range see third page following.*

* This is the price bid at the morning board; no *sale* was made.

Railroad and Miscellaneous Stocks.—The stock market has been more active this week than last, and prices have fluctuated more widely. The daily transactions have averaged about 1,250,000 shares, those of nearly 1,700,000 shares on Monday being offset by the small aggregate of to-day. Practically the entire list has covered a range of from 3 to 19 points within the week, and a majority of net changes are to a higher level, notwithstanding the heavy decline of Monday noted above.

Canadian Pacific has been the most exceptional feature. It sold at 155¼ on Monday and 182½ to-day—an advance of over 27 points. Other trans-continental stocks have been notably strong, including Union Pacific, Northern Pacific and Great Northern. Delaware & Hudson and Reading both close 13 points above the low price of Monday and Illinois Central 11½ points.

The copper stocks sold down on a decline of the metal, but all except Amalgamated close higher than last week. United States Steel common is fractionally lower, and the preferred is over a point down.

For daily volume of business see page 739.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Outside Market.—The market for unlisted securities suffered a sharp break at the beginning of the week, but the turn in sentiment on the Stock Exchange also brought improvement on the Curb, leading to a substantial recovery throughout the list. The copper stocks were especially prominent, United Copper common, after a slump from 65½ to 52¼, moving up to 59, the close to-day being at 58¼. A quarterly dividend of 1¾% was declared, placing the stock on a regular 7% basis. Butte Coalition dropped from 29⅞ to 19½, advanced to 27¼ and closes to-day at 26⅞. Greene Cananea, after a decline from 15⅞ to 14, ran up to 16, closing to-day at 15¾. Greene Consolidated Copper lost about 3 points to 20⅝ but recovered to 23⅝. Boston Consolidated Copper went down from 26⅜ to 20¾, reacting finally to 23⅛. Davis Daly Estates from 11⅜ went down to 12 and up again to 13½. Nevada Consolidated Copper declined from 14¼ to 12 but advanced again, reaching 14¾ to-day. Trinity Copper lost 8 points to 15 but reached 25 to-day. Newhouse moved down from 21⅛ to 18¾, then up to 21½. Nipissing was active and from 12¼ declined to 10⅞, recovered to 12⅝ and ends the week at 12½. Among industrials, Standard Oil was conspicuous for a break from 507½ to 491, but closed to-day at 499½. Waterbury Company common from 50½ advanced to 51 but later sold down to 52¼. Chicago Subway fluctuated widely; after dropping from 16 to 14¼ it moved up to 20½, the close to-day being at 19. A decision in favor of a stock issue was followed by a drop in Great Northern "rights" from 14¾ to 9¼, owing to the necessity which this involved of the early payment of several installments of the subscription price; the close to-day was at 10⅝. Outside quotations will be found on page 739.

Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

ROADS.	Latest Gross Earnings. Week or Month.	Current Year.	Previous Year.	July 1 to Latest Date. Current Year.	Previous Year.

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of March 23 1907. The next will appear in the issue of April 20, 1907.

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

d The company now includes earnings of the Denver Enid & Gulf RR., Pecos Valley system and Santa Fe Prescott & Phoenix Ry. in both years. For February taxes and rentals amounted to $189,354, against $199,259 in 1906, after deducting which, net for February 1907 was $2,197,145, against $2,484,295 last year. From July 1 to Feb. 28 1907 taxes and rentals were $1,664,079, against $1,614,134 last year.

h For February 1907 additional income was $6,006, against $5,903 in 1906, and from July 1 to Feb. 28 was $35,779 in 1907, against $38,500 in '06.

k For February 1907 additional income was $9,767, against $7,266 in 1906, and from July 1 to Feb. 28 was $164,229 in 1907, against $121,091 in 1906.

g These results are in Mexican currency.

o Including other income, total income (exclusive of results of coal companies) for February is $496,407 in 1907, against $548,093 in 1906, and for period from July 1 to February 28 is $9,640,641 in 1907, against $8,986,181 in 1906. Deductions from total income for additions and improvements were $93,168 in February 1907, against $23,218 in 1906, and for July 1 to February 28 were $1,355,904 in 1907, against $904,186 last year.

v These figures were erroneously published last week as the earnings of the Cuyahoga Telephone Co.

Interest Charges and Surplus.—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus above or deficit below these charges:

a Figures for the month in both years include operations of the Scranton Ry., acquired Jan. 1 1906. *b* Figures are from Feb. 1. *c* These figures are for consolidated company. *d* These are results for main line. *f* Now includes Rapid Ry. Syst., Sandwich Windsor & Amherstburg Ry. and Detroit Monroe & Toledo Short Line Ry. *h* These are early preliminary returns; decrease due to earthquake, fire and strike among employees, Aug. 26 to Sept. 5 1906. *k* Decrease due to Lewis & Clark Exposition last year. *n* Figures are for all departments.

Street Railway Net Earnings.—In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month we bring together all the roads reporting as is done to-day.

ANNUAL REPORTS.

Annual Reports.—The index to "Annual Reports," which is omitted to-day, will be found in Chronicle of last week.

Lake Shore & Michigan Southern Ry.

(*Report for Fiscal Year ending Dec.* 31 1906.)

On pages 753 to 755 inclusive is published the report in full, signed by Mr. W. H. Newman, President; also the balance sheet and comparative tables of traffic, equipment, &c.

The comparative statistics for four years, compiled for the "Chronicle," are as follows:

Chicago Great Western Railway.

(Report for Half-Year ending Dec. 31 1906.)

At the general meeting held in London on March 6, an issue of $3,873,000 debenture stock was authorized (see the offering on a subsequent page of this issue), and two new men were elected to the London finance committee: Sir Edward P. Tennant, Bart., M. P., who holds and represents a large interest in the company's securities, to succeed his father, the late Sir Charles Tennant; and Walter Cunliffe, a director of the North Eastern Ry., who takes the place of the late Chairman, Howard Gilliat. The other members are Alexander F. Wallace and Edwin Waterhouse. The following information was also furnished by the officers of the company:

Extracts from Remarks of Chairman A. F. Wallace.

The gross earnings during the past six months, as compared with those of the corresponding half of 1905, show an increase exceeding $440,000, but this has been mainly swallowed up in increased expenses, because, in addition to a rise in the cost of labor and railway materials, which always occurs in times of great activity, the railway has suffered from the carrying capacity of the Chicago division being no longer sufficient for the traffic offering, with a consequent congestion entailing loss of earning power of engines and wagons and expenditure in wages bringing in no return. Your management has long foreseen that this division would have to be double-tracked sooner or later, and a commencement was made some time ago. It is proposed to continue the work during the coming season, and it is hoped that sufficient will have been done before next autumn to materially relieve the congestion.

Mr. Oppenheim, the Vice-President, came over here early in the year to consult with us as to capital expenditures during 1907. In view of the condition of the security markets, the finance committee expressed to him the view that such expenditures should be kept as low as possible. But we have felt that in the best interests of the property, the directors ought to be provided with such funds as are necessary to enable the company to handle the business which is offering. Accordingly, we have approved a resolution of the directors calling for the issue of 4% debenture stock ($3,873,000).

Statement by Vice-President Oppenheim.

At no time since last July has the company been able to fill orders for cars, either at local or terminal points. Our average shortage has been from 800 to 1,500 cars per day. The double tracking of the Chicago division will in a great measure relieve this congestion, reduce expenses, give us greater use of our equipment, and increase both our gross and net earnings.

(In reply to the query, "What is the unpaid balance of capital expenditure?") It is very hard to say exactly. I should say it would amount to between $300,000 and $400,000. (Q. Are there any temporary loans which would have to be met out of this issue?) There is one loan of $150,000 that we made just before I left; I should say the total to be met would be about $500,000. It is impossible to say exactly.

Semi-Annual Report of President A. B. Stickney dated Feb. 9 1907.

The following is a statement of the earnings and operating expenses for the six months ending Dec. 31 1906:

Six Months —	1906.	1905.	*Inc. or Dec.*
Gross earnings	$5,072,125	$4,627,330	+$444,795
Operating expenses	3,500,071	2,928,220	+571,851
Net earnings	$1,572,054	$1,699,109	—$127,055
Interest on debenture stock and all prior charges	1,052,555	1,027,065	+25,490
Net balance	$519,499	$672,044	—$152,545
Percentage of expenses to earnings	69.00%	63.28%	+5.72%

The decrease in net earnings is more a matter of book-keeping than real, because last year there was a necessary deduction from net earnings of $204,998, which left the actual net for the half year ending with Dec. 1905 $1,494,112, against $1,572,054 in the present half year. It will be noticed that the net balance, after paying interest on debenture stock and all prior charges in the half-year, is substantially sufficient to pay a full year's dividend on the preferred A stock. The board of directors have declared a dividend of $2 50 per share on the preferred stock A out of the earnings of the six months ending Dec. 31 1906, payable April 1 1907, and the balance, $236,076, has been carried forward as available for the payment of the next dividend on the preferred stock A.

The gross earnings are now limited to the capacity of the Eastern (Chicago) Division, which receives the load of the three other divisions reaching respectively Kansas City, Omaha and St. Paul and Minneapolis; and the expenses are increased by the reason that the amount of traffic carried upon that division is more than can be economically transported. At the same time a very large increase of traffic in the immediate future is plainly foreseeable. Minneapolis, St. Paul, Omaha and Kansas City are increasing in business and population as rapidly as in 1885 to 1890, during which five-year period their population increased more than 100%. Heretofore, the traffic of the local territory has been confined to agriculture, but the last year or two has developed a manufacturing growth heretofore entirely unknown. Thus, Waterloo, which ten years ago had a population of about 8,000 people, has increased to over 20,000 people by reason of manufacturing developments. During the last year 1,000 acres of stone, suitable for making Portland cement, has been discovered at Mason City, and one cement mill with a capacity of 3,500 barrels a day is now under construction, which is immediately to be increased to 7,000 barrels per day, and two other mills of equal capacity are in contemplation. The practically inexhaustible gypsum mines at Fort Dodge are assuming increased importance through the use of their product in the manufacture of plaster board, a fire-proofing material, as well as for plastering, a fertilizer, etc. A large beet sugar factory is building at Waverly, Ia. Two large terminal elevators have been built on our tracks in Omaha; large flour, malt and linseed oil mills are under contract to be built on our tracks at Minneapolis. And the traffic of the smaller industries always exceeds the larger.

The Eastern Division must be double-tracked within the next few years by building short sections where most needed each year. Besides, more equipment and enlarged facilities at all points must be provided for. Our gross earnings have increased from $5,867,739 in 1899 to $8,573,148 in 1906, or over 46%, and the net earnings from $1,720,223 in 1899 to $2,539,492 in 1906, or over 48%.

During the calendar year ending with Dec. 1906 there has been expended in necessary improvements upon the lines, and in the purchase of rolling stock, approximately $2,000,000, which is several hundred thousand dollars in excess of the amount of cash which had been provided, which excess has been provided for by temporary loans. Considerable work has been commenced that has not been completed, among which may be mentioned the building of 25 miles of second track on the Eastern Division, which has been graded, bridges built, and is now ready for track laying.

The board of directors, therefore, has adopted (substantially) the following resolution (which the security holders duly ratified at the meeting on March 6.—Ed.):

"*Whereas*, at the extraordinary general meeting held on Jan. 30 1899, $8,000,000 of 4% debenture stock was authorized to be issued, of which only $6,900,000 has been issued, leaving unissued ---------- $1,100,000
and at the extraordinary general meeting held on March 20 1902 $3,437,000 of 4% debenture stock was authorized to be issued, of which only $2,700,000 has been issued, leaving unissued ---------- 737,000
and of the amount thus authorized and issued there has been canceled ---------- 1,450,000

making a total authorized and not issued, and if issued, canceled ---------- $3,287,000

"*And Whereas*, the specific purposes for which such $3,287,000 of unissued and canceled stock was appropriated have been accomplished with cash obtained from the sale of notes, and therefore said stock is no longer available;

"*Now, Therefore, Be It Resolved*, That the authorities for issuing said $3,287,000 of 4% debenture stock be hereby revoked;

"*Now, Therefore, Be It Resolved*, That an additional $3,873,000 of 4% debenture stock, ranking pari passu with the present outstanding 4% debenture stock should be issued, the proceeds thereof to be devoted to the payment of the unpaid balance of capital expenditures made in the calendar year 1906; to the payment of the cost of completing 25 miles of second track on the Eastern Division between Galena Junction and Stockton; to constructing such additional second track on the Eastern Division as the directors may deem desirable, and for such other capital expenditures as the directors may deem desirable."—V. 84, p. 693, 626.

Washington (D. C.) Railway & Electric Company.

(Report for Fiscal Year ending Dec. 31 1906.)

President Allan L. McDermott, under date of Washington, D. C., March 1, says in substance:

General Results.—The combined properties for 1906 show an increase in gross earnings of $227,333, or 7.82%; in operating expenses of $134,630, or 9.10%; in net earnings of $92,703, or 6.50%; a decrease in miscellaneous income of $5,958, or 11.79%; an increase in fixed charges of $41,663, or 4.17%, and in surplus from the years operations of $45,082, or 9.42%. While the total operating expenses increased $134,630, or 9.10%, the cost of maintenance increased $64,612, or 20.59%, partly due to the fact that your properties have been maintained in better condition than heretofore, but more to the large increase in the cost of materials.

Bonds, &c.—There are in the treasury consolidated mortgage 4% bonds of the par value of $1,078,600. Of these bonds $351,600 were, under the plan of reorganization, delivered to the company and have been credited to depreciation reserve; $227,000 were issued to cover expenses of extensions and betterments paid for out of surplus earnings and $500,000 were purchased for investment in open market. [These bonds, listed at $994,671 and pref. stock listed at $64,350 and common stock listed at $23,400, make up the item of $1,082,421 shown in the balance sheet below.—Ed.]

During the past year the funded debt has been increased by the issue of $253,000 consolidated mortgage 4% bonds to provide for new construction, extensions and improvements, mainly additional cars and electrical equipment.

There have also been issued $250,000 consol. mortgage 4% bonds in lieu of a similar amount of Metropolitan RR. Co. certificates of indebtedness, series "A," which matured Oct. 1 1906.

New Guaranteed Bonds, &c.—On June 23 1906 the directors of the Potomac Electric Power Co. authorized a new mortgage for $7,000,000, pursuant to resolutions of the stockholders. The bonds under this mortgage are guaranteed as to principal and interest by the Washington Railway & Electric Co. They are to be applied as follows: (1) $1,700,000 are retained to pay the bonds issued under the mortgage of 1904; (2) $650,000 are retained to pay $300,000 debenture improvement bonds and $350,000 certificates of indebtedness due May 1 1907; (3) $4,650,000 may be issued for the purchase of real estate, betterment and extensions. (Compare V. 84, p. 142, 342; V. 83, p. 100.)

Twelve and a half acres of land on Bennings Road were purchased and a new central power station was there erected and equipped. The power station is now in operation and necessary sub-stations, cables, conduits, &c., have been installed. Of these bonds, there were issued during the year 1906 $1,000,000. None of the controlled companies has any floating debt except such as is owned by the Washington Railway & Electric Co.

Chicago City Railway.

(Report for Fiscal Year ending Dec. 31 1906.)

President T. E. Mitten, Chicago, Feb. 16 1907, writes:

Earnings.—The gross earnings for the year increased $549,046, or 7.5%. The statistics show that 60.59% of passengers paying fare took advantage of transfers, as against 60.42% for the preceding year; the average fare being the same as last year, namely, 3.1 cts. per passenger carried. The total expenses were increased $503,698, or 8.93%. This increase was due largely to the increased volume of business, to which must be added the heavy track-repair account and the increased interest charges on borrowed money, due to the large sums being expended for new cars and construction of power plants and other buildings. The net income increased $45,349, or 2.7%, and the surplus for the year was $104,822 21, an increase of $45,349.

Improvements.—The 200 cars purchased during 1905 having proved satisfactory, 100 additional cars of the same type were purchased and placed in service.

The use of cable lines and horse cars has been discontinued, and all our lines are now operated electrically. In order to meet the demand for increased power occasioned by operating the entire system electrically, marked additions have been made to the sub-station power plants. The buildings have been enlarged and additional machinery installed, the rated capacity of the generating plants and sub-stations combined being now approximately 35,000 horse-power, an increase of 10,000 horse-power.

A new paint shop with a capacity of 150 cars has been completed at 77th St., adjacent to the general repair shops. A modern office building for use as divisional headquarters has also been completed at the same location. Two new car stations of large capacity are in course of erection. Portions of the track on 26th St., 31st St., 43d St., 47th St., 51st St., 63d St., Ashland Ave., Halsted St. and Centre Ave. have been re-constructed.

The eliminating of grade crossings still continues. This is occasioned by city ordinance compelling railroads in certain sections to elevate their tracks, and cross our tracks by means of overhead bridges. The expense to the company during the year as a result of this track elevation approximated $100,000; this expenditure will be reflected later in decreased operating expenses, as faster schedules can be maintained, and the abolition of grade-crossing accidents will result.

Material improvements in the fire risk at the several power houses and other buildings have been effected which has considerably decreased the possibility of loss by fire. These changes have also served materially to decrease the rate of insurance for the current year.

Havana Electric Railway Co.

(Report for Fiscal Year ending Dec. 31 1906.)

President Edwin Hanson, under date of New York, Feb. 26, says in substance:

The gross earnings of the railway system for the year show an increase over 1905 of some $105,000, or a little over 7%, but the operating expenses increased by some $184,000. The stage lines for 1906 did somewhat better than for 1905, but the result of the whole operations, including interest on the increased funded debt, has been a decrease in the net earnings of some $68,000. During the year there was a strike of the motormen and conductors, trouble caused by the revolution, and these, added to great difficulties encountered regarding the coal supply and the increased cost of labor and materials, account for the greatly increased cost of operation. Under all the adverse circumstances encountered the directors think the result may be regarded as satisfactory.

Permits for large extensions (about 24 miles) to the company's lines have been applied for, but up to the present time official sanction to these has not been granted. It is hoped this matter will be favorably resolved within a short time.

Large expenditures, however, have been made during the year on capital account for new cars, car construction shops, car barns, additional power-house equipment, &c., the details of which will be found in the report of the General Manager.

The stage lines continue to do a very satisfactory business.

Gerald L. Hoyt resigned his seat on the Board of Directors, and his place was taken by E. P. Bryan, President of the Interborough Rapid Transit Co. of New York.

General Manager G. F. Greenwood writes in part:

The company has made the following additions to the property: Finished double-tracking the Insular Ry. from Havana to Marianao. Built and equipped 40 cars and partly built 36 additional cars, and purchased material to construct 30 more cars. Built a large extension to the car shops at Carmelo; constructed a new storage and terminal yard at the Puntilla in Carmelo, including all necessary tracks, switches, sheds and offices, as well as a wharf for receiving lumber and other supplies at the mouth of the Almendares River. Four new boilers have been installed in the power-house; the Palatino extension has been paved with block stone; a new electric crane has been purchased and installed for handling coal in the coal storage yard at the Puntilla; several new tools have been purchased for the repair shops; 40 box freight cars and 5 locomotives have been purchased and built ready to run and fulfill your contract with the Cuban & Pan-American Express Co. The above construction and equipment has cost approximately $800,000.

American (Bell) Telephone & Telegraph Co.

(Report for Fiscal Year ending Dec. 31 1906.)

President Frederick P. Fish March 26 1907 writes in substance as follows. (The reports of the several subsidiary companies will be given in a later issue of the "Chronicle."—Ed.)

Increase in Business.—The number of exchange stations Dec. 31 1906 operated by the companies which constitute our system in the United States was 2,727,289, an increase of 485,922. In addition to this number there were 297,220 exchange and toll stations operated by so-called sub-licensees. Adding also private lines, our companies had a total of 3,068,833 stations, as against 2,528,715 stations Dec. 31 1905. The total mileage of wire in use for exchange and toll service was 7,468,905 miles, of which 1,688,987 were added during the year. These figures do not include the mileage of wire operated by sub-licensees.

Including the long-distance lines, but excluding sub-licensees, the daily average of toll connections was about 462,000, and of exchange connections about 16,478,000, as against 368,000 and 13,543,000 respectively in 1905.

Construction.—The amount added to construction and real estate by all the companies, excluding sub-licensees, constituting our system in the United States during the year 1906, was $79,366,949 viz.: For exchanges, $59,971,094; for toll lines, $13,585,659; for land and buildings, $5,810,196. The amount added in 1904 was $33,436,700 and in 1905 $50,780,906, making the grand total of expenditure upon these properties during the last seven years $298,914,255.

During 1906 the amount expended for maintenance and reconstruction, independent of construction, by all the Bell telephone companies in the United States was $32,814,568. This amount came from the earnings, and was charged into the expenses of the year. As a result the plant is in a better condition than ever before. That plant could not be reproduced for less than $70,000,000 in excess of its cost. The scrap value of the lead and copper in the lines and cables alone is not less, at present prices, than $80,000,000.

The amount contributed by the American Telephone & Telegraph Co. in 1906 by way of investment in its own long-distance plant ($5,642,000), in telephones ($1,737,000), in real estate ($330,000) and in the purchase of stock and bonds and in loans to its operating companies ($53,432,000), was in all $61,141,000, an addition of almost 26% to its entire investment up to Jan. 1 1906.

Position with Respect to Independent Companies.—This greatly increased investment was made with the view of lifting the entire business to a distinctly higher plane specifically and as compared with its competitors. Your directors believe that because of it the position and business of the Bell companies were never so secure as at the present time. While there still remains much to be done, particularly in some places, the improvement, generally speaking, has been marked and constant.

The effort has been made to design buildings and provide central-office and toll-line equipment that will not be exhausted in a short time. At the present time not less than $25,000,000 are invested in circuits in cable that are not yet in use, and pole and conduit facilities are now installed which will take care of a very large number of cables over and above those that now exist. Large expenditures will be required in the future, as in the past, to enable our companies to do the business that is forced upon them, and it is the opinion of your directors that the additions will not only result in a proper return, but will create an adequate revenue from the portion of the plant that has not yet been utilized.

As for many years past, there are certain portions of the country in which the return from the business is not satisfactory. These are for the most part localities in which our companies had not been able to cover the field rapidly enough to supply the demand. Except in some of the comparatively few places in which new promotion schemes are being exploited, our competitors are as anxious to raise their rates as they formerly were to do business at a loss. We have now developed our plant and business in most of these localities to such an extent as to have the situation in hand.

The so-called independent telephone companies have, as far as can be learned, except in a few localities, made no relative gain. Comparatively few competing plants have been established during the past two years. A number of franchises have been granted in various cities, but during 1906 and up to the present time substantially no work has been done under any of the franchises in the more important places.

San Francisco Catastrophe in April 1906.—If it had not been for the San Francisco catastrophe, the Pacific States Company would have gained not less than 30,000 subscribers more than it did gain. The telephone plant in San Francisco has been rebuilt, and the service restored to a surprising extent.

Bonds and Notes.—As stated in the last annual report, convertible 4% bonds to the amount of $100,000,000 were sold in Feb. 1906; $30,000,000 were taken and paid for during that year. Construction work proceeded so rapidly that it became necessary for the company to obtain money on short-time notes in anticipation of the payments on the bonds. On Jan. 1 1907 its short time obligations amounted to about $21,000,000. It also became evident that if the great commercial development was to continue, the proceeds from the bonds would not be sufficient to meet the necessary expenditures to the end of the year 1907, as had been expected.

In January 1907, therefore, the company sold three year 5% notes to the amount of $25,000,000. From the proceeds of the securities sold the floating debt will be paid when due, and on May 1 1907 the $20,000,000 3 year 5% notes due that day will be paid.

Revenue of Entire System.—The gross revenue for the year 1906 of all the Bell companies in the United States, taken as a whole and excluding duplications, was over $114,000,000. In spite of the abnormal financial conditions, which involved unusual interest charges, the very great investment in construction, much of which did not become revenue producing during the year, and the high cost of labor and material, the net returns from the business as a whole were not reduced, although there was not the increase which would have been made if the conditions had been more nearly normal. All things considered, the financial results were satisfactory. Your directors believe that for the year 1907 the financial results of the business of your companies will be substantially better than in the year 1906.

The gross revenue of the companies above given does not include the Bell Telephone Co. of Canada (V. 84, p. 695), nor does it take into account the revenue of the Western Electric Co. (V. 84, p. 512). The business of that company for the year 1906 was the largest in its history.

Diamond Match Company.

(Report for Fiscal Year ending Dec. 31 1906.)

President O. C. Barber, Chicago, March 23 1907, says in substance:

General Results.—The year shows earnings greater than those of any year since 1901, the profits being $1,993,770. This result has been accomplished against heavy advances in raw materials and labor, but without any increase in the selling price of matches. The profits during the first three months of the year are usually less than during any other like period, but notwithstanding this fact the first three months of 1907 promise to show larger earnings than those of any previous quarter, indicating a rapidly increasing trade and a most promising outlook for the future.

California Property.—Edwin A. Potter, Granger Farwell and the writer have just returned from California, where they carefully inspected the company's property with very satisfactory results. Up to April 1906 there was a loss incident to the establishment of the new business, but this loss has since been wiped out by the profits. The trade in lumber, sash, doors, blinds, &c., in California, in which Bryant & May are jointly interested with us, has rapidly increased during the past year, and the earnings at that branch are now about $30,000 per month, with the prospect of a still greater profit for the balance of the year.

Option on Additional Timber Land.—Several months ago the company secured an option of purchase on 93,000 acres of timber land, estimated to contain 1,600,000,000 feet, adjacent to our present holdings. If, after examination to be completed by April 15, the figures are fully verified, your board of directors will probably recommend purchase. The price for the lands, mills and a given quantity of manufactured lumber is $1,501,000, and the terms of payment are exceedingly liberal. The importance of this purchase to your company and Bryant & May, Ltd., is fully realized by your board of directors. It would make our total holding something like 180,000 acres, containing approximately 3,500,000,000 feet of timber, which your management believes to be worth from $1 to $4 per thousand feet at the present moment. As there has been expended, together with the Bryant & May Co., between $2,000,000 and $2,500,000 in the erection of a very complete plant for the manufacture of lumber, sash, doors, blinds, match blocks, cases, flooring, moulding, &c., also in logging roads, locomotives, &c., your management considers that this purchase is justified not only by the large prospective profit, but by its effect in prolonging the usefulness of the plant. It is presumed that, with very little addition to our present facilities, 100,000,000 feet of lumber can be manufactured annually, and with the growth of timber, it seems, there should be almost a perpetual forest of good timber from which to draw. Adjacent also is a Government forest reserve of vast extent, from which, from time to time, the ripe timber may be sold, the price at present being fixed at $3 50 per 1,000 feet. Within the past thirty days the Government has withdrawn from the market for settlement 17,000,000 acres of forest lands which are to be held as forest reserve. A large proportion of these lands are on the western slope and in the Western States, which will have the effect of enhancing the value of our present holdings, as well as the value of our option.

Payment of Floating Debt—Financial Plan.—Last year the company called upon you for $1,000,000 to relieve itself of a large floating debt and to provide for building new factories and enlarging its business. The balance sheet shows that we have paid off all our note indebtedness and that we have at present a large cash balance. It is quite evident that the earnings for 1907 will largely exceed those of 1906, but your directors feel that they would prefer to incur no indebtedness if the purchase above referred to is made; and should the reports of our experts warrant us in recommending the purchase, a plan for financing the proposition will be submitted at the annual meeting on May 1. It does not follow that even if the purchase be made it will be necessary to call on you for any money, but if any be asked for, we believe you will be eager to take advantage of the opportunity offered of investing in a property that seems destined to develop great value.

It has been suggested that the lumber business, having become so large and important a business in itself, be segregated from the Diamond Match Co. and a new company organized for that purpose. Whatever method may be recommended, we feel very certain that, when the prospectus is presented to you, it will receive your hearty support.

We feel that in no previous year in the history of the company has the management been more successful in the conduct of its business.

National Fire Proofing Co.

(Report for Fiscal Year ending Dec. 31 1906.)

President W. D. Henry, Pittsburgh, March 6 1907 says:

Earnings and Status.—The earnings for the year, before deducting depreciation for plants and equipment and reserve for adjustments and allowances, were $943,180 (contrasting with $472,053 in 1905 and $636,939 in 1904.—Ed.) The current assets over and above current liabilities on Dec. 31 1906 were $3,010,481; of this sum $1,251,140 represented cash on hand and in banks. The total undivided surplus, after making deductions for dividends, discount and commission on bonds issued, and for arbitrary depreciation of properties was $1,028,612

Improvements.—During the year the sum of $102,503 was spent in improving several of the plants and arranging for a more economical production. The physical condition of the plant has been fully maintained out of operating expenses.

Miscellaneous.—The cost of manufacture per ton has been decreased.

During the year branch offices were established in St. Louis, Cincinnati and Los Angeles.

The fireproofing business in the London Department has begun to show very gratifying results. Work is now progressing on a building in which the fireproofing contract was one of the largest ever awarded in England.

Systems of Fireproofing.—Your company has several very excellent systems of combination hollow tile and reinforced concrete, and during the year has done a large amount of this work. Reinforced concrete is enlarging the uses of hollow porous terra cotta tile; for, if the buildings are properly constructed, the structural parts must be protected from the action of fire, and porous terra cotta tile is the best known material available for this purpose. The cost of reinforced concrete buildings properly constructed and protected from fire is in excess of the systems of standard hollow tile steel frame construction, and the time consumed in the proper erection of a reinforced concrete building is very much greater.

RESULTS FOR CALENDAR YEARS.

Union Natural Gas Corporation, Pittsburgh, Pa.

(Report for Fiscal Year ending Dec. 31 1906.)

President T. N. Barnsdall Feb. 12 1907 writes:

Since the last annual report your company, through its underlying companies, has acquired 73,360 acres of new oil and gas leases and surrendered 34,408 acres that have proven unproductive, and now holds 281,962 acres, an increase during the year of 37,566 acres. We have also purchased 4 gas wells and drilled 84 wells, of which 78 were gas wells, 1 oil well and 5 unproductive; and now have a total of 4 oil wells in Ohio, 407 gas wells, in Ohio and Pennsylvania, and, through ownership of stock in the Reserve Gas Co., a one-half interest in 102 wells in West Virginia.

There were laid in main lines 28½ miles, in field lines 67½ miles, in extension in cities and towns 31¼ miles, a total of 127¼ miles of pipe. The amount of the foregoing investment aggregated over $500,000.

The number of consumers has been increased in cities operated by your company as follows:

Domestic	8,363
Special	167
Total	8,530

The total number of meters now are 76,002, of which 74,348 are domestic and 1,654 special rate consumers. The increased number was due to the growth of the service in cities already on the line. No new distributing plants were installed during the year.

Disposition of Surplus of Year 1906.

Net increase in investment, including 127¼ miles of pipe, $187,258; meters, services, &c., $91,866; pump stations, $35,754; labor, $58,411; 39,023 acres, $53,138; pipe, casing, rigs, &c., for 88 new wells, $67,643; rights of way, $19,177; less electric plants sold, $7,297	$505,950
Decrease in net accounts payable	104,431
Decrease in bonds of underlying companies	50,000
Decreased materials in warehouses &c	24,430
Net surplus for year 1906	$635,951

Approximate Earnings for January and February 1907.

Earnings for Jan. 1907, $368,000; Feb. 1907 (approx.), $400,000	$768,000
Expenses, including bond interest and gas purchased (approx.)	268,000
Approximate net earnings for Jan. and Feb. 1907	$500,000

Operations of the Corporation and its Underlying Cos. for Calendar Years.

	1906.	1905.	1904.
	$	$	$
Gross earnings, gas, electricity, &c	2,990,926	2,618,741	2,419,189
Operating expenses, including drilling, rentals, royalties, &c	943,511	877,358	799,968
Gas purchased (see text)	422,863	339,251	206,031
Net income from operation	1,624,552	1,402,132	1,413,190
Interest on debt, funded and current	268,600	233,595	319,937
Dividend (8%)	720,000	720,000	720,000
	988,600	953,595	1,039,937
Surplus	635,952	448,537	373,253

Note.—The "gas purchased" was not purchased because of any shortage, as the company has wells not in use at all times. The competitive conditions and favorable terms of the purchase make it appear good business policy to purchase outside gas, thus saving our own gas and avoiding some of the expense of drilling wells.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

Belvidere Delaware RR.—*Dividend Increased.*—This company, leased to the Pennsylvania RR., has declared an annual dividend of 10% on its $1,253,000 capital stock, payable March 15 to holders of record March 12. From 1897 to 1906, both inclusive, the rate was 5% yearly, payable in February.—V. 76, p. 918.

Buffalo & Susquehanna RR.—*Listed.*—The New York Stock Exchange has listed $2,408,000 additional first refunding mortgage 4% bonds, due 1951, making the total listed $8,929,000.

$8,970,000 *First Refunding 4s (reduced by sinking fund to* $8,929,000).

Acquiring the lines consolidated April 1 1901 and for construction	$2,250,000
Purchase of Clearfield (Tyler) coal property	260,000
To make a loan to the Powhatan Coal Co	1,000,000
In exchange for first mortgage 5% bonds (on Dec. 31 1906 only $149,500 first 5s remained outstanding)	630,000
For payment into sinking fund to retire first mortgage 5s	201,000
For refunding expenses to date	150,000
To provide for purchase of equipment	1,489,000
To provide funds for additional mileage	1,750,000
To enable company to make a loan to the Buffalo & Susquehanna Coal & Coke Co	1,240,000
Less bonds purchased and held by trustee under sinking fund provisions of the mortgage	41,000

Note.—The $2,408,000 bonds just listed include $1,164,000 issued to purchase additional equipment and $1,240,000 issued for the purpose of enabling the company to make a loan to the Buffalo & Susquehanna Coal & Coke Co. This loan is secured by purchase money mortgage for $$1,240,000 on coal lands, equipment and property of the Buffalo & Susquehanna Coal & Coke Co. located within the counties of Armstrong, Indiana, Clearfield and Jefferson, Pa., said mortgage being deposited with the trustee of the first refunding issue.

Earnings.—For half-year ending Dec. 31:

Last 6 Mos.	*Gross Earnings.*	*Net Earnings.*	*Other Income.*	*Fixed Charges.*	*Other Deduc'ns.*	*Balance, Surplus.*
1906	$896,300	$323,814	$96,263	$175,284	$65,460	$179,333
1905	780,389	291,144	-----	------	------	------

Profit and loss account for half-year ending Dec. 31 1906: Credits: Total surplus July 1 1906, $470,994; net income for six months ending Dec. 31 1906, $179,333; sundry adjustments, $1,789; total, $652,116. Debits: Dividends Nos. 17-18 of 1% each on $4,000,000 pref. stock, $80,000; and Nos. 30-31 of 1¼% each on $4,456,900 common stock, $111,422; total, $191,422. Balance surplus per balance sheet Dec. 31 1906, $460,694.—V. 84, p. 693.

Canadian Northern Quebec Ry.—*Exchange of Bonds—Construction.*—An authoritative statement, calling attention to the notice on another page of this issue regarding the offer to exchange Canadian Northern Quebec 4% guaranteed debenture stock for Great Northern Railway of Canada 4% bonds, announced in this column last week (p. 693), says:

The Canadian Northern Quebec was formed by the amalgamation of the Great Northern of Canada with the Chateauguay & Northern and the Quebec New Brunswick & Nova Scotia Railway companies, and it has, in addition to a direct line to Montreal, valuable terminal properties there as well as in Quebec, into which city it is expected it will this year have completed its own line. The present eastern terminus, Hawkesbury, will in the near future, we understand, be connected with the Canadian Northern system to Winnipeg and Western Canada.—V. 84, p. 693.

Chattanooga Southern RR.—*Offer.*—A press dispatch yesterday from Chattanooga said:

The Louisville & Nashville RR. Co.s directors have made an offer to the minority stockholders. An ultimatum has also been given that if, by April 15, those stockholders would not sell, the proposed buyers would not exercise their option on the majority of the stock. It is understood the L. & N. agreed to pay $1,250,000 for the stock complete.—V. 83, p. 817.

Chicago Great Western Ry.—*Option to Subscribe.*—Under date of London, March 16, there is offered for subscription at £16 per $100 share, through Robert Benson & Co. of that city, $3,873,000 4% (irredeemable) debenture stock, part of the authorized issue of $30,000,000 of which $26,127,000 was outstanding on June 30 1906. Subscriptions are payable per $100 share as follows: On application, £2; April 4 1907, £2; July 1 1907, £12; total, £16.

At this price the yield on investment is slightly over £5 3s. 0d. per cent. Interest will be allowed on the installments at the rate of 5% per annum to July 15 next, from which date the debenture stock will bear full interest. Payment in full may be made on April 4 and interest will thereupon accrue from the date of payment. Preferential consideration will be given to subscriptions by the holders of debenture and preferred "A" stocks.

See semi-annual report, with purposes of this issue, under "Annual Reports" on a preceding page of this issue.—V. 84, p. 693, 626.

Chicago Rock Island & Pacific Ry.—*Bonds Offered.*—See Rock Island-Frisco Terminal Ry. below.—V. 84, p. 569, 507.

Chicago Terminal Transfer RR.—*Action by Minority Stockholders.*—At a meeting of the minority stockholders held on Wednesday at the office of Malcom & Coombe in this city, it was decided to appoint a committee to protect their interests under the foreclosure proceedings now in progress. The names of the committee, it is expected, will be announced shortly by George I. Macolm, Chairman of the meeting.—V. 84, p. 693.

Cleveland Southwestern & Columbus Ry.—*Officers.*—The following officers and directors are announced for this consolidated company, formed per plan in V. 83, p. 1590:

F. T. Pomeroy, President; A. E. Akins, First Vice-Pres.; F. E. Myers of Ashland, Second Vice-Pres.; E. F. Schneider, Secretary, and J. O. Wilson, Treasurer.

Directors: F. T. Pomeroy, H. Pomeroy, A. E. Akins, F. H. Ginn, F. L. Fuller, M. J. Mandelbaum, Cleveland; F. E. Myers, Ashland; W. H. Lamprecht, G. N. Chandler, H. Q. Sargent, S. C. Smith, J. F. Harper, Cleveland; M. A. Sprague, L. M. Coe, Berea; W. B. Thompson, Lorain; M. L. Benham, Le Roy; A. B. Taylor, Lodi.

The "Cleveland Leader" says that it is expected that the Columbus Delaware & Marion line wil be utilized either by purchase, consolidation or through a traffic agreement.—V. 84, p. 569, 338.

Colorado & Southern Ry.—*Listed in London.*—The London Stock Exchange has listed the outstanding $10,000,000 "re-

funding and extension mortgage" 4½% gold bonds, Nos. 1 to 9,100 and 16,001 to 16,900.—V. 84, p. 507, 449.

Erie & Pittsburgh RR.—*Earnings.*—The New York Stock Exchange, in connection with the listing of 32 additional shares of $50 each, making the total stock listed $2,000,000, has the following:

Results for Calendar Years.

Year.	Gross Earnings.	Expenses & Taxes.	Net Earnings.	Guaranteed Rental.	Balance, Surplus.
1902	$1,626,751	$1,050,109	$576,642	$322,501	$254,142
1903	1,565,243	1,032,139	533,104	335,555	197,549
1904	1,451,181	850,294	600,887	338,332	262,555
1905	1,966,605	1,161,760	804,845	362,786	442,059
1906	2,143,384	1,277,419	865,965	390,221	475,744

"from which it will appear that the earnings of the property during the past five years have been more than sufficient to meet interest on bonded debt and pay 7% guaranteed dividends on the capital stock."—V. 80, p. 472.

Georgia Railway & Electric Co., Atlanta, Ga.—*New Stock as Dividend.*—The shareholders on March 26 voted to increase the common stock from $6,014,600 to $8,000,000 for the purpose, the press reports say, of declaring a stock dividend of 33 1-3% to the common stockholders.—V. 84, p. 570.

Grand Rapids (Mich.) Ry.—*Listed.*—The New York Stock Exchange has listed $465,000 additional first mortgage 5% bonds, due 1916, making the total listed $3,157,000, and has authorized the listing of a further $285,000 from time to time, but prior to Oct. 1 1907, on notice that they have passed beyond the control of the company, making the amount authorized to be listed $3,442,000.

Issuance of $3,215,000 first mort. bonds (reduced by sinking fund to $3,157,000)

Retiring $1,203,500 Consolidated Street Ry. Co. 5% bonds, $600,000 Street Railway Co. of Grand Rapids 6% bonds, $50,000 North Park Street Ry. Co. 5% bonds, a floating debt of $177,283 35, and to provide $150,000 in cash expended for new power-house, and remaining proceeds for various corporate purposes	$2,500,000
For 85% of the actual cost of extensions and permanent improvements, consisting of additional track and equipment, real estate, additional power-house, machinery, &c.	715,000
Less retired and canceled under sinking fund provision	58,000

—V. 84, p. 220.

Great Northern Ry.—*Decision Permitting Stock Issue.*—The Supreme Court of Minnesota on Thursday handed down a decision overruling the lower courts, holding that the company may issue the $60,000,000 new stock offered to the stockholders at par in December last without first getting authority from the State Railroad and Warehouse Commission. Compare V. 84, p. 220.

The Court says that the Legislature has the right to enact statutes regulating the increase of the capital stock of railroad corporations and to confer upon a commission the duty of supervising any proposed increase and to refuse permission if the facts do not "bring the case within the statute." The Court says further: "Any statute, however, which attempts to authorize the Commission in its judgment to allow an increase of capital stock for such purposes, and on such terms as it may deem advisable, or in its discretion to refuse, it, would be unconstitutional, as an attempt to delegate legislative power." Section 2872, Revised Statutes 1905, is held to violate section 1, article 3 of the State Constitution in that it does delegate to the Commission such legislative power.

Again Postponed.—In the absence of a decision in the injunction case, the company on Tuesday postponed

the time for the closing of the transfer books for the purposes of the new issue of stock, and the time limit for the filing of subscriptions, until 3 p. m. April 2; the time for filing assignments until 3 p. m. April 6, and the time for making the first, second and third and fourth payments until April 9. Compare V. 83, p. 1469, 1590.

Explanation—Description of Ore Lease.—See United States Steel Corporation under "Industrials" below.—V. 84, p. 693, 626.

Great Northern Railway of Canada.—*Exchange of Bonds.*—See Canadian Northern Quebec Ry. above.—V. 84, p. 693.

Houston & Texas Central RR.—*Called Bonds.*—First mortgage bonds of 1890 aggregating $380,000 have been drawn by lot and will be redeemed at 110 and interest on presentation at the company's office in the Equitable Building, this city, interest ceasing May 27 1907. See advertisement on another page of to-day's "Chronicle."—V. 83, p. 1524.

Indianapolis Coal Traction Co.—See Terre Haute Indianapolis & Eastern Traction Co. below.—V. 81, p. 975.

Indianapolis & Martinsville Rapid Transit Co.—See Terre Haute Indianapolis & Eastern Traction Co. below.—V. 83, p. 37.

Indianapolis & Northwestern Traction Co.—See Terre Haute Indianapolis & Eastern Traction Co. below.—V. 83, p. 37.

Indianapolis & Western Traction Co.—See Terre Haute Indianapolis & Eastern Traction Co. below.—V. 83, p. 562.

Long Island RR.—*New Director.*—Franklin B. Lord, of the firm of Lord, Day & Lord, has been elected a director to succeed James Hazen Hyde, who resigned.—V. 84, p. 570.

Louisville & Nashville RR.—*Earnings.*—For the half-year ending Dec. 31:

6 mos.	Gross.	Net.	Oth. Income.	Charges	Balance.
1906	$23,930,446	$6,635,890	$765,124	$3,840,658	$3,560,356
1905	21,082,678	6,234,387	777,083	3,482,659	3,528,811

Dividends of 3% call for $1,800,000 semi-annually, leaving a balance of $1,760,356 in 1906, against $1,728,811 in 1905.

Called Bonds.—General mortgage bonds to the amount of $405,000, drawn for the sinking fund, will be paid on June 1 1907 at the office of the company, No. 71 Broadway. The numbers of the bonds are given in an advertisement on another page.

Market Street Elevated Passenger Ry., Philadelphia.—*Syndicate Closed.*—The syndicate which was formed in March 1905 and purchased the $10,000,000 first mortgage 50-year 4% bonds, it is said, has been closed, after having sold about two-thirds of the bonds. Bonds were offered in Philadelphia on March 29 at about 98.—V. 83, p. 818.

Missouri Pacific Ry.—*Stuyvesant Fish on Executive Committee.*—Stuyvesant Fish, who was recently elected a member of the company, has been made a member of the Executive Committee.—V. 84, p. 626, 221.

Mobile Jackson & Kansas City RR.—*Withdrawal of Suits.*—As stated in our issue of Feb. 9 (p. 339), the management and control of the Mobile Jackson & Kansas City and its leased line, the Gulf & Chicago, were recently vested in a voting trust consisting of John E. Borne, President of the Colonial Trust Co., the trustees of the Gulf & Chicago mortgage; Alexander McDonald, a director of the Cleveland Cincinnati Chicago & St. Louis Ry., and B. F. Yoakum of the Rock Island system. The settlement of pending litigation to the satisfaction of all concerned was announced on Wednesday as follows:

Godkin & Chadbourne and Sullivan & Cromwell, attorneys for Messrs. Monell, Morrison and McLeod, the Gulf & Chicago Ry. protective committee, announce the termination of the litigation affecting the Mobile Jackson & Kansas City RR. Co. and the Gulf & Chicago Ry. Co. The suits brought for receiverships of these companies will be withdrawn and Messrs. Monell, Morrison and McLeod have been elected members of the board of directors of the Mobile Jackson & Kansas City RR. Co.

It is understood that this result, which is fully satisfactory to all parties, has been largely due to the confidence felt by all concerned in the future of the properties under the effective management of Mr. Yoakum.

Financing.—Arrangements are being made for the financing of the floating debt and putting the company in necessary funds. Later it is proposed to extend the road on the north to connect with the 'Frisco system and to build a branch line from Beaumont to New Orleans. This would give the 'Frisco-Rock Island system a direct north and south line from Chicago to the Gulf.—V. 84, p. 339.

Mt. Mansfield Electric RR., Stowe, Vt.—*In Receivers' Hands.*—Charles E. Burt of Stowe was appointed receiver recently on application of the American Trust Co. of Boston, which, as mortgage trustee, is seeking to foreclose the mortgage securing an issue of 5% bonds due in 1928.

The line, extending from Waterbury to Stowe, a distance of 10 miles, (total track 12 miles), was opened for traffic in Feb. 1898. At last accounts (June 30 1903) there were outstanding: Capital stock, $300,000; funded debt, $200,000; current liabilities, $45,765. For the year 1902-03 the gross earnings were $16,090 ($7,466 being from passengers and $6,894 from freight); operating expenses, $13,609; net, $2,481. President, A. H. Soden, Boston.

New York New Haven & Hartford RR.—*Terms of Deal.*—See Merchants' & Miners' Transportation Co. under "Industrials" below

A press dispatch from New Haven on March 26 said:

In connection with the acquisition of the Merchants' & Miners' Transportation Co. by the New York New Haven & Hartford RR. Co., it is explained here that the steamship line is linked commercially with the Seaboard Air Line, the Atlantic Coast Line, the Norfolk & Western, the Chesapeake & Ohio and the Baltimore & Ohio railroad systems, each of which has a differential through rate from the West and South to Providence and Boston, which rate is less than the standard through rate. By the acquisition the New York New Haven & Hartford RR. secures a larger control over the through rate than it would have in the standard rate to the New England terminals of the steamship company, and those terminals retain the differential rate benefit.—V. 84, p. 694, 626.

Pere Marquette RR.—*Settlement Ratified.*—The stockholders on Thursday ratified the settlement with the Chicago Cincinnati & Louisville referred to last week. Compare V. 84, p. 693.—V. 84, p. 509.

Philadelphia Baltimore & Washington RR.—*Report.*—For calendar year:

Cal. Year.	Gross Earnings.	Net Earnings.	Other Income.	Fixed Charges.	Dividends. (4%)	Bal. for Extra Exp.
1906	$15,941,241	$3,508,265	$776,556	$1,502,269	$939,742	$1,842,810
1905	14,676,204	3,121,746	804,939	1,272,920	939,742	1,714,023

The net earnings as above given are after deducting rentals ($832,987 in 1906 and $751,525 in 1905) based on net earnings.—V. 82, p. 984.

Philadelphia Rapid Transit Co.—*Another Call Expected.*—It is understood in Philadelphia that a call of $5 per share on the 600,000 shares of $50 each ($30 paid in) will be made within the next ten days, probably some time next week. The last call, also $5, was paid Dec. 10 1906 (V. 83, p. 1171).—V. 84, p. 571, 451.

Portland (O.) Railway Co.—*Listed.*—The New York Stock Exchange has listed $245,000 additional "first and refunding mortgage" 5% sinking fund bond due 1930, making the total listed to date $6,227,000.

The $245,000 new bonds were issued on account of the following expenditures, aggregating $307,044, viz.; Extension and re-construction of tracks, including special work, $134,078; extension of overhead lines, $13,242; new paving, $42,091; new electric cars, trucks and motors, $63,748; additional power-house equipment, $415; additional car shops, $51,325; additional right of way, $2,145.

Income for Fiscal Year ending Dec. 31 1906.

Gross earnings	$1,684,157	Fixed charges and taxes	$436,832
Net earnings	709,457	Balance, surplus	272,625
Dividends on $2,500,000 pref. stock (1¼% Q.-J.)	(5%) $125,000		
Dividends on $4,000,000 com. stock (1% Oct. 1; 1% Dec. 31 1906)	(2%) 80,000		
			205,000
Balance, surplus, over dividends			$65,625

Practically the entire capital stock is owned by the Portland Railway, Light & Power Co.—V. 83, p. 1471.

Portland (Ore.) Railway & Light Co.—*Bonds—Earnings.*—See Portland Railway above.—V. 84, p. 627.

Richmond (Ind.) Street & Interurban Ry.—See Terre Haute Indianapolis & Eastern Ry. below.—V. 71, p. 1197.

Rock Island-Frisco Terminal Ry.—*Offering of Guaranteed Bonds.*—The First National Bank of Chicago, in its circular

for March 1907, offers at 102½ and interest $3,000,000 first mortgage 5% gold bonds, guaranteed jointly and severally, by endorsement on each bond, by the Chicago Rock Island & Pacific Ry. (the old company) and the St. Louis & San Francisco RR. These bonds are dated Jan. 2 1907, due Jan. 1 1927. Interest payable Jan. 1 and July 1 at the fiscal agency in New York, or the Mercantile Trust Co. of St. Louis, the mortgage trustee. Authorized issue, $5,000,000; reserved for use for improvements, additions and extensions, $2,000,000; outstanding, $3,000,000.

Abstract of Letter from President A. J. Davidson, St. Louis, Feb. 28 1907.

These bonds are secured by mortgage on real estate, all situated in St. Louis, as follows: (a) A tract of 193,239 square feet on Broadway, extending from Biddle to Collins St. This tract is all of three city blocks, except two lots; two blocks are improved with modern freight terminals, and the third with stores. (b) A tract of 152,500 square feet on Broadway, beginning at Brooklyn St. and extending north for 2½ blocks. Both these parcels are of great value for other than railroad purposes, are located on a main business thoroughfare, and are situated but five and eleven blocks from the business centre of the city. (c) A tract beginning at Adelaide Ave. and extending north over one mile to Humboldt Ave., with an average width of 600 feet, besides abutting properties. This property is of considerable value for factory purposes, warehouses, lumber yards, &c. It will be used for switching, storage and general yard purposes. It would be quite impossible to duplicate this except by purchase from another railroad. In addition to being reached by the Chicago Rock Island & Pacific Ry., it is connected, through the Terminal Association of St. Louis, with all the railroads entering the city.

We believe the present value of these properties to be about $4,000,000, and that they could not be duplicated for that amount.

An additional security, a perpetual contract between the Terminal Railway Association of St. Louis and the Chicago Rock Island & Pacific Ry., its successors or assigns, whereby the latter or any other road controlled by it, shall have the right to enter upon and use the tracks of the Terminal Association, connecting the tracts under mortgage, has been made subject to the mortgage.

The principal and interest of the bonds are guaranteed by the Chicago Rock Island & Pacific Ry. and the St. Louis & San Francisco RR., jointly and severally, by endorsement on each bond. In executing their guaranty, these companies have agreed that the fixed charges shall be considered as a necessary charge against operation, and shall be so charged. The property is leased to the guarantors for an annual sum sufficient to pay the interest charges, maintenance and renewals. All of the capital stock is owned by the roads above mentioned, and has been deposited in a collateral trust agreement with the Mercantile Trust Co., St. Louis, to further secure their guaranty. The right, however, is given to the lessor to admit other companies to use their terminals, and under this agreement it is anticipated that the Chicago & Eastern Illinois RR. will make use of them.

The two railroads which guarantee these bonds, for the fiscal year ending June 30 1906, earned $9,094,517, after paying all taxes, interest and rentals. —V. 84, p. 571, V. 82, p. 929.

St. Joseph Valley Traction Co., Elkhart, Ind.—*Bond Issue.*—This company, which operates with gasoline motor cars a line completed a few months ago from Middlebury, Ind., to Angola, Ind., via La Grange, about 47 miles, has, it is stated, made a mortgage to William P. Knickerbocker of Elkhart, as trustee, to secure $700,000 bonds due in 1919. The President and General Manager is Herbert E. Bucklen of Chicago. The road was projected to extend from Angola via Middlebury to South Bend, 80 miles. The St. Joseph Valley Ry. was organized to build the 28 miles from La Grange to Angola.

St. Louis & San Francisco RR.—*Bonds Offered.*—See Rock Island-Frisco Terminal Ry. above.—V. 84, p. 627, 571.

Terre Haute Indianapolis & Eastern Traction Co.—*Consolidation.*—This company was incorporated under the laws of Indiana on March 23 with, it is said, an authorized issue of $25,000,000 stock and $10,000,000 bonds, as the holding or merging company for the bulk of the Indiana trolley properties acquired during the past two years by the Philadelphia syndicate represented in Indianapolis by Hugh J. McGowan, in which the United Gas Improvement Co. is believed to be directly or indirectly interested.

The "Indianapolis News" of March 23 and March 25 says (compare "Street Railway Section" regarding the constituent properties):

The Terre Haute Indianapolis & Eastern will acquire by purchase or lease the Indianapolis & Northwestern (V. 80, p. 2457), the Indianapolis & Western (V. 83, p. 562), Indianapolis Coal Traction (Plainfield line) (V. 81, p. 975), the Indianapolis & Martinsville, the Indianapolis & Eastern and the Richmond Street & Interurban Ry. The holding company will not acquire the lines of the Indiana Union Traction Co., the Ft. Wayne & Wabash Valley Traction Co. nor the Evansville and South Bend properties, which have recently come under syndicate control.

Formal ratification of a lease by which the company will gain control for 99 years of the street car lines of Terre Haute and the interurbans out of that city to Clinton, Brazil and Sullivan, will be (was) made March 25, when the directors of the Terre Haute Traction & Light Co. will (did) approve signatures which have already been attached to the papers. The leasing company is to assume all liabilities of the Terre Haute company; to guarantee 6% on $500,000 preferred stock; to assume $3,366,000 5% bonds and to guarantee 2% on $2,000,000 common stock for three years and 3% on this stock for the succeeding years.

The new company will control 363 miles of traction line in operation, exclusive of the Terre Haute lines (which aggregate 86 miles.—Ed.). The Terre Haute Indianapolis & Eastern, as a holding company for the syndicate lines in Indiana, corresponds to the recently incorporated Indiana Columbus & Eastern Traction Co., which is a holding company for the lines in Ohio owned by the same interests as the syndicate lines in Indiana. The two holding companies will operate in close relation and establish through service over their roads.

Officers have not yet been elected for the Indiana company, but organization will be made within a few days. It is understood that Mr. McGowan ultimately will be President.

Through service will be established from Terre Haute to Zanesville, Toledo and other Ohio cities over the lines of the Terre Haute Indianapolis & Eastern and the Indiana Columbus & Eastern, which are the two holding companies for the syndicate lines in Indiana and Ohio.

Terre Haute Traction & Light Co.—*Lease.*—See Terre Haute Indianapolis & Eastern Traction Co. above.—V. 83, p. 970.

Toledo Railways & Light Co. *Reported Purchase.* See Toledo & Western RR. below.—V. 84, p. 217, 160.

Toledo & Western (Electric) RR.—*Reported Sale.*—Control of the road, it is reported, has been formally turned over by the Nutt syndicate to the Toledo Railways & Light interests. C. F. Franklin, it is said, will continue as President and General Manager, but J. R. Nutt and Edward Kelley will be succeeded as directors by Joseph S. Young and W. R. Hodge of the Toledo Railways & Light Co.—V. 84, p. 272.

United Railways Co. of St. Louis.—*Listed.*—The New York Stock Exchange has authorized the listing of $4,000,000 additional 5% cumulative preferred stock from time to time on official notice that it has been released by the trustee and issued on a parity with the preferred stock listed and outstanding, making the total authorized to be listed $16,983,200.

The $4,000,000 additional preferred stock was used in the purchase of the St. Louis & Suburban Ry., which was acquired by a deed of conveyance dated Dec. 31 1906, and the said stock deposited with the Mississippi Valley Trust Co., trustee, for the St. Louis & Suburban shareholders, said trust to continue to Jan. 15 1908. The stock in the hands of the trustee is not to accumulate or accrue dividends until after that date, unless the Suburban Railway Co.'s shareholders deposit with the trustee cash to the amount of dividends that would accrue to Jan. 1 1908, and thereupon receive a certificate of stock which will be on a parity when registered with all the preferred stock of the United Railways Co. of St. Louis previously outstanding.

Earnings of St. Louis & Suburban Railway System for Cal. Year 1906.

Gross Income	$1,141,541	Interest on bonds	$391,000
Op. exp. & taxes ($74,372)	833,578	Interest on floating debt	13,772
Net earnings	$307,963	Deficit for year	$96,809

For the results expected from the St. Louis & Suburban, see V. 84, p. 688.

United Railways Investment Co. of San Francisco.—*Report.*—The combined results for the controlled properties, the United Railroads for San Francisco and the Philadelphia Co., for the calendar year were as follows:

Cal. Year—	Gross Earnings.	Net Earnings.	Fixed Charges.	Sink. fund & Div.	Balance Surplus,
1906	$24,533,603	$11,787,562	$6,202,315	$647,235	$4 938,012
1905	24,229,062	11,693,559	5,884,100	730,189	5,079,270

—V. 84, p. 392, 104.

Western Maryland RR.—*New Vice-President.*—Alexander Robertson, General Manager, has been elected Vice-President to succeed F. S. Landstreet, resigned.—V. 84, p. 694, 160.

INDUSTRIAL, GAS AND MISCELLaw¾OUS.

American Ice Securities Co.—*Plan Under Discussion.*—While not formally before the board of directors, a plan, it is understood, is being discussed by some of the leading stockholders looking to the possible issue of about $17,000,000 5% bonds, of which $10,000,000 would be used to retire half of the $20,000,000 stock of the American Ice Securities Co. and the remainder to take up at or before maturity all the debentures and underlying bonds. See V. 84, p. 690.

American Loom Co.—*Automatic Loom Patent Suit.*—The suit in equity brought by the Draper Company against this company and its President, William C. Lovering, for alleged infringement of automatic loom patents, has been decided by the Circuit Court of the United States, District of Massachusetts, in favor of the defendants and against the Draper Company. After a full hearing upon the merits, the complaint was dismissed with costs against the Draper Company. The American Loom Co. is a New Jersey corporation with plant at Readville, Mass. Authorized capital stock, $1,000,000, all of one class; outstanding, $875,300; par, $100. No bonds.

American Strawboard Co.—*Called Bonds.*—Sixty-eight (68,000) first mortgage 6% gold bonds dated 1891 will be paid at the International Trust Co., Boston, on June 1 at par and interest.—V. 84, p. 692, 105.

American Telephone & Telegraph Co.—*Report.*—See another page of this issue.

New Director.—Sylvanus L. Schoonmaker has been elected a director to succeed Charles B. Bowditch.

Convertible Bonds.—The "Boston News Bureau" in its issues of March 26 and March 28 respectively said:

(1.) On Thursday, Kidder, Peabody & Co. will take up from the subscribers and pay them 91 and interest for the amount of bonds thus far sold for syndicate account. The next payment, 30%, on account of the syndicate will be payable at the office of Kidder, Peabody & Co. April 15. (2.) Underwriters of the 4% convertible bonds are to-day in receipt of checks from the syndicate managers taking up one-tenth of the entire amount of bonds allotted to them. This means that the amount of convertible bonds recently sold was probably slightly in excess of $10,000,000.—V. 84, p. 694, 627.

American Tobacco Co. *Bonds Canceled.*—The company has purchased out of surplus an additional $500,000 of its 4% bonds, and delivered them to the trustee, the Morton Trust Co., for cancellation. The latter has expended $500,000, in accordance with the sinking fund provision of the indenture securing the bonds in the purchase of 6% bonds, which have also been canceled.

Reported Acquisition.—The company, it is stated, has purchased the business of L. Miller & Co., an independent cigar manufacturing concern.—V. 84, p. 625, 105.

American Tube & Stamping Co.—*Bonds Called.*—Ten ($10,000) first mortgage bonds of 1902 have been called for redemption on April 1 1907 at 105 and interest at the Colonial Trust Co. of New York, trustee.—V. 83, p. 689.

American Union Telephone Co.—*Directors Resign.*—The "Philadelphia News Bureau" of March 8 says:

Edward Bailey, President of the Harrisburg Trust Co., and George W. Reiley, Vice-President of the Pennsylvania Surety Co., have resigned as directors of the American Union Telephone Co.—V. 84, p. 161.

American Woolen Co.—*Stock Subscriptions.*—An exchange on March 26 said:

We understand that the syndicate which underwrote the $10,000,000 preferred stock was called on yesterday to take up 70% of the stock, the balance of 30% having been taken by the stockholders.—V. 84, p. 567.

Berger Manufacturing Co., Canton, Ohio.—*New Stock.*—The stockholders on Feb. 2 voted to increase the capital stock from $1,000,000 to $1,500,000, consisting of $750,000 each of common and 7% cumulative preferred. No bonds.

Of the new stock, $250,000 preferred and $150,000 common have been issued, making the amounts outstanding $650,000 preferred and $500,000 common; par of shares, $100 each. The company was incorporated in Ohio in January 1906 and manufactures sheet steel and sheet steel specialties. President, Ed. A. Langenbach; Secretary, Chas. A. Irwin; Treasurer, F. A. Schwertner.

Boston & Philadelphia Steamship Co.—*Re-sold.*—See Merchants' & Miners' Transportation Co. below.—V. 84, p. 392.

(J. G.) Brill Company, Philadelphia.—*Sale of Preferred Stock.*—Announcement was made March 27 by Edward B. Smith & Co., Philadelphia and New York, of the conclusion of the sale of $1,270,000 preferred stock of the J. G. Brill Co., which is one of the largest industrial concerns in Philadelphia, employing about 4,000 men, and having an annual output of 3,500 street railway and other cars, equivalent in value to about $8,000,000. The total capital stock is $10,000,000, divided into $5,000,000 7% cumulative preferred and $5,000,000 common stock; par of shares $100. All this stock is outstanding with the exception of $420,000 preferred and about $100,000 common, reserved for the retirement of an existing mortgage on the John Stephenson plant, which is the only indebtedness on any of the plants of the Brill Company. A part of the proceeds of the preferred stock recently sold will be used for the purchase of the Wason plant and the balance will be added to the working capital required in the constantly expanding business of the company. It is understood that the stock was sold at par, the entire proceeds going into the treasury, the present owners not only receiving no money, but actually increasing their interest in the company, while the only commission paid to the bankers is in common stock. Application will be made to list both classes of stock on the Philadelphia Stock Exchange. It is understood that the present earnings are sufficient to cover the dividends on the preferred stock and leave a surplus largely in excess of 10% on the common stock. An authoritative statement says:

The company is the largest manufacturer of street railway cars in the world their cars being used in all the principal cities of this country, and in Europe, South America, the Philippine Islands, Africa, Japan, Australia and India. The plant in this city was the first plant owned by the company, the business having been started in 1869. It has always been profitable, and in 1902 the company purchased the plant of the American Car Co. in the city of St. Louis. In 1904 the plant of the G. C. Kuhlman Car Co. on the border of the city of Cleveland was acquired, and in 1905 the John Stephenson Company's plant at Elizabeth, N. J., was purchased. The Brill plant in Philadelphia covers about 28 acres at 62d St. and Woodland Av.; the St. Louis plant covers 11 acres, the Kuhlman plant 30 acres and the Stephenson plant 89 acres. On April 1 the company will take over the plant of the Wason Manufacturing Co. at Springfield, Mass., covering about 25 acres. This company is one of the oldest car-building plants in the United States and has a large export trade. It has a capacity for about 150 steam railway passenger cars and 125 electric cars annully. Its acquisition was desirable, both because of its geographical location and because of its special facilities for the manufacture of steam railway cars. These facilities are especially valuable in view of the present tendency toward the electrification of steam roads..

Director.—Robert K. Cassatt, of the banking house of Cassatt & Co., has been elected a director. See V. 84, p. 695.

Canadian General Electric Co., Toronto.—*Report.*—For calendar year:

Year—	Profit.	Int.,&c.	Dividends.	To reserve.	Bal.,sur.
1906	$853,675	$71,160	$484,690	$100,000	$197,825
1905	608,206	125,987	335,499	a------	146,720

Dividends, 10% yearly on common stock and 6% yearly on $300,000 preferred.

There was also written off during 1906 $219,553 (against $137,870 in 1905), the profit and loss surplus being $69 034 on Dec. 31 1906, against $90,762 on Dec. 31 1905.—V. 83, p. 321.

Central Consumers' Brewing Co. of New York.—*Consolidation Off for the Present.*—Otis & Hough on Monday, owing to the unfavorable monetary conditions, returned the subscriptions to this company's securities, it having been decided "to abandon all consolidation for the present."—V. 84, p. 695.

Colorado Fuel & Iron Co.—*New President.*—Jesse P. Wellborn, long connected with the company, and recently its Vice-President and Sales and Traffic Manager, has been made President by the Board of directors, to succeed the late Frank J. Hearne.—V. 84, p. 161.

Columbus (O.) Citizens' Telephone Co.—*New Preferred Stock.*—The shareholders will vote April 24 on amending the by-laws so as to increase the membership of the board from nine to eleven, and also on raising the capital stock from $1,250,000 to $1,750,000, by increasing the 6% cumulative preferred stock from $500,000 to $1,000,000.

It is proposed to issue immediately $250,000 of the new preferred shares to provide for extensions, &c. The company had 10,068 telephones in use on March 1, as compared with the 6,909 in use on Nov. 1 1905, an increase of 45.72% for the sixteen months. At last accounts $650,000 of the company's $750,000 first mortgage 5s were outstanding.—V. 82, p. 454.

Crescent Coal Co.—*Bonds Called.*—All of the outstanding $100,000 6% bonds secured by mortgage dated May 1 1901 have been called for payment at par and interest on May 1 at the office of the Union Trust Co. of Pittsburgh, trustee. No new bonds, we are informed, are to be issued. Capital stock, $400,000; par $100. Company owns about 500 acres of coal land in Jefferson Township, Allegheny County, Pa. Pres., Samuel A. Taylor; Sec., W. I. Berryman; Treas., John W. Ailes.

Crystal Water Co., Staten Island.—*Status of Sale to City.*—Secretary George R. Bond has favored us as follows:

The sale of the plant to the City of New York has not yet been consummated, owing to a few matters which are in process of settlement. When the city is ready to take over the property, due notice will again be sent to the bondholders for the redemption of their bonds, as this did not occur on Feb. 14, the date which was at first fixed upon. The price obtained by us will admit of the redemption of the bonds at par, after which the stockholders will be notified to send in their certificates, and it is hoped that there will be sufficient funds remaining to pay off the preferred stock near to par, if not quite so. It will depend entirely upon the successful settlement of contested taxes and bills due to the company for water furnished to the city. We do not see any prospect of payment upon the common stock. The amount of preferred and common stock is $222,900 each, and the bonds are $52c 100 first mortgage 4%.—V. 84, p. 161.

Cumberland Basin Coal Co.—*Change in Control.*—This company, organized in Sept. 1902 by Baltimore interests, including Hambleton & Co. and Henry A. Parr, recently passed under the control of a syndicate headed by W. De L. Walbridge, President of the American Coal Co. of New York, (V. 84, p. 392). The company in June 1903 increased its capital stock from $100,000 to $1,000,000 and made a mortgage to the Continental Trust Co. of Baltimore as trustee to secure an issue of $500,000 5% bonds. On Feb. 12 1907 a new mortgage was filed to the Continental Trust Co. of Baltimore, as trustee, securing $500,000 5% gold bonds, replacing the previous issue. The "Engineering and Mining Journal" of Feb. 9 had the following:

New York capitalists represented by W. De L. Walbridge, President of the American Coal Co., have acquired control of the Cumberland Basin Coal Co. The purchasers intend to reorganize the company and thoroughly develop the properties, which comprise about 10,000 acres of land about 20 miles from Cumberland, Md. The lands are said to contain from 4,000,000 to 5,000,000 tons of the famous Big-Vein coal and a large area of the smaller vein. The new owners propose to construct a branch railway 4 miles long to connect the mines with the Georges Creek & Cumberland RR. in order to provide direct transportation to tidewater at Baltimore. The Cumberland Basin Coal Co. has common stock of $1,000,000 and first mortgage 5% bonds for $500,000. In reorganizing it is stated there will be issued $500,000 of 6% preferred stock (cumulative after two years) and $500,000 of common stock. Baltimore capitalists interested in the company are expected to retain a large interest in the new bonds.

The following officers have been elected:

President, Frank S. Hambleton; Vice-President, Ralph Robinson; Secretary, E. P. Hill; Treasurer, Nicholas Bond.

Detroit Edison Co.—*Guaranteed Bonds.*—See Eastern Michigan Edison Co. below.—V. 83, p. 1473.

Distillers' Securities Corporation.—*Dividend No. 18 at Increased Rate.*—The regular quarterly dividend, increased from 1¼% to 1½%, was declared Mar. 27 on the $30,598,700 capital stock, payable April 27 1907 to stockholders of record April 6. Dividends were begun in January 1903 at the rate of 4% per annum, which in October last was increased to 5% and now to 6%. Compare V. 84, p. 696, 341.

Dominion Power & Transmission Co., Ltd., Hamilton, Ontario.—*Sale of Bonds.*—The Harris Trust & Savings Bank, N. W. Harris & Co. and Perry, Coffin & Burr, we learn, have marketed all of the $1,650,000 5% bonds described in our issue of March 9. Compare V. 84, p. 569.

Draper Company.—*Decision.*—See American Loom Co. above.—V. 84, p. 273.

(The) Eastern Michigan Edison Co.—*New Subsidiary of Detroit Edison Co.—Bonds.*—This company has been recently organized under the laws of the State of New York, for the purpose of taking over from the Detroit Edison Co. electric light properties at Ann Arbor, Ypsilanti, Mt. Clemens and elsewhere outside of the city limits of Detroit, and certain water power properties on the Huron River. The entire capital stock of the company is owned and will be retained by the Detroit Edison Co. An issue of bonds has been authorized by the Eastern Michigan Edison Co. to provide for the purchase and development of the properties referred to, which issue is guaranteed by the Detroit Edison Co. The authorized limit of the bond issue is $10,000,000. Trustee, the Trust Company of America. Interest 5%, payable May 1 and Nov. 1; 25-year gold bonds. Immediate issue of bonds, $1,000,000, to reimburse in part the Detroit Edison Co. for the purchase price of the properties.

Eastern Steamship Co.—*Report.*—For calendar year:

Year—	Gross.	Net.	Charges.	Dividend.	Surplus.
1906	$1,736,331	$365,501	$98,872	(4%) $120,000	$146,629
1905	1,590,127	346,382	99,908	(4%) 120,000	126,474

—V. 82, p. 1232.

Eastman Kodak Co.—*Report.*—The results for the calendar year, including subsidiary companies, were:

1 Year—	Net profits.	Div. on pf. (6%)	Divs. on Com.	Bal., sur.
1906	$4,915,700	$369,942	(17½%) $3,418,260	$1,127,498
1905	4,013,913	365,217	(12%) 2,342,964	1,305,732
1904	3,339,148	360,347	(10%) 1,920,619	1,058,182

—V. 83, p. 1101.

Hecker-Jones-Jewell Milling Co.—*Dividend—New Corporation.*—See Standard Milling Co. below.—V. 84, p. 696.

International Silver Co.—*New Director.*—The number fo directors has been increased from fifteen to sixteen by the election of R. Livingstone Beeckman of New York.—V. 84, p. 567, 511.

Kinsman Transit Co., Cleveland.—*New Stock.*—A certificate has been filed at Columbus, O., increasing the capital stock from $610,500 to $936,100 (all common; outstanding, $912,500), to cover the cost of building the new steamer Matthew Andrews.—V. 80, p. 1733.

Kirby Lumber Co.—*Statement of Earnings Misplaced.*—In last week's issue of the "Chronicle" we published official statements regarding the payment of overdue interest on the timber certificates and other matters relating to this company and the allied Houston Oil Co., both of which, as is well known, have for some time past been in the hands of receivers. Unfortunately, in making up the paper the brief annual statement of earnings, dividends, &c., of the American Telephone & Telegraph Co. was, by a mistake of the compositors, such as all newspapers are at times subject to, inserted in the midst of the statement regarding the coupons, and, it appears, misled some, in spite of the seeming incongruity of a combination of overdue coupons and generous dividends.—V. 84, p. 697, 53.

Madison (Ind.) Light Co.—*Receivership.*—At Madison, Ind., on March 23, Judge Francisco of the Jefferson Circuit Court placed the company in the hands of the Madison Safe Deposit & Trust Co. as a temporary receiver on the ground of insolvency. The bonded debt is stated as $110,000.

The application for a receiver was made by Elmer A. Kimball of Chicago as assignee of a note held by the Western Gas & Investment Co. of Chicago (which see below), the parent holding company. Colonel Russell B. Harrison and Attorney M. L. Clawson of Indianapolis have taken steps to secure the appointment of a receiver in the interests of the bondholders of the Madison Company. Similar action was successful in the case of the Seymour Gas & Electric Light Co. mentioned below.

Maryland Coal Co.—*Report.*—Report for the calendar year:

	1906.	1905.	1904.	1903.
Net profits	$155,630	$222,634	$276,456	$800,688
Div. on pref. stock %	(8)150,776	(8)150,776	(8 ½)160,199	(8 ½)160,199
Balance, surplus	$4,854	$71,858	$116,257	$640,489

—V. 82, p. 337.

Merchants' & Miners' Transportation Co., Baltimore.—*Terms of Purchase—Extra Dividend.*—The shareholders will meet April 29 in Baltimore for the purpose of—

(*a*) increasing the capital stock from $2,000,000 to $5,000,000; par value of shares, $100 each; (*b*) approving an issue of $3,250,000 of 4% 25-year debentures. (The present bonded debt consists of $300,000 first mortgage gold 4s, interest M. & N.)

Dividends at the rate of 8% per annum have been paid in January and July.

A circular dated March 26 says in substance:

A contract has been made by this company to purchase the property of the Boston & Philadelphia Steamship Co. (V. 84, p. 392) for $3,250,000 4% 25-year debentures to be issued by this company.

A separate contract has been entered into with the New England Navigation Co. (V. 83, p. 821) for the exchange of $2,500,000 par value of the stock of the Merchants' & Miners Transportation Co. for $2,000,000 par value of the stock of the New York New Haven & Hartford RR. Co.

To accomplish this purpose it is necessary that the capital stock of this company be increased from $2,000,000, its present capital, to $5,000,000.

As a result of this increase and exchange, the present stockholders will be entitled to (1) retain their present holding, $2,000,000; (2) receive a stock dividend of M. & M. T. Co. stock of 25%, $500,000; (3) receive stock of the New York New Haven & Hartford RR. Co., par value, $2,000,000 so that the present stockholders, in addition to retaining their present holdings, will receive ¼ share of Merchants' & Miners' Transportation Co. stock and 1 share of New York New Haven & Hartford RR. Co. stock for each share of Merchants' & Miners Transportation Co. stock now held by them. The remaining $2,500,000 out of the $5,000,000 of capital will be issued to the New England Navigation Co. in exchange for the $2,000,000 of stock of the New York New Haven & Hartford RR. Co.

The completion of the exchange will leave the capital stock of this company equally divided between the present stockholders and the New England Navigation Co. A further agreement has been prepared for the deposit of this stock with the Safe Deposit & Trust Co. of Baltimore, trustee, for 25 years with a provision for an extension to 50 years; this agreement requires that the stock shall be voted so as to maintain the Merchants' & Miners' Transportation Co. as an independent company.

Each stockholder has the right to make the exchange of stock in proportion to his holdings, and has the right to deposit his stock under the trust agreement. Neither the exchange or deposit under the trust agreement are compulsory, but are left to each stockholder's option.

All stockholders who desire to make the exchange of stock are required to deposit their certificates of stock endorsed in blank (on or before April 20) with the Safe Deposit & Trust Co. of Baltimore, which on completion of the transaction will deliver to the stockholders the shares and certificates to which they are entitled on surrender of the certificates of deposit.—V. 84, p. 629, 576.

Montreal Steel Works.—*Report.*—For calendar year:

Year—	*Net.*	*Reserve.*	*Pref. Div.*	*Com. Div.*	*Bal., Sur.*
1906	$196,998	$36,000	(7%) $56,000	(7%) $46,286	$58,712
1905	120,798	20,495	(7%) 56,000	*(7%) 31,863	12,440

*Paid March 21 1906 and charged against profit and loss in 1906.

Balance Sheet of Dec. 31.

Assets ($1,873,875)—		*Liabilities* ($1,873,875)—	
Plant, &c	$1,299,481	Preferred stock	$800,000
Stores and merchandise	254,233	Common stock	700,000
Bills receivable	2,030	Pref. div. payable Jan. 8	14,000
Sundry debtors	296,242	Com. div., pay. Jan. 8 (4 ½%)	31,500
Cash	20,145	Miscellaneous	100,957
Miscellaneous	1,744	Profit and loss surplus	227,418

Compare V. 84, p. 224.—V. 83, p. 216, 972, 1174.

(The) Moran Co., Shipbuilders, Seattle.—*Dividends.*—The directors on March 20 declared dividend No. 2, 3½%, on the $1,000,000 7% cumulative preferred stock, payable April 1. Dividend No. 1, also 3½%, was paid in Oct. 1906. The "Seattle Post Intelligencer" of March 21 says:

The company has on hand contracts for ten vessels, ranging from small tugs to 4,000-ton steamers. The following are members of the board: President George H. Higbee, Vice-Pres. J. V. Paterson, J. T. Lawler and M. M. Lyter, the local men, and Rodman E. Griscom, Reading S. Bertron and Richard S. Storrs of New York. Charles D. Taylor is Secretary and Treasurer. Compare V. 82, p. 808.

National Self-Winding Clock Co.—*Sold.*—A press dispatch on March 25 said:

The assets of the company were sold at auction at Champaign, Ill., under the direction of the Court on Saturday. The property was knocked down for $3,000 to a committee representing about 90% of the bondholders. The purchase includes the entire plant and all the patents. There were no competitive bids, and the price paid ($3,000) represents about 25% of the value of the plant.—V. 83, p. 327.

New England Navigation Co.—*Purchase.*—See Merchants' & Miners' Transportation Co. above.—V. 83, p. 821.

New York & New Jersey Telephone Co.—*Dividends of 1¾% Quarterly.*—As intimated in the official statement of Dec. 26 1906 (V. 83, p. 1595), the dividend distributions, heretofore 1½% quarterly, with an extra dividend of 1% at the close of the year, making 7% in all, has been changed to a straight 7% basis by the declaration of a quarterly dividend of 1¾%, payable April 15 to stockholders of record April 10.—V. 84, p. 452, 224.

Nipe Bay Co.—*Operations.*—See United Fruit Co. below.—V. 82, p. 1382.

Nipissing Mines Co.—*Extra Dividend Omitted.*—The directors have declared a quarterly dividend of 3%, payable April 20, comparing with 3% and 2% extra paid in Jan. and Oct. last and 3% in July 1906.—V. 84, p. 452, 163.

Old Dominion Steamship Co.—*New President.*—Herbert B. Walker, who during his twenty-four years' connection with the company has risen from office boy to Vice-President and Traffic Manager, has been elected President and General Manager to succeed the late W. L. Guillaudeu.—V. 74, p. 330.

People's Gas & Electric Light Co. of Xenia, O.—*Receiver Appointed.*—The United States Circuit Court at Cincinnati on March 22 appointed the Union Savings Bank & Trust Co. of Cincinnati as receiver for the company on application made by a number of creditors and stockholders, who charge mismanagement, &c., among them Evelyn Bird of Chicago, holder of $5,000 of an issue of $175,000 bonds. (V. 75, p. 1090.)

It is alleged that taxes to the amount of $5,672 have accumulated and an execution for that amount has been granted; also that J. P. Brown (President of both corporations) in February last confessed judgment for $27,000 against the company in favor of the Western Gas & Investment Co. of Chicago.

The Western Gas & Investment Co., it is stated, was incorporated in South Dakota Jan. 1 1902 with $1,000,000 capital stock (half preferred; outstanding at last accounts $25,000 pref. and $500,000 common.—Ed.) and now controls the Madison (Ind.) Light Co.; the Rochester (Minn.) Gas Co.; the Seymour (Ind.) Gas & Electric Co.; the Baraboo (Wis.) Light Co. and the Citizens' Gas Light Co. of Nebraska City, Neb. (also not very long since was operating the Apple River Power Co. and the Stillwater Gas & Electric Light Co., V. 81, p. 1379.—Ed.) Compare Madison Light Co. above and Seymour Gas & Electric Co. below.—V. 75, p. 1090.

Philippi Colliery Co.—*Receiver.*—Judge Goff in the United States Court at Clarksburg, W. Va., on Feb. 26 appointed S. L. O'Neil receiver. A. Thompson, of Philadelphia, is said to be seeking the foreclosure of a mortgage for $318,000.

Quaker Oats Co.—*New Directors.*—J. R. Nutt, John Stuart and John P. Welling were recently elected directors in place of James Parmelee, George A. Cox and J. G. Schmidlapp.—V. 84, p. 697, 506.

Seymour (Ind.) Gas & Electric Light Co.—*Receivership.*—The Jackson County Loan & Trust Co. has been appointed receiver. A special dispatch to the "Indianapolis News" on March 23 said:

The plant was under orders to be sold to-day at sheriff's sale to satisfy a judgment in favor of the Western Gas & Investment Co. of Chicago (see that company below), but the holders of the bonds convinced the Court that in order to protect their interests and the interests of all creditors, a receiver should be appointed. The plant was purchased five years ago for $55,000 by Chicago men, who expended $20,000 in improvements and bonded it for $110,000. A month ago, when it was levied upon by the sheriff, appraisers appointed by the Court fixed the value at $30,000 (capital stock $75,000).

Southern Illinois Coal Mining & Washing Co.—*Called Bonds.*—The American Trust & Savings Bank of Chicago, as trustee under mortgage dated April 1 1901, announces that ten bonds (aggregating $10,000) drawn for redemption at par and interest and numbered 11, 12, 29, 31, 39, 73, 74, 84, 90 and 96, will be paid at the office of the trustee on April 1.

Southwestern Investment Co. of Hoboken.—*Increase in Capital Stock.*—This New Jersey Corporation, a holding company entirely controlled by the Phelps Dodge & Co. interests, has filed a certificate of increase of capital stock from $6,000,000 to $17,000,000, par of shares $100.

The company was incorporated at Trenton on March 28 1901 "to operate railroads and mines, to do a general construction business and to deal in stocks and bonds, the incorporators being Charles W. Parsons of New York, William W. Carman of Summit, N. J., Ernest G. Ingalls of Hastings-on-the-Hudson, William J. Hunt of Montclair, N. J., and Frank Wilson of Ridgewood, N. J." The Phelps Dodge & Co. properties include the Copper Queen Consolidated Mining Co. (V. 79, p. 154), El Paso & Southwestern RR. (V. 81, p. 210), El Paso & Northeastern, &c., &c.

Standard Beet Sugar Co., Leavitt, Neb.—*Not Sold.*—This company's property was offered at judicial sale at Fremont, Neb., on March 19, but there were no bidders and it will probably be offered again.—V. 83, p. 42.

Standard Milling Co., New York.—*Dividends.*—The directors on March 27 declared a semi-annual dividend of 1½% upon the $6,900,000 5% non-cumulative preferred stock, payable April 15 to holders of record April 6, thus increasing the annual rate to 3% per annum, as against 1% in 1903 and 2% yearly 1904 to 1906 inclusive.

The old subsidiary corporation, the Hecker-Jones-Jewell Milling Co. (of New Jersey), has declared the regular semi-annual dividend of 4% on its $2,000,000 preferred stock, payable March 30 to holders of record March 29. A company of the same name, incorporated under the laws of New York with $1,000,000 stock, all of one class, was officially described to us last week as "the same company," meaning, we understood, a re-incorporation: but this another official of the Standard Milling Co. declines to confirm or deny, declining further to give any explanation as to the relation, present or prospective, of the two concerns.—V. 84, p. 697.

Staples Coal Co.—*Called Bonds.*—Fifteen bonds of 1895 will be redeemed at par and interest April 1 at the New York office or in Taunton, Mass.—V. 83, p. 1233.

Tamarack Mining Co.—*Report.*—For calendar year:

Year—	*Receipts.*	*Expenses.*	*Net.*	*Dividends.*	*Bal., sur.*
1906	$1,917,232	$1,413,084	$504,148	$300,000	$204,148
1905	2,448,240	2,029,119	419,121	300,000	119,121
1904	1,981,361	1,780,552	200,809	------	200,809

From balance as above there was spent for construction in 1906 $90,518, against $86,414 in 1905 and $161,958 in 1904.—V. 82, p. 1501.

Taylor Grain Co., Topeka, Kansas.—*Sale Ordered.*—Judge J. G. Slonecker, at Topeka on March 18, referee in bankruptcy, ordered Receiver W. E. Sterne to sell the Gyrator mills, at private sale, if possible, within one month; otherwise to advertise them for sale at auction, the upset price to be 75% of the appraised value ($125,000). The United Milling & Grain Co., apparently, never took over the property. (Compare V. 83, p. 577.)

Terre Haute (Ind.) Water Works Co.—*Listed in Indianapolis.*—The "Indianapolis News" of Feb. 19 said:

The $500,000 common stock has been added to the list of the local securities. The opening bid was 97½, with an offer of the stock at 99. In 1906 the company earned $84,675 net and paid out in dividends $30,000. Dividends are payable in January and July. (As to bonded debt, &c., see V. 69, p. 182; V. 68, p. 1026.)

United States Steel Corporation.—*Official Explanation.*—See page 755.

For other Investment News, see page 755.

Reports and Documents.

LAKE SHORE & MICHIGAN SOUTHERN RAILWAY COMPANY.

THIRTY-SEVENTH ANNUAL REPORT—FOR THE YEAR ENDED DECEMBER 31 1906.

To the Stockholders of The Lake Shore & Michigan Southern Railway Company

The Board of Directors herewith submits its report for the year ended December 31st 1906, with statements showing the results for the year and the financial condition of the company.

The report covers the operation of the system, Chicago to Buffalo, a total of 1,520.35 miles, as follows:

	Miles.
Main line	878.63
Proprietary lines	224.13
Leased lines	417.59
Total	1,520.35

There were no changes in the mileage of road operated during the year.

A statement showing in detail the miles of road and track operated will be found upon another page. [See pamphlet.]

There was no change in capital stock during the year, the amount authorized and outstanding December 31st, 1906, being	$50,000,000 00
The funded debt outstanding on December 31st, 1905, was	$101,324,000 00
It has been increased during the year ended December 31st, 1906, as follows:	
By the issue and sale of $35,000,000 00 4% gold bonds of 1906, same being a part of an authorized issue of $50,000,000 00	35,000,000 00
	$136,324,000 00
It has been decreased during the year as follows:	
By the purchase and retirement of $920,000 00 of the $924,000 00 outstanding Detroit Monroe & Toledo Railroad Company first mortgage bonds which matured August 1st, 1906	920,000 00
Total funded debt December 31st, 1906	$135,404,000 00

There were purchased during the year 43,954 shares of the common stock of the Cleveland Cincinnati Chicago & St. Louis Railway Company, 50,000 shares of the preferred and 120,000 shares of the common stock of the Chicago Indiana & Southern Railroad Company, 11,540 shares of stock of the Hocking Valley Railway Company, 16,922 shares of stock of the Merchants' Despatch Transportation Company and 71 shares of stock of the Jamestown & Franklin Railroad Company, and also $7,000,000 00 mortgage bonds of the Chicago Indiana & Southern Railroad Company.

There were sold during the year 50,000 shares of stock of the Indiana Illinois & Iowa Railroad Company and $29,000 00 par value of bonds of the Pittsburgh Chartiers & Youghiogheny Railroad Company.

SUMMARY OF FINANCIAL OPERATIONS AFFECTING INCOME.

Surplus	$1,539,962 08	$510,644 83	+$1,029,317 25

From the surplus for the year	$1,539,962 08
There should be *deducted*—	
Sundry uncollectible charges and reduction in value of assets $485,405 95	
Discount and commissions account sale of $35,000,000 00 25-year 4% gold bonds of 1906 875,000 00	1,360,405 95
	$179,556 13
Amount to the credit of profit and loss December 31 1905	17,118,973 19
Balance December 31 1906	$17,298,529 32

The gross earnings for year were $42,544,378 38, an increase of $3,943,568 68 as compared with last year.

The freight earnings were $29,762,197 11, an increase of $2,772,541 86. This increase is accounted for principally by heavy movements of bituminous coal, coke and ore.

Passenger earnings were $8,715,702 74, an increase of $1,039,764 94.

The earnings from mail, express, rents and miscellaneous for the year amounted to $4,066,478 53, an increase of $131,261 88.

The operating expenses for the year amounted to $27,252,077 77, an increase of $3,024,363 17.

Maintenance of way and structures increased $953,020 48. This increase is mainly due to the operation of additional third and fourth tracks, sidings and signal system, re-laying tracks with heavier rails, additional ballasting and increased number of cross-ties renewed.

Maintenance and renewals of equipment increased $898,769 09, principally due to the increase in freight car mileage and the large increase in this class of equipment in service.

Conducting transportation increased $1,083,776 31. With the exception of car mileage and hire of equipment, which showed a decrease as compared with last year, there was a general increase distributed among the various items under this heading.

There was expended for new construction and charged against income, as shown on another page, the sum of	$4,221,845 96
There was expended for additional equipment and charged against income, as shown on another page, the sum of	1,201,877 42
Total	$5,423,723 38

Included in the charges against income for new construction are additional heavy expenditures to continue the work of increasing the efficiency of present stuctures in connection with the four-tracking of the main line. The expenditures for additional cars and engines have further decreased the charges for foreign equipment and furnished better facilities for taking care of the heavy tonnage handled.

The income from investments for the year was $4,153,505 36, an increase of $634,842 24, due to additional revenue from dividends on stocks owned or acquired during the year and to interest received on sundry loans, &c.

The first charges show an increase of $1,215,470 51. This is due to interest on additional Gold Bonds sold during the current year and to increased payments on account of leased lines.

The following amounts were charged to cost of road and equipment account for additional new equipment.

Locomotives	$683,261 38
Passenger cars	422,327 23
Freight cars	6 377,590 63
Other rolling stock	16,820 76
	$7,500,000 00

The following amounts were expended for new equipment, new structures, tracks, etc., in addition to renewals and charged to the year's income.

FOR ADDITIONAL EQUIPMENT PURCHASED.

Locomotives	$284,200 00
Passenger cars	172,000 00
Freight cars	116,078 78
Other rolling stock	629,598 64
	$1,201,877 42

Tulsa (Ind. Ter.) Water, Light, Heat & Power Co.—*Favorable Decision.*—See "Tulsa" in "State and City Department" V. 84 p. 590.—V. 83, p. 327.

United Copper Co., New York.—*Stock Now on Regular 7% Basis.*—The directors, having set aside the entire amount necessary for dividends on the preferred stock during 1907 (viz., $300,000), have declared from the profits a regular quarterly dividend of 1¾% on the common stock (viz., $787,500), payable April 29 1907 to stockholders of record April 16 1907. The common stock received in January last a quarterly dividend of 1½% and ¼% extra, and in 1906 four dividends, each 1¼% and ½% extra, the aggregate amount of the dividend just declared being, therefore, the same as in the five preceding quarters, the only difference being that the rate of the "regular" distribution has been increased to 7%.—V. 84, p. 577, 448.

United Fruit Co.—*Official Statement.*—President Preston was on March 4 quoted by the "Boston Financial News":

The banana season is just beginning and the outlook is for a very favorable one. The crop is a good one both as regards quality and size. During the year we expect an output of 36,000,000 bunches. The bulk of the crop will come from Jamaica and Costa Rica. The recent earthquake in Jamaica in no way damaged the plantations, although the city of Kingston shows it was hit pretty hard. As to money value, the fruit from Costa Rica will predominate more heavily, the fruit being larger and the bunches bigger. As to price, the outlook is satisfactory while at the same time no one can tell anything about this.

The sugar business is especially promising. The plants of the company at Banes, Cuba, are starting to grind the cane, which this year is of very good quality.

The Nipe Bay Co. (compare V. 82, p. 1382) is just beginning to be a producing proposition. It has been grinding for about two weeks and is now turning out 1,000 bags of raw sugar a day. The grinding season continues up to the first of September. We expect that in this period the Nipe Bay property will turn out about 275,000 bags; that is to say, if nothing happens. Excessive rainfall would, of course, cut down the output, as the cane could not be hauled to the mill. While the prices for sugar are low, being 2½ cents for this raw product, which is sold to the refineries, the Nipe Bay plants have the most modern machinery, and we are therefore able to turn out the product in a most economical manner and at a good profit. The output is sold the world over. The bags sell on an average at about $8 each.—V. 84, p. 630.

United Illuminating Co. of New Haven, Conn.—*New Stock.*—The stockholders have voted to authorize the issue of $500,000 new capital stock, bringing the total capitalization to $1,500,000, all of one class. It is probable that the new shares will be offered to stockholders at par in proportion to their holdings. The company has recently paid dividends at the rate of 8% per annum, namely, 1½% quarterly Jan. 1, April 1, July 1, and Oct. 1, and an extra 1% both in January and July; par value of shares, $100; outstanding bonds, $1,625,000, 4%, due Feb. 1 1940.—V. 79, p. 217.

United Milling & Grain Co.—See Taylor Grain Co. above. —V. 83, p. 577.

United Sheet & Tin Plate Co.—*Sale April 30.*—The Common Pleas Court of Washington County, it is stated, has fixed April 30 as the date for the sale of the assets of the property. The "Ohio State Journal" says:

The Marietta plant has been appraised at $62,000, the Newcomerstown plant at $32,000 and the coal and other lands at a price which brings the valuation up to above $100,000.—V. 83, p. 1541.

United States Finishing Co.—*Earnings.*—The net earnings for the calendar year 1906 were $649,803, comparing with $587,800 for the year 1905. The directors on March 21 declared dividend No. 31 of 1¾% on the preferred stock, payable April 1 1907 to holders of record March 21. The amount of this dividend is $45,500.—V. 84, p. 512, 343.

United States Steel Corporation.—*Explanation—Description of Ore Lease.*—In our issue of Oct. 6 1906 we published a statement regarding the Great Northern ore lease, received in typewritten form from the company's office, in which appeared the words: "The lease is perpetual until the ore is exhausted." This sentence, it was learned from the recent annual report of the company, should have been qualified, the contract being, in fact, terminable, at the option of the Steel Company, on Jan. 1 1915. A correction to this effect was made in our news columns last week, but as the first statement had purported to come to us from Judge E. H. Gary, the Chairman of the United States Steel Corporation, we wrote asking whether he would care to set our record right regarding the misuse of his name in this connection. Judge Gary replies as follows:

"I beg to acknowledge receipt of your letter of the 28th instant.

"In October after the agreement for a lease of the Hill ore properties was signed by Mr. Hill and myself I dictated an announcement for the newspapers and then left my office

for the day. The statement did not include the sentence you refer to nor anything concerning the duration of the lease. This was given to several newspapers as dictated. Before it was received by some of the newspapers inquiry was made by a reporter concerning the duration of the lease, and one of the attorneys who had been employed in the preparation of the agreement and who was in my office at the time suggested the sentence which was then included, and the statement as amended was given to the reporters who subsequently called. I had no knowledge in regard to the amendment until last Monday, when my attention was directed to it by a representative of the 'New York Evening Post.' I am informed the attorney supposed the inquiry related to the question as to whether or not the lease would be a term lease of, say, 25, 30 or 50 years, like most, if not all, of the ore leases in existence, or whether it would enable the lessee to hold the property until the ore was exhausted. Of course, he had no intention to create any wrong impression. I assure you I regret the circumstances exceedingly.

"The reference in the annual report accords with the written agreement for a lease."—V. 84, p. 630, 631, 624.

Washington (Pa.) County Coal Co.—*Receivership.*—The Washington County Court has appointed N. B. Sanford of Pittsburgh temporary receiver. The company's embarrassment was due to the closing of the New Castle Savings & Trust Co.—V. 84, p. 395; V. 81, p. 851.

Western Gas & Investment Co.—*Receivership.*—See People's Gas & Electric Co. of Xenia, Ohio; Madison (Ind.) Light Co. and Seymour (Ind.) Gas & Electric Light Co. above.—V. 80, p. 1739.

—In an advertisement appearing to-day opposite our weekly clearings statement page, the banking house of Kountze Brothers, corner of Broadway and Cedar Street, offer buyers a selected list of securities for conservative investment. This offering consists of railroad notes, equipment trusts, railroad bonds, public service bonds and municipal bonds at attractive prices, to yield investors a good return. See the advertisement for full particulars. Mr. Wilbur F. Baker is manager of the bond department.

—The Corporation Publishing Co. of Boston has published the first edition of a work by John F. J. Mulhall, P. A., on "Quasi-Public Corporation Accounting." The work states briefly the books, forms and methods necessary for the proper organization and management of quasi-public corporations and the recording of all the essential details of revenue, operation, maintenance and construction in addition to statements as to profit and loss and assets and liabilities. The corporations covered are water, gas, electric-light and steam-heating plants, telephone companies and electric railways. The book is bound in cloth and is printed in large, clear type and plentifull yillustrated.

—The New York firm of Herbert H. Knox & Co., formed at the death of Mr. Wm. C. Ashwell, expires by limitation on April 1, being succeeded by Knox, Wallace & Co., composed of Herbert H. Knox, Walter T. Wallace and Samuel Sloan. Mr. Knox is the surviving partner of Ashwell & Co., Walter T. Wallace is the son of Charles K. Wallace, formerly a prominent warehouseman of this port, and a nephew of James P. Wallace. The other firm member, Samuel Sloan, was for many years connected with Charles C. Edey & Sons and C. I. Hudson & Co. The new copartnership will carry on business in the old offices of Ashwell & Co., 30 Broad St.

—The firm of Lathrop & Smith, 37 Broad Street, this city, will be dissolved by mutual consent on April 1. Frank M. Cronise and Albert A. Johnson have associated themselves with the firm of Bond & McCauley, 67 Exchange Place. L. C. Lathrop and Henry Stanley Haskins will form a new firm under the name of Lathrop, Haskins & Co., with offices at No. 1 Wall Street, where they will move on or about April 15. Oscar B. Smith will retire from active business, but will make his headquarters with Lathrop, Haskins & Co.

—Leonard E. Ware, formerly New York manager for the Boston house of Bond & Goodwin, and William F. Timlow, a member of the New York Stock Exchange, have formed a co-partnership under the firm name of Ware & Timlow, with offices at 18 Wall Street. The new concern will make a specialty of call and time loans on the Exchange. Henry W. Banks Jr. has associated himself with this firm.

—Peabody, Houghteling & Co., prominent Chicago investment bankers and bond dealers, announce that they have leased two floors (2d and 5th) of the new Borland Building, corner of La Salle and Monroe streets, and will remove their offices there from present quarters in First National Bank Building on May 1.

—The 1907 edition of "The Earning Power of Railroads" has been issued. It is a convenient little volume of 337 pages, compiled and edited by Floyd W. Mundy of James H. Oliphant & Co. Price $2. Sold by Metropolitan Advertising Co., 6 Wall Street.

—Frank A. Ferris and Robert D. White, who have been associated with Messrs. Rhoades & Co., announce the formation of a partnership under the firm name of Ferris & White, to deal in high-grade securities, with offices at 43-49 Exchange Place.

—Graham & Co., Philadelphia, through their representative, D. G. Rombach, Scranton, Pa., are issuing a neat pamphlet containing financial statistics of corporations whose securities are identified with Scranton and Wilkes-Barre.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, March 29 1907.

Favored by more seasonable weather trade has increased rather than diminished, notwithstanding some further setback at the Stock Exchange. Mercantile prices are generally firm and collections, although not as good as could be desired, show some signs of improvement. Manufactures are still decidedly active. Speculation remains quiet.

LARD on the spot has been dull with slight changes in prices. Small sales have been made of late at 8⅝c. for City and 9@9⅛c. for Western. Refined lard has been easier with trade stagnant. Refined Continent 9.45c., South America 10.25c. and Brazil in kegs 11.25c. The market for lard futures at the West has been irregular. There has been extensive liquidation at times with a lack of support. Of late, however, the tone has been rather firm, owing to smaller receipts of live hogs, covering of shorts and lighter offerings. Packers have bought to some extent. The dulness of the spot trade has discouraged commission-house buying.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery	8.77½	8.60	8.70	8.90	8.90	
July delivery	8.87½	8.70	8.80	9.00	9.00	Holl-
September delivery	8.97½	8.75	8.90	9.07½	9.12½	day.

PORK on the spot has been steady with some increase in the demand. Mess $17 75@$18 50, clear $17 75@$19 50 and family $19 50@$20. Cut meats have been quiet and steady. Supplies are moderate. Pickled shoulders 9¾c., pickled bellies, 14@10 lbs., 10½@11c. and pickled hams 12@12½c. Tallow has been steady with trade quiet. Offerings continue moderate. City 6⅝@6¾c. Stearines have been dull with prices nominally easier. Oleo 9½c. and Western 10c. Butter has been moderately active and steady. Stocks of high grades are small. Creamery, extras, 30½@31c. Cheese has been in light demand and steady. State factory, fancy, 15c. Eggs easier. Trade has been active but supplies have increased. Western firsts 17¼@17½c.

OIL.—Cottonseed has been quiet and irregular. Prime summer yellow has declined, while winter has advanced. Prime summer yellow 46c. and prime winter yellow 52@55c. Linseed has been fairly active and steady. Increased withdrawals on contracts are reported. City, raw, American seed, 42@43c.; boiled, 43@44c. and Calcutta seed, raw, 70c. Lard has been easier with the demand less active. Prime 76@78c. and No. 1 extra 58@60c. Olive has been active and firm with supplies light. Yellow 85@87½c. and green 70@78c. Cocoanut has been fairly active and steady. Cochin 10¾c. and Ceylon 10c. Peanut has been in moderate demand and steady; yellow 50@60c. Cod fairly active and steady. Domestic 38@40c. and Newfoundland 40@42c.

COFFEE on the spot has been dull and easy, owing to a weaker market for futures. Rio No. 7, 7c., and Santos No. 4, 8⅛@8¼c. West India growths have been quiet and steady. Fair to good Cucuta, 8½@9½c. The market for future contracts has declined moderately, owing to long liquidation for local and Wall Street account, large receipts at Rio and Santos and unfavorable reports as to the outcome of the valorization. Europe has sold to some extent, and there has been little disposition to buy, the only support coming from the covering of shorts.

The closing prices were as follows:

March	5.75c.	July	5.55c.	November	5.60c.
April	5.75c.	August	5.55c.	December	5.65c.
May	5.60c.	September	5.60c.	January	5.70c.
June	5.55c.	October	5.60c.	February	5.70c.

SUGAR.—Raw has been firmer with some increase in the demand. Offerings have been light. Centrifugal, 96-degrees test, 3.58c.; muscovado, 89-degrees test, 3.11c., and molasses, 89-degrees test, 2.86c. Refined has been moderately active and firm. Granulated 4.60@4.70c. Teas in fair jobbing demand and firm. Spices moderately active and steady. Hops quiet and steady.

PETROLEUM has been active and firm. Refined barrels 8.20c., bulk 4.75c. and cases 10.65c. Naphtha has been firm and more active; 73@76 degrees, 13c. in 100-gallon drums. Gasoline has been more active with prices firm; 86 degrees 21c. in 100-gallon drums. Spirits of turpentine has declined to 75c. The demand has been light and stocks have increased. Rosin has been in moderate demand and firm; common to good strained $4 50.

TOBACCO.—Trade in domestic cigar leaf has been rather quiet, but prices have ruled generally firm, owing to the smallness of supplies held by most packers and jobbers. Interest in the new Sumatra crop continues. Samples have been received from the first inscription, but little is known in regard to them as yet. The sales thus far have been smaller than expected, owing to the high prices ruling at the inscriptions. Crop reports from Cuba are conflicting. Prospects for the Remedios crop are said to be poor, owing to insufficient rain, while the outlook for Vuelta Abajo and Partidois is more favorable.

COPPER has been quiet and easier; lake 25¼@25⅜c. and electrolytic 24⅞@25⅛c. Lead has been quiet and steady at 6¼c. Spelter has been in moderate demand and steady at 6.85@6.90c. Tin has been dull and easy; Straits 40¼c. Iron has been less active and easy; No. 1 Northern $23 20@$24 70; No. 2 Southern $22 75@$24.

COTTON.

Friday Night, March 29 1907.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 136,702 bales, against 159,389 bales last week and 169,294 bales the previous week, making the total receipts since the 1st of September 1906, 8,811,473 bales, against 6,645,744 bales for the same period of 1905-06, showing an increase since Sept. 1 1906 of 2,165,729 bales.

Speculation in cotton for future delivery has been comparatively quiet, partly owing to the near approach of the Easter holidays, and prices—mainly because of continued large receipts and some further depression at the Stock Exchange—have declined. The speculation has continued to be very largely what is known as of a professional character, and the large movement of the crop, especially at the Southwest, some weakness in Liverpool, and a falling off in the spot transactions there, have given prices a setback, despite some features in the situation which bulls have regarded as distinctly favorable to their interests. For example, the spot markets in this country have been as a rule firm, the dry goods reports have remained highly favorable, and some comment is beginning to be made on the continued dry weather in Texas. Reports, seemingly semi-official, have been in circulation to the effect that the past winter has been favorable for the hibernation of the boll-weevil, and that there is therefore a prospect that these insects may be abundant during the coming season. Latterly, moreover, the financial situation has been such that bears who sold on the recent decline have been more inclined to cover their engagements, especially as the cotton exchanges here and in New Orleans had decided to close on Good Friday and the day following, while the Liverpool Exchange had resolved to close on March 29, March 30 and April 1. Still the big receipts, the dulness of outside speculation, and, it may be added, some reports from Liverpool that Lancashire spinners are well supplied with cotton, were factors which pressed with more or less telling effect on prices. So that in spite of rather heavy covering of late, the net change in quotations for the week is in the bear interest. Attention is beginning to be directed more and more to the outlook for the coming crop, particularly as it is a very general belief that another large yield is needed. Crop preparations thus far on the whole seem to be well advanced in not a few sections, particularly in Texas, where, however, according to many reports, there was a drought during the winter, and the rain thus far this spring has been somewhat scanty, retarding planting to some extent. On Thursday local covering on the eve of the Easter holidays caused a small advance after some irregularity due to continued large receipts and dulness and depression in Liverpool. Spot cotton has been quiet and easier. Middling uplands closed at 10.95c., a decline for the week of 30 points.

The rates on and off middling, as established Nov. 21 1906 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

Fair	c. 2.00 on	Strict low mid.	c. 0.14 off	Middling tinged	c. 0.12 off
Strict mid. fair	1.75 on	Fully low mid.	0.32 off	Strict low mid. tinged	0.46 off
Middling fair	1.50 on	Low middling	0.50 off	Low mid. tinged	0.90 off
Barely mid. fair	1.25 on	Barely low mid.	0.70 off	Strict g'd ord. tinged	1.25 off
Strict good mid.	1.00 on	Strict good ord.	0.90 off	Fully mid. stained	0.42 off
Fully good mid.	0.88 on	Fully good ord.	1.07 off	Middling stained	0.50 off
Good middling	0.76 on	Good ordinary	1.25 off	Barely mid. stained	0.78 off
Barely good mid.	0.57 on	Strict g'd mid. tgd.	0.30 on	Strict low m. stain.	1.50 off
Strict middling	0.38 on	Good mid. tinged	Even	Fully l. m. stained	1.75 off
Middling	Basis	Strict mid. tinged	0.06 off	Low mid. stained	2.00 off

On this basis the official prices for a few of the grades for the past week would be as follows:

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

March 29.	1907.	1906.	1905.	1904.

Continental imports past week have been 114,000 bales.

The above figures for 1906 show an increase over last week of 31,188 bales, a gain of 712,231 bales over 1906, an excess of 1,123,691 bales over 1905 and a gain of 2,162,982 bales over 1904.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period for the previous year—is set out in detail below.

Towns.	Movement to March 29 1907.				Movement to March 30 1906.

a This year's figures estimated.

The above totals show that the interior stocks have *decreased* during the week 27,106 bales, and are to-night 30,538 bales less than at the same period last year. The receipts at all the towns have been 26,097 bales more than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

	1906-07		1905-06	
March 29—		*Since*		*Since*
Shipped—	*Week.*	*Sept. 1.*	*Week.*	*Sept. 1.*
Via St. Louis----------	17,873	659,507	11,320	401,013
Via Cairo ----------	3,398	192,604	4,310	175,679
Via Rock Island ----------	2,944	66,105	778	39,594
Via Louisville ----------	2,873	69,501	2,267	78,243
Via Cincinnati----------	1,531	46,189	1,025	47,447
Via other routes, &c----------	18,974	371,337	1,018	203,487
Total gross overland----------	47,593	1,405,243	20,718	945,463
Deduct shipments—				
Overland to N. Y., Boston, &c---	4,910	138,247	2,385	120,535
Between interior towns----------	1,027	59,194	397	16,759
Inland, &c., from South----------	1,171	43,228	698	32,201
Total to be deducted----------	7,108	240,669	3,480	169,495
Leaving total net overland *a*------	40,485	1,164,574	17,238	775,968

a Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 40,485 bales, against 17,238 bales for the week last year, and that for the season to date the aggregate net overland exhibits an increase from a year ago of 388,606 bales.

	1906-07		1905-06	
In Sight and Spinners' Takings.	*Week.*	*Since Sept. 1.*	*Week.*	*Since Sept. 1.*

WEATHER REPORTS BY TELEGRAPH.—Advices to us by telegraph from the South this evening indicate that dry weather has been quite general during the week. Farm operations as a rule have made very good progress, but there are complaints from some sections that lack of moisture has interfered with work and retarded germination of seed already planted.

Galveston, Texas.—Dry weather has been quite general throughout the State. There has been no rain here. The thermometer has ranged from 72 to 78, averaging 75.

Palestine, Texas.—It has been dry all the week. Average thermometer 75, highest 88 and lowest 66.

Fort Worth, Texas.—No rain here the past week. The thermometer has averaged 76, the highest being 88 and the lowest 64.

Corpus Christi, Texas.—We have had no rain during the week. The thermometer has averaged 76, ranging from 72 to 80.

Abilene, Texas.—There has been no rain during the week. The thermometer has ranged from 64 to 90, averaging 77.

San Antonio, Texas.—Dry all the week. Average thermometer 77, highest 88 and lowest 66.

Taylor, Texas.—We have had no rain during the week. The thermometer has averaged 75, ranging from 62 to 88.

New Orleans, Louisiana.—There has been no rain the past week. Average thermometer 75.

Leland, Mississippi.—There has been no rain the past week. The thermometer has averaged 72.3, highest being 86 and lowest 59.

Vicksburg, Mississippi.—It has been dry all the week. The thermometer has averaged 75, ranging from 63 to 88.

Helena, Arkansas.—Weather very warm and too dry for farming. There has been no rain since March 14. The thermometer has ranged from 64 to 87, averaging 76.

Memphis, Tennessee.—Farm work is progressing actively. There has been no rain during the week, but rain is now falling. The thermometer has averaged 75.4, ranging from 67 to 85.9.

Nashville, Tennessee.—Weather excessively dry. There has been no rain during the week. The thermometer has averaged 75, ranging from 61 to 88.

Montgomery, Alabama.—Farmers are making satisfactory progress with work. Planting is well up so far. We have had no rain the past week. The thermometer has averaged 74, the highest being 89 and the lowest 60.

Selma, Alabama.—Planting has commenced. Rain would be beneficial.

Mobile, Alabama.—The weather has been dry and warm here and in the interior all the week, and rain is needed, as the ground is too hard for plowing in some sections. Cotton planting makes good progress quite generally. The thermometer has averaged 73, ranging from 65 to 86.

Madison, Florida.—We have had no rain during the week. The thermometer has ranged from 54 to 78, averaging 68.

Augusta, Georgia.—With continued warm weather work is being rushed. Planting has started. Rain has fallen on one day during the week, the precipitation being inappreciable. Average thermometer 73, highest 93, lowest 52.

Savannah, Georgia.—Dry all the week. The thermometer has averaged 73, the highest being 94 and the lowest 51.

Charleston, South Carolina.—We have had no rain the past week. The thermometer has averaged 71, the highest being 94 and the lowest 53.

Greenwood, South Carolina.—We have had no rain during the week. The thermometer has averaged 68, ranging from 55 to 81.

Statesburg, South Carolina.—Rain is now needed for germination of seed recently planted in light soils and to soften stiff clay lands too dry and hard for plowing. There has been rain on one day during the week, the rainfall being only two hundredths of an inch. The thermometer has ranged from 46 to 95, averaging 73.

Charlotte, North Carolina.—Dry all the week. Average thermometer 70, highest 91, lowest 62.

The following statement we have also received by telegraph, showing the height of rivers at the ports named at 8 a. m. of the dates given:

		Mch. 29 1907. Feet.	Mch. 30 1906. Feet.

Total exports of cotton manufactures							599,705	618,742

The foregoing shows that there has been exported from the United Kingdom during the five months 599,705,000 lbs. of manufactured cotton, against 618,742,000 lbs. last year, or a decrease of 19,037,000 lbs.

A further matter of interest is the destination of these exports, and we have therefore prepared the following statements, showing the amounts taken by the principal countries during February and since Oct. 1 in each of the last three years.

Piece Goods—Yards. (000s omitted.)	February.			October 1 to February 28.

WORLD'S SUPPLY AND TAKINGS OF COTTON.—The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Sept. 1, for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amount gone out of sight, for the like perid.

Cotton Takings. Week and Season	1906-07.		1905-06.	
	Week.	*Season.*	*Week.*	*Season.*
Visible supply March 22	5,403,296		4,793,644	
Visible supply Sept. 1		1,784,156		2,545,470
American in sight to March 29	198,081	11,783,485	136,256	9,189,787
Bombay receipts to March 28	94,000	1,865,000	66,000	1,871,000
Other India ship'ts to March 28	13,000	172,000	14,000	184,000
Alexandria receipts to March 27	6,000	898,000	6,000	768,000
Other supply to March 27 *a*	3,000	220,000	10,000	327,000
Total supply	5,717,377	16,722,641	5,025,900	14,885,257
Deduct—				
Visible supply March 29	5,372,102	5,372,102	4,659,871	4,659,871
Total takings to March 29	345,275	11,350,539	366,029	10,225,386
Of which American	237,275	8,680,539	315,029	7,700,586
Of which other	108,000	2,670,000	51,000	2,525,000

a Embraces receipts in Europe from Brazil, Smyrna, West Indies, &c.

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.—Through arrangements made with Messrs. Choremi, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years:

Alexandria, Egypt, March 27.	1906-07.	1905-06.	1904-05.
Receipts (cantars *a*)—			
This week	50,000	50,000	140,000
Since Sept. 1	6,737,884	5,760,473	5,484,099

Exports (bales)—	*This week.*	*Since Sept. 1.*	*This week.*	*Since Sept. 1.*	*This week.*	*Since Sept. 1.*
To Liverpool	2,000	175,387	2,000	179,156	1,000	168,205
To Manchester	5,500	172,752	5,500	142,841	1,750	110,619
To Continent	3,250	268,656	5,000	241,502	4,000	225,768
To America	2,000	95,337	1,750	62,742	2,750	55,558
Total exports	12,750	712,132	14,250	626,241	9,500	560,150

a A cantar is 98 lbs.

This statement shows that the receipts for the week were 50,000 cantars and the foreign shipments 12,750 bales.

NEW YORK QUOTATIONS FOR 32 YEARS.

The quotations for middling upland at New York on Mar. 29 for each of the past 32 years have been as follows:

1907	c 10.9	1899	c 6.31	1891	c 9.00	1883	c 10.06
1906	11.70	1898	6.12	1890	11.44	1882	12.12
1905	8.05	1897	7.31	1889	10.19	1881	10.68
1904	14.90	1896	7.88	1888	9.94	1880	13.12
1903	10.05	1895	6.31	1887	10.50	1879	10.50
1902	8.94	1894	7.68	1886	9.12	1878	10.75
1901	8.19	1893	8.62	1885	11.19	1877	11.50
1900	9.62	1892	6.68	1884	11.38	1876	13.38

JUTE BUTTS, BAGGING, &c.—The market for jute bagging has been extremely quiet, with prices ruling as last named: 9⅛c. for 2 lbs., standard grades. Jute butts continue dull at 3@4c. for bagging quality.

EAST INDIA CROP.—The final report on the cotton crop for 1906-07 has been issued by the Director-General of Commercial Intelligence of India as follows:

This memorandum summarizes the provincial reports of the cotton crop up to Feb. 1, and compares them, so far as possible, with those for the two previous years. The reports are complete except for those from the Kishangarh State in Rajputana and the Malwa Agency in Central India. But these are of small importance, and the figures furnished by them for the December forecast have been used in the present memorandum. The total area in all territories reported on is now computed as 22,344,000 acres, which marks a net advance of 1,272,000 acres, or 6%, on the final figure for the previous season. The total estimated outturn amounts to 4,908,000 bales of 400 pounds, the increase in this case being one of 1,482,000 bales, or 43.3%. The character of the season has been generally favorable, though the crop has suffered from disease and insects in various quarters. The condition of the crop is reported to be good on the whole.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is quiet for yarns and steady for shirtings. Spinners are considered to be well under contract. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

	1907.			1906.		
	32s Cop. Twist.	*8¼ lbs. Shirtings, common to finest.*	*Cot'n Mid Upl's*	*32s Cop. Twist.*	*8¼ lbs. Shirtings, common to finest.*	*Cot'n Mid Upl's*

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 210,832 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

	Total bales.
NEW YORK—To Liverpool—March 26—Bovic, 700 upland, 541 Peruvian	1,241
To Hull—March 26—Idaho, 526	526
To London—March 23—Minnehaha, 50	50
To Glasgow—March 23—Caledonia, 60	60
To Havre—March 23—La Gascogne, 4 foreign March 26—Californic, 80 foreign; Erika, 1,025 upland, 159 Sea Island	1,268
To Marseilles—March 22—Perugia, 400	400
To Hamburg—March 22—Patricia, 148	148
To Antwerp—March 22—Finland, 1,815 March 26—Camproman, 1,358	3,173
To Barcelona—March 27—Ulriken, 3,002	3,002
To Genoa—March 22—Koenigen Luise, 707; Sannio, 353	1,060
To Naples—March 22—Koenigen Luise, 192	192
To Venice—March 21—Eugenia, 402 March 27—Soha H., 302	704
To Trieste—March 21—Eugenia, 350 March 27—Soha H., 99	449
To Syra—March 27—Soha H., 100	100
NEW ORLEANS—To Liverpool—March 28—Waylarer, 15,000	13,000
To London—March 27—Irishman, 6,196	6,196
To Bremen—March 28—Montauk Point, 7,184; Tilly Russ, 3,250	10,434
To Genoa—March 23—Il Piemonte, 9,965	9,965
GALVESTON—To Liverpool—March 21 Inkula, 8,332; Kingstonian, 12,015 March 25—Texan, 4,539 March 26—Civilian, 18,893; Wandere, 7,430	51,209
To Manchester—March 28—Asuncion de Larrinaga, 11,452	11,452
To Havre—March 22—Matteawan, 9,081	9,081
To Bremen—March 23—Koln, 12,691 March 27—Callisto, 11,121	23,812
To Barcelona—March 22—Valbanera, 6,150	6,150
To Malaga—March 22—Valbanera, 1,000	1,000
To Genoa—March 22—Sicania, 6,650 March 28—Cerea, 8,466	15,116
SAVANNAH—To Manchester—March 28—Axminster, 1,576 upland, 314 Sea Island	1,890
To Bremen—March 22—Hillmere, 6,090—March 27—Kobe, 6,541	12,631
To Hamburg—March 22—Hillmere, 169 March 27—Kobe, 300	469
To Rotterdam—March 16—Voorburg, 150	150
To Ghent—March 26—Voorburg, 300	300
To Reval—March 22—Hillmere, 735 March 27—Kobe, 2,200	2,935
To Narva—March 22—Hillmere, 1,000	1,000
To Nykoping—March 22—Hillmere, 100	100
To Riga—March 27—Kobe, 500	500
To Venice—March 28—Alberta, 1,701	1,701
To Trieste—March 28—Alberta, 3,254	3,254
To Fiume—March 28—Alberta, 331	331
BRUNSWICK—To Manchester—March 22—Axminster, 1,708	1,708
BOSTON—To Hamburg—March 23—Bethania, 200	200
To Yarmouth—March 19—Boston, 83 March 25—Boston, 124	207
BALTIMORE—To Liverpool—March 22—Indore, 2,893	2,893
To Bremen—March 23—Cassel, 250 March 27—Gera, 466	716
PHILADELPHIA—To Manchester—March 23—Manchester Commerce, 1,064	1,064
SEATTLE—To Manila—March 23—Shawmut, 100	100
TACOMA—To Japan—March 19—Titan, 3,000 (additional) March 23—Shawmut, 5,895	8,895
Total	210,832

The particulars of the foregoing shipments for the week, arranged in our usual form, are as follows:

	Great Britain.	*French ports.*	*Germany.*	*—Oth. Europe— North.*	*South.*	*Mex., &c.*	*Japan.*	*Total.*
New York	1,877	1,668	148	3,173	5,507	---	---	12,373

BREADSTUFFS.

Friday, March 29 1907.

Prices for wheat flour have remained about stationary as a rule during the week, with the trading still on a small scale and largely of a hand-to-mouth character. The foreign demand has been insignificant, and the exports from the seaboard have continued small. At the principal milling centres of the Northwest and the Southwest trade has been quiet. At Minneapolis shipping directions have come in slowly, and the lack of them has caused some mills to shut down. Export trade there has been light, though some business has been done with the United Kingdom and China. Rye flour and corn meal have been quiet and steady.

Wheat has been under the influence of such conflicting conditions that prices have remained practically in a state of equilibrium. Advances, owing to bad crop reports from at home and abroad, have been offset by reactions due to contradictory advices from the Southwest affirming that the dry weather and insects have done far less damage than some reports state; also by the Stock Exchange flurries, rather disappointing foreign markets and some falling off in the speculation as well as not a little liquidation at Chicago attributed to prominent bull interests. Moreover, the cash business has been dull, the flour trade has been stagnant, Northwestern receipts have been large and the stocks in that section have steadily increased. Then, too, the world's shipments have been on a large scale, though the exports from this country have been light. On the other hand, however, as already intimated, some of the reports from the Southwest insist that dry weather and green bugs have done a good deal of damage, and these at times have not been without their effect. The weather in Germany, too, has been unfavorable, and it is stated that the greater part of the wheat area in that country has been abandoned, owing to winter killing. In Hungary conditions are unsatisfactory, complaints are increasing and some of the wheat area has been abandoned. The weather in Spain has been unduly dry, and Argentine wheat arriving at Liverpool is not grading as well as could be expected. Then, too, some of the shorts here have declined to credit the reports that the Wall Street bull pool has sold its cash wheat in Chicago. This has led them of late to pursue a rather cautious policy. But, on the other hand, some of the bulls have been afraid that the bull pool has really sold the May option against its cash wheat holdings in Chicago and will deliver the wheat in May, or at any rate in July. Between these various and conflicting influences the price has been held within very narrow bounds. The foreign consuming world for the time being, at least, seems to be getting on very well without American wheat, and the speculation, partly owing to recent events at the Stock Exchange, has been reduced to very modest proportions. On Thursday prices declined slightly, owing to reports of rains in the Southwest, more favorable crop reports, disappointing Liverpool advices and scattered liquidation on the eve of the holiday.

DAILY CLOSING PRICES OF WHEAT FUTURES IN NEW YORK.

DAILY CLOSING PRICES OF WHEAT FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery in elevator	75 ¾	75 ⅝	75 ¾	75 ¾	75 ½	
July delivery in elevator	77 ¼	77 ⅛	77 ⅝	77 ⅝	77 ½	Holl-
September delivery in elevator	78	78	78 ¾	78 ⅝	78 ⅝	day.

Indian corn futures have shown irregularity, but the fluctuations have not been very marked. Speculation has been less active at Chicago, while here it has been mainly nominal. Bullish factors have been the small supply of contract grade at Chicago. The arrivals of contract grade at Chicago have continued very small, and this fact has tended to check short selling. Bulls have given support at times. On the other hand, the cash trade has been dull and larger receipts are expected by some in the near future. Leading Chicago bulls have sold at times. On Thursday prices declined slightly on liquidation, the dulness of the cash demand and bearish pressure.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN IN NEW YORK.

May delivery in elevator	45 ⅜	45 ⅞	46 ⅛	46	45 ⅞	
July delivery in elevator	45 ⅜	45 ½	45 ⅜	45 ⅞	45 ⅝	Holl-
September delivery in elevator	45 ⅞	46	46 ⅛	46 ⅜	46 ⅛	day.

Oats for future delivery in the Western market have advanced, owing to manipulation by leading Chicago operators, covering of shorts, light offerings and moderate receipts. The Kansas acreage, it is stated, will be reduced, owing to the scarcity of seed. Contract stocks at Chicago continue small. The upward tendency, however, has been checked at times by liquidation attributed to the bull clique. The cash demand has been light, and there has been more or less selling for short account. On Thursday prices advanced on bull support, covering of shorts and light offerings.

THE DRY GOODS TRADE.

New York, Friday Night, March 29 1907.

The dry goods market generally continues strong and very active, especially for spot goods. In the cotton goods division buyers have found the market an exceedingly difficult one to operate in, owing to the small stocks available for immediate shipment, and spot goods in many instances command premiums. Forward business in cottons is a little quieter, buyers showing more unwillingness during the past week to place orders freely for distant delivery. Much complaint is heard about delayed deliveries, which have forced buyers to purchase spot goods at steadily advancing prices, to be used in place of goods which should have reached them weeks ago; this division of the market is apt to continue rather quiet until deliveries improve or at least until buyers are assured that mills will fill orders placed some time ago at prices then named. In heavy cottons, large buyers assert that they are obtaining concessions of from ¼ to 3/8c. below market prices on sheetings, medium-weight drills, brown shirtings, etc., for delivery beyond September, the concessions being attributed to the absence of export business and poor prospects of trade from China for the balance of the year. Despite the fluctuations in the staple, both narrow print cloths and wide gray goods have ruled firm at quoted prices; converters are well covered ahead and therefore have not been purchasing as freely as earlier in the month. The clearing up of spring and summer silk piece goods in first hands has progressed satisfactorily, and the outlook for fall is bright. Manufacturers of silk goods are facing a serious problem; the demand has exceeded expectations and mills have been forced to purchase additional supplies of raw silk at high prices, which, with increased wages, have greatly increased the cost of production. Linens and light-weight woolen and worsted dress goods are in active demand. The shortage in underwear and hosiery lines has become more acute, and substantial advances are being secured for near-by deliveries. Export trade remains very quiet.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending March 23 were 3,744 packages, valued at $281,887, their destination being to the points specified in the table below:

New York to March 23.	1907 Week.	1907 Since Jan. 1.	1906 Week.	1906 Since Jan. 1.
Great Britain	60	672	76	247
Other European	12	170	12	520
China	----	6,191	----	27,134
India	152	3,972	43	3,629
Arabia	481	14,683	954	8,221
Africa	397	2,984	100	2,470
West Indies	441	5,953	320	5,682
Mexico	130	612	75	505
Central America	469	4,136	293	4,128
South America	1,042	11,605	828	14,489
Other countries	560	10,439	288	3,510
Total	3,744	61,377	2,989	70,535

The value of these New York exports since Jan. 1 has been $3,773,686 in 1907, against $3,906,993 in 1906.

Supplies of domestic cottons for immediate delivery are at a minimum; demand continues steady and active, but the shortage naturally restricts the volume of business. This is particularly true of sheetings, denims, tickings and ginghams; the latter especially are well sold up and all goods for anything like reasonably early delivery are quickly picked up. In prints and bleached goods the price tendency is still upward. Notwithstanding the higher prices on bleached cottons a much larger volume of business could undoubtedly be put through if satisfactory deliveries could be obtained. The new price levels on prints has not curtailed buying in the least; heavy orders have been placed during the past week for forward delivery, and spot offerings are practically exhausted. The print cloth market is somewhat quieter, owing, doubtless, to the fact that mills are still far behind on deliveries. Export business is very dull, with only a moderate demand from Red Sea ports and the West Indies.

WOOLEN GOODS.—First hands report a marked improvement in the demand for men's and women's wear for fall. In men's wear substantial re-orders have been placed on fine fancy worsteds and fancy woolens, with a good increase in business on staple overcoatings. Light-weight suitings are being well cleaned up at full values, and light tropical worsteds have moved in larger volume than for some time past. Fine blue serges are ruling higher than the opening values, but are meeting with a steady call from cloth jobbers. Very satisfactory re-orders are coming in on mercerized goods; in fact, there is a disposition among buyers to show a broader range of fabrics in their offerings than was indicated earlier in the season. In dress goods, fancies in woolen and worsted construction cloths are in strong request. Panamas, in browns and blues particularly, and voiles in fancy effects have been taken in large quantities for fall; fine serges are also in demand but scarce. Staple cheviots and broadcloths are being freely re-ordered. Light-weight stocks in first hands for spring have been well cleared up at full prices and premiums are being paid on lines still available. Attention now centres mostly in the Fall trade. A heavy duplicate business has been done in heavy-weight lines, particularly henriettas, mohairs, French serges, batistes and fancy cheviots and twills, with extensive reordering on plaids, checks and stripes in worsteds and woolen goods. Prices on fall lines average from 2 to 5% higher than last year.

FOREIGN DRY GOODS.—The linen situation continues very strong. Sheer fabrics are higher and the scarcity of crashes has become more pronounced, it being difficult to secure sizeable lots even at top market prices. Dress linens and housekeeping goods are in urgent demand and also very short. Both heavy and light-weight burlaps are unusually active, with indications that top quotations have not yet been reached. Imported woolens and worsteds are in good demand and firm.

STATE AND CITY DEPARTMENT.

News Items.

Connecticut.—*Savings Deposits in Corporations Other Than Savings Banks.*—A bill has been introduced in the State Legislature providing that all corporations, other than savings banks, maintaining a savings department or receiving deposits as savings, shall invest such deposits in the same securities as savings banks may legally invest. This measure was favorably reported on March 20 by the committee on Banks of the House of Representatives and we therefore print it in full below:

AN ACT CONCERNING DEPOSITS FOR SAVINGS IN CORPORATIONS OTHER THAN SAVINGS BANKS.

General Assembly, January Session, A. D. 1907.

Be it enacted by the Senate and House of Representatives in General Assembly convened:

Section 1. All corporations other than savings banks, chartered by this State, maintaining a savings department, or soliciting or receiving deposits as savings, shall invest all such deposits so received according to the requirements of the statute laws of this State concerning the investment of deposits in savings banks. Said corporations shall pay to the State, on the deposits so received, the same tax which is required to be paid by savings banks by Section 2422 of the general statutes as amended by Chapter 189 of the Public Acts of 1903, on the deposits held by them; and said corporations shall also transmit to the Bank Commissioners, on or before the first day of October in each year, and oftener if required by said Commissioners, a sworn statement of the amount of such deposits and the securities in which they are invested, together with such other information as may be required to be given to said Commissioners in the annual statements of banks and trust companies.

Sec. 2. All such savings deposits which are not now invested in accordance with the provisions of Section one of this Act shall be so invested before October 1 1908.

Sec. 3. The reserve fund required by Section 3400 of the general statutes in the case of State banks and trust companies shall not apply to the deposits mentioned in Section one of this Act.

New York City.—*Aqueduct Contract Let.*—The contract for the first portion of the construction of the new 161 million dollar aqueduct was awarded on March 27 to Thomas McNally Co. of Pittsburgh, whose bid was $4,126,000. This aqueduct is for the purpose of bringing water to the city from the Catskills, in accordance with plans approved by the Board of Estimate and Apportionment in Oct. 1905.

Bonds Listed.—On March 28 the New York Stock Exchange listed the $8,000,000 4% corporate stock, due Nov. 1 1956, and the $1,500,000 4% assessment bonds due Nov. 1 1916, sold at the public sale on Dec. 14 1906.

Oklahoma—Indian Territory.—*Constitutional Election.*—The proposed constitution for the State of Oklahoma drafted by the convention which adjourned March 15 will be submitted to the voters for their ratification at a special election to be held Aug. 6.

Pittsburgh-Allegheny, Pa.—*"Greater City" Decision Appealed.*—Justice Moody of the United States Supreme Court has allowed a writ of error in the suit brought by ex-Governor William A. Stone and others to prevent the consolidation of the cities of Pittsburgh and Allegheny, thus carrying the case from the Supreme Court of Pennsylvania to the Supreme Court of the United States. This action may delay for some time the formation of a "Greater Pittsburgh," as it is not certain that the Court can be prevailed upon to hear arguments the present term. See V. 84, p. 644.

Seattle, Wash.—*Bonds Valid.*—The following regarding the $600,000 electric-light bonds awarded July 9 1906 to the State of Washington appeared in the Seattle "Post-Intelligencer":

Olympia, March 20.—The issue of $600,000 worth of bonds for the improvement and extension of the Seattle municipal lighting plant, the legality of which was questioned by the State, has been declared to be legal by the Supreme Court in a decision handed down to-day.

The case was in reality a test case in the interests of Seattle people, although it was entitled State of Washington ex rel., John D. Atkinson, as Attorney-General, versus E. W. Ross, as Commissioner of Publicy Lands et al., and was begun in the Superior Court of Thurston County by the State on the relation of Mr. Atkinson against the State Land Commssioner, to enjoin the State Board of Land Commissioners from investing the moneys of the permanent school fund of the State in an issue of the general city bonds of the city of Seattle of $600,000, authorized by the City Council after the qualified voters of the city had voted on the question of the issuance of the bonds.

When the bonds were issued Mr. Ross asked the Attorney-General his opinion as to the legal status of the issue. Assistant Attorney Robert Booth of Seattle rendered an opinion that he thought the bonds illegal. The suit to enjoin was then brought to settle the matter.

Bond Proposals and Negotiations this week have been as follows:

Abilene, Dickinson County, Kan.—*Bond Sale.*—This city has issued at par $85,000 4% 5-30-year (optional) water bonds to the Abilene Water Co., in payment for its plant. Denomination $1,000. Date Feb. 1 1907. Interest semi-annual.

Adams County (P. O. Decatur), Ind.—*Bond Sale.*—On March 26 the four issues of 4½% coupon macadam road bonds, aggregating $25,100, described in V. 84, p. 705, were awarded to the Old Adams County Bank of Decatur for $25,125 10 (100.10) and accrued interest, while the $4,480 (amount reduced from $4,880) 4½% coupon Root & Preble macadam road bonds were awarded to J. F. Wild & Co. of Indianapolis for $4,485, the price thus being 100.116.

Adams County (P. O. West Union), Ohio.—*Bond Offering.*—Proposals will be received until 12 m. April 6 at the office of the Board of County Commissioners for $68,000 3½% coupon turnpike refunding bonds. Authority Section 2,834 of the Revised Statutes. Denomination $500. Date April 6 1907. Interest semi-annually at the office of the County Treasurer. Maturity fifteen years. Certified check for $300, payable to the Board of County Commissioners, is required. Purchaser to pay accrued interest. S. S. Jones is County Auditor and ex-officio Clerk of the Board of County Commissioners.

Aitkin, Aitkin County, Minn.—*Bonds Voted.*—This city recently authorized the issuance of $35,000 funding bonds.

Alleghany, Alleghany County, Pa.—*Bonds Authorized.*—On March 21 the Common Council passed an ordinance providing for the issuance of $1,000,000 water-extension bonds.

Allen County (P. O. Lima), Ohio.—*Bond Sale.*—On March 26 the $130,000 4½% 9¼-year (average) memorial-building bonds described in V. 84, p. 462, were awarded to Lima Trust Company of Lima at 105.45 and accrued interest. The following bids were received:

Union Trust & Savings Bank, Santa Rosa	288,000 00

South Boston, Halifax County, Va.—*Bonds Voted.*—An election held March 18 resulted in favor of a proposition to issue $8,500 5% 34-year street, sewerage and water improvement bonds.

Spottsylvania County, (P. O. Spottsylvania), Va.—*Bond Election.*—The Board of Supervisors has decided to hold an election to vote on the question of issuing not exceeding $50,000 public-roads-improvement bonds.

Springfield, Clark County, Ohio.—*Bond Sale.*—On March 26 the $35,000 4% 19 2-3-year (average) coupon water-works bonds described in V. 84, p. 528, were awarded to Seasongood & Mayer of Cincinnati at 103.142 and accrued interest—a basis of about 3.772%. Following are the bids:

Seasongood&Mayer, Cinc.	$36,100 00	Brighton-German Bk.,Cin.	$35,563 50
Central Trust & Safe Deposit Co., Cincinnati	35,917 20	Emery, Anderson & Co., Cleveland	35,262 50

Staples, Todd County, Minn.—*Bonds Proposed.*—This city is considering the advisability of issuing $25,000 school-building bonds.

Sulphur Springs Independent School District (P. O. Sulphur Springs), Hopkins County, Tex.—*Bonds Authorized.*—The Board of Trustees has decided to issue $50,000 school-building bonds.

Tarentum, Allegheny County, Pa. *Bond Offering.*—Proposals will be received until 2 p. m. April 22 by W. A. Gibson, Borough Secretary, for $28,000 4½% coupon grading, curbing, paving and sewer bonds. Denomination $1,000. Date May 1 1907. Interest semi-annual. Maturity $10,000 May 1 1927, $10,000 May 1 1932 and $8,000 May 1 1937. Bonds are exempt from taxation. Certified check for $500, payable to A. J. Fulton, Borough Treasurer, is required.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

Tecumseh, Johnson County, Neb.—*Bond Offering.*—Proposals will be received until 7:30 p. m. April 16 by C. M. Wilson, City Clerk, for the $12,750 4½% coupon electric-light-plant bonds voted on March 5. Authority, Section 8504, Cobby's Annotated 1905 Statutes of Nebraska. Denomination $500, except one bond for $250. Date May 1 1907. Interest annually at Nebraska fiscal agency in New York City. Maturity May 1 1927, subject to call after May 1 1917. Deposit of 2% of bonds is required.

Tilden, Madison County, Neb.—*Bond Offering.*—Proposals will be received until 3 p. m. April 6 by F. L. Putney, Village Clerk, for $18,000 5% coupon water-works bonds. Authority election held Jan. 29 1907. Denomination $1,000. Date July 1 1907. Interest annually in New York City. Maturity July 1 1927, subject to call after July 1 1917. Certified check for $500, payable to Ed. B. Houser, Village Treasurer, is required. The village has no debt at present. Assessed valuation 1906 $116,122.

Topeka, Shawnee County, Kansas.—*Bond Election.*—At the city election April 2 the question of issuing $40,000 electric-light-improvement bonds will be submitted to the people.

Trenton, Mercer County, N. J.—*Bonds Authorized.*—On March 19 this city passed an ordinance providing for the issuance of $89,300 4% coupon or registered street-improvement bonds. Interest semi-annually at City Treasurer's office. Maturity ten years.

Troy, N. Y.—*Bond Sale.*—On March 12 $23,197 02 4% Prospect Park bonds were awarded to the Troy Trust Co. for $23,222 02, the price thus being 100.107—a basis of about 3.993%. Denomination $1,000, except one bond for $197 02. Date March 1 1907. Interest semi-annual. Maturity March 1 1927.

Bonds Not Sold.—No sale was made of $21,150 public-improvement bonds offered on March 12.

Trumbull County (Ohio) Road District No. 1.—*Correction.*—We are informed that the successful bidders for the $74,000 5% coupon improvement bonds offered on March 9 were Breed & Harrison of Cincinnati and not MacDonald, McCoy & Co. of Chicago, as originally reported.

Tucson, Pima County, Ariz.—*Bonds Voted.*—This city recently authorized the issuance of water-extension, fire-department-improvement and city-hall bonds.

NEW LOANS.

BONDS

of the

STATE OF NEW YORK

for

CANAL IMPROVEMENT

EXEMPT FROM TAXATION

Notice is hereby given that pursuant to the provisions of Chapter 147 of the Laws of 1903 and Chapter 302 of the Laws of 1906, sealed proposals will be received at the office of the State Comptroller, in the city of Albany, until Friday APRIL 5, 1907, AT TWELVE O'CLOCK NOON of that day, for the purchase in whole or in part of

Five Million Dollars in Bonds

to be issued by the people of the State of New York, in either registered or coupon form at the option of the purchaser, bearing interest at the rate of three per cent per annum from January 1, 1907, payable semi-annually on the first days of January and July of each year, and the principal payable on the first day of January in the year 1957. Principal and interest payable in gold coin of the United States of America, of the present standard of weight and fineness, at the Bank of the Manhattan Company in the City of New York.

Coupon bonds will be issued in the denomination of One Thousand Dollars and registered bonds in denominations of One Thousand, Five Thousand, Ten Thousand and Fifty Thousand Dollars.

A sinking fund is established by law for the extinguishment of the indebtedness created by the sale of the aforesaid bonds and for the payment of the interest thereon as the same become due.

The bonds are exempt from taxation.

No proposal will be accepted for less than the par value of the bonds nor unless accompanied by a deposit of money or by a certified check or bank draft upon a bank or trust company of the city of Albany or New York, payable to the order of the Comptroller of the State of New York, for at least two per cent of the par value of the bonds bid for.

All proposals, together with the security deposits, must be sealed and endorsed "Loan for Canal Improvement" and inclosed in a sealed envelope directed to the "Comptroller of the State of New York, Albany."

The successful bidder or bidders will be required to pay for the bonds, on the acceptance of the proposal, by deposit in the bank of the Manhattan Company in the City of New York to the credit of "Treasurer of the State of New York on account of the Canal Fund," of the amount of the award, together with premium and accrued interest from January 1, 1907, less the amount of the deposit of such successful bidder or bidders, which will be applied toward the payment for the bonds. All other deposits will be returned by mail to the respective bidders, within three days after the bonds have been awarded, unless different instructions to the Comptroller as to the return of the deposit are duly given.

The Comptroller reserves the right to reject any or all bids which are not in his opinion advantageous to the interests of the State.

MARTIN H. GLYNN,
Comptroller.

State Comptroller's Office,
Albany, N Y.
March 12, 1907.

NEW LOANS.

$18,000

THE FINANCIAL SITUATION.

What the daily journals of the United States and their correspondents do not get hold of is not among the facts and events worth knowing. They are better qualified, through the official sources of information open to them, to speak knowingly and intelligently of Government policies, present and prospective, affecting railroad andcorporation affairs, than any other authority.

It has for many weeks been a subject of rumor that President Roosevelt was about to make a speech showing a material modification or change in his views on a vital issue affecting the interests of railroads—a change which was sure to quiet disturbed feelings, restore confidence in industrial and financial circles, and wholly establish the credit in Europe and America of railroad property. Suddenly the President, after Secretary Cortelyou had arrested the worst phases of the panic (a fact which is slightly suggestive), concluded not to make his intended speech at present, and not at all unless the situation again showed more clearly that it was demanded and needed. But in the meantime the press got hold of the outlines of his prepared speech, while Mr. Roosevelt writes a letter in which he says very little except to deny most emphatically that he has changed his mind. From divers good sources, however, the substance of what his plan was seems to be pretty fully disclosed.

If we judge rightly, the amendments to the rate bill entertained by the Government may be divided up into four pretty distinct branches of the subject under discussion. First, as to the physical valuation of the railroads—a suggested procedure that probably did more than any other one thing to frighten security holders—was the proposal to let the water out of stocks; on that point the President, it is claimed, proposed to qualify the general understanding of his position by stating that he never meant to apply that process to the past—that is, discover and let out water that is now in stocks, widely distributed for a full consideration; but rather to prevent the watering of stocks in the future—an eminently desirable procedure; whereas to rip up the whole past would be simply to introduce chaos.

The second change in the program as claimed is that railroads should be allowed to make agreements among themselves, but subject to a rigid Federal scrutiny. Every one who has studied the railroad problem thoroughly would rejoice to see such a provision incorporated into the railroad rate bill. The truth is, there must be agreements between freight agents working in a given locality and engaged in the same class of business—agents each of whom is all the time seeking to advance the interests of his own road. If forbidden by law to make agreements, the law will be broken and evaded by rebates, &c. It is the secrecy of the agreement which harasses the shipper. With the agreement known to shippers, carriers and the Government in all its particulars, no interest could be harmed, but every party tributary to the same lot of roads would be benefited. The third feature entertained was that equitable schedules, having been established, the term of their existence should be a long one, so that shippers might know what they could depend upon.

The foregoing suggestions are all of them in the interest of the stability of security values and the minimizing of vicious speculation; we should hail with decided hopefulness their adoption. There is, though, a fourth specification we have seen named as a part of Mr. Roosevelt's plan which we could not favor, though the divers, hasty and extremely onerous recent disclosures of State legislation have given a certain usefulness and excuse for its proposal which it did not previously possess. This fourth feature we refer to is the centralization into Federal control of the whole subject of railroad rate law legislation; that is, the putting into the hands of the general Government full and sole power over such questions by a broadening of the inter-State commerce clause. This we could not favor at all. It would be removing the essential principle of the United States Government, perfected when there was great jealousy of a general union of the States, which led to a federation more stable than the authors of the plan imagined would be possible. Nothing now but false pride is leading the nation—a desire to present as strong and vigorous a front for fighting purposes as any of the world's Powers, while talking loudly about a general peace. All the concentration of force we would prefer to see with its head at Washington is a skeleton of a navy and army such as we have had in the past and which successfully carried us through two wars, one internal and the other external. That would answer for all time unless our policy is the opposite of peaceful. The States are necessary for domestic purposes—the vents through which all the political froth and bubbleses cape and burst harmlessly.

Discussion is rife with reference to the utilities bill, as it is called. It has been supposed that Governor Hughes drew the bill, thought it was perfect as it stood and would veto the measure if passed with any changes made in it. Ex-Ambassador Joseph H. Choate appeared this week before the Judiciary Committee of the Senate and the Railroads Committee of the Assembly at Albany and addressed the joint hearing on that measure in favor of certain amendments which have been proposed. His views will carry with them great weight, and a brief analysis of some of his conclusions will, perhaps, set the portion of the public who think for themselves into new channels regarding some of the offered changes. That Governor Hughes drew the bill or has said any such things, or taken any such position on the bill, as the rumors stated above indicated, Mr. Choate dismisses with a brief but decided negative. Some admirers are overzealous in the Governor's behalf and say foolish things and give them his endorsement to make them float; we notice that his staying powers have been proved unquestionable by friends who have examined his mouth! Such stuff is not worth consideration. Mr. Hughes has always been reputed not only as a well-read lawyer but as a man of good common sense. No individual of that description could pride himself on his knowing it all and having nothing to learn. Oliver Wendell Holmes put the case right when he said:

> "In opinion look not always back,
> The wake is nothing—mind the coming track;
> Leave what you've done for what you have to do;
> Don t be consistent but be simply true."

That is pretty much the same idea that we quoted from Milton's "Paradise Lost" last month. Those words were "be *lowly* wise"

Mr. Choate, in describing what a bill of this kind ought to provide, expressed the exact truth when he said the great essentials to be covered were the safety

of the public and the safety of the security-holders. It should make impossible any rebate or discrimination, any future watering of stock, or any manipulation of the companies' securities to the benefit of the officers, and leave to a commission reasonable regulation of traffic. All these features, however, should be well guarded, so that while protecting the shipper the law does not unduly harass the carrier or oppress those whose duty it is to protect and conduct the business of the road. He specified, however, certain features of the law as it now stands which are highly objectionable. Of these one was the creation of a commission to take the control and management of the railroads, consisting of five men—liable to removal by the Governor without notice or warning or reason or assent of anybody else, but simply because the Governor so chooses. Such a grant would mean the conferring of arbitrary power upon a single individual, and would hardly need to be more than mentioned to be condemned. Mr. Hughes, or any other Governor, could change the whole board any week and every week until it conformed in every particular to his own judgment, if such was his will. Why not let the Governor be the board and have power to appoint agents to carry out his purposes? As the bill now stands, the appointing power is evidently a mere subterfuge. The appointment should be made with the consent of the Senate and the appointees should be removed only on charges. In that shape the law would not be as easy for a bad man to work, but it would be safer for the public.

Another objectionable feature is that the bill vests in this board final and absolute power that cannot in most cases be reviewed, and wherever it can be reviewed the provision inflicts upon the railroad companies the burden of the judgment order until the court pronounces it illegal or void. In the meantime this bill provides that the railroads shall, nevertheless, be compelled to obey the law under penalty of $5,000 for each day's violation and the parties concerned in it are liable to fine or imprisonment or both. That is to say, the person or company "against whom such an order is made, if he seeks for a review, finds that he has got to pay $5,000 a day if he loses the appeal until it is decided, and be liable in the meantime, and his officers, to fine and imprisonment." Such a statute would be an abomination. No official would in any doubtful case—and nearly all law suits have in them the element of doubt—would dare, with such accumulating fines and penalties hanging over him, contest an order and assert his own rights. Full and free review should without doubt be given the courts of any order made by this commission .

———

There was a noteworthy reflection at all the European centres this week of the practical restoration of normal monetary conditions in New York, which resulted from the entirely successful intervention by Secretary Cortelyou, in the previous week, for the relief of our money market. Tension in discounts abroad showed material relaxation, allaying apprehensions of the need for a further advance in official rates at Paris for the protection of the French Bank's stock of gold. The withdrawal from the London bullion market on Tuesday of a substantial amount of the metal for shipment hither caused no concern. On account of the sharp rise in New York exchange on London on the following day to figures above the gold-import point, due largely to easier money here, the price of bar gold, which had been maintained at 77 shillings 10½ pence per ounce, partly in order to obstruct the gold-export movement hither from London, was reduced to 77 shillings 10 pence and later to 77 shillings 9¾ pence; moreover, it is reported that the metal which had been bought on Tuesday for shipment hither was re-sold by the American bankers because it was more profitable to sell than to ship. The Continental security markets were more or less deranged, but this condition was principally the result of the previous week's strain at the settlements, and also of the unfavorable situation at Berlin.

The distributions, through Treasury operations, of cash representing deposits of customs collections in our local banks and of the proceeds of redemptions of 4% bonds, greatly increased after the close of the last bank week and they were this week daily reflected in large debit balances by the Sub-Treasury at the Clearing-House. Together with the payments of April dividends and interest, the result was a large augmentation in the supplies of money in the loan market, causing almost abnormally low rates for the season on call and offerings for fixed periods much in excess of the demand. By Thursday, the amount of new public deposits in the banks, which, as originally stated by Mr. Cortelyou, would be made to the extent of $15,000,000, reached $17,297,000, and there were then indications that New York City's quota of such deposits had been filled. The payments for 4% bonds of 1907 under the offer of March 14 had then amounted to more than $16,500,000, and the anticipated April interest on Government bonds to $2,500,000, so that the actual relief to the local market extended by Secretary Cortelyou was about $36,297,000.

The effect upon foreign exchange of the easier monetary conditions, of a demand for remittance and of operations incident to the relaxation in tension abroad was observable this week in a decided advance in rates, the most notable being that in sight, which on Tuesday rose to figures (4 8475) that made gold imports impracticable; thus, since Tuesday of the previous week recording an advance of two cents per pound sterling. On Thursday afternoon there was an active market and an unusually urgent demand for exchange, due largely to purchases for remittance to pay off loans in London on American securities, with the object of shifting such loans to New York.

The announcement by Secretary Cortelyou on Wednesday of his plan for the disposition of the 4s of 1907—which provides for the refunding into 2% consols of $50,000,000 and the redemption of the remainder, about $47,000,000, in cash at maturity—seemed to give assurance of the maintenance, at least until the beginning of the crop-moving season, of normal monetary conditions. Bonds intended for refunding may be offered on and after April 6, so that this process can begin at once and be continued until refunding shall be completed, giving ample time for banks desiring to exchange for consols their 4% pledges held for circulation to effect such exchange. It may be noted that the consols will be issued at a premium of 3%; when refunding operations began in 1900 these bonds were issued at par, while in 1905 they were emitted at a premium of 1%.

———

The exhibits of bank clearings and commercial failures for the first quarter of 1907 cannot but be considered as favorable, and furnish evidence of a continued satisfactory business situation. As regards bank clearings, it is true, of course, that the aggregate for the whole country records a slight loss from the total for the corresponding quarter of 1906, but the decrease is due entirely to the loss at New York, and that, in turn, arises through the less active dealings in Stock Exchange properties this year. Since the institution of the Stock Exchange Clearing House some years ago, and the gradual including in its operations of practically all the prominent and largely traded in stock issues, dealings on the Exchange have contributed in a much lessened degree to the volume of bank clearings; but they are still an important factor. When, therefore, it is noted that for the three months of 1907 the total number of shares dealt in at the Exchange was only 71,382,257, of a par value of $6,053,916,175, against 79,680,032 shares, of a par value of $7,212,641,200 in 1906, and that transactions in all classes of bonds reached an aggregate of but $137,185,200 against $216,123,650, it is readily understood why New York clearings show a decrease. Furthermore, it is not apt to escape attention that for the last month of the quarter (March), with an important increase in stock transactions, clearings showed a gratifying increase. Although it is impossible to arrive at means of determining the amount of clearings contributed by stock operations, it seems safe, in view of the facts, to assume that exchanges for the quarter arising from ordinary business affairs at New York were greater this year than last.

When we turn to the country at large, however, there is no doubt as to the exhibit being satisfactory. Out of 109 cities for which comparative figures are given in our compilation, less than a score record losses, and those generally unimportant and due to local setbacks, such as flood, bad weather, etc. The middle section, excluding New York, shows an increase of 6% over the quarter of 1906, the gain at Albany being conspicuously large. The total for New England exceeds that for 1906 by 6.6%, for the Middle Western group of cities an augmentation of 10½% is shown, the Pacific Division exhibits a gain over a year ago of 13%, and the cities comprised in "Other Western" do even better, recording an increase of 15½%. At the South a number of important cities—New Orleans, Louisville, Memphis, Nashville—do not make a favorable showing, and, as a result, the gain indicated for that section—7.5%—is rather less than in most other divisions, although at many points large additions to the 1906 figures are seen. Finally, the result for the whole country is, as already intimated, quite satisfactory, and indicative of continued prosperity, especially when it is remembered that this year's gains over 1906 follow much heavier increases in that year over 1905, and of 1905 over 1904.

The record of commercial failures for the quarter ending March 31, as compiled by Messrs. R. G. Dun & Co., is certainly reassuring. Reports of diminishing business activity which have been current from time to time since the opening of the new year, and the violent drop in the values of share properties in March would seem to have prepared us for a rather unfavorable statement of failures. But anticipations have not been met and reports to Messrs. Dun & Co. indicate a continued large business in progress generally. Furthermore, despite the serious decline in the value of railroad and industrial properties in March, which, it was believed, would adversely affect the general business situation, the aggregate liabilities of failed firms for the three months this year are only $32,075,591, or about 1¾ million dollars less than for the like period of 1906, and only in three of the last twenty years have smaller liabilities been reported for the first quarter—$30,162,50 in 1905, $31,703,486 in 1901 and $27,152,031 in 1899. Examining the record of insolvencies by sections, we find that in the Middle States, embracing New York, New Jersey and Pennsylvania, liabilities were much heavier than in 1906, and in the Pacific Division this year's total was moderately greater than that for a year ago. On the other hand, the remaining sections exhibit smaller totals this year than last, the comparison being conspicuously favorable in the Central Western States, there having been a drop from liabilities of $8,159,450 in 1906 to $4,172,708 in the three months of the current year.

One of the encouraging events of the week has been the Chicago election. This resulted just as conservative people had hoped and confidently believed it would, for in the last analysis it was an appeal to the better instincts of the community. In the mayoralty contest, Edward F. Dunne, the present occupant of the office, who had been championed by William R. Hearst and his newspapers, was decisively defeated, the plurality against him being 13,000 votes. But the matter of greatest moment was the vote on the adoption of the ordinances granting new franchises to the street railways in Chicago and providing for settling the long-standing controversy between the city and the trolley companies. These ordinances seem to be exceedingly liberal to the city, and yet do not apparently involve that confiscation of the property of the street railways which had at one time been feared. They give the city the right to take over the properties for municipal operation at any time on six months' notice by paying $50,000,000, the agreed present valuation, plus the cost of rehabilitation. The roads are in wretched physical condition and it is estimated that some $40,000,000 will have to be spent upon them. This arrangement will insure the raising of the needed capital for the purpose. The companies are to be allowed 5% on their investment over and above expenses, taxes, repairs, renewals and depreciation. Any surplus remaining above the 5% on the investment is to be divided between the city and the company—the latter taking 45% of the amount and the city getting 55%. It is difficult to conceive of any arrangement more favorable to the municipality than this, and yet Mayor Dunne vetoed the ordinances, which were then passed over his veto and have now received popular endorsement by a large majority. The result must be very gratifying to the citizens of Chicago, who, owing to the long conflict with the authorities, have had to put up with street railroad facilities which are little short of disgraceful. Now they will get a modern and up-to-date system.

Many returns of railroad gross and net earnings for the month of February have been received this week, and in the case of nearly all the larger companies—barring the Southern Pacific, which, as heretofore, reports a remarkable gain in both gross and net, doubtless because traffic, by reason of the weather conditions, was deflected from the northern transcontinental routes to those lying further to the South—the showing as regards net is, as a rule, very poor. Gains in gross earnings have been lacking in hardly any case, but the augmentation in expenses has been of such magnitude as completely to over-balance such gains. Of course the advances in wages and the enhanced cost of materials, fuel and supplies are among the most important elements in this augmentation in the expense accounts, but there have also been some special circumstances that have served to intensify and aggravate these ordinary causes for enlarged expenditures. Three companies which have suffered with especial severity in this respect have deemed it proper to send out explanatory statements. The Norfolk & Western Company states that the unusual charge to maintenance of way and structures during the month was occasioned by heavy outlays incident to restoring track and roadway damaged by high water on the Ohio and Scioto rivers. The Chesapeake & Ohio Company explains that its increase in expense of maintenance of equipment and conducting transportation has followed largely from the interruption to traffic occasioned by weather conditions and the increase of wages of train and shop employees which became effective February 1. The statement issued by the Southern Railway states that the February results "reflect unusual conditions through increased expenditures for the maintenance of equipment and for fuel and overtime due to congested conditions which also temporarily interfered with the development of new traffic." In this case we are told that March operations reflect similar conditions, but that the congestion is now being relieved and anticipations are that beginning with April, traffic will move more freely.

The Pennsylvania Railroad return for February is also distinguished mainly for the continued augmentation in the expense accounts, over-topping the gains in gross. On the lines directly operated East of Pittsburgh and Erie there is an increase of $628,800 in gross, but attended by an addition of $935,600 to expenses, thus producing a loss in net of $306,800. On the Western lines there is $552,500 increase in gross, offset by an addition of $490,400 in expenses, leaving only $62,100 gain in net. In January the showing had been much the same, and the result is that for the two months, with $2,067,500 improvement in gross on the Eastern and Western lines combined, there is a loss of $583,500 in the net, owing to an increase of no less than $2,651,000 in the expense accounts. It is proper to state that comparison is with unusually favorable results a year ago, the improvement in the gross in February 1906 having reached the extraordinary figure of $3,093,100, and even the net earnings for the month at that time recording a gain of $1,396,600. In the following we set out the gross and net earnings for the last six years on the lines directly operated East of Pittsburgh and Erie, being the only portion of the system for which we have the data for such a comparison.

Lines East of Pittsburgh.	1907.	1906.	1905.	1904.	1903.	1902.
February.	$	$	$	$	$	$
Gross earnings	11,452,860	10,824,060	8,607,760	8,345,424	8,229,521	7,553,321
Oper. expenses	9,463,751	8,528,151	7,451,151	7,034,962	6,915,662	5,532,862
Net earnings	1,989,109	2,295,909	1,156,609	1,310,462	1,313,862	2,020,462
Jan. 1 to Feb. 28						
Gross earnings	24,036,572	22,826,572	17,870,872	16,819,298	17,796,698	16,136,098
Oper. expenses	19,105,064	17,392,564	15,009,964	14,364,302	14,115,202	11,586,802
Net earnings	4,931,508	5,434,008	2,860,908	2,454,996	3,681,496	4,549,296

There was no change in official rates of discount by any of the European banks this week; unofficial, or open market, rates were, compared with last week, ⅝ of 1% lower at London, ⅛ of 1% at Berlin and Frankfort and steady at Paris. The easier tone at London was due to the decided improvement in the monetary situation at New York and also to the removal of the menace to the British market, through a sharp and indeed quite extraordinary advance in exchange at New York on London, of gold withdrawals therefrom for shipment hither.

The notable feature of the statement of the New York Associated Banks last week was an increase of $8,421,825 in the surplus reserve, to $13,131,275. This resulted, in great part, from a gain of $12,840,000 in cash and an increase of $4,418,175 in reserve requirements. Loans were expanded by $6,555,600 and deposits were augmented $17,672,700; Government deposits showed an increase of $3,500,000. The statement was somewhat deranged through the absorption by the Mechanics' & Traders' of the Union Bank of Brooklyn, which consolidation took place last week.

The large increase in cash shown by the bank statement, together with evidences in the daily debits of the Sub-Treasury at the Clearing House of the distribution of public funds in large amounts among the banks and of payments for maturing 4s of 1907 contributed to extremely easy monetary conditions this week and to lower rates for call money than have been recorded in many months. The indications that the loan market would be abundantly supplied in the future—not only as the result of the policy of the Secretary of the Treasury in placing customs collections in the local banks, in redeeming at maturity, with cash, about one-half of the 4s of 1907, and in refunding the remainder, thus contributing to an increase in bank-note circulation—and the fact that immediate requirements would be fully met through the distribution already of more than 36 millions of Treasury cash at this centre, had a marked influence upon rates for time money, causing a material decline in those for all periods. Corporation notes, which recently were affected by monetary tension, were in increased demand by individuals and institutions for investment, and the new Erie notes, amounting to $5,500,000, that were emitted partly for refunding those which are about maturing, were promptly taken.

Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 4½% and at 1%, averaging about 3%; banks and trust companies quoted 2% as the minimum. On Monday loans were at 4½% and at 2½%, with the bulk of the business at 4%. On Tuesday transactions were at 3¾% and at 2½% with the majority at 3%. On Wednesday loans were at 3% and at 1% with the

bulk of the business at 2½%. On Thursday and on Friday transactions were at 2½% and at 2% with the majority at 2¼%. Time contracts were freely offered by all institutions, but business was reported as only moderate, it being expected that concessions in rates would soon be made. Quotations on good mixed Stock Exchange collateral were 4½@5% for sixty and 5% for ninety days and 5¼% for four to six months. Commercial paper is 6@6½% for sixty to ninety-day endorsed bills receivable, 6@6½% for prime and 6¾@7% for good four to six months' single names. The business is confined to Western buyers chiefly, though some local institutions are in the market.

The Bank of England rate of discount remains unchanged at 5%. The cable reports discounts of sixty to ninety-day bank bills in London 4⅜@4½%. The open market rate at Paris is 3½% and at Berlin and Frankfort it is 5⅜%. According to our 'special cable from London, the Bank of England lost £655,529 bullion during the week and held £34,340,713 at the close of the week. Our correspondent further advises us that the loss was due wholly to large shipments to the interior of Great Britain. Purchases in the open market reached a moderate aggregate. The details of the movement into and out of the Bank were as follows: Imports, £323,000 (of which £9,000 to Australia, £5,000 to France and £309,000 bought in the open market, including £120,000 French coin and £5,000 Austrian coin); exports, *nil*, and shipments of £979,000 *net* to the interior of Great Britain.

There was a most remarkable advance in foreign exchange this week and the striking feature was a rise in sight sterling by Tuesday to rates which not only entirely precluded imports of gold but made it desirable for American importers who had secured the metal in London for shipment to re-sell their consignment instead of transferring it hither. Later in the week there was a further important rise in sight exchange to figures nearly 2 cents per pound sterling above those ruling on Saturday of the previous week and 245 points higher than the rates recorded on Tuesday of that week, which rates were almost unprecedentedly low. The potential factor contributing to this remarkable recovery in exchange was the fall in local rates for money. This naturally stimulated buying for remittance, covering of futures and investments. The rise in our securities market during the period from Thursday of last week to Tuesday, while the foreign bourses were closed on account of the holidays, was reflected in London at the opening of the last-mentioned day; speculators then sold freely to realize the profit, and remittance against such sales was prompt, thus causing an urgent demand for exchange. Operators in London who were paying high contangoes on holdings of American stocks, which they were carrying over to the next settlement, either sold their stocks or shifted their loans to New York to take advantage of the low money rates in our market, and this movement largely contributed to the sharp advance in exchange. The fact that the inquiry for remittance was greatly in excess of the offerings of bills will account for the rapidity of the rise, especially on Thursday, when sight moved upwards in the afternoon nearly half a cent. Easier discount rates in London directly influenced long sterling and commercial bills were in only moderate supply.

There was an engagement on Tuesday in London of about $3,000,000 gold for shipment hither, but, as above noted, the purchaser of the metal later in the week re-sold it in the London market because the rise in exchange and our monetary conditions made such a course desirable; the price of gold was reduced on Thursday to 77 shillings 9¾ pence. There was an arrival this week of $1,386,951 gold from London.

Nominal quotations for sterling exchange are 4 81½@4 82 for sixty-day and 4 85½@4 86 for sight. Saturday of last week was a partial holiday and very little business was done; compared with the previous day short rose 10 points to 4 8320@4 8325 and cables 20 points to 4 8410@4 8420. On Monday long advanced 25 points to 4 79@4 7910, short 45 points to 4 8365@4 8370 and cables 40 points to 4 8450@4 8455. On Tuesday long rose 120 points to 4 8020@4 8025, short 100 points to 4 8465@4 8475 and cables 75 points to 4 8525@4 8530. On Wednesday there was a slight recession but the market closed firm at a decline of 5 points for long to 4 8015@4 8020, short 25 points to 4 8445@4 8450 and cables 10 points to 4 8515@4 8520. On Thursday there was a sharp rise all around—long 75 points to 4 8090@4 8110, short 65 points to 4 85@4 8515 and cables 70 points to 4 8580@4 8590. The market was strong on Friday and 50 points higher for long, 20 points for short and 5 points for cables.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

		Fri., Mch. 29	Mon., April 1	Tues., April 2	Wed., April 3	Thurs., April 4	Fri., April 5
Brown Bros & Co	60 days	4 80	80½	80½	81	81½	82
	Sight	4 84½	85	85	85½	85½	86
Baring & Co	60 days	4 80	80	80½	81	81	82

Merchants' Bank of Canada	60 days	4 80	80½	80½	81	81	82
	Sight	4 84½	85	85	85½	85½	86

The market closed on Friday at 4 8140@4 8150 for long, 4 8520@4 8525 for short and 4 8585@4 8590 for cables. Commercial on banks 4 8080@4 8090 and documents for payment 4 80¼@4 81⅜. Cotton for payment 4 80¼@4 80⅜, cotton for acceptance 4 8080@4 8090 and grain for payment 4 81¼@4 81⅜.

The following gives the week's movement of money to and from the interior by the New York banks.

Week ending April 5 1907.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency	$6,906,000	$6,400,000	Gain $506,000
Gold	2,029,000	2,000,000	Gain 29,000
Total gold and legal tenders	$8,935,000	$8,400,000	Gain $535,000

With the Sub-Treasury operations and gold imports the result is as follows.

Week ending April 5 1907.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movem't as above	$8,935,000	$8,400,000	Gain $535,000
Sub-Treas oper. and gold imports	41,600,000	28,000,000	Gain 13,600,000
Total gold and legal tenders	$50,535,000	$36,400,000	Gain $14,135,000

The following table indicates the amount of bullion in the principal European banks.

Bank of	April 4 1907.			April 5 1906.

THE NEW TRANSVAAL.

When the Constitution for the Transvaal Colony was promulgated by the Campbell-Bannerman Ministry a few months ago, there was warm discussion in London as to what would be the result of the privilege of free suffrage and election of a Colonial Government by open majority. In the end, after a good deal of agitation, English opinion settled itself down to the comfortable assurance that, after all, the English voters would be able to hold their own against the Boer natives, and at any rate retain virtual control in their own hands. The election, which was held at the opening of March, showed that the Boer constituency had won thirty-seven seats in the new Colonial Assembly, while the other parties, four in number, mustered altogether only thirty-two. In other words, the Dutch element had carried the new Parliament by what might properly be called a sweeping majority.

Now this was precisely the situation toward which a great part of English opinion had looked with dismay when the plan for Transvaal elections was first announced. It had been pointed out, by those who opposed the proposition to grant free voting rights, that the Dutch would be eager to vent their resentment against their conquerors, and that even if this were not so, their prejudices were such that the welfare of the mining industry would be hopelessly jeopardized. That a Dutch majority would permit, for instance, any sort of continuance of coolie labor—presuming their traditional hostility to the gold-mining industry—was taken to be altogether improbable.

People who have followed the vicissitudes of politics, even in this country, are aware how often such predictions are completely upset by the event. In the case of the Transvaal there was no more than a superficial reasonableness about them. They ignored two important facts: first, the change which was bound to have come over the more intelligent Boer citizens as a result of their contact with the outside world; and, second, the certainty that a reactionary policy would defeat itself from the fact that it would be fighting against the inevitable. Perhaps the most important consideration of all was the broader knowledge which the Transvaal residents have gained since their collision with Great Britain brought them into the light of modern civilization. Much stress may also properly be laid on the influence which an honorable trust and confidence shown the conquerors to the conquered will have on the conduct of the conquered. History is full of instances of the important and beneficial results which have followed such experiments.

However this may be, the result of the new elections has been of the highest interest. The new Assembly has organized by choosing as Premier General Botha, one of the most vigorous and successful leaders of the Boers in the Transvaal war. In the selection of this man there was promise for the future; General Botha had taken a conspicuous position, long before Kruger's reactionary policy brought about the crash with England, on the side of reform of the obsolete Transvaal institutions. He has lost no time in defining his official attitude. His speech to the new Assembly frankly declared that the policy of the Dutch inhabitants should be that of loyal supporters of the British Empire. The past was, in short, accepted, and indeed we imagine that the more enlightened leaders, looking back at that past, have no regrets for the old-time policy which was forever abolished by the war. General Botha has not only stated his own attitude of loyalty to the British Empire, and commended the same attitude to his adherents, but has gone a considerable step further in announcing his purpose of participating personally in the conference of Colonial Prime Ministers called to assemble at London. The result of this last announcement has been most happy in all directions; it is not too much to say that it has fully reconciled to the policy of a free vote in the Transvaal even the most angry opponents of that policy when first proposed by the British Ministry.

Much has been said, in comments on this episode, as to the wisdom of the traditional British colonial policy to which this Transvaal situation was a sequel. It is only reasonable to recall, however, that England learned the advantages of such a policy only through long and trying experience in the consequences of the opposite policy. The British rule in India is a notable case in point; it showed conclusively that nations with Colonial possessions do not learn wisdom in management of such dependencies overnight. Had it not been for the polemics of Burke, the exposure of gross abuses under Warren Hastings, and the later scandal in connection with that otherwise admirable administrator, Lord Clive, it may be doubted if the Indian dependencies would even to-day be enjoying so intelligent a share of self-government. What sort of imperial regulation was attempted by England, and with what results, in the case of the American Colonies a century and a quarter ago, no American reader needs to be informed.

England, in short, has learned wisdom from experience. That the moral should be drawn for ourselves, as regards our own administration of the Philippines, was inevitable. We think, however, that the contention is right which holds that with England's example before us there exists no such excuse for misrule or misjudgment of the proper management of a native colony as did, perhaps, exist in the case of England's earlier experiments. A constituent assembly of the Philippines has already been called; it is to be hoped that this is only a beginning. We should not consider it a gratifying fact in our own history, if the episode in the Transvaal, different as the conditions undoubtedly are in that country from those which exist in the Philippines, were not taken seriously to heart.

It remains to be added that the radical home rule element in England has based much argument for its own behalf on the example of the Transvaal. Whether the cases are exactly analogous may possibly be doubted. Whatever views may be held in regard to the wisdom or unwisdom of granting to Ireland a separate Parliament, such as neither Scotland nor Wales possesses, the fact will remain that the question of home defense, always a vital problem for the British Islands, causes some natural reluctance in allowing

control over any part of the British Isles themselves to pass out of the hands of the Parliament of London. Nevertheless, we should suppose that the spirit shown by the Boers in response to the confidence imposed in them by the British Empire would encourage Englishmen to look more favorably on any reasonable claims Ireland may make for home administration.

AN ABSURDITY UNDER THE SHERMAN ANTI-TRUST LAW.

Since the decision in the Northern Securities case, it has probably been the law of the land that a combination to organize and direct the sale of an article of necessity which is necessarily the subject of inter-State commerce in the course of its distribution and sale is a crime and offense against Federal law, whether it be reasonable or unreasonable, beneficial or injurious. The other elements of this crime had been defined before. The decision mentioned puts the crowning touch because it seems to establish that the courts are not allowed to listen to proof of the public advantage. The statute does not even allow them to give weight to what the common law has defined as reasonable. If such a law were enforced with reasonable impartiality, it would paralyze trade. Under its partial application to-day the chance of being branded as a criminal because of the aggressive and well-organized conduct of any ordinary large business depends entirely upon how far the business catches the public eye, and not at all upon real immorality or offensiveness. Occasionally, however, one can find an organization much in the public eye which may serve as a text for the illustration of this vicious arrangement without exposing one who writes about it to the charge of driving business men into the criminal's pen.

We are furnished with such an opportunity by the recent systematic organization of the cranberry business in Southeastern Massachusetts. Joking aside, but not without a few humorous thoughts by the way, the cranberry is an article of prime necessity throughout all the States and Territories where turkey is eaten and Thanksgiving celebrated. So many cranberries are raised on Cape Cod that the sale of the crop necessarily involves delivery of the major part outside of Massachusetts. We could cite law reports, volume, case and page, to show that each of these points is of criminal import. Prices to the poor jobber whose livelihood is threatened, and hence it is conclusively to be presumed to the consumer, have in the past often been gratifyingly low, carrying the agreeable fruit within the means of the modest purse of the small grocer and his customers. This has been because the small grower has sent his goods to market without conspiracy or combination. There are on Cape Cod over a thousand small growers who own each less than three acres of bog. They have shipped direct to the jobber. One need scarcely suggest the waste of such a course, the lack of uniformity in quality, packing, brand and appearance, the lack of systematic realization, the ignorance about the action of the commission merchant or his justification for the prices he sells at.

Even a special Assistant Attorney-General or a special agent of the Inter-State Commerce Commission can see that organization would bring improvement. The ground is fruitful for the promoter and he has appeared and is touring Cape Cod. Every manifesto and every speech which he puts forth shows in language which might be quoted from the evidence for the prosecution in decided anti-trust cases that the cranberry grower is urged to adopt the methods and organization of a trust and to participate in conspiracy and combination. The promoter points out that there is a thousand-acre increase expected in the bogs of the Cape, that it is absolutely necessary that something should be done to prevent prices to the consumer from diminishing, a result which will sooner or later force the growers to combine if they do not do so now. With the crop under the control of the new concern, however, it can guarantee the retailer that the fruit will not go below a named selling price. Of course this involves a counter obligation on the part of the retailers not to cut prices on goods sold them by the trust. But the power will exist, for already sixty-five or seventy per cent of the Massachusetts growers have joined the concern and the promoter tells the public that he is confident that with the major portion of the Cape crop placed in his control, and hence command over the market for more than three-quarters of the entire output of cranberries in the United States, the consumer will have to pay the piper.

We have not exaggerated. This description is taken almost verbatim from the promoter's descriptions of his means and end. Out of his own mouth he is convicted of an attempt to monopolize inter-State commerce in a necessity. We commend his case to the Federal authorities at Washington for their early attention. We do not suggest a prosecution. On the contrary no sane man could fail to see either the necessary conclusion that this is a trust or the even more necessary duty not to make himself absurd by prosecuting the cranberry. But this and a thousand other such cases are open daily for the consideration of any one who will look into the facts of trade and commerce, and those who are responsible for such legal absurdities will also be responsible to the country in a heavy measure if they do not remember the ringing advice of John Adams, that every one ought to receive right and justice freely and conformably to laws, that the power of suspending the execution of the laws ought never to be exercised but by the Legislature, and that the ideal of freedom with justice is that we should have a government of laws and not of men. We are quoting from the bill of rights of the Constitution of the State whose affairs we are discussing, and we respectfully commend its perusal to those who think that State constitutions and rights are inferior to Federal legislation in their virtue and justice.

THE DECISION REGARDING THE GREAT NORTHERN'S INCREASE IN STOCK.

The full text of the opinion in last week's decision of the Supreme Court of Minnesota, upholding the right of the Great Northern Railway Co. to increase its capital stock without first applying to the State Railroad and Warehouse Commission, makes it apparent that certain points in that decision are of general application—that is, would apply in other States where the circumstances and conditions are the same. Accordingly, it is important to examine the grounds upon which the Court rests its judgment overruling the district Judge who had issued a temporary injunction restraining the railroad company from making the

proposed increase. It is certainly to be hoped that the mistake made in the present case will not be repeated elsewhere, inasmuch as the consequences in this instance have been so serious.

It was last December the company determined to issue $60,000,000 new stock for the purpose of providing funds for additional equipment and terminals, second track and various other added facilities required for carrying on its business. The need for such action was urgent in the extreme, as all the roads in that part of the country were at the time suffering from a congestion of traffic which has never previously been equaled, and found it practically impossible for the time being, to meet public wants in full for transportation services. Yet a State official steps in at this juncture, out of an overabundance of zeal we must suppose, and appeals to the courts to restrain the railroad in its laudable purpose of spending millions of capital in order to put itself in shape adequately to meet its public functions. As a consequence, the hands of the managers have been tied for over three months and they have been prevented from affording the relief so imperatively demanded. In the end it is found that this State official was wrong in his contentions. Obviously, much mischief would have been avoided if it had been recognized at the outset that the position of the State was an untenable one—or, better still, if the Legislature, in enacting the statute upon which the State officer rested his claim, had in the first instance recognized that it had no power to pass such a law.

The company rested its contention that it could issue additional stock without leave of the State Commission on two main grounds. According to Section 2872 of the Minnesota Revised Statutes of 1905, railroad corporations in Minnesota before making any increase in their stock must apply in writing to the Railroad Commission, which may "allow" the proposed increase or not. The Great Northern company urged that such a law was invalid in that it delegates legislative authority to an administrative body. The Minnesota Supreme Court endorses this view unqualifiedly. It holds that passing on proposed stock issues in the manner prescribed by the law in question is purely a legislative function, and that under the Minnesota Constitution the Legislature has no power to delegate its powers. The second claim of the company, that under an amendment to its charter it had the right to increase its stock free from all restrictions, and that any law attempting to take from it this right was an impairment of the obligation of contract, and therefore unconstitutional, the Court found itself unable to accept. On this last point it is held that if the charter amendment referred to could be construed as conferring upon the company the power to issue stock without limit, nevertheless the Legislature would have the right to prescribe such reasonable regulations for the exercise of the right as might be necessary to prevent fraud in the issuing of fictitious stock and to protect the public from the consequences thereof, since the so-called police power of the State cannot be abdicated.

Upon the point that the Legislature cannot delegate its powers to an administrative body, the language of the opinion, which is by Chief Justice Start, is clear and emphatic, and the reasoning convincing. Justice Start says the terms and conditions upon which railway corporations may be created, the powers and capital stock they may have, the purposes for which they may increase their capital stock, and the limitations and conditions to be imposed upon the right to such increase, are exclusively matters for legislative action which cannot be delegated. The State, having created such corporations and conferred upon them for public purposes great and extraordinary powers and franchises, including the sovereign power of eminent domain and the right to levy tolls or taxes upon all who use for traffic or travel these modern highways, the railroads, it logically follows that the Legislature has the undoubted right to enact statutes regulating the increase and disposition of their capital stock. In the exercise of this right it may pass a statute providing generally for what purposes and upon what terms, conditions and limitations an increase of capital stock may be made, and confer upon the Commission the administrative duties of supervising any proposed increase of stock. The Legislature may also delegate to the Commission the duty of finding the facts in each particular case and authorize and require it, if it finds the existence of facts that bring the case within the statute, to allow the proposed increase; otherwise to refuse it. But further than that the Legislature may not go. Statutory regulations of the increase of the capital stock of railway corporations, the Court argues, tend to prevent secrecy of operations, and guard against the issue and sale of fictitious or watered stock by such public agencies. It is also pointed out that in Minnesota it has been a felony since 1887, punishable by fine or imprisonment or both, for any officer of a corporation to issue, sell or dispose of any fictitious shares of its capital stock or to issue any of its stock or bonds until they have been paid for in full, in money, labor or property.

There was therefore no question as to the right of the Legislature to regulate the increase of the capital stock of railway corporations. The question was simply whether the Legislature had exceeded its powers in delegating to the Commission determination of the matter. The Attorney-General, of course, contended that the statute did not attempt to delegate to the Commission any legislative function, but referred to it merely the administrative duty of supervision of the increase of stock by ascertaining the facts in each particular case. But the Court could not see its way clear to adopt this view. Supposing a railroad makes application to the Commission setting forth the amount of a proposed increase and the purpose for which it is desired, what then must the Commission do, asks the Court. Must they allow the increase if they find the amount and purpose are such as are authorized by law? On the contrary, the language used is—"if they allow it, they shall prescribe the manner in which and the terms upon which the same shall be made. If they disapprove such increase, the reasons therefor shall be stated in their next annual report."

The Court holds that the prescribing "the manner in which and the terms upon which" the increase may be made is a legislative power, not an administrative duty, and cannot be delegated. Justice Start says the simple truth seems to be that the distinction between the delegation of administrative duties to secure the execution of a statute did not occur to the person who drafted the statute, and that it was the real as well as the expressed intention of the statute to com-

mit the whole subject of the increase of capital stock by railway corporations to the judgment and discretion of the Commission. This view is strengthened by the fact that at the time the statute was enacted railway corporations were authorized to increase their capital stock but there was no statute limiting the increase to any particular purpose or prescribing the terms upon which such increase might be made. The Legislature having never enacted any terms, conditions or limitations with reference to the increase of capital stock, it could not consistently impose upon the Commission the duty of ascertaining whether the purpose and terms of a proposed increase were in accordance with the requirements of law, when there was no such law.

Justice Start also points out that the prototype of the Minnesota statute seems to have been certain sections of the General Statutes of Connecticut. In the Connecticut case, however—and here is the distinction of importance—the Railroad Commissioners, after finding the facts, report them, with a recommendation whether the increase of stock should be allowed or not, to the Legislature for its determination. On the other hand, in the Minnesota case, the whole matter is delegated to the judgment and discretion of the Commission. There thus being an unmistakable attempt to delegate legislative power to a commission, the Court had no alternative but to declare the law in conflict with the Constitution.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

—The first public sale of stock of the Irving National Exchange Bank was made at auction this week, when 10 shares were sold at 175. No other sales of bank or trust company stocks were made either at the Stock Exchange or at auction. The table below, given in our usual form, shows the actual sales of New York City bank stocks made during the week at auction and at the Stock Exchange. Extensive tables showing the bid and asked quotations, deposits, surplus, &c., of banks and trust companies in all important cities of the United States are published monthly in the "Bank and Quotation" Section, the April issue of which accompanies to-day's "Chronicle." Bid and asked quotations for all New York City bank and trust company stocks are also published weekly in another department of the paper, and will be found to-day on pages 788 and 789.

Shares. BANKS—*New York.*	*Low.*	*High.*	*Close.*	*Last previous sale.*
10 Irving Nat. Exchange Bank	175	175	175	First sale.

—A Clearing House Association has been formed in Montgomery, Ala. The officers, chosen at a meeting March 27, are: President, A. M. Baldwin, President of the First National Bank; Vice-President, Michael Cody, President of the Exchange National Bank; Secretary and Treasurer, A. J. Jones, Cashier of the Fourth National. W. B. Strassburger has been chosen as Manager. The organization will begin business as soon as quarters have been secured.

—At the recent session of the California Legislature a new law was passed regulating the capital of State banking institutions, which in no instance is to be less than $25,000. This new section, which applies to all banking institutions, except savings and loan corporations, takes the place of the graded capital section, whereby the capital was fixed according to population. It provides that all institutions coming within its provisions must at all times have actually paid in a capital equal to at least 10% of their total deposits, the minimum amount of such capital to be not less than $25,000; it is further provided that the maximum amount of such capital shall in no instance be required to exceed $1,000,000. In construing the provisions of this section, net surplus, it is added, may be treated and considered as part of the paid-in capital. The reason for the repeal of the old law (which had been in operation since March 1905) and the enactment of the new is that several months ago, in the case of a new Sacramento bank which had been refused incorporation papers on the ground that the capital named was below the limit fixed by law, a Superior Court Judge ruled that the Legislature had no right to grade capital according to population.

—According to advices received last week by G. Bruce-Webster, the New York agent of the Chartered Bank of India, Australia and China (head office London), the directors of that institution are to recommend to the shareholders at the annual meeting April 17 the proposition to increase the capital to £1,200,000. The additional stock is to be issued at £40 per share, payable in installments between June 4 and December 31 1907, such installments to bear interest at 5% per annum. The new shares will rank on the same basis with the existing shares from January 1 1908. The bank's present capital is £800,000, consisting of 40,000 shares of £20 each, on which there is a reserve liability of an equal amount. The proposed increase of capital means, presumably, the issuance of 20,000 new shares at £20 (or £400,000) and the addition to reserve fund of £20 (or £400,000), so that the figures will then stand: Capital, £1,200,000; reserve liability of shareholders, £1,200,000; reserve fund, £1,475,000; undivided profits 1906, £93,000; total, £3,968,000.

—The directors of the Nineteenth Ward Bank, 57th Street and Third Avenue, this city, have called a special meeting of the stockholders for April 17 to vote upon a proposed increase of capital from $200,000 to $300,000. If effected, the institution's combined capital, surplus and undivided profits will be advanced from $470,000 to $770,000. The new stock will be issued at $300 per share. The bank's deposits have grown from $1,500,000 to $5,000,000 in the past four years. Lately it purchased the property at 152 and 154 East 34th Street, for the erection of a bank building, to be used as a branch. The other branches are situated at 72d Street and Third Avenue and at 86th Street and Second Avenue. Warner Van Norden, President of the Van Norden Trust Company, is the bank's executive.

—The New York Produce Exchange Bank of this city has declared a semi-annual dividend of 3% and an extra dividend of 1%, making 4%, both payable April 15. The previous payment, made Oct. 15 1906, was 3½%.

—Robert B. Armstrong, formerly Assistant Secretary of the United States Treasury, has resigned as President of the Casualty Company of America, 52 William Street. Mr. Armstrong's resignation is occasioned by his desire to take an extended trip abroad in an endeavor to regain his health, which has become impaired through an attack of typhoid fever.

—Application to change the name of the proposed Irving Trust Company of this city to the Fidelity Trust Company will be made to the State Banking Department on May 6. The proposition to increase the capital of the institution from $500,000 to $750,000 will be acted upon by the shareholders on the 9th inst.

—The new Beaver National Bank of this city is to begin business to-day in the Beaver Building, junction of Wall, Pearl and Beaver streets. George M. Coffin, lately Vice-President of the Phenix National Bank of this city, is President of the new bank. S. H. Vandergrift and T. P. Welsh are Vice-Presidents and J. V. Loughlin is Assistant Cashier. Besides the President, the directors are Frank Bornn, of Bornn & Co., exporters and importers, this city; John B. Fassett, President Citizens' National Bank, Johnstown, Pa.; Thomas A. H. Hay, Vice-President Washington National Bank, Washington, N. J.; Martin W. Littleton, ex-President Borough of Brooklyn; George Mercer Jr., of George W. Mercer & Son, this city; Thomas E. Murphy of Philadelphia; Augustus K. Sloan, of Sloan & Co., manufacturing jewelers, this city; S. H. Vandergrift, director of the Pittsburgh Trust Company and Keystone National Bank, Pittsburgh; Earl Vogel, of Gorham & Vogel, attorneys, and T. P. Welsh, of T. P. Welsh & Co., coffee merchants. The Beaver National has a capital of $200,000 and surplus of $100,000. It will clear through the National City Bank and the Empire Trust Company. Mr. Coffin, the President, was formerly a Deputy Comptroller of the Currency. He is the author of several works pertaining to financial matters.

—The establishment of a new State bank in the East New York section of Brooklyn Borough is planned. The Liberty

Bank is to be the name of the projected institution, which is to have a capital of $250,000, and is to locate at Liberty and Pennsylvania avenues. The President is to be William T. Wyckoff, President of the Woodhaven Bank, at Woodhaven, L. I.

—The directors of the City Bank of Hartford, Conn., have elected Edward D. Redfield to the presidency to fill the vacancy arising through the death last month of Maro S. Chapman. Elizur S. Goodman has been elected Vice-President of the bank and Edward H. Tucker advances from the office of Assistant Cashier to the cashiership. The new head of the institution entered its employ in 1894 as Assistant Cashier. He was elected Cashier two years later, and in 1904 was given the additional office of Vice-President.

—The new building of the National Shawmut Bank of Boston, a substantial office structure, is now practically completed, and already houses as tenants a number of industrial corporations and banking organizations. The bank itself is to take possession of its new banking rooms some time during the current month. The property was purchased by the bank in 1904; it fronts on Water Street, extending from Congress to Devonshire streets.

—Frederick W. Rugg has been elected successor to the late Robert B. Fairbairn as President of the National Rockland Bank of Roxbury (Boston). Anselm L. Bacon replaces Mr. Rugg as Cashier.

—Walter S. Swan, President of the Charles River National Bank of Cambridge, Mass., and a director of the National Shawmut Bank of Boston, died on the 31st ult. at the age of sixty-four years. He had been President of the Cambridge institution since 1887.

—That the new management in control of the Chapin National Bank of Springfield, Mass., is desirous of placing the institution on a thoroughly sound basis, is evident from the general elimination from its accounts of doubtful assets. In discarding every piece of doubtful paper the bank's surplus, according to the "Springfield Republican," has been reduced from $100,000 to $30,000, and the undivided profits from $78,688 to $18,542. There has been a like change in the book value of its bonds and securities, which has been reduced from $112,967 to $77,613. It is noted, however, that while the bank building has been carried at $115,000, its full worth is believed to be $200,000. Since the new management assumed charge in February the sum of $25,000 borrowed money has been repaid, and some $3,000 earned. The individual deposits in the latest statement are $1,246,533.

—Oscar Edwards, President of the Northampton National Bank, at Northampton, Mass., died on the 4th inst. He was eighty-six years of age, and had been President of the institution for thirty-three years.

—William C. McEldowney has been elected President of the Washington National Bank and of the Washington Trust Company of Pittsburgh, to replace the late John C. Reilly. Isaac R. Whitaker, formerly Second Vice-President, succeeds Mr. McEldowney as First Vice-President in both institutions. John B. Larkin and Eugene S. Reilly have been chosen respectively Second and Third Vice-Presidents of the two institutions. A first dividend of 1½% quarterly has been declared by the directors of the trust company.

—The Union National Bank of Pittsburgh this week opened in its new twenty-story office building erected on the site of its former home at Fourth Avenue and Wood Street. The bank occupies the entire first floor.

—The Citizens' Bank, capital $50,000, has been organized in Harrisburg, Pa. The institution is to open shortly in the East End section, under the management of the following: E. C. Thompson, President; S. F. Barber, Vice-President; F. K. Kitzmiller, Secretary and Treasurer.

—At the annual meeting of the stockholders of the Union Savings Bank & Trust Company of Cincinnati on the 1st inst, J. G. Schmidlapp retired as President, and was elected Chairman of the board of directors. Clifford B. Wright, a Vice-President of the First National Bank of Cincinnati, has been chosen to the presidency of the Union Savings & Trust, succeeding Mr. Schmidlapp. R. D. Barney retires from the board of the latter to give place to Mr. Wright.

—The Licking County Bank & Trust Company of Newark, Ohio (capital $200,000), was the scene of a "run" on the 28th ult. The bank met all demands made upon it, and by the following day little trace remained of the scare, which was ascribed to the circulation of a baseless report.

—The organization of the Farwell Trust Company of Chicago has been completed with a capital of $1,500,000. It begins business at once in the quarters long occupied by Granger Farwell & Co. at the corner of La Salle and Quincy streets. The new trust company takes over the building (hereafter to be known as the Farwell Trust Building), and will alter the bank floor to suit its requirements. The reorganization of the stock-brokerage firm of Granger Farwell & Co. will be announced in next week's issue. It is understood that the Farwell Trust Company will not compete with existing banks and other financial institutions, but will cooperate with them and supplement them. Neither checking accounts nor trusteeships will be accepted. Its officers are: Granger Farwell, President; Douglas Smith and Albert G. Lester, Vice-Presidents; John Barry Sears, Treasurer; John J. Bryant Jr., Secretary. The directors, including the President and Vice-Presidents, are: William Butterworth, Robert W. Chapin, Charles H. Deere, Joshua H. Defrees A. L. Farwell, William B. Jansen, George A. McKinlock Gilbert B. Shaw, E. R. Stettinius.

—The plan to increase the capital of the Pullman Loan & Savings Bank of Chicago from $300,000 to $500,000 was ratified on Tuesday by the stockholders, who also approved the change in the title to the Pullman Trust & Savings Bank. As part payment for the additional capital, a stock dividend of 33 1-3%, or $100,000, is to be declared out of surplus; the other $100,000 of stock is to be sold to present shareholders at par.

—The Minnesota Title Insurance & Trust Company of Minneapolis was closed March 26 by the State Banking Department. In a statement issued by State Bank Examiner Anton Schaffer, the liabilities are placed at $580,219, of which $556,119 are deposits. Total assets as booked by the company are, he states, $853,313, which the department estimates as likely to produce $405,554, leaving a deficiency of $174,665. In addition to these assets President J. U. Barnes, the principal stockholder, has turned over to the Department real estate equities valued by him at $300,000 which it is estimated will produce approximately $175,000. The institution had an authorized capital of $500,000, $250,000 of which was reported to have been subscribed and nearly all paid in. James D. Shearer has been appointed receiver.

—At a meeting of the directors of the Mercantile Bank of Memphis on the 28th ult., A. S. Caldwell tendered his resignation as President because of his expected absence from the city on a foreign tour. His successor, C. H. Raine, was formerly at the head of the institution. He was elected to the post (from the cashiership) in March 1904, but resigned about a year ago in order to be relieved of business cares. Another change is the election as Cashier of Claude Anderson, P. S. Smith having relinquished the office to become active Vice-President of the First National.

—Application will be made to the Comptroller of the Currency for authority to convert the State Bank of Virginia, at Richmond, into a national institution. A resolution to this effect was passed by the stockholders at a meeting held on Tuesday.

—Albert E. Thornton, Vice-President of the Atlanta National Bank, of Atlanta, Ga., died on the 2d inst after a few weeks' illness.

—The Arkansas Valley Bank of Little Rock, Ark., organized Dec. 29 1906, has been in operation since Jan. 14. The institution reports a capital of $100,000, fully paid, in shares of $100 each. It is managed by M. B. Summers, President; E. E. Wilson, Vice-President; R. C. Helmick, Cashier, and T. U. Andrews, Assistant Cashier.

—The annual meeting of the Mississippi Bankers' Association is to be held at Gulfport on May 8 and 9. At the close of the session the bankers, according to the "Memphis Appeal", are to visit the City of Mexico, stopping at points of interest along the route. B. W. Griffith, President of the First National Bank of Vicksburg, is Secretary and Treasurer of the association.

—The Comptroller of the Currency on March 21 approved an application to organize the Lumberman's National Bank of

Houston, Tex., capital $100,000. This institution is to take the place of the projected Lumberman's Bank & Trust Company, to the formation of which we referred last August. Practically the same people are identified with the present movement, the applicants being S. F. Carter, Jesse H. Jones, William A. Stilson, W. H. Norris and J. M. Rockwell.

—A new banking institution, the Spokane State Bank, commenced business in Spokane, Wash., on March 25. The bank was organized on Feb. 27 with an authorized capital of $50,000, all of which has been paid in. There is no surplus at the start, the stock of the institution having been sold at par, namely, $100. The bank is located in a retail district on the north side of the city, about a mile from the larger banks. John E. Argo is President; Thomas H. Brewer, and Henry A. Steinke are the Vice-Presidents, and George J. Wallbridge is Cashier. Mr. Brewer is also a Vice-President of the Fidelity National Bank of Spokane.

—Continued growth is shown in the deposits of the Fidelity Trust Company of Tacoma, Wash., which are reported as $3,258,616 on March 22. At the same date in 1902 the amount was only $892,891. Total resources now are $3,687,358. As a consequence of the expansion in the business, it has become necessary to increase the size of the banking rooms, and work on the contemplated improvements in its offices is already in progress. The banking room is to be enlarged to three times its present size, giving a floor space of over 6,000 square feet. The safe deposit vaults, located in the basement, will be thoroughly overhauled. The improvements are expected to be completed by June 1.

—The Bank of British North America at its annual meeting on March 5 reported net profits for the six months ending December 31 1906 of $327,310, this comparing with $300,571 for the half-year ending June 30 1906 and $287,462 for the six months to December 30 1905. The amount at the credit of balance and loss June 30 1906 was $330,257, out of which was paid the October dividend calling for $146,000, leaving the sum of $184,257 to be added to the net profits of $327,310 on December 31 1906, giving a total of $511,567. Out of this, appropriations were made as follows: Transferred to bank premises account, $97,333; transferred to reserve fund, $97,333; transferred to Officers' Widows' and Orphans' Fund, $2,500; transferred to Officers' Pension Fund, $4,827; staff bonus, $19,467, making in all $221,460, and leaving a balance of $290,107 available for the April dividend and bonus. The bank pays dividends semi-annually at the rate of 6% per annum; provision for an extra distribution of 1% has been made (this to be in the shape of a bonus and not as increased dividend), making in all 7% for the year. The paid-in capital is $4,866,667 and the reserve fund $2,238,667. The remarks of Henry J. B. Kendall, who presided at the meeting in London, together with the full balance sheet, will be found on another page.

—For the quarter ending April 30 the directors of the Imperial Bank of Canada (head office Toronto) have declared a dividend of 2¾%, or at the rate of 11% per annum. This is an increase of 1% yearly, 10% having been paid since 1901.

REFUNDING AND REDEMPTION OF THE FOURS OF 1907.

The following is the circular of Secretary Cortelyou offering to exchange $50,000,000 of the maturing 4s of 1907 into 2% consols, and calling the residue of the outstanding 4s for redemption July 2 1907:

REFUNDING AND REDEMPTION OF THE 4 PER CENT BONDS OF THE FUNDED LOAN OF 1907.

1907. *Treasury Department,*
Department Circular No. 25. *Office of the Secretary,*
Division of Loans and Currency. *Washington, April 2 1907.*

Public notice is hereby given to the owners of United States registered and coupon bonds of the 4% funded loan of 1907 that the Secretary of the Treasury will receive, on and after April 6 and before June 30 1907, any of the bonds of the said loan to an amount not exceeding $50,000,000 for refunding under provisions of Section 11 of the Act of March 14 1900, entitled "An Act to define and fix the standard of value, to maintain the parity of all forms of money issued or coined by the United States, to refund the public debt and for other purposes."

The residue of the bonds of the said loan, after the refunding hereby provided for, will be reserved for redemption on and after July 2 1907, and the bonds constituting the said residue are hereby called for redemption, and will cease to bear interest on the 2d day of July 1907.

The bonds of the loan above mentioned may be surrendered on and after April 6, and will be received at a valuation equal to their present worth to yield an income of 2 ¼% per annum, and like amounts of United States registered or coupon bonds bearing interest at the rate of 2% per annum will be issued in exchange therefor at a premium of 3%.

To effect the exchange, the outstanding bonds should be surrendered to the Secretary of the Treasury in accordance with the terms of this circular; they will be accepted for that purpose in the order of the surrender of them to him, and new bonds bearing interest at the rate of 2% per annum will be issued in the same order in lieu thereof. A letter of transmittal should accompany each package of bonds for exchange, setting forth the purpose for which they are forwarded and giving the address to which the new bonds and checks for the interest thereon shall be sent.

Bonds held by the Treasurer of the United States in trust for a national bank may be surrendered by letter addressed to the Secretary of the Treasury, accompanied with the Treasurer's receipt representing the bonds, together with a resolution of the board of directors of the bank, authorizing the Treasurer to assign the bonds.

The priority of issue of the new bonds will be determined by the date of the receipt by the Secretary of the Treasury of the outstanding bonds or the papers representing the same, provided that the bonds or papers are in proper condition for such surrender, as set forth hereafter in this circular. If any correction is required, the priority of the bonds to be issued will take date from the receipt and acceptance of corrected bonds or papers at this office.

Any registered bonds forwarded should be assigned to the "Secretary of the Treasury for exchange into 2% bonds." The assignment should be dated and witnessed by one of the officers named in the note, which is printed on the back of each bond. Where a new bond is desired in the name of any one but the payee of the old bond, the old bond should be assigned to the "Secretary of the Treasury for exchange into 2% bonds for account of ——— ——— (here insert the name of the person in whose favor the bond is to be issued)."

Registered bonds inscribed in the name of an institution, forwarded for exchange, must be accompanied by a resolution of the board of directors of the institution authorizing their assignment to the Secretary of the Treasury for such exchange. The resolution must bear the seal of the institution, or, if the institution have no seal, there must be furnished with the resolution an affidavit setting forth that fact.

All bonds surrendered for refunding should be accompanied with a remittance of cash or bankable funds made payable to the order of the Treasurer of the United States, equal to the premium of 3% which is charged for the 2% bonds. When the new bonds are issued the amount found due the owner on account of the present worth of the 4% bonds to yield an income of 2 ¼% per annum, plus the difference in accrued interest between the two classes of bonds from April 1 1907 to date of exchange will be paid to the owner by a check drawn in his favor by the Treasurer of the United States.

The new bonds will be issued in denominations as follows: Coupons $50, $100, $500, $1,000. Registered, $50, $100, $500, $1,000, $5,000, $10,000, $50,000, and in order that they may be uniform, as to date of maturity, with the 2% consols of 1930 now outstanding, they will be dated April 1 1900, but interest thereon will begin April 1 1907.

All bonds forwarded for exchange will be regarded as the property of the person, firm or institution in whose favor the new bonds are to be issued, but if the agent forwarding the bonds shall desire, and so request, the new bonds may be forwarded to such agent's address for delivery to the owner.

Packages containing bonds for surrender, or papers representing bonds held by the Treasurer of the United States in trust for a national bank, should be addressed to the Secretary of the Treasury, Division of Loans and Currency, Washington, D. C., and be plainly marked "Bonds (or papers) for exchange."

Blank forms of application for the exchanges herein authorized and blank resolutions for use by institutions have been prepared by the Department, and may be obtained on application to the Secretary of the Treasury.

Any bonds received for refunding after the limit of $50,000,000 shall have been reached will be held for redemption on July 2 1907 or will be returned, as the owners may desire. In either case the premium above provided for will be promptly returned to the owner of the bonds.

The circular of March 14 1907 providing for the redemption of $25,000,000 of the 4% bonds of 1907, with interest to July 1, will remain in force until that amount of such bonds shall have been received.

GEORGE B. CORTELYOU,
Secretary.

RESULT OF REFUNDING $100 4% BONDS OF 1907 UNDER THIS CIRCULAR.

Cost of a $100 2% bond on April 10.

Clearings by Telegraph—Sales of Stocks, Bonds, &c.—The subjoined table, covering clearings for the current week, usually appears on the first page of each issue, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from other leading cities. It will be observed that, as compared with the corresponding week of 1906, there is a decrease in the aggregate of 3.6%. So far as the individual cities are concerned, New York exhibits a loss of 9.4% and Baltimore 2.6%. Boston records a gain of 5.1%, Chicago 17.3%, St. Louis 2.3%, Philadelphia 4.5% and New Orleans 5.8%.

Clearings—Returns by Telegraph. Week ending April 6.	1907.	1906.	*Per Cent.*
New York	$1,666,627,875	$1,838,704,116	—9.4

Monetary and Commercial English News

(From our own correspondent.)

London, Saturday, March 23 1907.

Business on the Stock Exchange continues very inactive. There is a more cheerful spirit, and prices, generally speaking, have recovered somewhat. But there is a certain amount of apprehension all the same that at the fortnightly settlement next week there may be several failures. Nobody anticipates serious failures, for people in good credit have ample time to obtain all the accommodation they require. But that weak people, who have speculated beyond their means, may in several cases be unable to meet their differences is probable. The settlement will end on Wednesday next. Until that is over, it is very unlikely that there will be any increase of activity. Friday and the following Monday will be Bank holidays. Large numbers of persons will go out of town for the week end, and many of them will not return during the following week.

Until, therefore, the end of the first week in April, or rather the beginning of the second week, the general impression is that business will continue very quiet. How it will go afterwards will depend, firstly, upon the course of events in New York. If nothing adverse happens there, and if New York does not take large amounts of gold, the general impression is that there will be a decided recovery in London. If, however, much gold is taken for New York, nobody doubts that the Bank of England will promptly put up its rate of discount to 6%. Secondly, the course of events next month depends upon what will happen in Russia. A most favorable view is taken both in London and Paris just now of the prospects in Russia, for the Russian Prime Minister at the beginning of this week made a very satisfactory speech in which he declared in the plainest language that Russia must be made a constitutional country, and promised a long list of very important reforms. It was known that he would make such a speech. What was feared was that the Douma might refuse to co-operate with him; might, in fact, insist upon his resignation. On the contrary, the Constitutional Democrats had the good sense to adopt a motion for the Order of the Day, and since then they have also shown political capacity in adopting similar orders. Hence, the hope is now strong that a great Centre Party will be formed and that it will accept all the real reforms offered by the Government. In that case, there will probably be a sharp rise in Russian securities, which would greatly enrich the Paris Bourse and probably give rise to a marked speculation in Paris.

Meantime, Paris has been cheered by the declaration of a dividend of £3 per share on Rio Tinto shares. The share is nominally a £5 share. When the dividend came out, the quotation was about 91¾. It rose almost immediately to 95. There has been a very great speculation in these shares in Paris for many months past, and the good dividend, followed by a large recovery, has given courage to operators.

In Germany, on the other hand, business on the bourses has been bad. There has been throughout the week a steady fall in almost all prices and the public is preparing itself for exceedingly dear money at the end of the month. Next week will be the end of the month and of the quarter, and Good Friday and Easter Sunday fall within it likewise. Consequently, preparations will have to be made for the usual quarterly requirements and the holiday calls. In consequence, everybody is prepared to see an enormous increase in the note circulation of the Imperial Bank.

The state of the money market this week is curious. Immense sums have been obtained at the Bank of England, both by borrowing and by discounting bills. It is said that the Bank has taken an immense number of bills running for sixty days and even for ninety days, and that it has taken some bills running for as long as six months. Consequently the Bank will have a considerable hold upon the outside market for a long time to come. For the moment, however, the loans and discounts have given the outside market a great increase of funds which, of course, will have to be paid back early in April. In addition to this, the Government is disbursing very large sums, for the financial year comes to an end with the month of March. Therefore, the Treasury will have to pay out exceptionally heavy amounts during the remainder of the month. All this, for the moment, is giving the outside market command of considerable money. On the other hand, there is so much uncertainty as to whether New York will take much gold that the joint-stock banks are doing little in the way of discounting. The result is that while day-to-day loans have been decidedly easier than they were a few days ago, bills are almost quite up to Bank rate. Since Thursday, even day-to-day rates have somewhat stiffened, for late on that day the Bank of France put up its rate of discount from 3% to 3½%. It had remained at 3% since May 25 1900, that is, almost seven years. The rise was expected whenever the Bank of England moved its rate upwards. But that the Bank of France should take the initiative, nobody anticipated. Consequently, the change has made a sensation here as well as in Paris.

The India Council offered for tender on Wednesday 50 lacs and the applications exceeded 302 lacs, at prices ranging from 1s. 4 1-16d. to 1s. 4 5-32d. per rupee. Applicants for bills at 1s. 4 3-32d. and for telegraphic transfers at 1s. 4 5-32d. per rupee were allotted about 58% of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last four years.

Messrs. Pixley & Abell write as follows under date of March 21:

GOLD.—The Bank has again succeeded in keeping this week's arrivals of gold, but has found it necessary to raise the price to 77s. 9¾d. During the week the Bank bought £852,000, of which £595,000 was in bars and £245,000 in coin from Paris. Against this £30,000 was withdrawn, £22,000 going to South America, £550,000 is due next week from the Cape. Arrivals—South Africa, £479,000; Australia, £139,000; Bombay, £62,000; Brazil, £17,000; West Indies, £17,000; total, £714,000. Shipments—Bombay, £117,564; Madras, £8,750; total, £126,314.

SILVER.—The reaction in silver has continued, and we have fallen 11-16d. during the week. There have been some large sales from the East, and, with only a moderate demand from the Bazaars, the course has been downward. News of a French tender for 20,000 kilos failed to cause any improvement. We quote to-night 30 13-16d., 1-16d. above the worst, and close fairly steady. The Indian price is Rs. 78½ per 100 tolahs. Forward silver is quoted 5-16d. under cash. Arrivals—New York, £177,000; West Indies, £10,000; total, £187,060. Shipments—Bombay, £384,900; Madras, £2,500; total, £387,400.

MEXICAN DOLLARS.—There is no business to report in these coins. Arrivals—New York, £106,000. Shipments—Bombay, £93,300.

The quotations for bullion are reported as follows:

GOLD. London Standard.	Mch. 21. s. d.	Mch. 14. s. d.	SILVER. London Standard.	Mch. 21. d.	Mch 14. d.

Commercial and Miscellaneous News

Auction Sales.—Among other securities, the following, not regularly dealt in at the Board, were recently sold at auction:

By Messrs. Adrian H. Muller & Son:

Stocks.

8 Mercantile Safe Deposit Co. 466
5 Liquid Air Power & Automobile Co., $10 each $2 lot
50 Guggenheim Explora'n Co. 233
748 The Nason Mfg. Co. 1c. per sh.
37 St. Louis Ore & Steel Co. $7 lot
11 Carrington & Co.'s Express & Purchasing Agency $1 lot
Memb. N. Y. Produce Exchange (all dues paid) $300
30 Homesdale Realty Co. $1 lot
10 Irving Nat. Exch. Bank 175

Bonds.

$1,000 Amer. Steel Foundries Co. 6s, 1935, A&O 71
1,000 Inter-State Ry. Co. Coll. Tr. 4s, 1943, F&A 61
$12,000 Allis-Chalmers 5s, 1936 75
$17,000 United Box Board & Paper Co. Gen. 6s, issued 1905 56
$5,000 New Amsterdam Gas Co. 1st 5s, 1948, J&J 95⅜ and int.

DIVIDENDS.

We have changed the method of making up our weekly list of dividends. Heretofore our record has included only the dividends announced each week, but for the convenience of our readers we now enlarge the scope of the compilation so as to show also dividends previously declared, but the date of payment of which has not yet arrived. In the new form the statement indicates all the dividends announced for the future by all large or important corporations.

Dividends announced this week are printed in italics.

Banking and Financial.

THE BANK OF BRITISH NORTH AMERICA.

REPORT OF THE DIRECTORS PRESENTED TO THE PROPRIETORS AT THEIR SEVENTY-FIRST YEARLY GENERAL MEETING.

The seventy-first yearly general meeting was held on March 5, at the office of the corporation, 5 Gracechurch Street, E. C., London, Mr. Henry J. B. Kendall presiding.

The Chairman, in moving the adoption of the report and accounts, said: I am glad to preface my remarks by congratulating you on the very favorable result we are able to put before you. This is due in some measure to the change in the financial situation in the United States, where our results have been somewhat disappointing, owing to the low rates previously ruling for money in New York. All this was changed in 1906, and that part of our resources which is held in New York has been employed at very profitable rates. Greater activity was the feature of trade during the year 1906 the world over, with a consequent financial pressure, causing a demand for money at high rates, and with this the earning power of our agency has returned. But naturally the greater part of our increased profits has arisen from the prosperity of the Dominion. This has continued with the steady, irresistible impulse of a great and growing nation. There is, at present at least, no sign of slackening in the wonderful progress of that great country. The tide of immigration continues to flow. Official returns for the year ending June 30 1906 give a total of 189,064. Of these, 86,796 were from Great Britain and Ireland; 44,349 from Europe, and 57,919 from the United States, the total increase over the previous 12 months being 43,000. One of the great industries of Canada is lumbering. Our report from Ottawa tells us that the quantity of logs cut during the previous winter was about an average; but owing to the scarcity of water in the rivers a great deal of this could not be brought in, and therefore the amount of lumber cut in the Ottawa mills was 25 per cent below the average. As a set-off to this there is an unusual demand for lumber at ever-increasing prices, so that the industry is prosperous. As regards agriculture, the latest estimates we have seen from Winnipeg point to a total of 90,000,000 bushels of wheat as the crop of the past season. This is larger than the crop of the previous season by 4,000,000 bushels, and the quality of the past season's wheat is excellent—in fact, a record. From the Agent-General's report we learn that the total value of minerals produced in British Columbia is estimated at $22,460,000 for the year, showing an increase over 1905 of nearly $4,000,000, the principal increase being in copper. The gold won in the Yukon territory is returned officially as $5,232,000, against $7,110,000 in 1905. Although this shows a continuous decline in the value of gold produced, there appears, from the statement of the Commissioner of that district, to be a prospect of a revival of this industry, considerable amounts of capital having been invested in hydraulic works, which are supplanting the old system of shaft sinking. On the Pacific Coast the Commission appointed by the Ministry of Marine and Fisheries reported most favorably on the condition of the canneries in the Fraser River district. The publication of its report should go far to allay any fears on the part of consumers of canned salmon which were engendered by the Chicago canned meat revelations. Glancing now at our balance sheet, the profits for the half-year, after making our usual liberal provision for bad and doubtful debts, amounted to £67,255. Adding thereto the amount carried forward in June last of £37,861, we have a sum of £105,116 to deal with. Out of this sum we have transferred to reserve fund £20,000, making it now stand at £460,000. The building up of our reserve ranks with us, as it has ever done, of the first importance. In this we have always had, and trust we still have, your hearty concurrence.

We have appropriated, as you will have observed, to bank premises account the sum of £20,000, thereby writing it down to £157,768. The actual value of our premises is considerably larger than that. There is, therefore, no depreciation to provide for; but our building program for the current year will require at least this sum of £20,000, which prudence dictates should be provided for out of profits. Every year we are opening new branches, necessitating the construction of bank buildings, and it is necessary to improve and enlarge some of our existing premises. We cannot but keep step with the wonderful progress of the Dominion, nor can we rest satisfied with some of the buildings which contented us a while ago. At the same time, you can rest assured that our expenditure on premises is no more than is absolutely necessary. Subject to your concurrence, we have made the usual appropriation to the officers' widows and orphans fund and to officers' pension fund, and on this occasion we ask you to sanction a bonus to the staff of 5 per cent on their salaries. A dividend for the half-year at the rate of 6 per cent per annum, as before, absorbs £30,000, and we have now the pleasure of adding a bonus of 1 per cent, making 7 per cent for the year. We think you will concur in the wisdom, on general grounds, of making this extra distribution in the shape of bonus, and not as increased dividend, taking further into consideration the fact that rates for money have been unusually high and lucrative during the past twelve months. This will add £10,000 to the amount required for the half-year's distribution in April next, which will be thus £40,000, and will leave a sum of £19,610, to be carried to next account.

Mr. Richard H. Glyn seconded the resolution, which was carried unanimously.

Messrs. J. H. Brodie, R. H. Glyn and F. Lubbock were re-elected directors, and the election of Mr. J. H. Mayne Campbell to fill the vacancy caused by the death of Mr. H. R. Farrer was confirmed.

Messrs. G. Sneath and N. E. Waterhouse were appointed auditors, and a vote of thanks to the Chairman, directors and staff closed the proceedings.

THE BANK OF BRITISH NORTH AMERICA BALANCE SHEET 31ST DECEMBER 1906.

Dr.		
To Capital—20,000 Shares of £50 each, fully paid:		$4,866,666 67
To Reserve Fund		2,238,666 67

Statement of New York City Clearing-House Banks.—The following statement shows the condition of the New York City Clearing-House banks for the week ending March 30. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

We omit two ciphers (00) in all cases.

Banks 00s omitted.	Capitol.	Surplus.	Loans.	Specie.	Legals.	Deposits. a	Reserve

a Including for Boston and Philadelphia the item "due to other banks" and also Government deposits. For Boston these Government deposits amounted on March 30 to $3,474,000; on March 23 to $3,479,000.

Imports and Exports for the Week.—The following are the imports at New York for the week ending March 30; also totals since the beginning of the first week in January:

FOREIGN IMPORTS AT NEW YORK.

For week.	1907.	1906.	1905.	1904.
Dry Goods	$3,833,714	$3,775,101	$3,054,000	$2,354,164
General Merchandise	16,483,215	12,939,533	14,745,114	8,758,215
Total	$20,316,929	$16,714,634	$17,799,114	$11,112,379
Since January 1.				
Dry Goods	$53,939,845	$47,152,663	$41,108,971	$36,098,830
General Merchandise	179,417,259	147,953,777	155,852,731	127,412,636
Total 13 weeks	$233,357,104	$195,106,440	$196,961,702	$163,511,466

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending March 30 and from Jan. 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1907.	1906.	1905.	1904.
For the week	$10,888,378	$13,188,228	$12,350,269	$7,759,560
Previously reported	150,337,513	149,875,899	121,949,287	120,562,293
Total 13 weeks	$161,225,891	$163,064,127	$134,299,556	$128,321,853

The following table shows the exports and imports of specie at the port of New York for the week ending March 30 and since Jan. 1 1907, and for the corresponding periods in 1906 and 1905:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1	Week.	Since Jan. 1
Great Britain	----	----	----	$754,673
France	----	----	----	331,087
Germany	----	----	----	1,033,634
West Indies	4,500	$351,590	$9,694	104,406
Mexico	----	----	6,207	45,026

Wall Street, Thursday Night, April 5 1907.

The Money Market and Financial Situation.—There has been further recovery in security values this week. The upward movement has, however, been interrupted by frequent reactions, and prices are still in many cases 20 points or more below those prevailing earlier in the year.

The stock market has been only moderately active but the bond department at the Exchange shows decidedly more animation than for a long time past, and in several cases there has been a notable advance in prices. The improvement noted is due mainly to influences mentioned last week, especially that of the money market. Large deposits of customs receipts in New York City banks and the proceeds of bonds purchased by the Government have so far relieved the money market as to cause a decline in call-loan rates to the lowest figures in many months. In addition to this, $2,250,000 gold was bought in London early in the week for shipment to this port. The better feeling abroad continues, although the weekly statements of the three principal banks show a smaller percentage of reserve than is usual at this season of the year.

Among the developments of the week attracting more or less attention in railway circles have been the increase of the Atchison dividend rate to 6%, the terms of sale of Erie notes, the increase shown by Southern Pacific's traffic report and a settlement of the threatened strike in Chicago.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1 to 4½%. To-day's rates on call were 2@2½%. Prime commercial paper quoted at 6@6½% for endorsements and 6@6½% for best single names.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £655,529, and the percentage of reserve to liabilities was 41.42, against 40.95 last week.

The discount rate remains as fixed Jan. 17 at 5%. The Bank of France shows a decrease of 22,725,000 francs in gold and 5,450,000 francs in silver.

NEW YORK CITY CLEARING-HOUSE BANKS.

	1907. March 30.	Differences from previous week.	1906. March 31.	1905. April 1.
	$	$	$	$
Capital	127,100,000	----------	116,472,700	115,972,700
Surplus	156,057,900	----------	145,655,100	137,656,500
Loans and discounts	1,056,545,200	Inc. 6,555,600	1,025,503,900	1,099,289,700
Circulation	50,820,000	Dec. 100,300	51,845,000	43,718,700
Net deposits	a1019,817,300	Inc. 17,672,700	1,004,290,500	1,138,661,300
Specie	195,659,700	Inc. 10,685,300	177,895,000	209,481,100
Legal tenders	72,425,900	Inc. 2,154,700	78,308,900	83,848,800
Reserve held	268,085,600	Inc. 12,840,000	256,203,900	293,329,900

Surplus reserve	13,131,275	Inc. 8,421,825	5,131,275	8,664,575

a $18,093,600 United States deposits included, against $14,512,100 last week and $11,738,900 the corresponding week of 1906. With these United States deposits eliminated, the surplus reserve would be $17,654,675 on March 30 and $8,337,475 on March 23.

Note.—Returns of separate banks appear on the preceding page.

Foreign Exchange.—The market was active and higher this week, influenced by easier money, by an urgent demand to remit for stocks sold for London account and by a scarcity of bills. The gold that was bought in London on Tuesday for shipment hither was re-sold. To-day's (Friday's) nominal rates for sterling exchange were 4 81½@4 82 for sixty day and 4 85½@4 86 for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8140@4 8150 for long, 4 8520@4 8525 for short and 4 8585@4 8590 for cables. Commercial on banks 4 8080@4 8090 and documents for payment 4 80¼@4 81⅜. Cotton for payment 4 80¼@4 80⅜. Cotton for acceptance 4 8080@4 8090 and grain for payment 4 81¼@4 81⅜.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 23⅛*a*@5 23⅛ for long and 5 20⅝@5 20*h* for short. Germany bankers' marks were 93⅞@93 15-16 for long and 94 9-16@94⅝ for short. Amsterdam bankers' guilders were 40.07@40.09 for short.

Exchange at Paris on London to-day 25f. 28c.; week's range 25f. 28½c. high and 25f. 27½c. low.

The week's range for exchange rates follow:

	Long		Short		Cables	
Sterling Actual—						
High	4 8140	@ 4 8150	4 8520	@ 4 8525	4 8585	@ 4 8590
Low	4 7875	@ 4 79	4 8320	@ 4 8325	4 8410	@ 4 8420
Paris Bankers' Francs—						
High	5 23⅛*a*	@ 5 23⅛	5 20⅝	@ 5 20*h*	----	----
Low	5 21⅛	@ 5 21⅛	5 21¼*a*	@ 5 20⅞	----	----
Germany Bankers' Marks—						
High	93⅞	@ 93 15-16	94 9-16	@ 94⅝	----	----
Low	93⅝	@ 93½	94 3-16	@ 94 5-16	----	----
Amsterdam Bankers' Guilders—						
High	----	----	40 07	@ 40 09	----	----
Low	----	----	39 13-16	@ 39⅞	----	----

Long: *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus: *f* 1-16 of 1%. *x* 1-32 of 1%. *y* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying, 50c. per $1,000 discount; selling, 75c. per $1,000 premium. Charleston, selling, $1 per $1,000 premium. New Orleans banks, 35c. per $1,000 discount; commercial, 60c. per $1,000 discount. Chicago, par; St. Louis, 20c. per $1,000 premium. San Francisco 20c. per $1,000 premium.

State and Railroad Bonds.—Sales of State bonds at the Board are limited to $1,000 Tennessee settlement 3s at 96.

The market for railway and industrial bonds has been more active than for a long time past, on a better demand, and under the lead of a few strong issues the entire market has shown a tendency to advance. Delaware & Hudson conv. 4s have advanced 6½ points, Burlington & Quincy joint 4s nearly 5 points, Brooklyn Rapid Transit 4s nearly 4, Erie 4s, series A, 3½; Rock Island RR. 4s, 3; U. S. Steel 5s, 3, Atchison conv. 4s over 3, and several other issues from 1 to 2 points within the week. Among the latter are Reading, Pennsylvania, Colorado Southern, Atchison, Baltimore & Ohio and Interboro-Metropolitan bonds.

United States Bonds.—Sales of Government bonds at the Board include $6,000 2s reg., 1930, at 104¾, and $3,000 3s, coup., 1908-18, at 101. The following are the daily closing quotations; *for yearly range see third page following.*

* This is the price bid at the morning board; no *sale* was made.

Railroad and Miscellaneous Stocks.—As noted above, the stock market has made further progress towards normal conditions, although this movement has not been allowed to go on without interruption.

On Tuesday and Wednesday there was a good deal of irregularity and net declines were recorded in a number of cases. These were more than offset by the advance which was renewed on Thursday and continued to-day, so that, as a result of the week's operations, practically the entire active list is from 3 to 10 points higher than last week and from 5 to 22 points above the lowest reached during the recent slump. To-day's market was by far the most active of the week and net gains of from 1 to 3 points were general in the list.

Among the exceptional features is Canadian Pacific. It sold on Monday 35 points above the price on March 23d, has covered a range of 18 points within the week, and is the only active stock that closes lower than last week. Other trans-continental issues have covered a wide range. Northern Pacific is over 10 points higher than last week and 23 higher than on March 25th. Reading has been the most active stock on the list and advanced from 103 on Monday to 114 to-day.

For daily volume of business see page 795.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Outside Market.—The market for unlisted securities has been dull and irregular, though a distinctly firmer feeling has been in evidence, a further improvement in prices being noted. Copper shares have received a large share of the attention. Greene Cananea from 15¾ moved up to 17 then fell back to 15¾. It recovered to 16¾ and ends the week at 16⅝. Greene Consolidated Copper advanced from 23½ to 25¼, went down to 24, but moved up again, reaching 26½ to-day. United Copper common rose from 58¼ to 60, weakened to 58½ and ran up again to 62½. Balaklala on sudden activity advanced 3½ points to 13½ but fell off to 10¾, the close to-day being at 11⅝. Boston Consolidated Copper went up from 23½ to 26½, at which figure it closes to-day. British Columbia Copper from 6⅞ reached 8¼, easing off to 8. Butte Coalition sold up from 26⅞ to 29¼, sank to 25⅞ and recovered to 28. The close to-day was at 27½. Douglas Copper, after a fractional decline to 9¾, ran up to 11⅞. Trinity was weak, and after advancing from 25 to 31½ dropped to 21⅞. It advanced finally to 23½. Newhouse lost 3 points to 18¼ but moved up again to 20¾, closing to-day at 20⅛. Nipissing rose from 12½ to 13⅞, easing off to 13½. Business in industrials has been limited to few stocks. Havana Tobacco common gained a point to 15. The preferred opened the week at 20, went down to 19 and up finally to 22. Waterbury Company, after an early advance from 51 to 55¼, sank to 49½, recovered to 50 and closes to-day at 49¼. Chicago Subway advanced from 19 to 20⅛, fell to 17½ and then went up to 20½. The close to-day was at 20¾.

Outside quotations will be found on page 795.

Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of March 23 1907. The next will appear in the issue of April 20 1907.

a Figures for the month in both years include operations of the Scranton Ry., acquired Jan. 1 1906. *b* Figures are from Feb. 1. *c* These figures are for consolidated company. *d* These are results for main line. *f* Now includes Rapid Ry. Syst., Sandwich Windsor & Amherstburg Ry. and Detroit Monroe & Toledo Short Line Ry. *h* These are early preliminary returns; decrease due to earthquake, fire and strike among employees, Aug. 26 to Sept. 5 1906.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of March 30 1907. The next will appear in the issue of April 27 1907.

American (Bell) Telephone & Telegraph Co.

(Report for Fiscal Year ending Dec. 31 1906.)

The remarks of President Frederick P. Fish, together with the company's income account and balance sheet and a table showing the growth of the Bell system for a series of years, will be found on pages 815 and 817. The reports of all the subsidiary companies furnishing the data will be given in a later issue of the "Chronicle." Our usual comparison of earnings and balance sheet for four years past was published in last week's "Chronicle" on page 746.

Sloss-Sheffield Steel & Iron Company.

(Report for Fiscal Year ending Dec. 31 1906.)

The report of President J. C. Maben for the late fiscal year will be found on subsequent pages of this issue.

The usual comparative statement of earnings and balance sheet was given in the "Chronicle" of March 16 on page 625.

American & British Manufacturing Co. of Providence.

(Report for Fiscal Year ending Dec. 31 1906.)

This company, controlled through stock ownership by the International Power Co. (V. 79, p. 2799; V. 82, p. 51; V. 83, p. 268), has called a meeting of the shareholders for April 24 at the office, 74 Broadway, New York, to vote on reducing the common stock from $8,000,000 to $2,000,000, through a reduction in the number of shares, the par value of single shares ($100) as well as the amount of the preferred issue ($2,000,000) to remain unchanged. President George W. Hoadley, Providence, Dec. 26 1906, writes:

The gross earnings were $1,725,478 and show anase over incre the year 1905 of $771,701. The earnings include the revenue from the manufacture of ordnance, ammunition, caissons, lathes and automobile parts, and sundry commercial work at the Bridgeport, Conn., and "Diesel," and steam engines and general repair work at the Providence, R. I., works, together with sundry items of income from other sources.

The expenses were $1,384,407, an increase of $601,913 over the preceding year. The expenses include all direct and indirect charges against manufacturing, maintenance and administration. They also include a liberal depreciation charge on all patterns, drawings, templets, flasks and dies, and a readjustment of material and stock values by careful inventory.

To provide for necessary improvements and additions at the two plants, $150,000 has been appropriated out of the surplus earnings.

After deducting the interest charges, New York expenses and the $153,337 charged off, $8,527 is carried to profit and loss. The amount charged off covers not only all improvements and patterns and drawings made during the year 1906, but charges off all improvements, real estate, development and patterns and drawings acquired by the company since its organization in 1902, and leaves the plant, property and pattern and drawing accounts at less than they were taken over for by the company.

The steady increase of orders for Diesel engines and the development of the Wilkinson engine at the Providence plant, and the activity of the automobile parts department at the Bridgeport plant, makes it imperative that additional facilities in the way of modern building and machines be provided for at once at both places—hence the appropriation noted heretofore.

The company suffered a loss by fire Dec. 5 1906, resulting in the total destruction of the Diesel engine testing department. The material loss is covered by insurance, but the delays and inconvenience suffered will be felt for some little time to come.

The engineers of the company look upon the Wilkinson turbine engine, which has been built and thoroughly tested at the Providence plant during the past year, as a coming source of great resource to the company. This new field, together with the increased demand for Diesel engines and extended facilities for pressed steel and drop forging automobile parts, together with the heavy line of contracts on hand at both plants, practically assure continued and increasing activity for some time to come.

Consolidated Cotton Duck Company, Baltimore.

(Report for Fiscal Year ending Dec. 31 1906.)

The report of Chairman S. Davies Warfield, under date of Feb. 18 1907, says in substance:

At the time of my last report (V. 83, p. 433) six months only had elapsed from the organization of the company. Within the past twelve months the United States Cotton Duck Corporation, as such, has gone out of existence, its securities having been acquired, all the mill properties, real, personal and otherwise, formerly owned by that corporation are now owned by this company. The entire capital stock of the J. Spencer Turner Company of New York has also been acquired, this company acts as the distributing house for your company and disposes of the products thereof.

Your President's statement for the twelve months ended Dec. 31 1906 shows income of over $10,000,000 and surplus earnings of $908,915, after taking care of fixed charges on all the underlying securities of both of the former constituent companies. After providing for the 6% dividend on the $6,000,000 of preferred stock, there remained a surplus from the operations of the year equal to nearly 8% on the entire issue, $7,000,000, of common stock. The net earnings of the J. Spencer Turner Co. for the twelve months, after providing for the fixed charges on its $1,600,000 of debentures, was approximately $100,000, giving combined earnings of the two companies of over $1,000,000, equal to over 9% on the total issue of common stock after paying bond interest and the 6% dividend on the preferred stock.

With the view of placing the mills of the Mount Vernon Woodberry Co. in the proper condition, the management has been replacing obsolete machinery, long since out of date. To provide these replacements with the promptness demanded, the management has deemed it advisable to credit the depreciation account with every dollar that can possibly be spared, so that the mills may be, and they are being, equipped without delay to meet modern requirements.

Under the plan of exchange of securities of the two cotton duck companies for those of the Consolidated Company, $5,608,000 Income bonds of the Mount Vernon-Woodberry Cotton Duck Co. out of a total of $6,000,000 have been exchanged, leaving only $392,000 outstanding. Since my last report, which showed $600,000 Income bonds outstanding, $208,000 have been exchanged. Over 93% of these bonds have therefore become the property of your company.

By consulting table "D," you will note that the actual valuation of the properties is approximately $18,000,000. Yet the present market value of al the securities of both the constituent companies and the Consolidated Cotton Duck Co. aggregates only $12,750,000, a difference of $5,250,000 between actual value and present market values, or an excess in actual value of over 40%. No reason for this can be found in the earnings of your properties. You have no bonus stock in this company. In the exchanges of securities which have taken place, not only does the preferred stock represent cash paid in to its full par value, but your common stock represents a substantial cash payment originally paid in. Your company deals as a manufacturer in a staple commodity which has a world market, and it owns exclusive brands previously owned by most successful cotton duck mill operators. Your mills have been acquired after careful consideration both as to location and environment, and in the J. Spencer Turner Co. we have a large selling house with established headquarters for the sale and distribution of goods throughout the world.

EARNINGS FOR CALENDAR YEARS.

	1906.	1905.	*Increase.*

Storm Co.), buildings and machinery, $5,376,309; investment in allied company, $118,000; furniture and fixtures, $6,562; total, $5,500,871."
b "Cost of property, including trade-marks, patent rights, real estate, buildings and machinery, $16,359,862; investments in allied companies: Geo. L. Storm Co., $250,000; Lichtenstein Bros., $25,000; Straiton & Storm, $300,000."
c Trade-marks, brands, patent rights, $15,941,895; real estate, $213,834; machines and fixtures, $207,731; stock in other companies, $578,000.—
d After deducting reserve for discounts, $50,000.

Following is a digest of the text of the statement made to the New York Stock Exchange as of Nov. 30 1906:

Organized on April 28 1906 under the laws of New York State. Of the $10,000,000 common stock (all issued), $7,650,000 is deposited under a voting trust agreement. The Central Trust Co. of New York is the voting trustee. The agreement is for five years and terminates on June 1 1911.

The company went into active operation on May 2 1906. It acquired the business, property, assets and effects of "United Cigar Manufacturers" as of April 2 1906.

The company took over the entire property and business of the "United Cigar Manufacturers," a New York corporation (since dissolved), giving therefor $5,000,000 preferred capital stock and $14,999,400 common stock and $108,475 in cash. Among the assets so taken over, it acquired the total capital stock issue of the following New York corporations, namely: Straiton & Storm Co. of New York City, capital stock $300,000; Lichtenstein Bros. & Co. of New York City, capital stock $25,000. It in like manner acquired and now owns $236,000 out of a total authorized issue of $400,000 of the capital stock of Geo. L. Storm & Co. of New York City. Straiton & Storm Co. and Lichtenstein Bros. Co. have no separate books. Their transactions are carried on the books of United Cigar Manufacturers Co. as part of its own business. Geo. L. Storm & Co. carries on an independent cigar business, being important to the company for the distribution of its products.

The company acquired from United Cigar Manufacturers and now owns the following modern brick factories and warehouses and the ground whereon they stand, viz.: Factories respectively at New Brunswick, N. J.; Perth Amboy, N. J., and York, Pa., and warehouses at Miamisburg, Ohio, and Edgerton, Wis. In like manner it acquired a factory at Harrisburg, Pa., and a warehouse at Portage, Wis., but not the ground whereon they stand. The warehouses and factories were taken over at $212,491, being no more than original cost, and they are carried on the books at the same figure, with additions for actual improvements since made.

The company has under lease three factories in the Borough of Manhattan, a factory in Brooklyn, a factory in Lancaster, Pa., two auxiliary factories in New Brunswick and a factory each at Dallastown, Spinnerstown, Coopersburg, Middletown, Perkasie and Quakertown, in Pennsylvania, and warehouses at Perth Amboy, N. J., Cashton and Viola and Lodi, Wis., at aggregate annual rentals of about $59,009.

The buildings above described are equipped with machinery and appliances, and all of them are in active operation in the manufacture, packing, handling and storing of cigars, cigarros and cheroots. The annual capacity of the plants is about 400,000,000 cigars; the present annual output is about 380,000,000 cigars. There is no mortgage or other encumbrance of any kind on any of the other assets or effects of the company.

Rights of Preferred Stock, Briefly Stated.

The preferred stock shall be entitled to receive, and the company shall be obligated to pay, out of the surplus or net earnings, a cumulative dividend at the rate of, but not exceeding, 7% per annum, payable quarterly, the first year beginning June 1 1906; and no dividend shall at any time be paid or set apart on the common stock until dividends at the rate of 7% per annum from June 1 1906 shall have been paid or set apart on all of the outstanding preferred stock. Out of the accumulated surplus or net earnings, after providing for all accrued and unpaid dividends on the preferred stock, there shall annually in April be set apart not less than $100,000 (which shall be added to and used only as part of the capital of the company) until the aggregate of such additions shall equal $1,000,000; and until such time no dividend shall be declared or paid or set apart on the common stock in any year in which said sum of not less than $100,000 shall not first have been so set apart, and until said additions to capital shall equal $1,000,000 there shall not in any year be paid or set apart any dividend in excess of 6% on the common stock. Upon dissolution or liquidation, there shall be paid to the holders of the preferred stock the par value thereof, and all accrued and unpaid dividends thereon before any sum shall be paid on the common stock.

The holders of the preferred stock shall have no voting power, provided, that if there shall occur two successive quarter-yearly defaults in the payment of the dividends on the preferred stock, not due solely to losses by reason of a strike or to any order of a court, then and until the time when such defaults shall have been made good out of the surplus or net earnings properly available for that purpose, the holders of the preferred stock shall have the exclusive right to vote; but all directors so to be voted for shall be of the class whom they succeed and shall be elected to serve only until all existing defaults on the preferred stock have been made good as aforesaid. Subject to the foregoing limitation, the voting power shall be vested exclusively in the common stock, and the control and management shall always be therein.

The company shall not create any lien, by way of mortgage or otherwise, upon any of its real or personal property, or assent to the creation of any mortgage or lien upon the real or personal property now owned or hereafter acquired by any corporation whereof it may acquire the controlling stock, without either the previous written consent of the holders of at least three-fourths of the then issued and outstanding preferred stock of the company; but this prohibition shall not operate to prevent the giving of purchase money mortgages or other purchase money liens or any pledging of the stocks, securities or warehouse certificates of the company as collateral security for the payment of moneys borrowed in the regular course of business.

Officers: Jacob Wertheim, President; Charles Hirschhorn, First Vice-President; Fred Hirschhorn, Second Vice-President; Edward A. Kerbs, Treas.; Walter A. Schiffer, Secretary. Directors: C. Hirschhorn, F. Hirschhorn, M. H. Mack and H. S. Stern, of the first class; Jacob Wertheim, Edward A. Kerbs, Walter A. Schiffer, Edmund L. Haas, of the second class; Henry Goldman, Philip Lehman, D. G. Boissevain, A. Barton Hepburn, of the third class, all of New York City. Principal office, 1018 and 1020 Second Ave., New York City.

Leading stockholders in the enterprise and representatives of the American Tobacco interests were recently reported in negotiation respecting a proposition of the latter to purchase control, but the negotiations, it is understood, fell through, owing to disagreement as to price.—V. 83, p. 1475.

National Lead Company.

(Report for Fiscal Year ending Dec. 31 1906.)

President L. A. Cole says in substance:

The statement for the 15th fiscal year, ending Dec. 31 1906, discloses a net profit of $2,499,632. In addition, the company has an interest exceeding $600,000 in undivided earnings of other companies, which is reserved by them for working capital and other uses. After the payment of regular quarterly dividends on preferred stock and of three quarterly dividends of 1% each on the common stock, payments of which were commenced on July 1 last, the whole aggregating $2,015,406, a remainder of $484,226 was added to surplus account, which at the close of the period under review was $4,038,822.

Reference to the financial statement shows a healthy condition with no liabilities other than those in process of payment and an adequate working capital fully employed. Sales of properties not in use resulted in a deduction of $191,036 from plant investment account. Raw materials have continued to advance and are now at the highest point in the history of the company, but provision has been made in the inventory for any probable shrinkage in values. The efficiency of plants has been maintained by expenditures for repairs and maintenance aggregating $188,418, which was charged to the cost of operation.

The aggregate volume of business done (expressed in tons) was slightly less than the preceding year, due, we conclude, to the rapid advance in prices and the reluctance of consumers to believe in their continuance. With the close of the year, however, we find orders for future business indicating an increased distribution, and at the date of this report the business so far this year shows a large increase over that of last.

The mining property referred to in the last annual report had a very successful year and added largely to the sinking fund created for the purpose of paying its initial cost.

The property investments referred to in our last annual report have by their earnings justified the predictions then made, and confirm our judgment as to the wisdom of their acquisition. Since the close of the fiscal year negotiations pending for other businesses have been concluded, and in payment therefor an issue of $3,750,000 in preferred stock has been made for properties possessing net cash assets and lands, buildings, machinery and fixtures appraised at above $3,800,000. The net earnings of the properties so acquired have averaged in excess of $600,000 for the last three years, as determined by Messrs. Haskins & Sells, chartered accountants. The object of late investments has been to so diversify the business of the company as to render it less susceptible to depression in any one feature without departing from its essentially metallic foundation.

All features of the business are participating in the general prosperity of the country, and the present outlook is most encouraging.

Statistics.—Results for four years and the balance sheets were as follows:

	1906.	1905.	1904.	1903.
Net earnings	$2,499,632	$2,082,632	$1,595,693	$1,569,069

International Salt Company.

(Report for Fiscal Year Ending Feb. 28 1907.)

The report of the Treasurer, presented at the annual meeting of the stockholders in Jersey City on March 25, says:

As you have been previously advised (compare V. 84, p. 53), the directors, after a careful consideration, decided that the interests of the stockholders would be best conserved by discontinuing for a time the payment of dividends and devoting the net earnings to the acquisition and installation of new and improved processes of manufacture. The control of these processes is of vital importance to your company, as it will result in reducing the costs of manufacture to such an extent as to place it in a practically unassailable position.

It was at first thought advisable to raise the necessary funds for this purpose from the sale of bonds. The conditions of the money market, however, were such that this plan was abandoned and a decision arrived at to devote the net earnings to that end. This work is now well under way at several of your plants; one will be completed within six months and two others within a year.

Since my last report there has been expended $729,120 for dividends, (being 4% on the $18,228,000 of outstanding stock.—Ed.); $323,495 for bond interest, $108,000 for sinking funds for redemption of bonds and $696,752 for accounts properly chargeable to capital. On March 1 the available net quick assets were $1,258,252 (and the outstanding bonds amounted to $6,450,000.—Ed.)

Regarding the disposition of the claim based on certain certificates of indebtedness issued by the National Salt Co., referred to in my last annual report, there are still pending in the Court of Chancery of the State of New

Jersey proceedings against the receivers based on about $80,000 of the certificates, and until these proceedings are finally determined the receivers cannot be discharged nor distribution made of the funds in their hands.

The entire net earnings of the company are now of necessity being diverted to capital account, and it is the opinion of every director that this temporary suspension of dividends is being reflected in a more than proportionate increase in value of your securities and that the distribution of profits to shareholders, when again resumed, will be on an enduring and satisfactory basis.—V. 84, p. 53.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

Atchison Topeka & Santa Fe Ry.—*Dividend Increased.*—The directors on April 3 declared a semi-annual dividend of 3% on the $102,998,000 common stock, payable June 1 to holders of record May 10. This increases the annual rate to 6%, contrasting with 3½% in the calendar year 1901, 4% from June 1902 to June 2 1905, both inclusive, and 5%, the rate established last fall by the declaration of a semi-annual dividend of 2½%, payable Dec. 1. The management, it is understood, expect that the road will show earnings for the current fiscal year equal to 14% on the common shares.—V. 84, p. 569, 389.

Atlantic City & Suburban Traction Co.—*Readjustment.*—The creditors' committee, consisting of John L. Clawson of Philadelphia, H. von H. Stoerer of Chester, Pa., and A. C. Stamm of Harrisburg (Secretary), appointed at a meeting held in Philadelphia on Feb. 15, issued under date of March 5 a readjustment agreement, accompanied by a circular letter, which says in substance:

The company defaulted in the interest due Feb. 1 1907 upon its $750,000 of outstanding bonds (viz., $500,000 first mortgage, dated Aug. 1 1902, and $250,000 refunding mortgage, dated Aug. 1 1903; trustee for both, West End Trust Co. of Philadelphia.—Ed.). The company has a floating debt of about $100,000; has issued $27,000 of car equipment bonds, $4,000 of which become due in June 1907; and has entered into a contract, in pursuance of its franchise in Atlantic City, to pave Florida Avenue, at a cost of about $15,000, which will have to be paid during the coming summer. The plan herewith seems best adapted to accomplish the readjustment. Many of the creditors, including the largest of each of the several classes, have approved it. On the part of the first mortgage bondholders, the plan contemplates simply deferring the payment of the interest maturing Feb. 1 and Aug. 1 1907 (negotiable scrip to be issued therefor, payable with interest at 5% per annum from the date of each coupon respectively, the principal to be payable at option of the company), without any impairment of the lien or relative position with respect to other creditors of the bonds or of the coupons maturing upon those dates. The refunding mortgage bondholders are asked to agree that the interest for two years upon their bonds shall be deferred upon the same conditions, and also to buy (at par, non-cumulative, 6%) preferred stock to an amount not exceeding $30,000 (in amounts equal to 12% of their respective holdings of the bonds), to provide for the paving of Florida Ave. and other pressing obligations. The unsecured creditors are asked to accept preferred stock in full payment of their claims (as of March 1 1907), amounting to $50 and upwards. The taxes must be paid in cash, as well as odd amounts not equal to $50, the value of a share of preferred stock; but if the plan is to succeed and the property be saved from a receivership or foreclosure sale, every unsecured creditor for advances, supplies, machinery, &c., with the limitation just suggested, must accept preferred stock for the amount of his claim.

The holders of more than a majority of the capital stock have agreed to assign their certificates to this committee, that the committee may control and manage the company. The present officers and directors will resign.

Those assenting to the plan were asked to communicate with the Secretary of the committee before March 15. At a meeting of the shareholders in Atlantic City on March 30, more than 14,000 shares of stock, it is stated, were voted in favor of issuing the $30,000 preferred stock called for by the plan.—V. 84, p. 692.

Birmingham (Ala.) Railway, Light & Power Co.—*Bonds Offered—Earnings.*—N. W. Harris & Co., the Harris Trust & Savings Bank and Perry, Coffin & Burr are offering for sale $250,000 general mortgage refunding 4½% gold bonds.

Total authorized issue $10,000,000, of which $8,720,000 outstanding (including those now offered); $1,080,000 reserved to retire $981,000 underlying 5s and $200,000 reserved for future improvements and extensions.

Results for Year Ending Feb. 28 1907.

Gross earnings	$1,998,270	Bond Interest	$406,322
Net earnings (over taxes)	808,925	Balance, surplus	402,603

Compare V. 82, p. 508, 567; V. 83, p. 1590.

Boston Elevated Ry.—*New Stock for Subsidiary.*—See West End Street Ry. below.—V. 84, p. 270, 155.

British Columbia Electric Railway.—*Consolidated Debenture Stock.*—Subscriptions were invited recently in London for £300,000 4¼% perpetual consolidated debenture stock at 98%, payable, on application, 5%; on allotment, 10%; on May 6, 25%; on July 5, 25%, and on Sept. 5 1907, 33%, or in full on allotment or on any Wednesday prior to Sept. 5 1907 under discount at 4½% per annum.

The stock is perpetual and irredeemable and is entitled to the benefits of a trust deed dated Feb. 23 1907, whereby the whole of the assets and undertaking, including uncalled capital, are charged by way of first floating charge according to English law, subject to £238,000 first mortgage debentures and £220,000 Vancouver Power debentures now outstanding. The trust deed provides that the total amount of the debenture stock shall be limited to the amount of the share capital for the time being issued and paid up; that no mortgage or charge shall be created ranking in priority to or part passu with it; that so long as any of the first mortgage debentures or the Vancouver Power debentures remain outstanding, an amount of debenture stock exceeding the amount of all the first mortgage debentures and Vancouver Power debentures outstanding shall be retained unissued. Interest is payable on March 31 and Sept. 30. The proceeds are required more particularly in connection with increasing the capacity of the hydraulic electric plant at Lake Buntzen and with the construction and equipment of further railways.

New Share Capital.—The shareholders were to vote Nov. 6 1905 on increasing the capital to £1,500,000 by the creation of 500,000 new shares of £1.

Dividend on Deferred Stock.—The company on Nov. 6 1905 paid a semi-annual dividend of 3%, free of income tax, on deferred ordinary stock for half-year ending June 30 1906, making 6% for year 1905-06.—V. 82, p. 1322.

Canada Southern Ry.—*Refunding.*—A committee of the directors, it is understood, has been appointed to prepare a plan for the refunding of the first mortgage 5% bonds which mature Jan. 1 1908. In June 1903 the shareholders empowered the board to make an issue of bonds to retire the existing $14,000,000 first and $6,000,000 second mortgage bonds maturing, respectively, in 1908 and 1913, and for such further additions and improvements as the directors might authorize.—V. 82, p. 927.

Chicago & Alton RR.—*Defense of Re-capitalization.*—At a hearing before the Inter-State Commerce Commission at Washington on Thursday Mr. Paul D. Cravath submitted a brief respecting the proceedings in the re-capitalization of the Chicago & Alton Railroad Co. He contended:

(1) They were conducted lawfully. (2) They were conducted openly, and all of the essential facts were given wide publicity, and have at all times been accessible to the stockholders and to investors in Chicago & Alton securities. (3) They were in accordance with the approved methods which were at the time in vogue in re-capitalizing other railroad companies and large industrial enterprises. (4) They were conducted for the equal benefit of all stockholders, and there was no discrimination or injustice. (5) While the Chicago & Alton transactions may be regarded as typical of a class of financial transactions that have been common in the past and which have generally been regarded as proper, whatever basis there may be now be for objection to such transactions as a class, there is no basis for singling out for special criticism the Chicago & Alton transactions and the men by whom they were conducted.

The full text of Mr. Cravath's argument is printed on subsequent pages. There was also filed with the Commission an elaborate report of 60 pages, regarding the reorganization prepared by J. H. McClement, a railroad accounting expert. This report describes very fully the facts relating to the re-capitalization and also gives a number of instances to show that the Alton plans were on similar lines to those adopted in the cases of other railroad companies.—V. 84, p. 626, 507

Chicago Indiana & Southern RR.—*Earnings.*—Cal. years:

Year—	*Gross.*	*Net.*	*Other Inc.*	*1st Chgs.*	*Bal., sur.*
1906	$2,332,732	$480,924	$32,249	$254,869	$258,304
1905	2,115,044	400,822	5,429	278,130	128,121

The operating expenses for 1906 include $24,856 for construction and new equipment, against $30,889 in 1905.—V. 82, p. 867, 803.

Chicago Union Traction Co.—*Traction Ordinances Approved.*—At the city election on April 2 the Republican candidate for Mayor for the next four years was elected by a plurality of 13,476 over Mayor E. F. Dunne, his Democratic opponent. The traction ordinances were approved by a majority of 33,126, clearing the way for the rehabilitation of the trolley lines and the reorganization of the Chicago Union Traction Co. Compare V. 84, p. 338, 390.

Cincinnati Hamilton & Dayton Ry.—*Receiver's Certificates.*—Judson Harmon, receiver of this company and the Pere Marquette RR. Co., replying to our inquiry about the receiver's certificates which are to be issued in connection with the Chicago Cincinnati & Louisville settlement (V. 84, p. 693), writes, under date of March 30:

The $400,000 of receiver's certificates you mention are those of the Pere Marquette alone. There are 400 of them for $1,000 each, running one year, with interest at 5%. You are right in your understanding that no certificates have been issued by either road since July last except those above mentioned.

Stephen H. Gale of Exeter, N. H., Chairman of a Pere Marquette minority shareholders' committee, has issued to the shareholders a protest against the issue of receivers' certificates on that road, claiming that the purchase of the Chicago Cincinnati & Louisville was in fact a C. H. & D. affair and should be treated as such.—V. 84, p. 693, 507.

Detroit Mackinac & Marquette Railroad Land Grant.—*April Interest Omitted.*—The semi-annual interest due this month will not be paid, owing to there having been no sales of land for some time past.—V. 83, p. 818.

Erie RR.—*Notes Sold to Replace Notes Maturing.*—The company has sold to J. P. Morgan & Co. $5,500,000 one-year notes to provide for the retirement of the $3,000,000 notes maturing April 8 and also to take up about $2,000,000 other notes which will fall due on or before July 1. The new notes carry no interest, the notes being discounted at the outset.

Kissel, Kinnicutt & Co. and Clark, Dodge & Co., both of New York, are offering a limited amount of these notes, dated April 8 1907 and due April 8 1908, denomination $1,000, at 7% discount, yielding about 7½% interest on the $930 per $1,000 note invested.—V. 81, p. 693, 390.

Gainesville & Gulf Ry.—*New Name.*—This road, extending from Sampson City to Fairfield, Fla., 48 miles, and projected from Tampa to Jacksonville, 186 miles, of which 10 miles are under construction, is now operated under the name of Tampa & Jacksonville Ry.—V. 81, p. 613.

Galveston Harrisburg & San Antonio Ry.—*Suit as to Second Mortgage Interest.*—See Southern Pacific Co. below.—V. 81, p. 1242.

Georgia Railway & Electric Co., Atlanta.—*Stock Dividend.*—We now have official confirmation of the report that at meetings of the stockholders and directors held on March 26 the common capital stock of the company was increased $2,004,800. A resolution was also adopted declaring a stock dividend of 33 1-3% to the common stockholders of the company, payable in this increased common stock at par on May 20 1907 to the common stockholders of record at the close of business May 10 1907. The stock itself will be distributed and not the proceeds.—V. 81, p. 749.

Great Northern Railway.—*Subscriptions for the $60,000,000 New Stock.*—A circular dated March 29 says:

The decision of the Supreme Court of Minnesota in the suit brought by the State of Minnesota to restrain the issue of this company's capital stock having been favorable to this company, the company will proceed with the issue in accordance with the resolutions of the directors and the terms of the circular of the President dated Dec. 11 1906 (V. 83, p. 1460). The stock transfer books will be closed at 3 p. m. April 2 and will remain closed until 10 a. m. April 15 1907. Subscriptions from stockholders who have not already subscribed will be received by the company up to the close of business April 2 1907. Assignments of rights will be received up to the close of business April 6 1907.

The first four installments, of 10% each, payment of which has heretofore been postponed, will now fall due on April 9 1907, and the remaining installments as follows: May 7, 5%; June 7, 5%; July 8, 5%; Aug. 7, 5%; Sept. 6, 5%; Oct. 7, 5%; Nov. 7, 5%; Dec. 6, 5%; 1908, Jan. 7, 5%; Feb. 6, 5%; March 6, 5%; April 7, 5%.

Change in Officers.—At a meeting of the board of directors held April 2 the organization of the corporation was enlarged by the election of a Chairman of the board of directors. James J. Hill was elected Chairman of the board, Louis W. Hill President and Frank H. McGuigan Vice-President. Mr. McGuigan will have direct charge of operating the road. —V. 84, p. 749, 693.

Humboldt Transit Co., Eureka, Nev.—*Change in Control.*—The "San Francisco Commercial News" of March 23 says:

George Heazelton of this city, the well known bond dealer, has purchased the street railway in Eureka, Humboldt County, known as the Humboldt Transit Co. This company has been in successful operation about four years. It is capitalized at $500,000 and has a bond issue of $180,000 in 5% 30-year bonds. It has its own power-house, with 15 miles of track, which traverses Eureka in all directions, including the business and residence sections.

Kansas City Southern Ry.—*First Dividend.*—The directors on Wednesday declared a first dividend on the $21,000,000 non-cumulative preferred stock, being the full annual 4%, payable July 1. An official statement says:

Whereas, it appears that the company has already earned, during the first eight months of the current fiscal year, an amount largely in excess of that required to pay the full 4% dividend on the preferred stock; Resolved, that a dividend of 4% on the preferred stock be declared, payable July 1 1907, out of the earnings of the fiscal year ending June 30 next to stockholders of record at 3 p. m. June 10 1907.

Partly Estimated Results for Fiscal Year ending June 30 1907.

Net income for the first eight months of the present fiscal year, after meeting all charges for interest, taxes, car trusts, &c	$1,316,365
Estimated net income for the remaining four months, charges deducted	648,647
Total estimated net income	$1,965,012
Dividend on preferred stock (4%)	840,000
Balance	$1,125,012

—V. 83, p. 1347.

Lincoln (Neb.) Traction Co.—*Increased Dividend.*—A semi-annual dividend of 4% has been declared on the common stock, payable April 15 to holders of record April 10, being at the rate of 8% per annum; 6% was paid in calendar year 1906 and 5% previously.—V. 82, p. 751.

Louisville Traction Co.—*New Stock.*—An advertisement states that the shareholders will vote April 13 on a proposition to increase the authorized common stock from $12,000,000 to $15,000,000, so that the total capital authorized shall be $17,500,000, the preferred remaining as at present, $2,500,000.—V. 84, p. 570.

Maine Central RR.—*Purchase.*—This company, it is stated, has arranged to purchase control of the Somerset Ry. (compare V. 83, p. 97) for a sum said to be about $600,000. The directors of the Somerset Ry. were to meet yesterday to ratify the sale.—V. 83, p. 814.

Metropolitan West Side Elevated RR., Chicago.—*Earnings.*—For years ending Feb. 28:

Year.	*Gross.*	*Net.*	*Other inc.*	*1st chgs.*	*Bal., sur*
1906–07	$2,697,238	$1,385,083	$9,654	$990,283	$404,454
1905–06	2,452,327	1,279,897	12,636	969,901	322,632

—V. 84, p. 570, 220.

Missouri Kansas & Texas Ry.—*New Directors.*—J. G. Metcalfe, of New York, and C. Haile, traffic manager of the road, of St. Louis, have been elected directors to succeed Otto Miller and fill a vacancy. A third vice-presidency was also created, Mr. Haile being elected to the position. The executive committee now consists of Adrian H. Joline, Charles G. Hedge, James N. Wallace, Henry W. Poor, J. G. Metcalfe and James Brown Potter, Messrs. Wallace and Metcalfe being added to the committee.—V. 84, p. 508.

New York New Haven & Hartford RR.—*Agreement with Grand Trunk Ry.*—The following is pronounced substantially correct:

The company has completed plans for the most important trunk line connection made since President Mellen took charge of the system. A new route is being surveyed from Palmer to Southbridge, giving the New Haven road a through connection from Boston to the West. At Palmer a connection will be established with the New London Northern, which is owned by the Central Vermont, which, in turn, is a part of the Grand Trunk system. A traffic agreement has been established between the New Haven road and the Central Vermont, thus connecting up with the Grand Trunk, giving it an outlet to the West over the lines of the latter company.

Bonds Offered for Subscription in Paris.—A press dispatch from Paris on March 29 said:

Subscriptions were opened to-day for the issue of $29,000,000 in 4% 15-year debentures of the New York New Haven & Hartford RR., placed in this city through Kuhn, Loeb & Co. The issue price is 98. Compare V. 84, p. 391, 508.

Purchase Completed.—See Poughkeepsie & Eastern below and also in V. 84, p. 694.—V. 84, p. 749.

New York & Queens County Ry.—*New President.*—Vice-President and General Manager F. S. Fuller has been elected President in place of Arthur Turnbull, who is abroad.—V. 83, p. 752.

Northwestern Elevated RR., Chicago.—*New Officers.*—Mason B. Starring (formerly Vice-President of the Chicago City Railway) has been elected President, succeeding Clarence Buckingham, who at his own request is made Vice-President. Mr. Starring and Samuel McRoberts (a director of various Armour enterprises) have been elected directors in place of Walter B. Smith and C. Ledyard Blair, who resigned. —V. 84, p. 571.

Pacific Gas & Electric Co., San Francisco.—*Fire Insignificant.*—The fire on Wednesday, we are informed, was confined to the roof of the power-house, involving a loss of only about $50,000, fully covered by insurance, the machinery being uninjured and the efficiency of the plant unimpaired.—V. 84, p. 272.

Panama RR.—*New Officers.*—The following changes were made at the annual meeting on April 1:

New members of the Panama Canal Commission were elected to the board, succeeding seven old members, and the board was enlarged to thirteen to admit R. R. Rogers, General Counsel for the Commission.

C. W. Goethals, who has been appointed Chief Engineer in charge of the canal work, was elected President of the road, to succeed Theodore P. Shonts. The other officers elected were E. A. Drake, Vice-President, T. H. Rossbottom, Secretary, and S. Deming, Treasurer.

Compare Panama Canal under "Industrials" below.—V. 83, p. 688.

Pere Marquette RR.—*Receiver's Certificates.*—See Cincinnati Hamilton & Dayton above and in V. 84, p. 693.—V. 84, p. 749, 509.

Philadelphia Rapid Transit Co.—*Another Call.*—The directors on Thursday made a call of $5 per share on the 600,000 shares of $50 each ($30 paid in), payable on or before May 6. Books close April 29 and re-open May 7. The last call, also $5, was paid Dec. 10 1906 (V. 83, p. 1171).—V. 84, p. 749.

Poughkeepsie & Eastern Ry.—*Sale Consummated.*—The estate of Russell Sage has completed the sale of this property to the New York New Haven & Hartford RR. for a sum currently reported as $400,000.—V. 84, p. 694.

Rio de Janeiro (Brazil) Lighting & Transportation Enterprises.—*New Franchises.*—We have received the following regarding a proposed new hydro-electric power and lighting enterprise:

The Government of Brazil has just granted permission to Guinle & Co. of Rio de Janeiro to sell electricity in the capital city as well as other important cities in the republic. The contracts for light and power in Nictheroy and other cities along the proposed transmission lines have already been let. The initial electric power sources will include several hydro-electric stations just being completed on various water falls controlled by Guinle & Co. These have an aggregate capacity of some 50,000 horse-power. The electrical equipment was furnished by the General Electric Co. of New York. It is expected that work on the transmission lines will be started next June.

A consular report in January last gave the following respecting a projected elevated railroad:

A 70-year franchise has been granted to Carlos Schmidt and others of Rio de Janeiro for construction of an elevated railroad to serve the city of Rio de Janeiro and its suburbs. This franchise was obtained for an American company. It represents a purely American enterprise, and present plans are that all the equipment will be purchased in the United States. Charles E. Browne of New York City is President of the company. Within four years 1 3-5 miles must be in operation. Plans call for about 60 miles of right-of-way, which is to be double-tracked throughout. The third rail electric system will be used, motive power to be derived from its own plant or from one of the two great concerns now preparing to develop water power in the mountains near Rio de Janeiro. For its privileges, the company holding the concession must pay the municipality $16,666 for the first year, $20,000 per annum for the next 30 years and $23,333 per annum for the following 30 years.

Rio de Janeiro Tramway, Light & Power Co.—See Rio de Janeiro Lighting & Transportation Enterprises above.—V. 84, p. 571, 391.

Rochester Syracuse & Eastern (Electric) RR.—*Bonds Offered.*—E. H. Gay & Co., Boston, New York, etc., on March 28, when offering at 98½ and interest $440,000 first mortgage 40-year 5% gold bonds, due May 1 1945, said.

Over 75%, or $1,560,000, of the present authorized issue of $2,000,000 bonds have been placed with national banks, savings banks, trustees and private investors. The section of the road upon which bonds are now being sold is the completed portion from Rochester to Lyons, which has been open and in operation since October last. Construction on the remaining portion, *i. e.*, from Lyons to Syracuse, is being pushed rapidly.—V. 84, p. 272.

Somerset Ry.—*Change in Control.*—See Maine Central RR. above.—V. 83, p. 97.

Southern Pacific Co.—*Suit.*—Thomas H. Hubbard of New York and the Crocker Estate Co. of California, each as holder of more than $1,000,000 of the $6,354,000 Western Division second mortgage bonds of the Galveston Harrisburg & San Antonio, have brought suit to recover interest on these bonds and to enjoin the Southern Pacific from paying dividends on its common stock until such interest is fully met. The interest on the bonds was originally obligatory, but in 1898 the holders, being closely allied with the Huntington management, agreed to the endorsement of the bonds with a statement making the interest payable only if earned. Compare V. 58, p. 719.

The plaintiffs claim that the G. H. & S. A. is an integral part of the Southern Pacific system, and is only showing a deficit because of the methods of accounting adopted by the management. The Southern Pacific interests contend that the G. H. & S. A. has not earned the interest on its bonds, and that its earnings do not contribute to the Southern Pacific dividends, but that, on the contrary, the Southern Pacific has advanced money to the G. H. & S. A. for payment of first mortgage interest and for improvements. —V. 83, p. 1528.

Tampa & Jacksonville Ry.—*New Name.*—See Gainesville & Gulf Ry. above.

Vandalia RR.—*Earnings.*—For calendar years:

Cal. Year—	*Gross Earnings.*	*Net Earnings.*	*Other Income.*	*Int. & Rentals.*	*Dividends on stock.*	*Balance. Surplus.*
1906	$8,904,859	$1,972,969	$81,905	$994,302	(4½%) $647,009	$413,543
1905	7,845,223	1,695,169	34,271	743,974	(4%) 564,282	421,184

Payments to the extraordinary expenditure fund reduced the surplus for the year to $13,543, as against $96,184 in 1905. The dividend rate was increased to 5% from beginning Feb. 1907, but only 4½% was paid from the earnings of 1906.—V. 84, p. 160.

Vera Cruz & Pacific RR.—*New Director.*—Carroll Van Ness has been elected a director to succeed Michael Jenkins. L. S. Zimmerman of Baltimore is Assistant Secretary and Assistant Treasurer.

Earnings.—For three calendar years:

	1906.	1905.	1904.
Gross earnings	$968,998	$761,141	$572,862
Operating expenses	935,668	990,011	676,822
Net earnings	33,330	def. 228,870	def. 103,960

The gross earnings above include construction freight as follows: 1906, $64,659; 1905, $99,122; 1904, $82,132.—V. 81, p. 1846.

Wabash RR.—*Extension of Notes.*—The company is arranging to extend for two years the $6,160,000 3-year 5%

collateral trust notes maturing May 10. Holders not desiring to participate in the extension plan will receive payment in cash and accrued interest. Formal announcement will be made shortly.—V. 84, p. 272, 222.

West End Street Railway.—*Approved.*—The Massachusetts Railroad Commission has authorized the company to issue $420,000 additional common stock at $85 per share, par $50, to cover the cost of improvements and additions. The shareholders will vote April 13 to authorize this amount of new stock.—V. 84, p. 572.

Western Trunk Lines.—*No Strike.*.—The negotiations between the committee of conductors and trainmen and the officials of the leading Western lines, which have been pending at Chicago for some time past, resulted Thursday in a settlement arranged by Chairman Knapp of the Inter-State Commerce Commission and Commissioner Neill of the Government's Department of Labor, by which, it is said, the trainmen will get an advance of wages of about 10%, or 2% less than was demanded, and waive their nine-hour request. The agreement was expected to be ratified yesterday.—V. 81, p. 1376.

INDUSTRIAL, GAS AND MISCELLANEOUS.

Acker Process Co., Niagara Falls.—*Fire—Attachment.*—This company's plant, insured for $260,000, was destroyed by fire on Feb. 25. On March 25 an attachment for $23,002 in favor of the Niagara Falls Hydraulic Power & Manufacturing Co. for electric power and rent was received in this city from Erie County. Another attachment for $879 was also received.—V. 68, p. 668.

American & British Manufacturing Co.—*Reduction of Stock, &c.*—See "Annual Reports" on a preceding page.—V. 83, p. 268.

American Tobacco Co.—*Bonds Purchased.*—The company, it is announced, has purchased for cancellation out of surplus funds an additional $3,000,000 of its 4% bonds, making, with the $500,000 mentioned last week, a total of $3,500,000 canceled within the past month. The amount reported as now outstanding is $52,731,000.

In addition, $500,000 of 6s have recently been retired by the sinking fund. Compare V. 84, p. 750, 625.

Anglo-Californian Oil Syndicate, Ltd.—*Listed in London.*—The London Stock Exchange has appointed a special settling day for 9,300 vendors' shares of £1 each, fully paid, Nos. 1 to 9,300.

American Writing Paper Co.—*Payment of Dividends Postponed Owing to Litigation.*—The first dividend of 1% on the preferred shares, which was declared last October, payable April 1 1907, will, it is announced, not be paid at present, owing to the suit recently brought by a stockholder to test its validity. Treasurer George B. Holbrook, in a circular letter addressed to the shareholders, says:

It was known to the directors that there were those who claimed that before there could be net earnings from which a dividend could be paid any impairment of the capital resulting from an over-valuation of property or good will at the time the company was formed must first be made good. Appreciating the possibility of action by some stockholders to settle this question, the directors provided in the vote declaring said dividend that, in case such action should be brought, the payment of the dividend should be postponed until the final determination thereof. The proceedings instituted to try the question are pending in the courts of New Jersey, and they will be prosecuted to final judgment as rapidly as possible, of which due notice will be given the stockholders.—V. 84, p. 506, 451.

Bay State Gas Co.—*Receiver's Report.*—Receiver George Wharton Pepper of Philadelphia has filed in the United States Circuit Court at Boston a detailed report of his receipts and disbursements, showing in brief:

July 8 1903, witness fee received Kidder-Peabody suit	$4
Dec. 2 1905, received from Thomas W. Lawson under settlement agreement	$350,000
Jan. 26 1907, received from Randal Morgan as earnest money in H. H. Rogers suit	250,000
Feb. 13 1907, balance from Randal Morgan under settlement agreement, H. H. Rogers suit	1,250,000
Total receipts	$1,850,004
Expenditures (Rogers suit, $158,563; Lawson suit, $35,421; Kidder-Peabody & Co. suit, $39,943; miscellaneous expenses, $1,649)	235,576
Balance for distribution	$1,614,428
Remitted to Delaware receivership	200,000
Net balance	$1,414,428

A preliminary report filed March 12 says:

The stock of the Bay State Gas Co. of Delaware was increased from time to time until on or about May 26 1902 the authorized capital was $1,000,000,000 and the amount issued and outstanding was $175,000,000. At or about that time there was issued to J. Edward Addicks $75,000,000 at par of the stock of the Delaware Co. in settlement of an alleged claim of the said Addicks against the said company. Up to the last mentioned date the stock of said company had been sold by the company to raise funds for its purposes, the company receiving at first as high as $10 per share and at last as low as 46¾ cents per share. The total amount received from the sale of said stock was $6,739,613, or an average of $1.98 per share. (The receiver's settlement with Addicks in the stock suit involved the cancellation of $51,062,500 of the $75,000,000 issue, and the company itself had bought in $14,350,000, leaving $184,587,500 stock outstanding. Compare V. 79 p. 2698.)

The "Boston News Bureau" says:

It is understood that Receiver Pepper has about $100,000 in Delaware after settling a suit against the company there, making about $1,500,000 net cash awaiting the direction of the court for the receiver's compensation and the distribution of the money. Receiver Pepper began his work with $80.70 in the treasury of the company, and is certainly entitled to a very handsome compensation.

There are now outstanding $184,587,500 stock (par of shares $50) and $507,000 7% non-cumulative income bonds on which no interest has been paid since May 1 1893, the interest being payable only out of net earnings which would otherwise be applicable to dividends—nothing is due if nothing is earned. The bonds are not due until 1939, but, they may be called at par at any time, but only on payment of interest at 7% in full to date, less interest paid. Compare V. 84, p. 273.

Bethlehem Steel Corporation.—*Report.*—The earnings compare as follows:

Results for Calendar Years for the Company and its Subsidiaries.

	1906.	1905.		1906.	1905.
	$	$	*Deductions*—	$	$
Mfg. profits	1,859,353	3,468,802	Interest	601,426	561,405
Est losses (see below)	647,193	------	Depreciation	------	400,000
Net profit	1,212,160	3,468,802	Tot. deduct'n.	601,426	961,405
Other income	152,015	153,673	Bal net income	762,749	2,661,070
Total income	1,364,175	3,622,475	Previous surp.	1,843,619	------
			Total surplus	2,606,368	2,661,070

From the total accumulated surplus as above were deducted in 1906 preferred dividends $894,480 and extraordinary losses $1,118,467, leaving the profit and loss surplus Dec. 31 1906 $593,421. Of the extraordinary losses $500,973 was on uncompleted ship contracts taken since the formation of the corporation, being due largely to the unfavorable labor conditions existing at the Union Iron Works in San Francisco following the earthquake; and $439,092 was on Government cruisers contracted for by the United States Shipbuilding Co. The "estimated losses" in the table are the year's proportion of the estimated loss on uncompleted contracts. See also V. 84, p. 573.

Boston Suburban Express & Parcel Co.—*Mortgage.*—The voluntary association organized with this name under the laws of Massachusetts in 1904 with $500,000 capital stock, to merge local and suburban express companies conducting business within a 10-mile radius of Boston, has been dissolved, and the property turned over to a Massachusetts corporation under the same name, with a share capital of $175,000 and a bond issue of the same amount, secured by a mortgage covering the entire property to the American Loan & Trust Co. of Boston, as trustees. The directors are Edward P. Shaw (President), Walter E. Simmons (Treasurer) and William R. Buckminster (Secretary)

The express companies which, it was said in the newspaper reports, would be acquired by the association (but to what extent acquired does not appear) were: Merchants' Parcel & Express Co., Boston; Sawin's, Cambridge; Danforth, Brookline; Benjamin Vaughan, Malden; Welch, Medford; Bancroft, Somerville; Churchill, Winthrop; Cheney, Chelsea; Johnson, Arlington; Newcomb, Newton; Eames, Newton Centre; Barstow, Wakefield; Smith, East Boston; Joy, West Roxbury; and Shelnut, Auburndale.

Boston Cape Cod & New York Canal Company.—*Contract.*—The Cape Cod Construction Co., of which August Belmont is President, has the contract to dig the proposed canal across Cape Cod from Barnstable to Buzzard's Bay and construct wharves, breakwaters, etc., necessary therefor, for the sum of $11,990,000, of which $6,000,000 is to be paid in bonds and the remainder in stock of the Canal Co. The authorized capitalization of the Canal Co. (originally incorporated in Massachusetts in 1899) is $6,000,000 stock (par $100) and $6,000,000 first mortgage 5% 50-year gold bonds. Work is to begin at once, and, it is thought, will be completed in three or four years.

The canal, which will be built without locks, will be about 8 miles in length, 25 feet deep at low water with a minimum width at the bottom of 100 feet, and at the surface of from 250 to 300 feet. The Construction Co. was incorporated under the laws of Maine with $1,000,000 authorized capital stock, the officers being August Belmont, President; Arthur L. Devens, of Devens, Lyman & Co., of Boston, bankers and brokers; and John B. McDonald of New York, Vice Presidents; John F. Buck, 23 Nassau Street, New York, Secretary and Treasurer; Wm. Barclay Parsons, Chief Engineer. Directors, in addition to Messrs. Belmont, Devens, McDonald, and Parsons, De Witt C. Flanagan and E. W. Lancaster of New York, and Dudley Pickman of Boston.

Bush Terminal Co.—*Report.*—For calendar year:

Year—	*Gross.*	*Net.*	*Charges.*	*Pref. Div.*	*Bal., sur.*
1906 (12 mos.)	$885,025	$507,777	$415,722	(5%) $75,000	$17,055
1905 (12 mos.)	740,954	429,407	309,334	----------	120,073
1904 (11 mos.)	521,936	362,933	184,475	----------	178,458

The dividend above shown was paid in Feb. 1906; none has been declared since.—V. 82, p. 1441, 1039.

Cadillac (Mich.) Gas Light Co.—*Control, &c.*—See Chattanooga Gas. Co. below.

Central Brewing Co., East St. Louis, Ill.—*Called Bonds.*—Mortgage bonds numbered 1 to 20, both inclusive, $1,000 each, were payable on April 1 1907 at the Franklin Bank, St. Louis, Mo.

Central & South American Telegraph Co.—*Report.*—See "Annual Reports" on a preceding page.

Partly Estimated Earnings.—For quarters ending March 31:

3 *Mos.*—	*Tot. Inc.*	*Net Inc.*	*Dividends.*	*Bal., sur.*	*Tot. surp.*
1907	$412,500	$287,500	(1½%) $115,884	$171,616	$2,042,066
1906	348,000	239,000	(1½%) 115,884	123,116	1,517,993

—V. 82, p. 1499.

Chattanooga (Tenn.) Gas Co.—*Bonds Offered.*—The American Trust & Savings Bank of Chicago, the mortgage trustee, is offering at par and interest $200,000 first mortgage 5% gold bonds of $1,000 each (c *), being the unsold portion of the present issue of $500,000, dated Jan. 1 1907 and due Jan. 1 1927, but optional after Jan. 1 1917 at 105 and interest. Interest payable Jan. 1 and July 1 at office of trustee in Chicago or at First National Bank, New York. A circular says in substance:

Capitalization.—	*Authorized.*	*Issued.*
Common stock	$750,000	$750,000
Preferred stock (6%)	500,000	400,000
First mortgage 5% bonds	1,500,000	500,000

The $1,000,000 unissued bonds are held in escrow and may be issued for not to exceed 80% of the actual cash cost of permanent extensions and additions, but only when the net earnings for the preceding year have been at least twice the interest on the bonds outstanding and those to be issued. The trust deed provides a cash sinking fund from 1912 to 1926 inclusive of $15,000 yearly when $500,000 bonds are outstanding, and a further amount equal to 2% of any additional bonds issued; $225,000 bonds should thus be redeemed before maturity.

Statement of Earnings for the Year ended Dec. 31 1906.

Gross earnings	$164,157
Net (over taxes)	$52,477
Full year's interest on $500,000 bonds	25,000
Surplus	$27,47

The $75,000 to be expended for improvements and the modern, aggressive methods of the new management will substantially increase gross earnings and decrease considerably the percentage of operating expenses. The property includes a commercial gas apparatus for making coal and water gas, with one holder of 225,000 and two holders each of 60,000 cubic feet capacity, and approximately 40 miles of mains to which are connected 3,832 meters; also a Pintsch gas plant for supplying compressed gas to the railroads for car lighting. The cash cost of this property after the $75,000 has been expended for improvements will have been more than $850,000. On Jan. 23 1907 the city granted the company a 21-year franchise, under which the city contracts that it will permit the company to sell gas in Chattanooga at $1.10 per 1,000 cubic feet with discount of 10c. for prompt payment of bills. The company is required to make cash payments to the city of $500 in 1907, increasing to $5,000 in 1917 and each year thereafter. Officers: President, J. P. Hoskins; Vice President, Guy W. Rouse; Secretary, Howard A. Thornton; Treasurer, Ralph S. Child; Assistant Treasurer, and Manager, J. M. Robb; Chairman executive committee, Frank T. Hulswit. All but J. M. Robb and J. P. Hoskins are from Grand Rapids.

Child, Hulswit & Co. of Grand Rapids, who control the company, also control and operate:

Muscatine (Ia.) Light & Traction Co. (V. 83, p. 1171); Cheboygan (Mich.) Gas Light Co. (having outstanding at last accounts $100,000 stock and $50,000 5% bonds due 1924); Cadillac (Mich.) Gas Light Co. (capitalization, recently, $100,000 stock and $105,000 5% bonds, due 1925); La Porte (Ind.) Gas Light Co. (V. 81, p. 1496); Fort Dodge (Ia.) Light Co. (V. 82, p. 1043); Mattoon (Ill.) Gas Light & Coke Co. (V. 81, p. 730), &c.

Cheboygan (Mich.) Gas Light Co.—*Control, &c.*—See Chattanooga Gas Co. above.

Citizens' Gas Co., Jacksonville, Fla.—*Bonds Called.*—All the $150,000 bonds dated Dec. 31 1900 and Dec. 1 1898 (see V. 72, p. 582) were called for payment on Feb. 1, either at the Columbia Trust Co., Middletown, Conn., or the National Bank of North America in New York.

Bonds Offered.—N. W. Harris & Co., New York, Chicago and Boston, recently offered for sale $350,000 first mortgage 30-year 5% gold bonds of $1,000 each (c*) dated Dec. 1 1906 and due Dec. 1 1936, but subject to call at 110 and interest on Dec. 1 1911 or any interest day thereafter. Interest payable June 1 and Dec. 1 at the office of N. W. Harris & Co., New York. United States Mortgage & Trust Co., New York, trustee.

Abstract of Letter from President A. S. Hubbard, Jacksonville, Dec. 7 1906

This company was originally chartered on July 17 1874, and does the entire gas business of Jacksonville, Fla. Preferred stock issued, $50,000; common stock authorized, $250,000; issued, $100,000. First mortgage 5s, authorized issue, $1,000,000; outstanding, $350,000. The unissued bonds are reserved in escrow with the trustee and can be issued only for 80% of the cash cost of additions and extensions, providing the net earnings for the year preceding issuance are at least double the interest charge on all bonds outstanding together with those proposed to be issued.

The earnings have shown an uninterrupted and large annual increase for a number of years. The net earnings for 1906 will show an increase as compared with 1904 of over 73%.

Earnings for Calendar Years, the Last Two Months of 1906 Being Estimated.

Year—	Gross.	Net.	Pres. Interest.	Bal.,Sur.
1906 (partly est.)	$75,215	$33,047	$17,500	$15,547
1905	62,960	24,335	------	------

At the present rate of increase it is estimated that the net earnings during 1907 will amount to over $40,000, or considerably more than twice the interest charge on the outstanding bonds. Jacksonville has a present estimated population of 40,000, which is increasing rapidly. The company does the entire gas business of the city. The plant is in good physical condition and capable of economical operation. Buildings substantially constructed of brick, with slate and corrugated iron roofs. Present facilities capable of handling a large increase in production at a very small expenditure. Franchise perpetual, free from burdensome restrictions and favorable from a business standpoint. (R. B. Goodman is Treasurer.—Ed.) —V. 72, p. 582.

(The) Dean Electric Co., Elyria, O.—*Re-incorporated.*—This company was re-incorporated on Dec. 7 1906 under the laws of Ohio, the authorized capital stock being increased from $1,000,000 to $4,000,000, of which $1,000,000 is 7% cumulative preferred; outstanding, all the $3,000,000 common and $500,000 preferred; par of shares, $100. A mortgage has also been made to the Guardian Savings & Trust Co. of Cleveland, as trustee, to secure an issue of $500,000 6% gold bonds ($250,000 outstanding) dated Dec. 8 1906 and due December 1926 without option of earlier redemption; denominations $100, $500 and $1,000; interest payable June 10 and Dec. 10 at office of trustee. Sinking fund $30,000 yearly after 1910. The company manufactures telephone switchboards and electrical apparatus. President, Samuel B. Rawson; 1st Vice-Pres., W. W. Dean; 2d Vice-Pres., A. E. Barker; Sec. and Treas., A. G. Bean. A special dispatch to the "Cleveland Leader" from Elyria recently said:

The increase in the capital stock was made on account of increase in business, the company having between $600,000 and $700,000 worth of orders ahead. The capacity of the plant will be doubled and new buildings will be erected. The working staff will be increased by 500 men, making a total of 1,000 employees. Compare V. 82, p. 694.

Dering Coal Co.—See Kelly Coal Co. below.—V. 84, p. 696.

(E. I.) du Pont de Nemours Powder Co.—*Acquisition.*—A London financial paper on March 16 said:

The directors of the American, "E. C." & "Schultze" Gunpowder Co., Ltd., recommend that, pursuant to the terms of the agreement between the company and the E. I. du Pont de Nemours Company, this company should (under its option) call upon the Dupont Company to buy up the whole of the shares of this company at the rate of 12s. 6d. per share, the purchase to be spread over four years, commencing with the present year. (The authorized capital stock is £100,000 in shares of £1 each; issued, £75,000. Under an agreement dated Nov 9 1903 the business was leased to the du Pont Company for 99 years from June 1 1903 at a yearly rental of £3,750.)—V. 84, p. 690, 449.

Eastman Kodak Co. of New Jersey.—*Report.*—See "Annual Reports" on a preceding page.

Extra Dividend.—The directors have declared an extra dividend of 5% on the common stock, payable May 1 to stockholders of record April 15. The common shares have received regular quarterly dividends at the rate of 10% per annum since Oct. 1902, and last year extra dividends of 2% in January, 2½% in May and 5% Dec. 1.—V. 84, p. 751.

Federal Furnace Co., Chicago.—*Stock Increased.*—This company, which was incorporated in Illinois in Sept. 1905, and in Dec. last increased its stock issue from $600,000 to $800,000 (all sold, par $100), has filed a first mortgage to the Superior Savings & Trust Co. of Cleveland, as trustee, to secure $1,000,000 of 5% gold bonds of $1,000 each, dated Nov. 1 1906, of which series A, $600,000, was issued to refund existing indebtedness (no prior liens remain outstanding), and series B, $400,000, is reserved for improvements and extensions. The bonds mature in installments from Nov. 1 1909 to Nov. 1 1926, but are subject to call at any interest period at 105. Interest payable May 1 and Nov. 1 at office of trustee.

The company has completed and on Feb. 1 put in operation one new stack adjoining the Calumet River between 107th Street and 109th Street at South Deering, Ill. (see "Iron Age" of July 19 1906), and proposes immediately to erect a second furnace of the same size and capacity. The two furnaces will have an annual estimated capacity of 240,000 tons of foundry and malleable Bessemer iron. William L. Brown is President, C. P. Wheeler, Vice-President; and A. F. Maynard, Secretary and Treasurer. Offices, The Rookery, Chicago.

Franchise Taxation in New York.—*Valuation for 1907.*—The State Tax Commission on March 30 made public the special tax franchise valuations for the year 1907. The total assessments in New York City amount to $166,855,000 for 223 corporations, firms and individuals, as against a total of $361,479,300 last year, being an increase of $105,375,700. The following shows the larger corporations:

	Valuation.	Increase.
Interborough Rapid Transit Co	$24,000,000	$6,000,000
Brooklyn Rapid Transit system	54,645,000	16,166,000
Manhattan Elevated Ry	74,900,000	12,200,000
Metropolitan Street Ry. system	103,600,000	24,130,000
Consolidated Gas system	100,500,000	17,579,000
Brooklyn Union Gas system	19,120,000	1,170,000
New York Telephone Co	27,400,000	10,312,000
Bush Terminal RR. Co	350,000	225,000
Coney Island & Brooklyn RR. system	4,700,000	1,534,000
Long Island RR. Co	100,000	70,000
New York Central & Hudson River RR	2,400,000	750,000
New York & Harlem (Steam) RR	11,650,000	325,000
Hudson & Manhattan RR. Co	1,500,000	1,000,000
New York & Long Island RR. Co	1,010,000	800,000
New York & Queens County Ry. Co	2,275,000	850,000
Pennsylvania New York & Long Island RR. Co	1,500,000	300,000
Consolidated Telegraph & Electrical Subway Co	6,435,000	1,310,000
Edison Electric Illuminating Co., Brooklyn	10,100,500	3,380,000
Empire City Subway Co., Ltd	7,840,000	2,055,000
New York & New Jersey Telephone Co	8,560,000	3,570,000
Western Union Telegraph Co	671,500	100,000

—V. 82, p. 868.

Greene-Cananea Copper Co.—*Official Statement.*—The management issued a statement on April 3 denying that the $10,000,000 of the authorized share capital ($60,000,000), not issuable for the stocks of the two constituent companies (V. 84, p. 510), was to be issued as promoters' bonus, or at present for any other purpose.

Should the company decide to issue it at any time in the future, for acquisition of additional properties or other purposes, it would only be done pro rata to its stockholders. The promoters simply exchange their stock precisely as the bulk of the other stockholders have done. About three fourths of the stock of both the old companies has already been exchanged.—V. 84, p. 510, 105.

Huber Manufacturing Co. of Marion, Ohio.—*Stock Offered.*—Stevenson & Vercoe, Columbus, Ohio, recently offered at 104 and interest a block of the new 6% cumulative preferred stock, subject to redemption at par after 1917. "Dividends payable quarterly in Feb., May, Aug. and Nov. Assets over four times amount of preferred issue. Average net earnings for last eight years over five times amount required for preferred dividends."

Incorporated in Ohio about 1879; manufactures traction engines, threshing machines, etc. No bonded debt. Authorized capital stock recently increased from $500,000 to $1,000,000 by the addition of $500,000 6% preferred stock; there is outstanding $500,000 common and $400,000 preferred; par of shares, $100. Officers: President, S. E. Barlow; Secretary, E. Durfee; Treasurer, S. E. Barlow. The "Monetary Times" of Toronto on Feb. 16 said: The Huber Mfg. Co. of Ohio has amalgamated with the Portage Iron & Machine Co. and the new plant to be erected will be one of the largest for the manufacturing of machinery in the West.

Hudson River Telephone Co.—*Dividend.*—The directors this week declared a quarterly dividend of 1%, payable April 15, thus reducing the annual rate from 6% to 4%. See V. 84, p. 511.

Illinois Car & Equipment Co.—*Dividend—Reduction of Stock.*—A London paper recently had the following:

The directors have declared a dividend of 4% (7½d. per share) per annum (interim), payable May 1. Last year no dividend.

Shareholders are requested to forward their share certificates to the office, 31 Lombard St., London, E. C., in order that they may be stamped with notice of the reduction of capital to $600,000 by the reduction of the nominal amount of each share to $7.50. Compare V. 84, p. 53.

Imperial Paper Mills of Canada, Sturgeon Falls, Ont.—*New Securities.*—A meeting of the holders of the 6% coupon bonds was to be held yesterday in London, to consider resolutions: (1) for the creation and issue of 5% mortgage debentures for £400,000, maturing in 30 years, at a premium, and secured in priority to the 6% coupon bonds; and (2) that all interest on the coupon bonds due up to July 1 1909 shall remain unpaid until that date.—V. 83, p. 1415, 1350.

Ingersoll Rand Co., New York.—*New Stock.*—This company, having outstanding $4,500,000 preferred stock and $3,000,000 common stock, the total issues thereof being $5,000,000 each, has resolved to issue $225,000 additional preferred stock "in payment for property acquired or to be acquired," and offers to its shareholders of record April 4 the privilege of subscribing at par and before April 19 for a further $75,000 preferred stock to the extent of one share for every 100 shares held by them respectively.—V. 84, p. 511.

International Power Co.—*Report of Subsidiary and Reduction of Its Stock.*—See American & British Manufacturing Co. under "Annual Reports" on a preceding page.—V. 83, p. 216.

Jenkins Steamship Co., Mentor, O.—*New Stock.*—The company has filed a certificate of increase of authorized capital stock from $286,500 to $1,000,000. Compare V. 84, p. 162.

Kelly Coal Co., Vermilion County, Ill.—*Change in Control.*—Concerning the sale of this company, mentioned in V. 84,

p. 696, under the heading "Dering Coal Co.," the "Engineering and Mining Journal" of March 16 said:

The stock of the Kelly Coal Co., which owns a large coal property near Danville, Ill., has been bought outright by R. R. Hammond, J. K. Dering, Hugh Shirkie and Edward Shirkie, all of whom are connected with the Dering Coal Co. The purchase, however, is not by the Dering Company but by the four men named, and the stock is their individual property. The face of the stock is $3,500,000 (and there are said to have been $3,000,000 bonds outstanding.—Ed. "Chronicle."). The property includes 13,000 acres of land, on which five mines have been opened, which are producing 6,000 tons of coal a day. The new directors are: President and General Manager, R. R. Hammond; Vice-President, Hugh Shirkie; Secretary and Treasurer, J. E. Hitt. J. K. Dering and Edward Shirkie.

Laclede Gas Light Co., St. Louis, Mo.—*Bonds Offered.*—N. W. Harris & Co. and Harris Trust & Sav. Bank, having previously placed $7,000,000 "first and refunding" 5% bonds, due 1934, are offering at par and interest by advertisement on another page an additional $100,000. See full statement in V. 79, p. 1644.

Earnings.—The firm publishes the following earnings as officially reported for the calendar year 1906; we annex for comparison the results for the calendar year 1903 and the years ending Feb. 28 1905 and Aug. 31 1905:

Year Ending—	Gross Earnings.	Net Earnings.	Interest on Bonds.	Balance, Surplus.
Dec. 31 1906	$3,524,440	$1,495 083	$836,319	$658,764
Aug. 31 1905	3,318,219	1,317,385	761,389	555,996
Feb. 28 1905	3,273,660	1,378 777	691,806	686,971
Dec. 31 1903	2,425,448	1,148,533	500,000	648,533

Dividends at the rate of 5% are being paid on the $2,500,000 of preferred stock, and on $8,500,000 of common stock. Extensive additions and improvements recently completed will, it is believed, largely increase the earnings. The substantial growth of the business is shown by the increase in the sale of gas during 1906 of more than 400,000,000 cubic feet.—V. 83, p. 1169.

La Crosse (Wis.) Water-Power Co.—*Bonds Offered.*—The Trowbridge & Niver Co., Chicago and Boston, is offering at prices to yield 6% the unsold portion ($289,500) of a block of $500,000 first mortgage 5½% gold bonds dated April 2 1906. Denominations $500 and $1,000. Due in annual installments on April 1, viz.: 1916, $10,000; 1917 and 1918, $15,000; 1919-1921, $20,000; 1922-1923, $15,000; 1924-1926, $20,000; 1927-1928, $25,000; 1929-1930, $30,000; 1931, $200,000, but these last are subject to call on April 1 1916 or any interest date thereafter at 105 and interest. Interest payable semi-annually at State Bank of Chicago, Ill. (the mortgage trustee), or the First National Bank, New York City. A circular says in substance:

The location of the power-house is a natural granite ledge near Hatfield, Wis., on the Black River. The electric power will be transmitted for manufacturing and lighting purposes to La Crosse, Wis., 47 miles south, and to Winona, Minn., 48 miles southwest, the two cities having a combined population of more than 50,000, and using about 13,500 steam horse-power. J. G. White & Co. have been awarded the contract for the construction and installation of the entire plant and system. The flow of the river, taken in connection with the natural storage reservoirs, covering an area of 2,100 acres (owned by the company in fee simple), show that there are 15,000 electrical horse-power available from an 85-foot head, it being one of the most remarkable powers in the Central West. A favorable market is afforded in La Crosse and Winona. On the basis of heat units produced, the cheapest fuel coal in either city costs $4.25 per ton, thus raising the cost of steam power far beyond the price at which electric power can be furnished by the company. In addition to these two manufacturing centres, a variety of railroad and industrial interests in the locality are negotiating for all the power which the company can furnish.

Capitalization: Common stock, $3,500,000; preferred stock, $1,500,000. First mortgage bonds, $3,000,000, of which $1,000,000 are 5½%, the remainder 5%. The present bond issue (limited to $1,000,000), it is estimated, will cover the cost of developing about 15,000 horse-power, but the electrical equipment immediately installed will be for 6,000 horse-power. The plant will be so arranged that additional units may be added when required; further bonds may be taken down from the trustee for this purpose only, or for the acquirement of other properties at 85% of the cost of such acquisition. Long-time contracts aggregating over $100,000 for the sale of power have already been entered into, representing 3,300 horse-power and the immediate sale of all the power available is assured. When the product of the present installation of 6,000 horse-power is sold, the net revenue will amount to nearly three times the interest charges.

The officers are: W. J. Ferris, President and General Manager; E. G. Boynton, Vice-President, and Col. Orlando Holway, Secretary, all of La Crosse.—V. 83, p. 496.

Landers, Frary & Clark Co., New Britain, Conn.—*Increase of Stock.*—The stockholders of this company, which manufactures hardware and table cutlery, voted on March 26 to increase the capital stock from $1,000,000 to $1,250,000; par of shares $25. The new stock is offered to stockholders of record March 26 pro rata at par, payable on or before May 15, to provide for improvements and extensions. The stock is quoted at about $75 per share. Charles F. Smith, Pres.; George M. Landers, Sec'y and Treas.

Mackay Companies.—*Increase in Telegraph Rates.*—See Western Union Telegraph Co. below.—V. 84, p. 447, 394.

Memphis (Tenn.) Telephone Co.—*New Securities—New Control.*—The company has arranged to issue $200,000 additional capital stock and a further $400,000 of its 5% bonds, making the outstanding capitalization, according to press reports, $600,000 stock (being the entire authorized issue), and $1,000,000 of its $3,000,000 5% bonds. An exchange says:

Local capitalists have acquired the control of the company on condition that three-fifths of the stock be deposited with the Union & Planters' Bank & Trust Co. for ten years, that all the officers and a majority of the directors shall be Memphis men, and that there shall be no effort to sell out to the Cumberland Telephone & Telegraph Co. people within a specified time. Harvey Myers, of Kentucky, President, will retire in a short time and be succeeded by a Memphis man. Compare V. 83, p. 382.

Metropolitan Light & Power Co., San Francisco.—*New Name.*—See San Francisco Coke & Gas Co. below; also in V. 81, p. 731, and V. 84, p. 275.

Mexican Telegraph Co.—*Report.*—See "Annual Reports" on a preceding page.

Partly Estimated Earnings.—For quarters ending March 31:

3 Mos.	Gross.	Net	Mex. Govt.	Dividend.	Bal. sur.
1907	$185,000	$177,000	$9 000	(2½%) $71,750	$96,248
1906	163,000	156,500	7,500	(2½%) 17 815	101,185

Total surplus March 31 1907, $2,012 066.—V. 82, p. 1590.

Milwaukee Steamship Co.—*Bonds Offered.*—Peabody, Houghteling & Co., First National Bank Building, Chicago, are offering for sale this company's first mortgage 5% serial gold bonds. Total issue, $205,000, maturing alternately in annual installments of $20,000 and $21,000 on Jan. 1 from 1908 to 1917, both inclusive. The issue is secured by a first mortgage on the new 10,000-ton steel steamer, J. Q. Riddle, which cost in cash $410,000.

Missouri & Kansas (Bell) Telephone Co.—*Report.*—For calendar year:

Yr.	Gross.	Net.	Interest.	Div'd'd.	Balance.	Tot. surp
1906	$2,035,421	$390,109	$510,767	$163,231	def. $283,888	$9,839
1905	1,503,884	234,718	211,866	212,817	def. 189,965	293,727

Total number of Bell stations Dec. 31 1906, including sub licenses 92,929, against 67,526; increase, 37.6%.—V. 84, p. 274.

National Fire Proofing Co., Pittsburgh.—*No Extra Dividend.*—The directors on March 29 declared a dividend of 1% on the preferred stock, payable April 15, to stock of record April 1. In January an extra dividend of 1% was paid along with the quarterly 1%. Preferred dividends were resumed last October with a payment of 1% after a year's intermission.

Annual Dividend Record (per cent per annum) Prior to 1907.

	1900.	1901.	1902.	1903.	1904.	1905.	1906.
Preferred	1¾	7	7	7	7	5¼	1
Common	---	3¾	5	4½	0	0	0

—V. 84, p. 747, 697.

Nebraska (Bell) Telephone Co.—*New Stock—Option to Subscribe.*—Stockholders of record April 1 are offered the right to subscribe on or before April 25 for $2,058,000 new stock in the ratio of five shares of new for each eight shares held. Subscriptions may be paid in four installments of 25% each on the 25th day of April, July and October 1907 and January 1908, or in full on any of these dates. The proceeds will be used to retire a floating debt of $1,043,084 and to defray other construction expenditures.—V. 84, p. 452.

Nevada-California Power Co., Denver, Col.—*Enlarged Enterprise—New Bond Issue.*—This company, incorporated under the laws of Wyoming in January 1907 with $5,000,000 of authorized capital stock, all of one class, of which $3,350,000 is now outstanding (par of shares $100), has taken over the property of the Nevada Power, Mining & Milling Co. (V. 83, p. 382), including the Tonopah, Goldfield, Silver Peak and Manhattan, Nevada, light systems, and has made a mortgage thereon to the International Trust Co. of Denver, as trustee, to secure an issue of $3,000,000 6% bonds dated April 1 1907, providing for extensions and additions and the retirement at or before maturity of $700,000 bonds of the old company (V. 83, p. 382).

The increased bond issue is to be used for building a transmission line to Rhyolite, 75 miles; for building a duplicate transmission line from the power plant to Tonopah and Goldfield, 113 miles, and to increase the genreating capacity from 4,000 to 12,000 horse-power through two additional power plants and reservoir; estimated cost of all, $1,500,000. The new bonds are due in 1927 but are subject to call in 1912 at 105; denomination $1,000; interest payable Oct. 1 and April 1 in Denver and at Morton Trust Co., New York. Sinking fund after 1910. The stockholders of the old company met on Jan. 8 to ratify the sale of the property to the new corporation. President, F. J. Campbell; Secretary and Treasurer, G. S. Wood. Office, Symes Building, Denver, Col.

Nevada Power, Mining & Milling Co., Denver, Col.—*Successor Company.*—See Nevada-California Power Co. above.—V. 83, p. 382.

New York & Cuba Mail Steamship Co. (Ward Line).—*New Officers.*—The following officers are announced: Calvin Austin, President; Alfred G. Smith, Vice-President; and N. H. Campbell, Secretary and Treasurer.—V. 84, p. 576, 394.

Niagara Falls Power Co.—*New Bonds.*—This company's subsidiary, the Canadian Niagara Power Co., has applied to the Ontario Legislature for permission to increase its bonded debt from $8,000,000 to $10,000,000.

The Niagara Falls Power Co. controls the Canadian company and has made three series of bonds, issued, or issuable, against the bonded debt of that corporation, deposited as security, namely: Series "A," dated 1901, $3,000,000; "B," 1904, $2,000,000; "C," 1906, $5,000,000. (Compare V. 84, p. 163.) The Niagara Falls Power Co. has petitioned the Gas and Electricity Commission of the State of New York for consent to the purchase of the entire capital stock of the Tonawanda Power Co. Compare V. 84, p. 163, 224.

Nipissing Mines Co.—*New Directors, &c.*—Samuel Newhouse of Salt Lake and Lyman B. Kendall of New York have been added to the board.

Statement for 11 months ending March 30 1907

Estmated number of tons produced for eleven months' period follows: First-class ore, 1,100 tons; second-class ore, 1,300 tons; Cobalt ore, 32 tons. Amount received from sales, including ore on hand, $1,008,000; inventory May 1 1906, $624,000; total, $1,632,000; cost of production and all other expenses, $176,000; net, $1,456,000; dividends, &c., $800,000; surplus, $656,000. The surplus includes cash and ore en route and at smelters, $546,000; accounts receivable, $28,000; mining equipment, $82,000; total, $656,000.—V. 84, p. 752.

Ohio Oil Co. of Findlay.—*Increase of Stock.*—The capital stock has been increased from $2,000,000 to $10,000,000; par of shares $25. The company is a subsidiary of the Standard Oil Co. (see tabular statements in V. 83, p. 1291).

Panama Canal.—*New Commission.*—In connection with the resignation of John F. Stevens as Chief Engineer, the following reorganization of the Isthmian Canal Commission was recently announced:

Major George W. Goethals, Chairman and Chief Engineer; Major D. Dull, Gaillard and Major William Sibert, Col. William C. Gorgas, Senator Joseph C. S. Blackburn of Kentucky, Jackson Smith and Rear Admiral M. T. Endicott.

Instructions were given by President Roosevelt to reject all bids for the construction of the canal by private contract.—V. 81, p. 342, 106.

Pocahontas Tanning Co., Wheeling, W. Va.—*Called Bonds.*—There have been called for redemption at par and interest at the Security Trust Co., Wheeling, W. Va., on

April 1 1907, $225,000 5% bonds of 1908, including various numbers ranging from 20 to 935 inclusive. Compare V. 78, p. 1396.—V. 80, p. 1061.

St. Louis Ore & Steel Co.—*Stock at Auction.*—At auction in this city on Wednesday 37 shares of the company stock were sold at $7 for the lot.

San Francisco Coke & Gas Co.—*New Name—New Stock and Bonds.*—The shareholders at a meeting held at San Francisco on March 25 voted to change the name of the company to the Metropolitan Light & Power Co. in order to avoid confusion with another light company in the city with a similar name, and also because the company intends to furnish electricity as well as gas. The company, it is understood, will obtain its electricity from the Stanislaus Electric Power Co. (compare V. 82, p. 570), but it has not, we are informed, purchased either that company or any other.

The shareholders also voted to increase the capital from $5,000,000 to $7,500,000, the new shares to be used as needed to provide for extensions and improvements and also to increase the bonded debt from $2,500,000 to $7,500,000. The new bonds will be 40-year 5s of $1,000 each, secured by mortgage to the Knickerbocker Trust Co. of New York, as trustee. Leopold Michels is the President and Charles G. Lyman is Secretary.—V. 84, p. 275.

Standard Oil Co.—*Increase of Stock by Subsidiary.*—See Ohio Oil Co. below.

California Matters.—The "Engineering and Mining Journal" of Feb. 23 1907 had the following from California:

The Midway district oil producers of Kern County have come out successfully in their contest with the Standard Oil Co. A contract has been entered into,by which the Standard agrees to take 3,500,000 barrels at 30c., the highest price paid for five years; the pipe line recently surveyed must be built and ready to run oil within 60 days; all oil of 14 gravity or above shall be accepted; a minimum of 7,000 barrels a day must be delivered, with option to take all. There is no limit in which the producers' end of the contract must be filled.

The Oil City and Twenty-eight Oil properties in Coalinga district, Fresno County, have been purchased by parties interested with the standard Oil Co., for $955,000. The properties include 320 acres owned by the Oil City Co. and 160 acres owned by the Twenty-eight Oil Co. and many producing wells in Coalinga. The lands are under a lease to the Hanford Company, which is controlled by the Western Fuel Co., back of which is the Standard O' . The product from Coalinga will be running to Point Richmond soon, where the great refinery plant of the Standard Oil Co. on this coast is situated.—V. 84, p. 512.

Topeka (Kansas) Independent Telephone Co.—*Bonds Offered—Status.*—The H. P. Wright Investment Co of Kansas City recently offered for sale at 91½ and interest $50,000 of the outstanding issue of $390,000 5% gold bonds (total authorized issue $1,000,000, of which $104,000 reserved to retire $100,000 old 6s); denomination $1,000, dated May 1 1906 and due May 1 1926; interest payable May 1 and Nov. 1 in St. Louis. A circular then issued said:

The company operates in Topeka, Kan., and vicinity, serving a population of over 45,000, and now has 4,925 telephones in operation, with new subscribers coming in steadily. Their city franchise runs until July 17 1931 and is favorable. Estimated earnings for year 1907: Revenue, $135,000; operating, maintenance and taxes, $67,500; reserve, 10% of gross earnings to off-set depreciation, $13,500; net earnings, $54,000; interest on outstanding bonds, $25,500; balance, surplus, $28,500. Compare V. 82, p. 1444.

United Box Board & Paper Co.—*Change of Management.*—The new management, it is announced, has completed plans for financing the company. Of the $914,000 bonds offered to the shareholders at 80, more than half, it is said, have been subscribed for. James Todd, attorney for the protective committee, and Gustave Wuerst have been elected directors, succeeding Messrs. Fleming and Wiley. The only representatives of the Barber interests still remaining in office are E. M. Watkins of Chicago and S. D. Theiss of Akron, and they are directors only of the American Straw Board Co. Sidney Mitchell is now President of both companies. Compare V. 84, p. 630, 512.

United Gas Co., Wichita, Kan.—*Bonds Offered.*—The Royal Trust Co., Chicago, the mortgage trustee, is offering at par and interest the unsold portion of $250,000 first mortgage 6% gold bonds, dated Sept. 1 1906 and due $25,000 yearly on Sept. 1 from 1908 to 1917, both inclusive, but redeemable on any interest date at 105. Coupons bonds of $100 and $500 (c*), interest payable March 1 and Sept. 1.

Abstract of Letter from President J. O. Davidson, Wichita, Jan. 2 1907.

The company was incorporated under the laws of Kansas with a paid-in capital of $250,000 and has a franchise running until 1926 for the sale of natural and artificial gas. It being the purpose to operate with natural gas, the company has entered into an exclusive contract with the *Wichita Natural Gas Co.* for its supply. The latter company, controlled by T. N. Barnsdall of Pittsburgh, Pa., and his associates, owns 80,000 acres of gas leases in the Kansas gas belt near Independence, Kansas, about 110 miles southwest from Wichita. The Wichita Natural Gas Co. has built a 12-inch steel pipe line to Wichita at an expense of over $1,000,000. Their wells now average a daily tested flow of over 400,000,000 cubic feet, which will, upon completion of the work under way, soon be increased to 700,000,000 feet. Wichita will consume about 6,000,000 feet per day. Mr. Barnsdall has been prominent in the natural gas development of Pittsburgh and vicinity for thirty years, as well as in Ohio and Indiana. Experts advise us that indications point to many years of ample supply of natural gas in the Kansas fields. Under the terms of the above-mentioned contract, which continues until 1926, the United Gas Co. receives its supply of gas at or near the corporate limits of Wichita. (See Wichita Natural Gas Co., V. 84, p. 512.)

The United Gas Co.'s system comprises about 60 miles of four to twelve-inch wrought iron and steel mains with house services and meters for 5,000 consumers, all located within the city of Wichita. The mains are constructed with the ultimate object in view of converting the entire system to the use of artificial gas at any time

The authorized bond issue is $500,000, $250,000 being reserved by the trustee under suitable restrictions for future acquisitions and betterments, including the construction of an artificial gas plant, should one become necessary. I estimate the net earnings as follows: First year, $30,000; second year, $70,000; third year and thereafter, $100,000. The interests owning the United Gas Co. have recently acquired the only other lighting plant in Wichita—an artificial gas and electric-light property. Wichita is a growing city of about 40,000 population. (Officers of United Gas Co.: President, J. O. Davidson; Treasurer, C. H. Randle; Secretary, J. B. Wilbur Jr., of Chicago.)

United States Rubber Co.—*Earnings.*—The directors on Thursday declared the usual quarterly dividends, viz.: 2% upon the first preferred stock (including the outstanding old "preferred" stock) and 1½% upon the second preferred stock for the quarter beginning Jan. 1 1907, payable, without closing of transfer books, to stockholders of record April 15 1906. An official statement says: "The net earnings for the year (March partially estimated) after payment of all interest charges, are approximately $4,405,874, which includes dividends amounting to $684,308 received upon stock of the Rubber Goods Manufacturing Co., in this company's treasury." The comparison with previous years is as follows:

Earnings for Year ending March 31 (March 1907 partly estimated.)

	1906-07.	1905-06.	1904-05.
Net earnings, after deducting all interest, provisions for bad debts, &c.---About	$3,721,566	$3,604,500	$3,761,922
Dividends received on pref. stock holdings in Rubber Goods Mfg. Co.	684,308	276,770	---
Total net earnings	$4,405,874	$3,881,270	$3,761,922

Dividends at the rate of 8% have been paid on the first preferred stock during all the years named and on the second preferred at 6% since Oct. 1905. The annual dividend charge on the $35,463,000 first preferred and $9,848,600 second preferred stock, as now reported to be outstanding by the New York Stock Exchange, is about $3,425,000.—V. 84, p. 343, 225.

United States Steel Corporation.—*New Plant.*—The directors this week authorized the construction of a steel plant at Duluth to meet the requirements of that section of the country. The plant will probably cost from $5,000,000 to $7,000,000, and include, it is said, one blast furnace, six open-hearth furnaces, one blooming mill, one rail and shape mill, two bar mills, by-product coke ovens, coal docks, &c.—V. 84, p. 755, 630.

(The) Wellman-Seaver-Morgan Co., Cleveland, Ohio.—*Bonds Offered—Status.*—Peabody, Houghteling & Co., Chicago, are offering at par and interest $100,000 of the 5½% bonds (marketed by them in 1905; see V. 81, p. 1440) at par and interest, to net 5½% if they run to maturity and over 7% if redeemed in 1910. The present circular says:

The company is enjoying a full share of prosperity, is employing 1,500 men, running both of its plants day and night, and its entire product is sold ahead for a considerable time. The management is in unusually strong hands. The first maturing $100,000 of the bonds were promptly paid on their due date, March 15.—V. 84, p. 698.

Western Union Telegraph Co.—*Increase in Telegraph Rates.*—On April 1 an adjustment in the telegraph rates throughout the country was made by this company and simultaneously by the Postal Telegraph Cable Co., which is controlled by the Mackay Companies through ownership of the Commercial Cable Co. (compare V. 84, p. 447, 448). The adjustment amounts in some few cases to 33% or more, but the officials assert that "the average increase has not been more than 2%, and probably less than 2%." Night rates particularly have been advanced.

An official statement issued by President Clowry of the Western Union explaining the neeessity for the increase was published in the "New York Times" of April 3. In an interview on March 31 Colonel Clowry said more briefly:

It is simply a readjustment of the rates, made necessary by the fact that the Western Union has been losing money on many of its messages for several years. We have been losing money on a great many 25-cent messages. Such messages have been costing us in many instances from 28 to 30 cents to handle. Another thing is the great increase in the cost of running the business. For instance, copper wire now costs twice as much as it did a few years ago. The increase in cost of telegraph material has been from 25 to 100%. The cost of labor is higher. On March 1 the company gave an increase of 10% to all its operators.—V. 84, p. 630

Wilson Distilling Co.—*Incorporation.*—The company was incorporated under the laws of New Jersey on Feb. 28 with a capital stock of $5,000,000, of which $1,500,000 is 7% preferred and $3,500,000 common, to manufacture and distill alcohol, spirits, whiskeys and other liquors, &c. We are informed that the incorporation is "merely a matter of reorganization to extend charter and enlarge and perfect organization." The incorporators are: Herman Ellis, New York; Jacob Albert Ulman, Brooklandville; Albert Marburg, Spring Lake, N. J.; and William Augustus Marburg, Baltimore.

York Haven (Pa.) Water & Power Co.—*Description.*—The "Electrical World" of March 2 contained an illustrated article describing the electrical trnasmission system of the company.

The total present installation is 10,000 horse power, which has all been contracted for, although only about 6,000 horse power is now being delivered. The company is ready to deliver the balance, and will do so as soon as the consumers have their machinery ready, which should be not later than June 1st. A contract was recently made to furnish about 1,500 horsepower to the Pennsylvania Steel Co. The power company has now outstanding: Stock, $3,000,000; 1st mort. bonds, $1,500,000; 2nd mort bonds, $1,000,000.—V. 79, p. 1026.

—Redmond & Co. are offering an exceedingly attractive list of bonds, guaranteed stocks and short-time notes, the latter at prices to yield as high as 6.75%. In addition to the Pennsylvania and New York Central issues may be mentioned the Missouri Pacific 5s of 1908, to yield 6.25%, the Chicago Rock Island & Pacific 4½s of 1908, to yield 6%, and the Portland Railway Light & Power Co. 3-year 5% notes, to yield 6.75%. The Portland notes are secured by deposit of general mortgage 4s of 1935, and the earnings of the company, after payment of all charges, are equivalent to about ten times the interest on this note issue.

—We have received from Geo. Eustis & Co., Mercantile Library Building, Cincinnati, a copy of the 1907 edition of "Cincinnati Securities," published by the Finance Publishing Co., and containing financial data of corporations local to the Cincinnati market.

Reports and Documents.

THE CHICAGO & ALTON REORGANIZATION.

At the hearing Thursday before the Inter-State Commerce Commission, in the inquiry into the reorganization of the Chicago & Alton property, Mr. Paul D. Cravath, of counsel for the company, filed an elaborate memorandum respecting the transactions connected with this reorganization. In view of the prominence which the subject has assumed and the importance of having the facts clearly and accurately presented, we give Mr. Cravath's argument in full below.

Memorandum Respecting the Chicago & Alton Transactions.

It is presumed that the primary purpose of the Commission in investigating the various steps taken in the recapitalization of the Chicago & Alton property was to ascertain the basis of the issue of the present outstanding securities of the Chicago & Alton Company, and the character and amount of the investment which those securities represent. Upon this assumption any discussion of the *details* of the various transactions regarding which witnesses were examined would be unnecessary, as having no bearing upon the formal conclusions which the Commission will reach as the result of its investigation. Inasmuch, however, as the testimony taken in the recent investigation has resulted in a widespread misunderstanding of the facts respecting the recapitalization of the Chicago & Alton Railroad Company, the following brief is submitted at the risk of carrying the discussion beyond what would ordinarily be the scope of an inquiry by the Inter-State Commerce Commission.

Submitted herewith is a report upon the Chicago & Alton recapitalization by the eminent authority on railroad finance, Mr. J. H. McClement, to which report and the Appendix thereto references will be made in this memorandum.

There are three important facts which seem not to have been generally understood and which should constantly be borne in mind:

1. Messrs. Harriman, Gould, Schiff and Stillman were not the sole owners of the 97% of the capital stock of the Chicago & Alton Railroad Company which was purchased in their name in 1899. The stock simply stood in their names as the representatives of a syndicate which included, besides themselves, about one hundred firms, individuals and corporations, so that the stock was in effect owned by about one hundred stockholders, who shared in all of the transactions in question.

2. In all of the benefits of the transactions in question all of the stockholders shared equally. No one was "frozen out" or discriminated against.

3. All of the transactions were carried through in the most public manner and every important fact brought out upon the recent investigation had been made public through reports and circulars to stockholders, listing applications to the New York Stock Exchange, and other publications. Full information regarding the manner of issuing and distributing the securities, the prices at which they were sold and the basis of the capitalization of the Chicago & Alton Companies has been obtainable from Poor's Manual and other similar manuals which are published for the information of investors. (See Appendix B at the end of this brief.)

It will be unnecessary to re-state in detail the steps which were taken in the Chicago & Alton recapitalization. We will simply discuss the particular transactions which, because of the misunderstanding and unjust criticism which they have caused, seem to call for special comment.

I.

The sale to the stockholders of the Chicago & Alton Railroad Company of $32,000,000 of 3 per cent bonds at 65.

A NEW BOND ISSUE WAS NECESSARY.

No one can doubt that at the time when the Syndicate acquired control the Chicago & Alton Railroad Company was under the necessity of soon creating a new issue of securities to provide for the refunding of its high interest bonds which were soon to mature, and to provide for very large capital expenditures that would soon have to be made upon the property, if it was to maintain its position among the railroads of Illinois. Accordingly there is no question as to the propriety of the decision of the Company to *create* its issue of $40,000,000 of 3 per cent bonds. *The question is: Was it proper for the Company to sell $32,000,000 of these bonds to its stockholders at 65?*

REASONS WHY THE SALE OF THE BONDS TO STOCKHOLDERS AT 65 WAS PROPER.

(*a*) *The bonds were sold on a 4⅞ per cent basis.*

In selling three per cent bonds at 65 the Company was securing money upon an interest basis of about 4⅞ per cent after making a proper allowance for the distribution of the discount over the period of the bonds. In other words, the effect of the sale, so far as the Company was concerned, was precisely the same as if five per cent bonds had been sold at a price slightly above par. Would any one question the propriety of the Company selling five per cent bonds to its own stockholders at par?

(*b*) *All stockholders shared alike.*

It is true that, by reason of the low interest rates which prevailed in 1900 and of the great demand for bonds which were savings bank investments in the State of New York, a part of the $32,000,000 of three per cent bonds sold by the Company at 65 were resold by the stockholders at an average price somewhat in excess of 90, thus producing a profit to the stockholders much greater than was originally contemplated. But no one was injured, inasmuch as all the stockholders shared *pro rata* in the purchase of the bonds and in the opportunity for profit. As a matter of fact, the members of the Syndicate who elected to hold the bonds as an investment have to-day a very small profit, as, owing to the change in investment conditions, the bonds are now selling at but a small advance over the price at which they were issued.

The *pro rata* sale of bonds and stock to stockholders at less than market value has been very common for many years, and has not until very recently provoked adverse comment. For illustration: In April 1899, shortly prior to the issue of the Chicago & Alton bonds, the Chicago Burlington & Quincy Railroad Company sold to its stockholders at 75 $16,166,000 of 3½ per cent bonds, which immediately upon their issue sold above par. This transaction seems to have provoked no criticism. Another conspicuous case is that of the St. Paul Minneapolis & Manitoba Railway Company, which in 1883 sold an issue of its 6 per cent Mortgage Bonds to its stockholders at ten per cent of their face value, which bonds soon after their issue sold at over par. A number of other illustrations of such sales will be found in Appendix to Mr. McClement's Report, pages 51-54.

(*c*) *Most of the discount on the bonds was charged against surplus.*

A further justification for the sale of these bonds to the stockholders at 65 is the fact that the Company had a surplus of $14,824,931 against which $8,155,751 of the discount on these bonds was charged. In other words, the sale of the bonds at less than the market price may be regarded an indirect and entirely proper means of giving to the stockholders the benefit of part of this surplus that had been created from the earnings of the Company which had in the first instance been diverted to capital expenditures.

(*d*) *No danger of deceiving investors.*

There was not the slightest danger of deceiving the purchasers of, and investors in, these bonds. The fact that the bonds had been taken by the stockholders at 65 was widely known and could have been readily ascertained by an intelligent investor by consulting any banker, or the Stock Exchange listing applications, or any of the investors' manuals or financial publications. (Appendix B at the end of this brief.)

II.

The action of the Chicago & Alton Railroad Company in readjusting its accounts and carrying to Surplus $12,444,177 which during previous years had been taken from earnings and expended for additions and permanent improvements, but in the first instance charged upon the books of the Company to current expenditures.

ALL AGREE THAT THE EXPENDITURES IN QUESTION WERE FOR CAPITAL ACCOUNT.

That the Company had during the previous years devoted at least $12,444,177 of its profits to capital expenditures no one questions, and that these expenditures might have been charged from year to year to Capital Account and carried to Surplus is equally clear. The witness Hilliard, the present Comptroller of the Company, testified (testimony, page 451): "I have not any doubt that they might have been fairly so charged at the time." **Mr. Blackstone, the President of the Company, in his annual report of 1894, stated that the capitalization of the Company, including its bonds and al obligations assumed by it, aggregated less than 60 per cent "of the actual cost of the property in its present improved condition," and that "a dividend of 8% is, therefore, the equivalent of about 4¾% upon such a number of shares as would, together with the funded debt, represent the actual cost of the property."**

THE READJUSTMENT OF ACCOUNTS WAS ENTIRELY PROPER AND IS SUSTAINED BY HIGHEST ACCOUNTING AUTHORITY.

After these expenditures for Capital Account had from year to year been charged to Current Expense, the board of directors could properly and lawfully readjust the accounts and transfer these expenditures to Capital Account, thus correspondingly increasing the Company's surplus. It is respectfully submitted that, notwithstanding the opinion of the witness Hilliard to the contrary, there is not the slightest doubt about the legality and propriety of such procedure. **In Appendix A, at the end of this brief, will be found the opinion of Messrs. Price, Waterhouse & Co., Haskins & Sells and J. H. McClement, three of the most prominent experts in railroad accounting, who join in the opinion that such procedure is lawful and permissible.** In Appendix to Mr. McClement's Report (pages 35-47) will be found several examples of similar procedure by conservative and reputable corporations.

IN THE READJUSTMENT OF ACCOUNTS THE NEW MANAGEMENT SIMPLY CARRIED OUT THE DECLARED POLICY OF THE BLACKSTONE MANAGEMENT.

That the capitalization of these past expenditures for permanent improvements was proposed and recommended by the old management is shown by the following circular issued by President Blackstone in February 1899, shortly after Mr. Mitchell had issued his circular communicating to the stockholders the offer of purchase which had been made by the Harriman syndicate:

"February 1899.

"*To Chicago & Alton Stockholders:*

"In my communication addressed to you under date of 31st of January (1899), I made certain statements with reference to an offer made by Mr. J. J. Mitchell to purchase your shares. I now wish to supplement that statement by advising you that in case a majority of the shares of the Company are not sold to the syndicate represented by Mr. Mitchell, **I shall advise that you authorize the refunding of the outstanding bonds of the Company and the issue of a stock dividend to represent earnings heretofore invested in permanent improvements.**

"T. B. BLACKSTONE."

DECISIONS OF COURTS.

This procedure is also amply supported by the decisions of the courts. A case precisely in point is *Mills vs. Northern Ry., &c., Co.*, 5 Chancery Appeals, 621 (1870). In that case a railroad company had for a considerable period pursued the practice of charging the cost of certain locomotives and other rolling stock to Revenue, but, finally, in order to increase the surplus available for distribution among the stockholders by way of dividends, the directors proposed to readjust the accounts and transfer these expenditures from Income Account to Capital Account, and to distribute by way of dividend among stockholders part of the surplus thus created. Against this procedure the plaintiff made precisely the objection which Mr. Hilliard has made against the similar procedure adopted by the Chicago & Alton Railroad Company, but the High Court of Appeal overruled the objection and said (page 631):

> "I have no hesitation in saying that the circumstance that they had been paying what ought to be charged to capital out of revenue does not prevent their right or their duty to the persons who are looking for their payment out of revenue to credit back to revenue those things which have been carried for the time to capital account."

III.

The use of $6,669,180 of the proceeds of the sale of the $32,000,000 of 3 per cent bonds to pay a dividend of 30 per cent upon the stock of the Chicago & Alton Railroad Company, against the Company's surplus, most of which was the result of the readjustment of accounts discussed in the preceding paragraph.

A COMPANY HAVING A SURPLUS MAY LAWFULLY USE THE PROCEEDS OF BONDS AS A DIVIDEND FUND.

As the readjustment of accounts and the carrying of past capital expenditures to surplus were lawful, so it was equally lawful to pay out $6,669,180 of that surplus by way of a 30 per cent dividend upon the stock. The proposition that money can be borrowed for the paying of dividends (assuming that the books of the corporation show a sufficient surplus) is amply supported by the authorities.

In 2 Cook on Corporations (5th Edition), Section 546, it is said:

> "When the company has used profits for improvements, it may lawfully borrow an equivalent sum of money for the purpose of a dividend. And it may properly borrow money to pay a dividend if, upon a fair estimate of its assets and liabilities, it has assets in excess of its liabilities and capital stock equal to the amount of the proposed dividend."

It is difficult to see how the *legality* of the dividend can be questioned. It is, therefore, only necessary to discuss its *propriety*.

THE PROPRIETY OF A DIVIDEND TO REPRESENT THE EARNINGS INVESTED IN PERMANENT IMPROVEMENTS WAS RECOGNIZED BY THE BLACKSTONE MANAGEMENT.

In declaring this dividend the new management simply carried out the purpose of the old management as publicly declared in the circular quoted above (page 6), except that the dividend was paid in *cash* and represented only a *part* of the earnings invested in permanent improvements, while apparently the purpose of the prior management had been to issue a *stock* dividend to represent *all* the earnings theretofore invested in such improvements.

As President Blackstone pointed out in his annual report of 1894, such large amounts of earnings had been expended upon permanent improvements that the Company's securities outstanding, taken at their par value, represented "less than 60% of the actual cost of the property" * * * "and while dividends had been paid at the rate of 8% upon the par value of the stock, the rate upon the investment which the stock represented, that is, upon the actual cost of the property, was only 4¾ per cent. That, of course, is the chief reason why the common stock of the Company was worth the price of $175 a share which the Syndicate paid for it. What possible impropriety, therefore, could there be in the stockholders deciding that their investment in the stock should be reduced by the payment of a 30 per cent dividend, funds for that dividend to be furnished by the sale of low interest-bearing bonds? The distribution of a *stock* dividend under such circumstances is exceedingly common. It is equally proper to pay out a cash dividend and issue a reasonable amount of low interest-bearing bonds for the purpose of producing the cash for that dividend. This was not a case where a bare majority of the stockholders were forcing their will upon an unwilling majority, for practically all of the stockholders joined in the *declaration* of the dividend and *all* of the stockholders without exception shared in the *distribution* of the dividend.

The balance of the proceeds of the sale of the three per cent bonds was applied to the refunding of high interest-bearing obligations, to improvements and betterments and to other purposes regarding which no question has been or can be raised.

IV.

The organization of the Chicago & Alton Rail*way* Company and its issue of $22,000,000 of 3½ per cent bonds, $19,544,000 of 4 per cent preferred stock and $19,542,800 of common stock, in payment for the 97 per cent of the stock of the Chicago & Alton Rail*road* Company owned by the Syndicate and for the line between Springfield and Peoria.

THE CHICAGO & ALTON RAILWAY COMPANY HAD A CLEAR LEGAL RIGHT TO ISSUE THESE SECURITIES.

It may fairly be assumed that the primary purpose of the organization of the Chicago & Alton Railway Company and the creation of the 3½ per cent bonds, preferred stock and the common stock, above mentioned, was to create new securities to represent the investment of about $3,000,000 in the line from Springfield to Peoria and to represent the stock (approximately $22,000,000 par value) of the Chicago & Alton Railroad Company which the Syndicate had acquired at an original aggregate cash cost of about $39,000,000, which cost had been reduced by approximately $6,000,000 by the cash dividend of 30 per cent. There can be no question that the Chicago & Alton Rail*way* Company had the legal right to acquire stock of the Chicago & Alton Rail*road* Company, and also the line from Springfield to Peoria, and to issue stocks and bonds in payment therefor in such amounts as the directors determined would represent the fair worth of the property acquired, considering its present value and earning capacity and its future prospects.

In this case, as in the other cases already considered, the *legality* of the transaction is so clear that the discussion may be confined to its *propriety*, that is, to its moral aspects.

THE METHODS APPLIED TO THE CHICAGO & ALTON RECAPITALIZATION WERE THE METHODS GENERALLY IN USE AND REGARDED AS PROPER AT THE TIME.

The undoubted purpose of the Syndicate in adopting the new scheme of capitalization was to create low interest-bearing securities (bonds and preferred stock) to represent the value of the property *based upon its actual cost and its past annual dividend distribution*, and common stock to represent *the future additional earning capacity* which was expected to result from a liberal expenditure of capital in improving the property and from the application of progressive methods of management. That was the basis of recapitalization which at that period was being applied to many railroad and industrial properties both in involuntary and voluntary reorganizations. In almost all of the great industrial reorganizations that were carried through in those days the *par value* of the new securities greatly exceeded the par value of the old securities, and in most cases the new securities consisted of (*a*) preferred stock or bonds, or both, which absorbed the earnings of the property based on past experience, and (*b*) common stock, which represented the future and the benefits that were expected to result from consolidation or reorganization, as the case might be. Precisely the same theory of capitalization was applied in most of the great railroad reorganizations resulting from foreclosure. In the Appendix to Mr. McClement's Report will be found many well-known cases of increases of capital stock upon recapitalization similar to the increase upon the recapitalization of the Chicago & Alton.

In other words, in the Chicago & Alton readjustment the Syndicate were simply adopting the methods generally in vogue and considered proper at that time. It is not necessary for our present purpose to either criticize or defend those methods; we are simply seeking to demonstrate that our clients were pursuing commonly accepted and well recognized methods.

THE CHICAGO & ALTON RECAPITALIZATION WAS JUSTIFIED BY THE VALUE OF THE PROPERTY AND ITS ANTICIPATED GROWTH.

Now, let us analyze the results of the application of the prevailing method of recapitalization to the Chicago & Alton property.

*The aggregate cash value of the property as of June 30 1906, based upon the price paid for the old stock by the Syndicate and including the expenditures for extensions and betterments was approximately	$77,000,000

*For the details of the computations on this page, see Appendix C at the end o this brief and page 13 of Appendix to Mr. McClement's Report.

As a result of the recapitalization the total amount of securities (bonds at approximate market value, stocks at par value) outstanding against that total cash value on June 30 1906 was about	$105,000,000
The resulting increase in capitalization is, accordingly, about	$28,000,000
The aggregate amount of the *preferred* securities under the recapitalization (bonds at approximate market value, stocks at par) was about	$85,000,000
An excess over the cash value of only	$8,000,000
The average annual amount which the Chicago & Alton Railroad Company had been paying out in interest and dividends for many years prior to the recapitalization was	$2,906,927
The annual fixed charges as of June 30 1906, including interest upon all obligations, rentals and 4% dividends upon the preferred stock, were	$3,228,864
An increase of only	$321,937

This increase represents only 1.43% per annum upon $19,500,000 of new capital which the present management has expended upon the property and the amount (about $3,000,000) paid for the Springfield & Peoria line.

THE PREFERRED SECURITIES (INCLUDING THE PREFERRED STOCK) REPRESENT APPROXIMATELY THE INTRINSIC VALUE OF THE PROPERTY AT THE TIME OF THEIR ISSUE

It will thus be seen that the fixed charges under the new capitalization, including dividends on the preferred stock, were based on an annual disbursement approximately equaling the amount which had been annually disbursed by the Company for interest and dividends for many years. It was, of course, a fair assumption that the additional earnings resulting from the expenditures for improvements would yield at least a fair rate of interest upon the amount of such expenditures.

It should be borne in mind that every $100 share of Chicago & Alton stock represented an actual cash investment of about $175 and that 8% upon the *par* value of the stock was only 4¾% upon the *cash investment* which the stock represented (President Blackstone's annual report of 1894). This is without making allowance for the enormous increase which must have taken place in the actual *intrinsic* value of the company's terminals and its large holdings of real estate. *It would, therefore, be conservative to say that every* $100 *share of old Chicago & Alton stock represented at least* $200 *in actual cash value without any allowance for future additions to earning capacity.* Accordingly, the issue of $20,000,000 of additional stock could not *from any point of view* be considered as watered stock. Stating the case differently, there could be no possible criticism of a recapitalization the result of which would be that a property having a conservative value of $40,000,000, based on actual investment and past earnings, should be represented by $40,000,000 of stock, earning dividends at 4%, in place of $20,000,000 of stock, earning 8% dividends. The doubling of the par value of the securities without increasing the annual charge is precisely what happened when the New York Central issued $200 in 3½% obligations for every $100 share of Lake Shore stock, and when the Great Northern and Northern Pacific companies issued $200 in 4% obligations for every $100 share of Chicago Burlington & Quincy stock.

The preferred securities under the recapitalization were sound investment securities. This was so because of the relation which their amount bore to the earning capacity of the property as demonstrated by a record of many years. It has also been shown by *subsequent* experience, since the property has regularly earned and paid not only interest upon both issues of bonds, but also regular dividends at 4 per cent upon the preferred stock, notwithstanding the unexpected heavy decline in rates.

It seems clear, therefore, that the criticism of the Chicago & Alton recapitalization must be confined to the $20,000,000 of new common stock; for if the capitalization had been reduced by that amount there would have been no conceivable basis for criticism, inasmuch as, in that case, the aggregate amount of the new securities would have only slightly exceeded the actual cash invested, while the annual disbursements for interest and dividends would have been substantially less than the average disbursements for that purpose for many years preceding, plus a fair rate of interest upon the new capital invested.

THE FRAMERS OF THE PLAN OF RECAPITALIZATION WERE JUSTIFIED IN PROVIDING FOR $20,000,000 OF COMMON STOCK TO REPRESENT THE FUTURE OF THE PROPERTY.

As has just been stated, the common stock, which is the only part of the new capitalization that from any point of view can be attacked as watered stock, was issued to represent the future of the property and the additional earning capacity which was expected to result from the methods applied by the new management. This stock, in practical effect, was like the deferred or founders' shares which are so common in European practice. It is respectfully submitted that those who framed the plan of recapitalization were entirely justified at the time in their judgment that the future of the property was worth $20,000,000 over and above the amount of the preferred securities, and that with new management that amount of common stock would under normal conditions readily earn a fair dividend.

The average annual net income of the Company for eight years from 1891 to 1898 inclusive (which included four years of business depression) was	$3,082,573
If to this amount be added 5 per cent upon the additional cash invested (about $22,500,000) as the estimated additional income which should result therefrom	1,125,000
We have as the assumed income *based on past achievements*	$4,207,573
This sum would enable the Company to pay all its existing fixed charges and dividends at the rate of four per cent per annum *on both preferred and common stocks*, and show a surplus of	$197,000

In the case of most railroads of the West, the net earnings have increased since 1898 in a greater proportion than have the gross earnings. If the Chicago & Alton Company had increased its net earnings in only the same proportion as the gross earnings increased, it would have resulted in net earnings for the fiscal year of 1906 amounting to $4,900,000, which amount would have been sufficient to pay all fixed charges, rentals, four per cent dividends on the preferred stock and leave a surplus of $1,671,000, *or over eight per cent on the common stock.*

The failure of the Chicago & Alton Compay to make the expected earnings for the common stock is due mainly to two causes: first, it took over $19,000,000 to modernize and fully equip the property instead of about $6,000,000, as had been originally estimated; and, second, while the new management succeeded in promptly increasing the *gross* revenues of the Company (an increase of about 84 per cent), the increase in *net* earnings was very slight because of unexpected reductions in rates, which, in the case of freight rates, seem to have averaged about 30 per cent. Had the freight rates of the Chicago & Alton remained on a parity with the rates of most Western railroads, it would have earned over eight per cent on the common stock. *As it was, in* 1905 *the Chicago & Alton earnings, after the payment of all preferred charges, amounted to more than four per cent upon its common stock.* (Appendix to Mr. McClement's Report, page 19.)

THE CAPITALIZATION OF THE CHICAGO & ALTON RAILWAY COMPANY IS NOT EXCESSIVE COMPARED WITH THAT OF OTHER RAILROAD COMPANIES SIMILARLY SITUATED.

Nor is the present capitalization of the Chicago & Alton Company excessive as compared with that of a number of other railroads of a similar character. This is demonstrated by the following comparison between the Chicago & Alton and other railroad companies:

*Present capitalization, including stocks and bonds, all taken at their par value (which is unfair to the Chicago & Alton, because of the fact that all of its bonds bear either 3 per cent or 3½ per cent interest and are therefore worth much less than par), per mile:	
Chicago & Alton	$114,481
Seventeen other railroads (average)	$150,895
Fixed charges, per mile:	
Chicago & Alton (including dividends on preferred stock)	$3,328
Twenty-four other railroads (fixed charges only) (average)	$4,997
Percentage of gross earnings required to pay fixed charges *as shown by the Inter-State Commerce Commission Report of* 1905:	
Chicago & Alton	19.57%
All railroads of United States (average)	18.63%
Disbursements per mile required to pay fixed charges and demands for dividends (4% on Chicago & Alton common stock assumed):—	
Chicago & Alton	$4,515
Thirty-five other railroads (average)	$5,729

An apparent misapprehension has resulted from the testimony of Mr. Hilliard that the mortgage securing the 3½ per cent bonds covered, as an unimportant part of the security, a short piece of road which the Company was authorized to build but which had not actually been constructed. It will be remembered, however, that Mr. Hilliard (testimony page 450) admitted that there was no illegality or impropriety in mortgaging an unconstructed line, and stated in substance that he had called attention to the fact simply for the purpose of pointing out that no financial provision had been made to defray the cost of this line, which is now being constructed. As a matter of fact, in this respect, the Chicago & Alton mortgage is in accord with the practice prevalent at that time of drawing general railroad mortgages so that they would cover *all of the lines and franchises and other mortgageable assets* of the mortgagor.

In many instances, the after acquired property clauses of such mortgages are so stringent that equipment and even new lines are subjected to the lien of such mortgage, even though they are paid for out of earnings. In order to avoid this, when no mortgage bonds are available, payment for equipment is often made by the issue of equipment notes, title to such equipment remaining in the vendor or the trustee, until all the notes are paid, when the equipment passes under the mortgage.

*For the details of the following computations see Appendix of Mr. McClement's Report, pp. 15-19

CONCLUSIONS.

The following conclusions with respect to the various proceedings in the Chicago & Alton recapitalization are confidently submitted:

1. They were conducted lawfully.
2. They were conducted openly, and all of the essential facts were given wide publicity and have at all times been accessible to the stockholders and to investors in Chicago & Alton Securities.
3. They were in accordance with the approved methods which were at the time in vogue in recapitalizing other railroad companies and large industrial enterprises.
4. They were conducted for the equal benefit of all stockholders, and there was no discrimination or injustice.
5. While the Chicago & Alton transactions may be regarded as typical of a class of financial transactions which have been common in the past and which have generally been regarded as proper, and whatever basis there may now be for objection to such transactions as a class, there is no basis for singling out for special criticism the Chicago & Alton transactions and the gentlemen by whom they were conducted.

New York, April 3 1907.

PAUL D. CRAVATH.

APPENDIX A.

Opinion of Expert Accountants.

New York, March 29 1907.

Paul D. Cravath, Esq., 52 William St., New York City.

Dear Sir: The following hypothetical question has been put to us:

"Assume that an American railroad corporation has pursued the practice for a long period of time of expending each year a portion of its earnings for additions and permanent improvements which should properly have been charged to cost of road and equipment; that after this practice had been pursued for many years the President of the Company made a report to the board of directors showing the amount of such expenditures for additions and permanent improvements which had from time to time been charged against income or operations, and recommended that the accounts of the Company be re-stated and that the amount of such expenditures be added to the cost of road and equipment and the surplus of the Company correspondingly increased and that proper entries be made upon the books of account; and that the board of directors thereupon took the action recommended by the President, would such a re-stating of the accounts and the making of proper entries upon the books in accordance therewith be permissible under the rules of accounting?"

In our opinion it is correct accounting practice for an American railroad company to charge each year to the cost of road and equipment all expenditures made for additions and permanent improvements. We are also of the opinion that upon the facts assumed in the hypothetical question the readjustment of accounts and the entries upon the books of the Company, as assumed in the question, would be admissible under the rules of accounting.

(Signed) PRICE, WATERHOUSE & CO.
HASKINS & SELLS.
J. H. McCLEMENT.

THE PITTSBURGH CINCINNATI CHICAGO & ST. LOUIS RAILWAY COMPANY.

SEVENTEENTH ANNUAL REPORT—FOR THE YEAR ENDING DECEMBER 31 1906.
(SYNOPSIS.)

Pittsburgh, Pa., March 25 1907.

To the Stockholders of The Pittsburgh Cincinnati Chicago & St. Louis Railway Company.

GENERAL INCOME ACCOUNT FOR THE YEAR ENDING DECEMBER 31 1906, AND COMPARISON WITH YEAR 1905.
ALL LINES DIRECTLY OPERATED.

Earnings—	1906.	1905.	(+) *Increase or* (—) *Decrease.*
From freight traffic	$25,191,920 89	$22,317,916 88	+$2,874,004 01

Deduct payments—			
Fixed rental of leased roads	$711,301 50	$702,621 50	+$8,680 00
Rental paid for use of tracks of other companies under contract	138,218 08	137,482 84	+735 24
Interest on funded debt	2,324,440 00	2,344,754 31	—20,314 31
Interest, car trusts	330,654 98	*b*276,920 98	+53,734 00
Interest, general account	154,622 30	-------	+154,622 30
Advances to Cincinnati Richmond & Fort Wayne Railroad Co	3,220 93	10,868 28	—7,647 35
	$3,662,457 79	*b*$3,472,647 91	+$189,809 88
Net income	$4,517,586 58	*b*$4,080,311 45	+$437,275 13

From this net income for the year the following amounts have been deducted, viz.:—			$4,517 586 58
Contribution to sinking fund for Pittsburgh Cincinnati Chicago & St. Louis Railway Co. consolidated mortgage bonds		$449,990 00	
Payments on account of principal of car trusts		596,133 08	
Dividend of 5% on preferred stock	$1,372,837 50		
Dividend of 3½% on common stock	867,310 50		
		2,240,148 00	3,286,271 08
			$1,231,315 50
Deduct extraordinary expenditures in revising grades and alignment, and other outlay not properly chargeable to capital account			900,000 00
Balance transferred to credit of profit and loss			$331,315 50
Amount to credit of profit and loss December 31 1905		$3,781,661 34	
Less amount paid in settlement of old accounts		286,488 17	3,495,173 17
Balance to credit of profit and loss December 31 1906			$3,826,488 67

a Commencing January 1 1906 the net balance of rentals received and paid is credited to income account; prior to that date rentals received were credited to earnings, and those paid charged to expenses.

b For purposes of comparison the amount paid in 1905 on account of the principal of car trusts ($506,112 25) has been separated from the interest thereon, which will account for the difference between these figures and corresponding items in the report for 1905

PITTSBURGH CINCINNATI CHICAGO & ST. LOUIS RAILWAY

Main line, including Steubenville Extension Pennsylvania Railroad (1.23 miles)	944.73	Miles.
Branches	169.41	"
Line used jointly with other companies	56.99	"
Total	1,171.16	"

	1906.	1905.
Gross earnings	$29,606,195 78	$26,584,559 18
Total expenses	22,153,011 86	19,945 908 07
Net earnings from operation	$7,453,183 92	$6,638,650 21
Dividends and interest on securities	146,404 74	130,510 98
* Rents	54,456 95	248,869 17
Total	$7,654,045 61	$7,018,030 36

* Commencing January 1st 1906 rents are shown as an item of "Other Income" instead of Gross Earnings.

The gross earnings increased $3,021,636 60, or 11.37%, due chiefly to the increased volume of tonnage handled during the year. The operating expenses increased $2,207,102 89 or 11.07%, due to heavy repairs to roadway and equipment larger transportation expenses incident to the increased traffic and to an increase of 8.2% in taxes. In the case of freight car repairs, the high cost is incident to the transition period during which the old wooden cars are being replaced by heavier steel cars.

The earnings from freight traffic increased $2,542,899 49, or 13.17%; the tonnage increased 3,636,716 tons, or 14.13%, and the ton mileage increased 317,669,158, or 10.03%. The classified tonnage items showing the largest increase were coal, stone, bar and sheet metal, lumber, cement, brick and lime, pig and bloom iron, grain, flour and other products of agriculture. The average earnings per ton mile were 6.3 mills, an increase of .2 of a mill, and the average cost was 4.7 mills, an increase of .2 of a mill, resulting in net earnings per ton mile of 1.6 mills, the same as in the preceding year.

The earnings from passenger traffic increased $518,743 48, or 9.81%, the number of passengers carried increased 288,023, or 3.52%, and the passenger mileage 21,784,868, or 8.48%. The average earnings per passenger per mile were 2.03 cents, while the cost was 2.10 cents, resulting in a loss of .7 of a cent per passenger per mile.

Fifty-one new and two second-hand locomotives were received during the year, thirty-six of which completed the number authorized in 1905, and seventeen replaced an equal number destroyed during the year.

There were four vacancies in the passenger car equipment December 31 1905 and four vacancies were created during the year; to partially fill these, four coaches and one combination baggage car were received, leaving three vacancies at the close of the year. Six coaches and two postal cars authorized as additions to the equipment in 1905 were received, and eight coaches, five combination passenger cars and three horse cars were added to the equipment during the year.

There were seventy-six vacancies in the authorized freight car equipment on December 31 1905 and 454 cars were destroyed during the year; to partially replace these cars 330 new cars were received, leaving 200 vacancies on December 31 1906. Sixteen cabin cars authorized as additional equipment in 1905 were received. There were 1,078 low capacity cars destroyed during the year out of the 1,359 cars dropped from the authorized equipment in 1905, leaving 281 still in service.

New interlocking plants were installed at Jewett, Hagenbaugh, Summit and Ripley to control and protect third track and passing sidings, at Bradford to control the east end of the yard, at Air Line Junction to control the crossing of the Chicago Indianapolis & Louisville Railway, and at Kentland to control the crossing of the Indiana Harbor Railroad and the interlocking plants at Bulger, Burgettstown, Milford Centre, Anderson and Dolton were extended to protect additional tracks. The block system was practically completed on the main lines and the work of extending the block system to control all main line divisions and all branch lines with heavy traffic is well under way and will be completed early in 1907.

The freight running track from Bulger to RS Tower, on the Pittsburgh Division, was completed and put into service early in the year. This work involved a complete change in alignment, and the replacement of tunnel No. 3 with a cut wide enough for four tracks. The grading for 6.6 miles of west-bound freight running track between Central City and Outville and for 5.3 miles of east-bound freight running track between Summit and Big Walnut, on the Columbus & Newark Division, was completed and a large part of the track laid. The double-tracking of the Indianapolis Division between Columbus and Bradford with improvement in the grades and alignment, and of the Logansport Division between Logansport and Chicago, was vigorously pushed during the year. The section between Woodstock and Urbana, a distance of 16.1 miles, with necessary passing sidings at Brush Lake, Milford Centre and Hagenbaugh was completed; considerable progress was made with the work of constructing second and third tracks, on an entirely new line and grade, a distance of 9.1 miles, between Urbana and St. Paris, and on second and third tracks on present line with revised grade, between St. Paris and Jordans, a distance of 13 miles, the second track from Summit to Bradford, a distance of 7.56 miles, was nearly completed, and the second track was extended eastwardly from Irvington, a distance of 3,600 feet. The second track was extended 43.9 miles, from Aylesworth to Thornhope, completing the double-tracking between Logansport and Chicago. New east and west-bound freight running tracks, each having a length of four miles, were constructed between Kouts and Aylesworth. The west-bound classification yard at Columbus was completed. New passing sidings were constructed in connection with the second track at a number of points and at Newell, Irvington, Jackson Hill, Red Key, Horatio and Rendcomb Junction, and the passing sidings at a number of other points were extended. There were 79 miles of track ballasted with stone, 350 miles with gravel and 50 miles with cinder. In the construction of additional tracks and sidings there were used 11,088 tons of new and 5,567 tons of partly worn steel rails and 349,176 cross-ties.

The net increase in track was 94.83 miles, made up as follows:

Second track	69.44	Miles.
Third track	7.06	"
Fourth track	4.10	"
Sidings	14.23	"
Total	94.83	"

The new engine-house at Dennison, with necessary rearrangement of tracks, was completed, and as a result the handling of locomotives and trains at that point has been very greatly facilitated.

New coaling stations were erected at Indianapolis and Aylesworth, and plants at Collier and Louisville are in course of re-construction, and water-softening plants were installed at Indianapolis and Hartsdale. A new freight station was built at Carnegie, a passenger station at Raccoon, a combined freight and passenger station at Bethevan, a modern rest house for use of employees at Bradford, and the rest house at 59th Street, Chicago, mentioned in the 1905 report, was completed.

The charges to capital account during the year for construction, equipment, etc., were as follows:

Construction, Right of Way and Real Estate—		
Second and third tracks Pittsburgh Indianapolis & Logansport Divisions		$1,164,955 06
Third track, Pittsburgh Division		177,610 81
Dennison round house improvements, etc		359,520 58
Third and fourth tracks, etc., Chicago, Ill		163,128 24
Track elevation, Chicago, Ill		178,004 99
Real estate for new engine-house, Chicago, Ill		262,692 31
Leonard Avenue yard, etc., Indianapolis Division		136,144 09
Bridges, etc., Richmond, Logansport and Louisville Divisions		132,230 67
		$2,574,286 75
Equipment—		
Locomotives	$676,159 85	
Car trust and other equipment	794,269 15	
		1,470,429 00
Total		$4,044,715 75

Loss	$185,302 73	$167,692 50

* Commencing January 1 1906 Rents are shown as an item of "Other Income" instead of in Gross Earnings.

The gross earnings increased $300,781 77, or 9.88%, and the operating expenses $177,078 46, or 6.58%, and the net earnings increased $123,703 31, or 35.27%.

The freight earnings increased $216,617 07, or 10.99%, the tonnage 426,318 tons, or 13.48%, and the ton mileage 33,574,677, or 13.68%. The classified tonnage items showing largest increases were coal, stone, bar and sheet metal, pig and bloom iron, and cement, brick and lime.

The average earnings per ton per mile were 7.8 mills, a decrease of .2 of a mill, and the average cost increased .2 of a mill, resulting in net earnings of .9 of a mill as compared with 1.3 mills in the preceding year.

There was an increase of $66,210 16, or 8.35%, in the passenger earnings, the number of passengers transported increased 40,216, or 4.14%, and the passenger mileage increased 1,961,132, or 4.71%, as compared with the year 1905.

The average earnings per passenger per mile were 1.93 cents, an increase of .07 of a mill, or 3.76%, and the average cost was 2.16 cents, a decrease of .34 of a cent, resulting in a net loss of .23 of a cent per passenger per mile as compared with a loss .64 of a cent in the preceding year.

Charges to Construction and Equipment Account were:

Right of way and real estate	$55,113 68
Additional tracks	150,052 95
Stations and other structures	31,467 72
Locomotives	48,464 65
Total	$285,099 00

GENERAL REMARKS.

The continued prosperity of the country was reflected in the operations of the railroads comprised in your system, all showing large gains in tonnage, a slight increase in the number of passengers carried, and a larger increase in the average distance traveled by each passenger.

The large volume of traffic moved on your lines during the year 1906 was handled promptly and without congestion at any point, thus fully justifying the policy you have pursued of greatly increasing your facilities of all kinds during the past three years. The only failure in the furnishing of facilities for all traffic offering was in the matter of car supply, and this was not because your company had neglected to purchase sufficient equipment, but because of the impossibility, under existing conditions, of controlling it after it was placed in service. Every effort was made to meet the situation through joint action with other lines, but while an agreement was entered into between a number of the railroad companies owning a large proportion of the freight equipment of the country, providing for an increased per diem rate and thus giving the owning company a more equitable compensation for the use of its equipment, it was impracticable to effect any arrangement whereby a company could enforce the prompt return of its cars. If your company could have had the use of the equipment owned or controlled by it, there would have been an ample supply for all the business offering on your lines during the past year.

The total tonnage handled on all lines was 43,156,331, an increase of 5,094,033, or 13.38%. The ton mileage was 3,931,450,877, an increase of 10.41%.

The average rate received per ton mile was 6.4 mills, an increase of .2 of a mill as compared with the preceding year. The cost per ton mile increased .1 of a mill, so that the net earnings per ton mile were 1.7 mills, or an increase of .1 of a mill over the preceding year.

The total number of passengers carried was 11,586,166, an increase of 363,482, or 3.24%, and the passenger mileage was 352,441,239, an increase of 7.64%.

The average earnings per passenger per mile were 2.02 cents, an increase of .02 of a cent. The cost per passenger

mile was 2.12 cents, a decrease of .08 of a cent, and the net loss per passenger per mile was .1 of a cent as compared with .2 of a cent in 1905.

After providing for all charges and liabilities, the net earnings were sufficient to provide for a dividend of 5% on the preferred stock and a dividend of 3½% on the common stock, supply nearly $600,000 for one-half of the principal of maturing car trusts, $900,000 for extraordinary expenditures in the revision of grades and alignment, improvement of freight equipment and other outlays not properly chargeable to capital account, and leave a balance of $331,315 50, which was transferred to the credit of profit and loss account.

As shown in the general balance sheet, there was charged to capital account during the year for construction, right of way and real estate the sum of $2,574,286 75, and for equipment $1,470,429, a total of $4,044,715 75. The balance sheet also shows that this company was indebted to the Pennsylvania Company for advances for construction, etc., at the close of 1906 to the amount of $4,250,000. This amount will be largely increased during the year 1907, on account of further advances by the Pennsylvania Company for construction and equipment, and provision will have to be made through the issue of bonds or stock, or both, to re-pay these advances and also to furnish funds for the construction of the second track between Columbus and Chicago which the demands of the traffic make it necessary to complete at the earliest possible date.

The first mortgage 7% bonds of the Jeffersonville Madison & Indianapolis Railroad Company, one of your constituent companies, matured on October 1st. There were $563,000 of these bonds outstanding at the close of 1905, and, with the exception of $9,000, which were not presented, they were paid off and canceled.

There were $20,000 of Union & Logansport Railroad Company first mortgage 7% bonds which had not been presented at the close of the year 1905; these bonds were paid off and canceled during the year.

Under the terms of the sinking fund provided for the redemption of the consolidated mortgage bonds of The Pittsburgh Cincinnati Chicago & St. Louis Railway Company $560,000 of these securities were redeemed and canceled and the amount outstanding at the close of the year was $14,439,000.

Of the roads operated directly by your company, the Ohio Connecting Railway, the Chartiers Railway and the Little Miami Railroad show large increases in gross and in net earnings, while the Pittsburgh Wheeling & Kentucky Railroad and the Englewood Connecting Railway show decreases in gross earnings, increases in expenses and decreases in net earnings.

New interlocking plants were constructed on the Ohio Connecting Railway at SQ Tower, on the Duff Branch, to control the cross-overs and main line connection, at DJ Tower to control the connection with the P. C. & Y. Railway and the end of the Scully Yard, and at FD Tower to control the cross-overs and the operations over the hump at the entrance to the yard. Electric automatic spacing signals were installed between JC Tower, Rosslyn and DU Tower, Temperanceville, a distance of about eight miles.

The Cincinnati & Muskingum Valley Railroad shows an increase in gross earnings of 6.46%, in expenses of 5.57%, and in net earnings of 10.78%. The net income was sufficient to pay a dividend of 2% on the capital stock and leave a substantial balance for permanent improvements.

The Waynesburgh & Washington Railroad, which is controlled by the Chartiers Railway Company, shows an increase of 5.56% in the gross earnings, a decrease of 2.16% in the expenses and an increase of $10,363 63 in net earnings. The new passenger station being built by this company at Washington, Pa., was nearly completed at the close of the year.

The Pittsburgh Chartiers & Youghiogheny Railway, one-half of which company's capital stock is owned by your company, shows an increase of 42.52% in gross earnings, of 22.46% in expenses and of $84,164 42 in the net earnings. After paying a dividend of 6% and purchasing and canceling $29,000 of its first mortgage bonds, the company had a substantial surplus available for betterments. Additional capital stock of this company was issued to the extent of $240,000 and used to pay off its floating debt.

The authorized betterment expenditures on the Little Miami Railroad having exceeded the amount of the betterment bonds that had been provided for such expenditures, it was necessary to further modify the provisions of the lease of February 23 1870. An agreement was therefore entered into with The Little Miami Railroad Company under which either bonds or special betterment stock can hereafter be issued as in the judgment of your company may be most available with respect to economy of interest and negotiability, such bonds or special betterment stock to bear interest or dividends not exceeding 4% per annum. This agreement has been approved by the stockholders of The Little Miami Railroad Company and will be submitted to you for approval at the annual meeting on April 9, 1907. The Little Miami Railroad Company has increased its authorized capital stock to $10,000,000, and the betterment bonds which have been issued to your company under the lease as modified by the agreement of May 1st 1899 will be exchanged for an equal amount of the betterment stock, which will also be hereafter used in settlement of betterment expenditures until otherwise arranged.

A general advance of 10%, taking effect December 1 1906, was made in the salaries and wages of employees permanently in the service and receiving less than $200 per month. This advance, which was made in consideration of the increased cost of living, will necessarily add materially to the cost of operation during the current year.

* * * * * * *

It gives pleasure to the management to again express its appreciation of the efficiency and fidelity with which the officers and employees have performed their respective duties during the past year.

By order of the Board.

JAMES McCREA, *President.*

AMERICAN TELEPHONE & TELEGRAPH COMPANY.

ANNUAL REPORT FOR THE YEAR ENDING DECEMBER 31 1906.

New York, March 26 1907.

To the Stockholders;

The results of the business for the year 1906, as shown by the Treasurer's statement appended, were as follows:

Gross Revenue	$24,526,097 82
Expenses, including interest and taxes	11,555,161 06
Net Revenue	12,970,936 76
*Dividends paid	10,195,233 50
Carried to Reserve	1,773,736 62
Carried to Surplus	1,001,966 64

The following were the corresponding figures for the year 1905:

Gross Revenue	$21,712,831 29
Expenses, including interest and taxes	8,678,792 90
Net Revenue	13,034,038 39
*Dividends paid	9,866,355 00
Carried to Reserve	1,713,295 16
Carried to Surplus	1,424,388 23

* The increase of dividends in 1906 was due to the fact that the last two dividends declared in that year were each two per cent, while the corresponding dividends in 1905 were respectively one and one-half and two and one-quarter per cent.

The net output of telephones during the year 1906 was 1,409,578, making the total number in the hands of the operating companies 7,107,836.

The number of exchange stations at the end of the year operated by the companies which constitute our system in the United States was 2,727,289, an increase of 185,922. In addition to this number there were 297,220 exchange and toll stations operated by so-called sub-licensees, namely, independent companies or associations under sub-license and connection contracts and making use of our telephones. Adding also our telephones employed for private-line purposes, our companies had a total of 3,068,835 stations as against 2,525,715 stations at the close of the previous year.

The total mileage of wire in use for exchange and toll service was 7,158,905 miles, of which 1,688,987 were added during the year. These figures do not include the mileage of wire operated by sub-licensees.

Including the traffic over the long distance lines, but excluding sub-licensees, the daily average of toll connections was about 462,000, and of exchange connections about 16,478,000, as against corresponding figures in 1905 of 368,000 and 13,543,000; the total daily average for 1906 reaching 16,940,000, or at the rate of about 5,155,000,000 per year, being 64 telephone calls for each man, woman and child in the United States.

The amount added to construction and real estate by all the companies, excluding sub-licensees, constituting our system in the United States during the year 1906, was:

For Exchanges	$59,971,094
For Toll Lines	13,585,659
For Land and Buildings	5,810,196
	$79,366,949

The amount added in 1900 was $31,619,100; in 1901, $31,005,400; in 1902, $37,336,500; in 1903, $35,368,700; in 1904, $33,136,700; and in 1905 $50,780,906; making the grand total of expenditure upon these properties during the seven years $298,914,255.

During the year 1906 the amount expended for maintenance and re-construction, independent of construction, by all the Bell telephone companies in the United States was $32,544,568. This amount came from the earnings of the properties, and was charged into the expenses of the year. As a result of these expenditures for maintenance and re-construction, the plant of our companies is in a better condition than ever before. That plant could at the present time be reproduced for a less sum than $70,000,000 in excess of its cost. The scrap value of the lead and copper in the lines and cables alone is not less, at present prices, than $50,000,000. Every year the plant becomes more permanent in character and of longer life. There is no reason to doubt that at the present time it is substantially of a type which need not be re-placed until it is worn out.

The amount contributed by the American Telephone & Telegraph Company in 1906 by way of investment in its

own long-distance plant ($5,642,000), in telephones ($1,-737,000), in real estate ($330,000), and in the purchase of stock and bonds and in loans to its operating companies ($53,432,000), was in all $61,141,000, an addition of almost 26% to its entire investment up to January 1 1906.

This greatly increased investment was made with the view of lifting the entire business to a distinctly higher plane specifically and as compared with its competitors. Your directors believe that the expenditure was wise and that, because of it, the position and business of the Bell companies were never so secure as at the present time. The controlling importance of our companies in the telephone field is even more marked than before, and there is hardly a district of any extent throughout the country in which their business is not supported by a satisfactory plant, a good organization and good service.

While even in these important phases of the business the situation requires constant watching and there still remains much to be done, particularly in some places, the improvement, generally speaking, has been marked and constant.

In the expenditures for construction during the past year, the Bell companies have proceeded more positively than ever before upon a definite theory which is believed to be that required to meet the conditions of the business as now known. They have built for the future as far as was consistent with sound economy. They have laid the foundations for the development that is sure to come and have not limited their construction to the business actually in sight.

In the earlier stages when, as in 1896, there was a gain of only 43,549 stations, or, as in 1900, a gain of only 167,934, it was impossible to realize how rapidly the demand for telephones would increase. It seemed consistent with sound policy to assume a rate of growth not greatly in excess of that then prevailing. If this policy were to be continued, it would be a matter of great difficulty to adjust the plant conditions to the demands of a vastly increased business, and the difficulty would be greater every year. If buildings were erected and central office equipment installed only for the business practically then in sight, it would not be long before those buildings and central office equipments would be inadequate. It is inherent in the nature of the business that when telephone buildings and central office equipment become inadequate, they can be enlarged, in many cases, only at an expense altogether out of proportion to the increased facilities gained by such an enlargement. In fact, it has not unfrequently happened that, because of the unexpected demands for service, it has been found necessary to abandon a building and central office equipment and start again from the beginning, with a new building and new apparatus, as the most economical way of meeting the situation.

The same is true, even to a greater extent, of the line construction which connects the exchange with the subscribers' stations.

The improvement in cables made within the past few years has revolutionized the art of telephone line construction. Not only is it now possible to place in underground ducts cables containing four hundred or even six hundred circuits, but a pole line, the carrying capacity of which would have been exhausted by forty pairs of open wires, can carry six hundred pairs of wires in the form of cables. The old-fashioned exchange pole line rarely carried more than twenty pairs of open wires. When an open wire aerial line has reached the low limit of its carrying capacity, it must be taken down and a larger line built unless there is an opportunity for a new line, which frequently is not the case. In either event, there is a great waste as compared with a type of construction in which, by the use of cables, a given pole line may have a capacity many times as great. Sound economy has many times in the past year required the scrapping of all the wires on a pole line, cable being substituted for them, as the only way of securing the enlargement of facilities that was required, and not unfrequently it has been necessary to re-construct the whole line as the cheapest way of securing the opportunity for growth that was required.

In so far as cable construction is concerned, it is not only of great advantage, as a matter of economy and as affording opportunities for growth that are not possible with open wires, but by the use of cables the chances of interruption of service are lessened, and the expense of maintenance is very greatly reduced.

If the very great development of the business could have been foreseen and the engineers and manufacturers had, at an early date, solved the cable problem, so that cables of large capacity could have been originally installed instead of open wire, in the places where a large number of circuits would ultimately be required, much money would have been saved.

Now that it is certain that the business will develop on lines of reasonable profit to an extent much greater than even the most enthusiastic telephone man ventured to expect a few years ago, and cables for exchange distribution are made which are in all respects satisfactory vehicles of transmission, it would be the height of folly not to anticipate the certain extension of the business by providing facilities for future growth when they can be most economically installed.

There will always be a substantial amount of open-wire construction where few circuits are likely to be required, but the substitution of cable for open wires as the demands upon the plant increase is a sound practice even though it involves an investment based upon the certain requirements of the future rather than upon what is immediately necessary.

The great extent to which the telephone business was sure to develop became apparent about the year 1901, when the number of new subscribers increased nearly 220,000, as compared with about 167,000, the largest increase in any prior year. The increase was 257,336 in 1902; 247,184 in 1903; 274,466 in 1904, and 441,734 in 1905.

These large increases in the number of subscribers, which were attended by an equally large increase in the demand for toll service, practically exhausted the plant of the Bell companies and involved rebuilding that plant to a large extent. The year 1906 has seen additions to construction which not only enabled the companies to take care of the 2,241,367 subscribers connected with the system on the first of January 1906 and the nearly 500,000 added during the near 1906, but which resulted in plant conditions, based on scientific study, which will enable the growth of future years to be taken care of with an economy and efficiency due to the application of the most approved methods of work. Constant additions will have to be made to the plant, but they will largely be on predetermined lines, utilizing, extending and rounding out the systematic plant conditions that now exist.

The effort has been made to design buildings and provide central office equipment that will not be exhausted in a short time. Careful engineering studies have been made of nearly all the large cities in the country, open wires have been displaced to a large extent, and underground construction and aerial and underground cables have been installed that were not merely adequate for the growth then in sight, but for a substantially larger growth. The lines upon which increases of plant should be made have been laid out in advance, so as to fit into the work now done.

The same general engineering plan has characterized the work of our companies in their toll-line equipment. It has been necessary to erect from time to time lines of poles which carried a single circuit, or only a small number of circuits, no larger number being required to do the business between the points connected by the pole line. Every circuit added to such a pole line reduces the cost of the installation per circuit mile, and it is a satisfaction to know that the number of miles of wire per mile of pole line has increased from 5.6 January 1 1900 to 9.4 January 1 1907. For the year 1906 the increase in miles of pole lines was 9,334, while the increase in miles of wire was 195,937, the ratio being more than twenty to one.

Another, and by no means the least important, advantage of systematic engineering, such as now characterizes our work, lies in the fact that, by reason of it, we shall be much better able to meet promptly and satisfactorily the demands of the public for good service.

It does not seem extravagant to say that, as the result of the work of the past few years, the companies have started on a new line of development, in so far as plant and business are concerned, which is of the utmost importance and sure to result in better service and more economical operation, and thereby in distinctly better returns on the investment than would otherwise have been the case.

As an indication of the extent to which the companies have built for the future, attention is called to the fact that at the present time not less than $25,000,000 are invested in circuits in cable that are not yet in use, but all of which will soon be in service, and that pole and conduit facilities are now installed which will take care of a very large number of cables over and above those that now exist.

Large expenditures will be required in the future, as in the past, to enable our companies to do the business that is forced upon them by the increasing demand for telephone service. It is the opinion of your Directors that the plant was never in better condition to meet the demand upon our companies, and that the additions to it which are surely necessary will not only result in a proper return, but will create an adequate revenue from a substantial portion of the plant that now exists which in the nature of the case has not yet been utilized.

The extensive building for the future and the very high cost of labor and material during the past year have somewhat increased the cost per station added to the Bell system over the corresponding costs of 1905. The cost per mile of toll wire did not increase.

There is no reason to question the validity of the statement made in the last Annual Report that the reduction in the cost of construction per unit, which has been so significant during the past few years, will continue to characterize the business as it develops.

As has been the case for many years, there are certain portions of the country in which the return from the business is not satisfactory. These are for the most part localities in which our companies had not been able to cover the field rapidly enough to supply the demand for telephone service, and were, therefore, particularly exposed to competition.

As stated in prior reports, the unintelligent views of our competitors as to what rates for service are possible have created conditions in the portions of the country to which reference is now made, under which neither they nor the Bell companies are getting proper returns for the service rendered. These conditions are sure to correct themselves in time, particularly as almost everywhere, except in some of

the comparatively few places in which new promotion schemes are being exploited, our competitors have discovered their mistake and are as anxious to raise their rates as they formerly were to do business at a loss. We have now developed our plant, business and organization in most of these localities to such an extent as to have the situation in hand, and have now only to proceed on sound lines to establish such relations with the public as will enable us to secure a fair return for the service rendered. There are definite indications that the public in these localities appreciates the situation to a greater extent than ever before, and that it will ultimately co-operate to secure the adequate telephone service which it needs, by encouraging our companies to make the readjustment of rates that is necessary to enable us to give that service under fair conditions.

In by far the greater part of the country rates are established and maintained, with the approbation of the public, which permit the reasonable return required by the Bell companies to enable them to meet the demands of those who use the telephone.

Considering the difficulties in telephone rate-making, and the fact that even now there has not been sufficient experience, with the constantly changing phases of the business, to make it possible to establish rigid theories fitting all conditions, it is a satisfaction to find that the complaints made as to the rates of the Bell companies are comparatively few in number, and are generally based upon some special feature of the system employed in a particular locality, and not upon the scheme of rates as a whole.

The so-called Independent telephone companies, which are in competition with the Bell companies throughout the United States, have, as far as can be learned, except in a few localities, made no relative gain. It is a matter of common notoriety that many of them recognize that their situation is unstable. Comparatively few new Independent plants have been established in competition with the Bell during the past two years. A number of franchises for competing companies have been granted in various cities, but during the year 1906, and up to the present time in the year 1907, substantially no work has been done under any of the franchises in the more important places. The investors from whom Independent telephone promoters have secured money in the past are apparently less inclined than formerly to make the advances required to install telephone exchanges under the very unfavorable conditions, among others the excessive cost of material and labor and the high rates for money, which now prevail. The known financial situation of some of the larger Independent enterprises undoubtedly also operates to check such investment.

In spite of the fact that during the past year a large portion of the time and energy of the executive officers of the Bell companies has been absorbed in construction work and in the extension of the plant and business, the character of the service throughout the country has undoubtedly improved. Effort is everywhere made to keep the service at a proper standard and to improve it. The time and thought of hundreds of engineers and traffic men is devoted, not only to applying the present methods of giving service as efficiently as possible, but to finding out, by careful and intelligent study, methods of operation and of handling the business that will lead constantly to better and more efficient service. Substantial progress has been made in this direction; and while the service in this country is conceded to be the best in the world, there is every reason to believe that it can and will be improved as the result of the comprehensive and intelligent efforts that are being made to that end.

There was during the year 1906 at least the usual amount of destruction of plant by sleet storms, washouts and fire. The San Francisco catastrophe undoubtedly inflicted upon the plant of the Pacific States Company, which operates on the Pacific Coast, a greater injury than any telephone plant ever suffered before. If it had not been for this disaster, the Pacific States Company would have gained not less than thirty thousand subscribers more than it did in fact gain. The telephone plant in San Francisco has been rebuilt and the service restored to a surprising extent.

As stated in the last Annual Report, convertible 4% bonds of the company to the amount of $100,000,000 were sold in February 1906. By the terms of the contract, bonds to the amount of $30,000,000 were taken and paid for during that year. Construction work proceeded so rapidly throughout the country that, during the year, it became necessary for the company to obtain money on short-time notes to secure the funds required in anticipation of the payments on the bonds. On the first of January 1907 its short-time obligations amounted to about $21,000,000. It also became evident that if the great commercial development throughout the country, which was taxing the resources of practically every public service company, and the telephone companies almost more than any other, was to continue, the proceeds from the bonds would not be sufficient to meet the necessary expenditures of the company to the end of the year 1907, as had been expected.

In January 1907, therefore, the company sold three-year 5% notes to the amount of $25,000,000. These notes were readily placed at a price that was reasonable, in view of the abnormal financial conditions that have characterized the past year. From the proceeds of the securities sold, the floating indebtedness of the company will be paid when due, and on May 1 1907 the $20,000,000 three-year 5% notes of the company, due that day, will be paid.

The gross revenue for the year 1906 of all the Bell companies in the United States, taken as a whole and excluding duplications, was over $111,000,000. In spite of the abnormal financial conditions, which involved unusual interest charges, the very great investment in construction, much of which did not become revenue-producing during the year, and the high cost of labor and material, the net returns from the business as a whole were not reduced, although there was not the increase which would have been made if the conditions had been more nearly normal. All things considered, the financial results were satisfactory. Your Directors believe that for the year 1907 the financial results of the business of your companies will be substantially better than in the year 1906.

The gross revenue of the companies above given does not include the Bell Company of Canada, nor does it take into account the revenue of the Western Electric Company. The business of that company for the year 1906 was the largest in its history.

Appended hereto, as usual, are a series of comparative statistics showing certain phases of the development of the business of the company and its associated companies.

For the Directors,

FREDERICK P. FISH,
President.

WM. R. DRIVER *Treasurer.*

SLOSS-SHEFFIELD STEEL & IRON COMPANY.

SEVENTH ANNUAL REPORT—FOR THE FISCAL YEAR ENDED NOVEMBER 30 1906.

PRESIDENT'S REPORT.

To the Stockholders of the Sloss-Sheffield Steel & Iron Company:

Gentlemen:—In our last annual report reference was made to the unprecedented production and consumption of iron in this country, when the production was thought to be about the limit of our ability to produce. The production for the past year, however, shows a still further increase of 2,300,000 gross tons over that of the previous year, and still the consumptive capacity at work seems to have increased even greater than the production, as evidenced by the sharp advance in prices, the premium paid for spot iron and the importation of a considerable amount of iron from Europe. The great increase in production in 1905 over that of 1904 (over 6,000,000 tons) prevented any advance in prices in 1905 until the last two months of the year, when an advance of $1 per ton was established. During last year, however, with a still further production of over 2,300,000 tons, the supply was not equal to the demand, and the price of No. 2 iron at Birmingham advanced from $13 50 in June and July to $15 50 by September, which price continued to be maintained for deliveries during the first half of 1907, and in December the price was further advanced to $19 for deliveries during the third and fourth quarters of 1907, while iron for prompt delivery brought from three to four dollars per ton more.

Alabama did not share proportionately in the great increase in the production of iron, having produced only about 70,000 tons more than in 1905, when a strike of the miners at the coal mines of all the furnace companies but one in the Birmingham District more seriously interfered with the operation of the furnaces than during last year. The failure of Alabama to show a proportionate increase in production must be attributed somewhat to the scarcity of labor, but more largely to the failure of some of the railroads to handle the raw material for the furnaces, which we had occasion to refer to in our last report. The labor situation was somewhat improved during the year, but some of the railroads seemed less able to handle their business than during the previous year, and your furnaces were frequently banked for from a few hours to a day for the want of coke, when train loads of it were standing on sidings within a few hours' run of the furnaces, which, despite our every effort, it seemed impossible to get placed in time. This, of course, decreased your output of iron, added to the cost and produced bad working of the furnaces.

The problem of handling the furnace material in this State, as well as other freights, is a serious one, for while the railroads are beginning to realize that additional facilities must be provided, adverse legislation, both national and State, is rendering it difficult for the railroad companies to secure the money necessary to make these improvements.

The furnaces of your Company produced 31,000 tons less iron than in 1905, while the output of coal fell off 90,000 tons, and that of coke 20,000 tons, which must be attributed entirely to the causes before enumerated.

The profits for the year were further curtailed by the failure to secure cars for the shipment of pig iron, which forced us to carry over into the present year a large tonnage.

Altogether last year was a most trying one in many ways, certainly for those in the iron and steel business in the South, and it would seem that the South, at least, was undertaking to handle more business than can be done profitably. A striking illustration of this is the heavy increase in gross earnings of many of the railroads and the large decrease in net earnings. Your Company earned about $200,000 less than in 1905, although the delivery price of iron averaged eighty-five cents a ton more, which was due to the higher cost, caused to a great extent by our inability to get the railroad service which we should have had. The marked advance in the price of iron did not take place until about the close of your fiscal year, and as your Company had sold large amounts of iron for future delivery at prices prevailing during the earlier months of the year, the average price of our deliveries during the year was below $13 00.

The strike of our coal miners, which continued for over two years, was officially declared off last August, and the mines are now being operated on the open-shop basis.

Notwithstanding the adverse conditions prevailing, the net earnings of your Company during the year, after deducting for depreciation, charging off to cost a fair proportion of the amounts expended for improvements to your plants, a very considerable amount to cover extraordinary expenses growing out of the strike of your miners, and other things which should not occur again, were sufficient to pay the full dividends on both the preferred and common stocks and carry a small amount to surplus account, which, as will be seen by statement attached, is now $2,723,322. The working capital shows a decrease of a little over $200,000, which must be accounted for by the large amounts spent during the year in opening new coal and ore mines ($183,000 having been spent on one coal mine), improving your furnaces, providing additional equipment in the way of steam shovels, dinkey locomotives and large side dump tram cars for the brown ore mines at Russellville and paying for the one-third interest in the North Alabama Furnace Company. As no new securities are issued to meet the payments for such improvements, they must be paid out of earnings or Working Capital. The latter is still more than ample for all the requirements of the Company, and more than double the amount provided and thought to be much more than sufficient at the time the Company was organized.

BLAST FURNACES.

No. 2 furnace was out of blast from December 15 1905 to July 3 1906, during which time it was refitted.

The Philadelphia furnace was put out of commission July 1 1906, and has since then been undergoing repairs, and additional boilers, a new stove and skip hoist, with other improvements, are being installed.

The Lady Ensley furnace was put in repair while out of blast during the spring and early summer, and went into blast July 1.

Your other furnaces operated during the entire year.

An additional stove was built during the year at both the Hattie Ensley and Lady Ensley furnaces. During the year your Company bought the one-third interest owned by outside parties in the North Alabama Furnace Company, including the bonds, so that you now own all of the bonds and the entire Capital Stock of that Company.

COAL MINES.

The heavy construction work at Bessie Mine has been practically completed, and the output of the mine is steadily increasing, as the slope is extended, providing more working places.

A considerable amount was spent during the year at Flat Top Mine in improving conditions there, and the results of operation are already more satisfactory than they had recently been, and we hope a still further improvement will be shown in the near future.

Smaller amounts have been spent at other mines and charged against the cost of coal.

Your Executive Committee towards the close of the fiscal year made large appropriations for new work at Ivy and No. 1 Blossburg mines, including at the former the building of a new washer, a new tipple, changing the tracks, etc.; but as yet nothing more than preliminary work has been done, as the work must be carefully considered and planned and an agreement reached with the railroad company regarding a change of the tracks.

During the strike of the miners several of your smaller mines, among them Crocker Hollow, Cardiff and E Mine at Coalburg, were closed down, but they were all put in operation again during the year.

IRON ORE MINES.

The slope on the Irondale vein of ore at your Ruffner No. 1 Mine is being steadily driven, and we are now loading ore from both the Irondale and "Big Seam" veins, over one tipple, and ore is being loaded in the cars, crushed, at a moderate cost. As the work has progressed we have been more and more impressed with the value of this mine, and Prof. Prouty, Assistant State Geologist, in a carefully prepared interview refers to it as "the already famous mine." Additional houses were built there for the accommodation of miners.

A new compressor was installed at Sloss Mines, and the foundations are being built preparatory to assembling all of the compressors for both slopes under one roof.

Under the appropriation made by the Executive Committee in October, a new washer is under construction at your Russellville brown ore mines (making five), the Central pumping station is being entirely overhauled and changes made, one and a quarter miles of standard railroad track is being constructed, additional boilers installed, and other construction work is being done, while the equipment there has been increased during the year by the addition of four steam shovels (making twelve), seven dinkey locomotives (making twenty) and fifty-four large side-dump tram cars; and three more dinkeys and forty tram cars will be added in the near future. The operation of these mines for the past year was not satisfactory. The output decreased 17,000 tons, and the cost of the ore was too great. A change of management was made towards the close of the year, and we hope for better results during the present year.

Herewith are published statements of Resources and Liabilities, of Earnings, Gross Receipts and Expenditures, and Working Capital in business.

Respectfully submitted, by order of the Board of Directors.

J. C. MABEN,
President.

Birmingham, March 1907.

—We invite our readers' attention to the advertisement in to-day's issue of N. W. Harris & Co. of this city, offering investors $400,000 Laclede Gas Light Co. 5% 30-year gold bonds, due April 1 1954. This company operates under perpetual franchises, and owns and controls the entire gas business of the city of St. Louis, the fourth largest city in the United States. Circular on request.

—William H. Case and John N. Cutler will have personal charge of the branch office which C. Schumacher & Co. of 25 Broad Street have opened this week on the first floor of the Tribune Building at Park Row. This new office, opposite City Hall Park, is very convenient to Brooklyn Bridge and has all the New York Stock Exchange facilities, the same as the down-town headquarters of the concern.

—Denison & Farnsworth have issued an April circular describing at length a number of municipal bond issues, legal investments for savings banks, to which they invite the attention of investors. The firm have offices at 24 Milk St., Boston; Guardian Building, Cleveland, and Drexel Building, Philadelphia, to any of which offices requests for the circulars may be made.

—J. M. Fiske & Co., 12 Broadway, members of the New York Stock Exchange, announce the opening of a branch office in the Empire Arcade, corner 59th St. and Madison Ave. E. L. Gilbert, formerly a member of the New York Stock Exchange and a curb broker since 1893, with Goodwin D. Evans, will have the joint management of the firm's uptown office.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, April 5 1907.

Trade is still good, prices are very generally steady, the money market has become easier and in the world of general business confidence is still the dominant note.

Stocks of Merchandise.	*April 1 1907.*	*March 1 1907.*	*April 1 1906.*
Lard tierces	6,250	7,325	5,538
Cocoa bags	12,500	8,500	15,500
Coffee, Brazil bags	3,392,893	3,327,108	3,500,738
Coffee, Java mats	264,220	248,300	131,796
Coffee, other bags	245,153	265,823	401,396
Sugar hogsheads	none	none	none
Sugar bags, &c.	none	none	875,865
Hides No.	2,250	2,850	5,500
Cotton bales	170,071	146,260	160,160
Rosin barrels	12,871	15,150	22,721
Spirits turpentine barrels	968	713	1,035
Tar barrels	1,949	1,540	962
Saltpetre bags	3,600	3,000	1,319
Manila hemp bales	26,500	12,232	42,515
Sisal hemp bales	3,950	2,650	5,567
Flour barrels and sacks	76,900	64,600	126,500

LARD on the spot has ruled steady. The demand has increased slightly, but is still of small proportions. City 8¾c. and Western 9.10@9.15c. Refined lard has been steady with trade quiet. Refined Continent 9.50c., South America 10.25c. and Brazil in kegs 11.25c. The market for lard futures at the West has shown irregularity, but the fluctuations in prices have been within moderate limits.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	*Mon.*	*Tues.*	*Wed.*	*Thurs.*	*Frt.*
May delivery	8.95	9.02½		8.95	8.85	8.92½
July delivery	9.05	9.15	Holl-	9.05	8.97½	9.02½
September delivery	9.12½	9.22½	day.	9.15	9.05	9.12½

PORK on the spot has been easy but changes in quotations have not been marked. Trade has been quiet. Mess $17 50@$18 25, clear $17 25@$19 25 and family $19 50@$20. Cut meats have been somewhat firmer in tone, owing to the smallness of supplies, but where advances have been made they have been mainly nominal, sales during the week having been extremely small. Pickled shoulders 9¾@10c., pickled hams 12@12⅝c. and pickled bellies, 14@10 lbs., 10½@11c. Tallow has been dull and easier at 6½@6⅝c. for City. Stearines have been quiet and steady. Oleo 9½c. and Western 10c. Butter has been in moderate demand and steady; creamery, extras, 30½@31c. Cheese has been quiet but firm, with stocks small; State factory, fancy, 15c. Eggs have been active and easier; Western firsts 16½@16¾c.

OIL.—Cottonseed has been quiet and easier. Prime summer yellow 45@46c. and prime winter yellow 51c. Linseed has been dull. The tone has been easier of late but prices are not quotably changed. City, raw, American seed, 42@43c.; boiled 43@44c. and Calcutta, raw, 70c. Lard has been quiet but firmer; prime 77@79c. and No. 1 extra 58@60c. Olive has been moderately active and irregular; yellow 80@90c. and green 70@75c. Cocoanut has been quiet and steady; Cochin 10¾c. and Ceylon 9⅞@10c. Peanut has been quiet and steady; yellow 50@60c. Cod has been quiet; domestic 38@40c. and Newfoundland 10@12c.

COFFEE on the spot has been quiet and steady. Rio No. 7, 6⅞@7c., and Santos No. 4, 8⅛@8¼c. West India growths have been quiet and steady; fair to good Cucuta 8½@9½c. The market for future contracts has been dull but firm. There has been an absence of selling pressure, and small purchases for local and Wall Street account.

The closing prices were as follows:

March	5.80c.	July	5.75c.	November	5.70c.
April	5.85c.	August	5.75c.	December	5.70c.
May	5.70c.	September	5.75c.	January	5.75c.
June	5.80c.	October	5.70c.	February	5.75c

SUGAR.—Raw has been firm in the main. Offerings have been light and refiners have been moderate buyers of Cubas for late April and May shipment. Centrifugal, 96-degrees test, 3.58c.; muscovado, 89-degrees test, 3.11c., and molasses, 89-degrees test, 2.86c. Refined has been moderately active and firm; granulated 4.60@4.70c. Teas have been fairly active and steady. Spices have been in moderate jobbing demand and firm. Hops have been more active and steady.

PETROLEUM has been active and firm. Refined, barrels, 8.20c.; bulk 4.75c. and cases 10.65c. Naphtha has been active and firm; 73@76 degrees 8c. in 100-gallon drums. Gasoline has been active and steady; 86 degrees 21c. in 100-gallon drums. Spirits of turpentine has been dull and weak at 72@72½c. Rosin has been fairly active and firm; common to good strained $4 55.

TOBACCO.—The market for domestic leaf has continued quiet. A rather better demand is noted for light Connecticut wrappers, however, as they are considered relatively cheaper than other varieties. Havana has been dull and firm. At the last Sumatra inscription lower prices prevailed, the new crop being of unsatisfactory quality, and as a consequence an increased demand is reported for the old crop.

COPPER has been quiet and easier; lake 24¾@25c., electrolytic 24¼@24½c. Lead has been dull and easier at 6.10c. Spelter has been quiet and easy at 6.75@6.80c. Tin has been quiet and easier; Straits 39¼c. Iron has been steady and more active; No. 1 Northern $23 20@$24 70, No. 2 Southern $22 75@$24.

COTTON.

Friday Night, April 5 1907.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 109,008 bales, against 136,702 bales last week and 159,389 bales the previous week, making the total receipts since the 1st of September 1906, 8,920,481 bales, against 6,754,997 bales for the same period of 1905-06, showing an increase since Sept. 1 1906 of 2,165,484 bales.

Receipts at—	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.	Total.

Speculation in cotton for future delivery has been on a very small scale and prices have been irregular within a correspondingly contracted compass, the net changes for the week being trifling. For a time they declined, owing to a steady fall of quotations in Liverpool, rather more favorable weather in the Southwest, needed rains falling in some sections, and, finally, a dribbling out of cotton from discouraged bulls. Moreover, last week's statistics, showing a much smaller decrease in the visible supply than for the same time last year, and disappointingly light spinners' takings, were by no means unheeded, and had, in fact, a noticeably depressing influence for a time. By the middle of the week, however, reports began to be circulated to the effect that exhaustion of supplies was imminent in Texas, Oklahoma and Arkansas, and late Wednesday afternoon a sudden move against the shorts by leading bull interests here, accompanied by reports of rather liberal buying in this market by St. Louis spot interests led to a sharp advance, considering the narrowness of the market. Moreover, of late the receipts both at the ports and the interior towns have been running behind those of two years ago with sufficient regularity to encourage the bulls to believe that the long predicted falling off in the crop movement had actually set in. It looked, however, as though the rise of Wednesday and Thursday was due in no small degree to bull manipulation and covering by Board-room shorts, including some who have been rather prominently identified with the bear side. One great drawback has been the smallness of the "future" trading, the outside public holding aloof more resolutely than ever, a fact which has neutralized to a large extent any decrease in the receipts, the rise of late in Liverpool and the favorable reports in regard to the dry goods trade, the large cotton exports and decreasing interior stocks. To-day a decline occurred of 8 to 10 points, owing partly to the fall of needed rains in Texas, Arkansas and Tennessee, and, in fact, it would appear, rather generally in the lower Mississippi Valley. Moreover, Liverpool showed a reactionary tendency and the demand from the shorts here fell off noticeably. The weather and crop news from some parts of the South is that the season is more advanced than usual and the belief here is very general that an increase will be made in the acreage, while some of the reports coming to hand indicate that the sales of fertilizers are larger than recently. Houston's estimated receipts for to-morrow were so large as to excite comment, but the rains in Texas and the dulness of speculation were the most depressing factors. There is also said to be some disposition to sell futures here against low grades at the South. The stock of cotton here is gradually increasing. Spot cotton has been dull. Middling closed at 11c., showing an advance for the week of 5 points.

The rates on and off middling, as established Nov. 21 1906 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

Fair	2.00 on	Strict low mid.	0.14 off	Middling tinged	0.12 off
Strict mid. fair	1.75 on	Fully low mid	0.32 off	Strict low mid. tinged	0.46 off
Middling fair	1.50 on	Low middling	0.50 off	Low mid. tinged	0.90 off
Barely mid. fair	1.25 on	Barely low mid	0.70 off	Strict g'd ord. tinged	1.25 off
Strict good mid	1.00 on	Strict good ord	0.90 off	Fully mid. stained	0.42 off
Fully good mid	0.88 on	Fully good ord	1.07 off	Middling stained	0.50 off
Good middling	0.76 on	Good ordinary	1.25 off	Barely mid. stained	0.78 off
Barely good mid	0.57 on	Strict g'd mid. tgd.	0.30 on	Strict low m. stain.	1.50 off
Strict middling	0.38 on	Good mid. tinged	Even	Fully l. m. stained	1.75 off
Middling	Basis	Strict mid. tinged	0.06 off	Low mid. stained	2.00 off

On this basis the official prices for a few of the grades for the past week would be as follows:

UPLANDS.	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.

Continental imports past week have been 113,000 bales.

The above figures for 1907 show a decrease from last week of 56,643 bales, a gain of 789,801 bales over 1906, an excess of 1,092,582 bales over 1905 and a gain of 2,178,943 bales over 1904.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period for the previous year—is set out in detail below.

Towns.	Movement to April 5 1907.				Movement to April 6 1906.

The above totals show that the interior stocks have *decreased* during the week 18,795 bales, and are to-night 13,817 bales less than at the same time last year. The receipts at all the towns have been 14,657 bales more than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

	1906-07		1905-06	
April 5—	Week.	Since Sep. 1.	Week.	Since Sept. 1.
Shipped—				
Via St. Louis	13,424	672,931	11,432	412,445
Via Cairo	4,061	196,665	4,589	180,268
Via Rock Island	2,284	68,389	750	40,344
Via Louisville	1,652	71,153	2,811	81,054
Via Cincinnati	1,172	47,361	551	46,998
Via other routes, &c	22,487	393,824	8,473	212,960
Total gross overland	45,080	1,450,323	28,606	974,069
Deduct shipments—				
Overland to N. Y., Boston, &c	4,719	142,913	3,062	123,597
Between interior towns	9,547	68,741	589	17,348
Inland, &c., from South	5,439	48,720	2,753	34,954
Total to be deducted	19,705	260,374	6,404	175,899
Leaving total net overland *a*	25,375	1,189,949	22,202	798,170

a Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 25,375 bales, against 22,202 bales for the week last year, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 391,779 bales.

	1906-07		1905-06	
In Sight and Spinners' Takings.	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Receipts at ports to April 5	109,008	8,920,181	109,253	6,751,997
Net overland to April 5	25,375	1,189,949	22,202	798,170
Southern consumption to April 5	48,000	1,466,000	46,000	1,433,000

WEATHER REPORTS BY TELEGRAPH.—Our advices by telegraph this evening from the South denote that the weather has been fairly favorable during the week. Rain has been quite general, and as a rule has been beneficial. A cold wave is reported from some sections, but no complaint of damage is made. Farm work is making good progress and the putting in of seed is being actively prosecuted in many districts.

Galveston, Texas.—The week's rain was very favorable and beneficial in Texas. Preparations for the crop are well in hand compared with previous seasons. Rain has fallen on two days of the week, to the extent of one inch and twenty-six hundredths. Average thermometer 66, highest 76, lowest 56.

Fort Worth, Texas.—There has been rain on three days of the past week, the rainfall being twenty-six hundredths of an inch. The thermometer has averaged 62, the highest being 84 and the lowest 40.

Palestine, Texas.—Rain has fallen heavily on two days of the week, the precipitation being two inches and sixty-eight hundredths. The thermometer has averaged 59, ranging from 44 to 74.

Taylor, Texas.—It has rained on three days of the week, the precipitation reaching one inch and fifty-six hundredths. The thermometer has ranged from 42 to 78, averaging 60.

San Antonio, Texas.—Rain has fallen on one day during the week to the extent of one inch and fifty-eight hundredths. Average thermometer 64, highest 82, lowest 46.

Corpus Christi, Texas.—Rain has fallen on one day of the past week, to the extent of thirty hundredths of an inch. The thermometer has averaged 65, the highest being 76 and the lowest 54.

Abilene, Texas.—We have had a trace of rain on one day during the week. The thermometer has averaged 63, ranging from 38 to 88.

New Orleans, Louisiana.—It has rained on two days during the week, the rainfall being one inch and seventy-seven hundredths. Average thermometer 63.

Shreveport, Louisiana.—We have had rain on three days during the week, the precipitation being sixty-three hundredths of an inch. The thermometer has averaged 58, the highest being 74 and the lowest 42.

Leland, Mississippi.—It has rained during the week, the precipitation reaching ninety-three hundredths of an inch. The thermometer has ranged from 33 to 82, averaging 55.7.

Vicksburg, Mississippi.—Rain has fallen on four days of the week. The rainfall reached one inch and seven hundredths. Average thermometer 60, highest 82, lowest 40.

Helena, Arkansas.—The river is high but falling. This week's rain was beneficial. There has been rain on two days the past week to the extent of one inch and forty-three hundredths. The thermometer has averaged 57, the highest being 73 and the lowest 40.

Little Rock, Arkansas.—Farm work is progressing fairly well, but some interference on account of rain. Rain has fallen on one day of the week, the precipitation being one inch and fifty hundredths. The thermometer haf averaged 58, ranging from 38 to 78.

Memphis, Tennessee.—Farm work has made good progress and planting has begun. It has rained on three days of the week, the precipitation reaching ninety-three hundredths of an inch. The thermometer has ranged from 36.2 to 78, averaging 56.2.

Nashville, Tennessee.—We have had rain the past week, the rainfall being seventy hundredths of an inch. Average thermometer 55, highest 78, lowest 32.

Mobile, Alabama.—Rain in the interior early part of week, followed by cold wave and frost. Cotton planting is making good progress in some sections but is going ahead slowly in others. We have had rain on one day during the week, the precipitation being fifty hundredths of an inch. The thermometer has averaged 62, the highest being 78 and the lowest 41.

Montgomery, Alabama.—Everything is progressing well. There has been rain on one day of the week, to the extent of seventy-nine hundredths of an inch. The thermometer has averaged 59, ranging from 37 to 84.

Madison, Florida.—Rain has fallen on one day of the week, to the extent of seventy-five hundredths of an inch. Average thermometer 59, highest 85, lowest 35.

Savannah, Georgia.—Rain has fallen on two days of the week, the precipitation being one inch and eight hundredths. The thermometer has averaged 59, ranging from 40 to 91.

Augusta, Georgia.—Frost with ice in this section has killed some cotton. There has been rain on two days of the past week, the rainfall being fifty-seven hundredths of an inch. The thermometer has averaged 58, the highest being 90 and the lowest 34.

Charleston, South Carolina.—It has rained on two days of the week, the precipitation reaching one inch and thirteen hundredths. The thermometer has ranged from 37 to 91 averaging 58.

Greenwood, South Carolina.—Rain has fallen on one day during the week, to the extent of eighty-two hundredths of an inch. Average thermometer 57, highest 70, lowest 45.

Stateburg, South Carolina.—Rain in showers on Sunday to the extent of one inch and two hundredths, accompanied by thunder in various directions nearly all day. A cold wave followed with high northeast wind for two days. The thermometer has averaged 60, the highest being 91 and the lowest 32.

Charlotte, North Carolina.—There has been rain the past week, the rainfall being sixty-eight hundredths of an inch. The thermometer has ranged from 31 to 89, averaging 55.

The following statement we have also received by telegraph, showing the height of rivers at the ports named at 8 a. m. of the dates given:

		April 5 1907. Feet.	April 6 1906. Feet.
New Orleans	Above zero of gauge.	16.6	14.3
Memphis	Above zero of gauge.	34.7	33.1
Nashville	Above zero of gauge.	10.3	27.8
Shreveport	Above zero of gauge.	5.2	13.8
Vicksburg	Above zero of gauge.	44.6	38.8

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts of cotton at Bombay and the shipments from all India ports for the week and for the season from Sept. 1 for three years have been as follows:

April 4. Receipts at—	1906-07.		1905-06.		1904-05.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Bombay	140,000	2,005,000	81,000	1,952,000	80,000	1,730,000

Exports from—	For the Week.			Since September 1.		
	Great Britain.	Continent.	Total.	Great Britain.	Continent.	Total.
Bombay—						
1906-07	1,000	64,000	65,000	34,000	688,000	722,000
1905-06	----	11,000	11,000	43,000	523,000	566,000

Calcutta—						
1906-07	----	5,000	5,000	4,000	77,000	81,000
1905-06	----	4,000	4,000	5,000	67,000	72,000
1904-05	----	----	----	1,000	17,000	18,000
Madras—						
1906-07	----	----	----	2,000	19,000	21,000
1905-06	----	----	----	2,000	34,000	36,000
1904-05	----	----	----	2,000	12,000	14,000
All others—						
1906-07	----	3,000	3,000	7,000	71,000	78,000
1905-06	----	7,000	7,000	10,000	77,000	87,000
1904-05	----	6,000	6,000	7,000	79,000	86,000
Total all—						
1906-07	1,000	72,000	73,000	47,000	855,000	902,000
1905-06	----	22,000	22,000	60,000	701,000	761,000
1904-05	----	32,000	32,000	24,000	316,000	340,000

According to the foregoing, Bombay appears to show an *increase* compared with last year in the week's receipts of 59,000 bales. Exports from all India ports record a gain of 51,000 bales during the week and since Sept. 1 show an *increase* of 141,000 bales.

JUTE BUTTS, BAGGING, &c.—The market for jute bagging has been without animation the past week. Prices, however, are nominally unchanged at 9⅛c. for 2 lbs., standard grades. Jute butts dull at 3@4c. for bagging quality.

WORLD'S SUPPLY AND TAKINGS OF COTTON.

The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Sept. 1, for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amount gone out of sight, for the like period.

Cotton Takings, Week and Season	1906-07.		1905-06.	
	Week.	*Season.*	*Week.*	*Season.*
Visible supply on March 29	5,372,102		1,659,871	
Visible supply Sept. 1	-	1,784,156		2,715,170
American in sight to April 5	163,588	11,947,073	141,939	9,341,726
Bombay receipts to April 4	140,000	2,005,000	81,000	1,952,000
Other India ship'ts to April 4	8,000	180,000	11,000	195,000
Alexandria receipts to April 3	3,000	901,000	4,000	772,000
Other supply to April 3 *a*	2,000	222,000	16,000	343,000
Total supply	5,688,690	17,039,229	4,913,810	15,139,196
Deduct—				
Visible supply April 5	5,315,459	5,315,459	4,525,658	4,525,658

BREADSTUFFS.

Friday, April 5 1907.

Prices for wheat flour have been heavy, and not a few grades have shown moderate reductions of late. This sagging tendency has been due to the continued stagnation of trade, buyers still taking only enough flour to fill immediate requirements. Similar conditions have been reported at the leading centres of the Northwest and the Southwest. The firmness of wheat quotations and the reports of crop damage have had no effect on the flour trade. Export business has been at a standstill, though the clearances of flour from the seaboard of late have increased. Rye flour and corn meal have been quiet and steady.

Wheat has been under the influence to some extent of reports of damage to the crop in the Southwest, partly from drought and partly from green bugs. Moreover, the world's shipments have shown a noteworthy diminution, while the world's visible supply has decreased much more rapidly than in the previous week, even if the decrease is not so great as that of a year ago. Then, too, whereas an increase in the American visible supply had been expected, a decrease occurred of some 940,000 bushels as contrasted with an increase in the previous week of some 200,000 bushels. The crop in Roumania seems to be more or less threatened by the revolution, and prices at Buda Pesth have advanced sharply for April delivery. A decrease has latterly occurred in the Argentine visible supply, and Liverpool, which had been rather apathetic, has within a day or two shown a rising tendency. On the other hand, bears dilate on the big stock at Chicago, the supply there being nearly 15,000,000 bushels, or about double that of a year ago, while of contract grade it amounts to 9,905,000 bushels against 4,869,000 a year ago. Also the movement of the crop is large, Northwestern receipts being particularly heavy, stocks there are increasing and the export demand is slack. Flour, too, is dull and weak, and, in a word, about the only sustaining factor has been the reports of damage to the crop in this country, notably at the Southwest, and even these have been to some extent contradicted. It is usually pretty safe to allow for exaggeration in such reports, though some insist that, what with drought and green bugs, some parts of the Southwest have suffered more or less seriously. To-day prices advanced, owing mainly to unfavorable crop reports from the Southwest. These reports led to active buying for both long and short account. Damage reports were received from Kansas.

Indian corn futures have been irregular during the week, though the trading has been on a rather restricted scale. At times prices have been strengthened by the rise in wheat and the smallness of contract stocks at Chicago. Bulls have given more or less support and shorts have covered. On the other hand, the cash demand has been light at declining prices. Moreover, leading bull interests have liquidated at times, and there has been little inclination among commission houses to take the long side. Larger receipts are expected by many. To-day prices advanced, owing to the strength of wheat, small receipts of contract grade, support from leading bulls and covering of shorts.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN IN NEW YORK.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.

September delivery in elevator	46 ⅝	46 ⅜	day.	46 ⅜	46 ⅜	46 ⅞

Oats for future delivery in the Western market have been easier during the week, owing to liquidation attributed to the bull clique. Cash interests have sold, and the cash demand has been small at easier prices. There has been an absence of aggressive selling for the decline, however, owing to the fear of bull manipulation. The stock of contract grade at Chicago, moreover, continues small, and some of the crop reports from the Southwest have been distinctly unfavorable. To-day prices advanced on the rise in wheat, bullish crop reports, bull support and covering of shorts.

THE DRY GOODS TRADE.

New York, Friday Night, April 5 1907.

The dry goods market has ruled very firm this week, with no indications of weakness in any quarter. Trading in cotton goods has been somewhat lighter and of a more normal character than recently, but the lull has caused no apprehension; in fact, selling agents and commission merchants welcome any quiet period which will give them an opportunity to catch up on back orders, and the well-sold-up condition of practically all lines is against the development of easier prices. The present quietness in cotton goods is due largely to the great scarcity of goods available for immediate or near-by shipment, many houses being unable to accept further orders, and to the uncertainty as to future deliveries. Demand for spot cottons continues active, but is not quite so keen as recently. Sellers have no difficulty in getting top prices on all additional business, while premiums are still being paid for quick delivery where goods are available. Not a few new orders, however, have been declined on prints, bleached and other cotton goods because of the scarcity at first hands. A large spring business is being done in silk piece-goods; demand is increasing and prices tending upward; the outlook for the fall silk trade is unusually bright. A feature of the week has been the shortening of discounts on prints. On woolens, in both men's and women's wear, advances named over opening values are being obtained on re-orders for fall. The shortage in underwear and hosiery lines continues acute, with no abatement in the demand; underwear houses are already booking orders for spring of 1908 at current prices. Dress goods are rather quiet, owing to the between-seasons period. Export trade is still practically at a standstill.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending March 30 were 3,218 packages, valued at $205,967, their destination being to the points specified in the tables below:

	1907		1906	
New York to March 30.	*Week.*	*Since Jan. 1.*	*Week.*	*Since Jan. 1.*
Great Britain	46	718	19	266
Other European	----	170	14	534
China	----	6,191	----	27,134
India	50	4,022	100	3,729
Arabia	50	14,733	----	8,221
Africa	5	2,989	78	2,548
West Indies	551	6,504	626	6,308
Mexico	20	632	96	601
Central America	354	3,490	291	1,419
South America	1,450	13,055	634	15,123
Other countries	692	11,131	461	3,971
	3,218	64,635	2,319	72,854

The value of these New York exports since Jan. 1 has been $3,979,653 in 1907, against $4,103,925 in 1906.

All lines of domestic cottons are in a very strong position; supplies are inadequate and any goods available for immediate shipment are quickly taken at top prices or better. Bleached goods are especially scarce and strong, and further advances are expected in the near future. An increased demand has developed for eight-ounce osnaburgs. Colored cottons of all descriptions are short, especially for fall delivery, and command high prices, while fancy cottons are more closely sold up than they have been in years. Some lines of shirtings have been withdrawn, but fair supplies are still available. Ginghams continue active, sales of fine dress ginghams having been made for spring 1908. The print-cloth market has been quiet but generally strong, with some improvement in the demand for narrow goods. Much complaint is heard over delayed deliveries. Wide goods for spot delivery have been sold to a limited extent on a 7c. basis, or 1/16c. lower than last week; but this figure is considered largely nominal. Linings are stronger and stocks further depleted. Napped goods are in a firmer position, with indications of higher prices. A feature of the week was the further shortening of discounts on staple prints, which are now quoted at 6c., five off. The export trade shows no improvement, only a few small orders having been received from South America and some inquiries from Red Sea ports.

WOOLEN GOODS.—Men's wear agents will soon show low-grade 3/4 goods for the spring of 1908, and it is quite generally expected that prices on the low-grade woolens will show material advances, owing to the increased cost of clothing wool. Almost a normal yardage has already been booked on the heavy-weight lines for fall; on fancy woolens the business for fall of 1907 is heavier than in any recent season, while manipulated fabrics are being re-ordered in large volume. A normal trade has come forward on high-grade fancy worsteds, but business in the lower grades is below that of the past two seasons. Mercerized worsteds have been taken freely by Western clothiers. Staple and fancy overcoatings have moved well, but trading on fall lines is not up to the average. The dress goods market is quiet. Light-weight lines for spring and summer use are well sold up; some buying is still in evidence for this season's requirements, but the volume of this business is small, as little stock remains in first hands. Initial orders have been placed for fall and re-orders are now awaited. Woolen fabrics, especially in high-color plaids and checks, are prime favorites for fall, the demand for fine fancy woolens being very heavy. Broadcloths, panamas and voiles are also in strong favor. Fall buying of cloakings and special wrap materials is progressing steadily, buyers paying full asking prices, which are much higher than last season.

FOREIGN DRY GOODS.—Linens show little change; the scarcity of goods is as pronounced as ever, and importers are receiving little encouragement from manufacturers' representatives as to improved deliveries; linen crashes show an advance of 1/2c. over recent quotations and are hard to secure even at the new prices. Burlaps continue strong and active. Imported woolens and worsteds are firm and moving in good volume. An increased demand has developed for imported white goods.

Importations and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending Mar. 30 1907 and since Jan. 1 1907, and for the corresponding periods of last year, are as follows:

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JAN. 1 1907 AND 1906.

	Week Ending March 30 1907.		Since Jan. 1 1907.		Week Ending March 31 1906.		Since Jan. 1 1906.

State and City Department.

MUNICIPAL BOND DISPOSALS IN MARCH.

The aggregate of municipal bond disposals in March reached $9,849,320, the smallest output for that month since 1903. This total does not include negotiations of temporary loans to the amount of $3,072,975 or Canadian securities aggregating $2,234,924.

The drift towards higher interest rates, which has been a feature for some time past, was further illustrated by the failure of several large cities to sell their bonds at the former rates of interest. Thus, Philadelphia's offering on March 18 of $5,000,000 3½s attracted only one bid of par, and this was for but $125,000 of the bonds. In 1904 Philadelphia was not only able to sell 3½s, but succeeded in obtaining a premium sufficient to reduce the interest basis to 3.44½%, while in 1900 a large block of 3s was placed at a premium. St. Louis, Mo., was no more successful on March 18 with eight issues of 3.65% bonds, aggregating $3,000,000, no bids at all being the result in this case. In 1905 that city sold $1,000,000 3½s at 103.78—a basis of about 3.212%. Louisville, Ky., and Seattle, Wash., also failed to dispose of large issues of water bonds. In justice, however, to these latter cities, it is proper to say that the securities in their cases were not direct obligations, but liens upon the water plants and, therefore, not so desirable as regular city issues.

The number of municipalities emitting bonds and the number of separate issues made during March 1907 were 188 and 232 respectively. This contrasts with 137 and 207 for Feb. 1907 and with 161 and 207 for March 1906.

For comparative purposes we add the following table showing the aggregates for March and the three months for a series of years:

	Month of March.	For the Three Mos.		Month of March.	For the Three Mos.
1907	$9,849,320	$57,747,378	1899	$5,507,311	$18,621,586
1906	20,332,012	57,030,249	1898	6,309,351	23,765,733
1905	17,980,922	35,727,806	1897	12,488,809	35,571,062
1904	14,723,524	46,518,646	1896	4,219,027	15,150,268
1903	9,084,046	30,176,768	1895	4,915,355	21,026,942
1902	7,989,232	31,519,536	1894	5,080,424	24,118,813
1901	10,432,241	23,894,354	1893	6,994,246	17,504,423
1900	8,980,735	34,492,466	1892	8,150,500	22,264,431

Owing to the crowded condition of our columns, we are obliged to omit this week the customary table showing the month's bond sales in detail. It will be given next week.

News Items.

Chicago, Ill.—*Trolley Franchise Ordinance Ratified.*—The election April 2 resulted in the adoption of the ordinances granting franchises to the present street railway companies. These ordinances provide for an expenditure by the trolley companies of many millions to improve the transportation facilities; also permit the purchase of the trolley lines by the city at any time upon payment of fifty millions of dollars in addition to the cost of rehabilitating the lines. See V. 84, p. 403; also item headed Chicago Union Traction Co. in our Investment Department on a preceding page.

Colorado.—*Legislature Adjourns.*—The Legislature of this State adjourned on April 1.

Maine.—*Legislature Adjourns.*—The seventy-third Legislature of the State of Maine adjourned on March 28.

Massachusetts.—*Street Railway Bonds Legal for Savings Banks.*—In this column several weeks ago (page 461) we gave a list of the street railways meeting the requirements of Chapter 463, Laws of 1906, and in the bonds of which therefore, Massachusetts savings banks are allowed to invest, subject to the approval of the Bank Commissioner. With this list as a basis, the Bank Commissioner has named the following bonds which he "deems good and safe securities for the investments of savings banks and institutions for savings:"

Name of Company.	Character of Bonds.	Int. Rate.	Date of Issue.	Date of Maturity.
Athol & Orange St. Ry. Co.	First mort.	5	Jan. 1 1895	Jan. 1 1915

Porto Rico.—*Bond Sale.*—J. & W. Seligman & Co. announce that the $1,000,000 4% bonds of Porto Rico for which bids were invited up to April 3 (see advertisement in our issue of March 23) have been allotted as below:

Muller, Schall & Co., as agents for the American Colonial Bank, Porto Rico, San Juan $230,000
National Bank of Fort Wayne, Ind 40,000
Flck & Robinson (the remainder) 730,000

The bonds were sold at an average price of 104.89, being about a 3 7-16% basis. A large number of bids was received. See V. 84, p. 705 for full description of bonds.

Bond Proposals and Negotiations this week have been as follows:

Allen Township, Darke County, Ohio.—*Bond Sale.*—On March 16 the $1,500 5% 1-3-year (serial) coupon town-hall bonds a description of which was given in V. 84, p. 644, were awarded to T. A. Donovan at 102.01—a basis of about 3.93%.

Allentown School District (P. O. Allentown), Lehigh County, Pa.—*Bond Sale.*—On March 26 the $109,500 4% coupon school bonds described in V. 84, p. 644, were awarded to local people at prices ranging from 100.31 to 102.50. The largest purchaser was the Lehigh Valley Trust & Safe Deposit Co. of Allentown, it taking $57,000 of the issue.

Alma, Harlan County, Neb.—*Bonds Not Sold.*—The $7,000 5% electric-light bonds offered on Feb. 8 have not yet been sold.

Asheville, Buncombe County, No. Car.—*Bond Sale.*—On March 27 the $30,000 30-year coupon school bonds described in V. 84, p. 705, were awarded to the Provident Savings Bank & Trust Co. at 103.261 for 5%s—a basis of about 4.794%.

Ashland School District, Ashland County, Ohio.—*Bond Sale.*—On April 1 the $20,000 5% 11-year (average) school-building bonds described in V. 84, p. 644, were awarded to the First National Bank of Ashland at 110.05 and accrued interest—a basis of about 3.87%.

Beaumont, Jefferson County, Tex.—*Bond Sale.*—On April 2 the $75,000 sewerage, $25,000 school-building, $5,000 school-repair and $25,000 paving 5% bonds, described in V. 84, p. 523, were awarded to the Gulf National Bank of Beaumont at 103.50 and accrued interest.

Bloomington School District (P. O. Bloomington), Ind.—*Bond Sale.*—On March 21 this district awarded $32,000 4% school-building and site bonds to the Harris Trust & Savings Bank of Chicago for $32,651 53 (102.037) and accrued interest, not 101.875, as stated last week. Denomination $500. Date April 1 1907. Interest June 1 and Dec. 1. Maturity as follows:

$1,000	June 1 1907	$1,500	Dec. 1 1910	$1,500	June 1 1914
1,000	Dec. 1 1907	1,500	June 1 1911	2,000	Dec. 1 1914
1,000	June 1 1908	2,000	Dec. 1 1911	2,000	June 1 1915
1,000	Dec. 1 1908	1,500	June 1 1912	2,000	Dec. 1 1915
1,500	June 1 1909	2,000	Dec. 1 1912	2,000	June 1 1916
1,500	Dec. 1 1909	1,500	June 1 1912	2,000	Dec. 1 1916
1,500	June 1 1910	2,000	Dec. 1 1913		

Boston, Mass.—*Bond Sale.*—The following bonds were sold during the month of March to the Sinking Fund Commissioners at par:

$13,150 3½% tunnel and subway bonds maturing Jan. 1 1947.
4,100 3½% Dorchester Street bonds maturing Jan. 1 1927.

Bowling Green, Warren County, Ky.—*Bond Offering.*—Proposals will be received until 12 m. April 10 by the Board of Sinking Fund Commissioners for $20,000 public-school-building and $25,000 city-hall-building 4% coupon bonds. Authority Section 158, Kentucky Constitution; also vote of 447 to 119 at election Nov. 6 1906 on the school bond issue and vote of 565 to 258 at election Nov. 7 1905 on the city-hall bond issue. Denomination $500. Date Jan. 1 1907. interest semi-annually at Citizens' National Bank of Bowling Green. Maturity Jan. 1 1937. Bonded debt including this issue $184,500. Assessed valuation $3,900,000. The official notice states that there is no litigation now pending or threatened affecting this issue and that there has never been any default in payment of any obligations.

Bozeman School District No. 7 (P. O. Bozeman), Gallatin County, Mont.—*Bond Offering.*—Proposals will be received until 2 p. m. April 30 by Philip Dodson, District Clerk, for $36,000 coupon refunding bonds at not exceeding 6% interest. Interest semi-annual. Maturity twenty years, subject to call after ten years. These securities are issued to refund $36,000 of the $60,000 6% 15-30-year (optional) coupon bonds issued May 2 1892. The remainder of the bonds ($24,000) will be paid in cash.

Buffalo, Erie County, N. Y.—*Bond Sale.*—Under the ordinance, the $81,970 79 4% judgment-funding bonds recently authorized (see V. 84, p. 645) are to be taken at par by the Perry Street Grade-Crossing Sinking Fund. Authority Section 16, Chapter 345, of the Laws of 1888. Date April 1 1907. Interest semi-annually at the office of the City Comptroller. Maturity April 1 1923.

Carbon County (P. O. Red Lodge), Mont.—*Bond Offering.*—Proposals will be received until 3 p. m. April 25 by G. L. Finley, County Clerk, for $12,000 coupon bonds at not exceeding 5% interest. Denomination $1,000. Date July 1 1907. Interest semi-annual. Maturity July 1 1927. Certified check for $250, payable to the County Clerk, is required.

Celina, Mercer County, Ohio.—*Bond Sale.*—On April 2 the $6,000 4½% 1-6-year (serial) West Market Street (village's portion) bonds and the $22,000 4½% 5½-year (average) street-improvement bonds described in V. 84, p. 645, were awarded to the New First National Bank of Columbus at 100.89.

Chagrin Falls, Cuyahoga County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. May 2 by H. D. Bishop, Village Clerk, for the following bonds:

$10,900 4½% coupon Franklin Avenue assessment bonds. Denomination $1,090. Maturity $1,090 yearly on Oct. 1 from 1907 to 1916 inclusive.
4,700 4½% coupon Franklin Avenue (village's portion) improvement bonds. Denomination $470. Maturity $470 yearly on Oct. 1 from 1907 to 1916 inclusive.
7,000 4½% coupon Orange Street assessment bonds. Denomination $700. Maturity $700 yearly on Oct. 1 from 1907 to 1916 inclusive.
1,250 4½% Orange Street (village's portion) improvement bonds. Denomination $125. Maturity $125 yearly on Oct. 1 from 1908 to 1917 inclusive.

Date April 1 1907. Interest semi-annually at the Chagrin Falls Banking Company. Accrued interest to be paid by purchaser. A certified check for $500, drawn on the Chagrin Falls Banking Company or on Rogers & Son, payable to the Village Treasurer, is required.

Charlotte, Mecklenburg County, N. C.—*Bond Sale.*—According to local papers, the $175,000 4½% 30-year coupon funding bonds offered but not sold on March 23 were awarded on March 25 to MacDonald, McCoy & Co. and John Nuveen & Co., both of Chicago.

Chisago County (P. O. Centre City), Minn.—*Bond Offering.*—Proposals will be received until 2 p. m. April 18 by A. B. Slattengren, County Auditor, for $28,674 97 5% county-ditch bonds. Date Jan. 1 1908. Interest annually at St. Paul or Minneapolis. Maturity $4,674 97 Jan. 1 1911 and $4,000 yearly on Jan. 1 from 1912 to 1917 inclusive. Certified check or certificate of deposit for 5% of bonds bid for, payable to the County Treasurer, is required. Bonded debt, including this issue, $63,000. Assessed valuation $3,498,137.

Cincinnati, Hamilton County, Ohio.—*Bond Sale.*—On April 1 the $204,000 3.65% 30-year hospital bonds described in V. 84, p. 585, were awarded to the German National Bank and the Central Trust & Safe Deposit Co., both of Cincinnati, at 100.381, while the $40,000 3.65% 30-year water-main bonds were awarded to H. M. Beazell of Cincinnati at 101.27. The following bids were received:

	$204,000 Hospital bonds.	$40,000 Water-main bds.
German National Bank, Cincinnati, and the Central Trust Co., Cincinnati	$204,777 31	$40,206 40
W. M. Beazell, Cincinnati	----------	40,508 00
Atlas National Bank, Cincinnati	----------	40,250 75
Seasongood & Mayer, Cincinnati	204,714 00	40,200 00
Provident Savings & Trust Co., Cincinnati	204,550 80	40,108 00
W. E. Meserole, Cincinnati (for $30,000)	30,200 50	----------
Well, Roth & Co., Cincinnati (for $10,000)	----------	10,026 50
Jewish Settlement (for $500)	----------	500 63
Joseph Franken (for $500)	----------	500 00

Coitsville Township (P. O. Youngstown), Ohio.—*Bond Sale.*—On April 1 the $30,000 4% coupon road-improvement bonds described in V. 84, p. 645, were awarded, it is stated, to David S. Loveland at par.

Columbus, Franklin County, Ohio.—*Bonds Authorized.*—The City Council on March 11 passed an ordinance providing for the issuance of $8,000 4% coupon Oakley Avenue improvement bonds. Denomination $1,000. Date not later than June 1 1907. Interest semi-annually on March 1 and Sept. 1 at the City Treasurer's office. Maturity Sept. 1 1918, subject to call Sept. 1 1909.

Custer County Free High School District, Mont.—*Bond Offering.*—The Board of County Free High School Trustees will offer at public auction at 2 p. m. on May 6, at their office in Miles City, an issue of $35,000 4½% high-school bonds. Denomination $1,000. Date March 1 1906. Interest semi-annual. Maturity March 1 1926, subject to call after March 1 1916. Deposit of 5% of bonds is required.

Cuyahoga County (P. O. Cleveland), Ohio.—*Bond Sale.*—On March 30 the $21,470 5% (5-year average) coupon North Ridge Road No. 2 improvement notes described in V. 84, p. 764, were awarded to the Cleveland Trust Co. at 103.776—a basis of about 4.156%. The following bids were received:

Cleveland Tr. Co., Cleve.	a$22,280 92	Emery, And'son & Co., Clev.	$22,114 10
Hayden, Miller & Co., Clev.	a22,279 00	Well, Roth & Co., Cincin.	a22,093 00
Otis & Hough, Cleveland	a22,225 00	Seasongood & Mayer, Cinc.	a22,066 87
New First Nat. Bk., Colum.	a22,221 45	F. L. Fuller & Co., Cleve.	a22,060 00
Security Savings Bank & Trust Co., Toledo	a22,118 00	W. J. Hayes & Sons, Clev.	a22,009 00
		Denison & Farnsw'th, Clev.	a21,914 44

a And accrued interest.

Delaware, Delaware County, Ohio.—*Bond Sale.*—On April 1 the four issues of 5% 1-10-year (serial) coupon street-improvement bonds aggregating $6,260, and described in V. 84, p. 585, were awarded to the Somerset Bank of Somerset at 101.91 and accrued interest—a basis of about 4%. The following bids were received.

Somerset Bank, Somerset	$6,567 44	W. J. Hayes & Sons, Clev.	$6,465 00

Owensboro, Daviess County, Ky.—*Bond Sale.*—Local papers state that $35,000 4% water-extension bonds have been disposed of through Rudolph Kleybolte & Co. of Cincinnati. These securities are part of an issue of $60,000, of which $25,000 have not yet been placed.

Palatka, Putnam County, Fla.—*Bonds Not Sold.*—No sale was made on March 26 of $30,000 5% paving bonds offered on that day.

Pelham, Mitchell County, Ga.—*Bonds Voted—Bond Offering.*—On March 26 this city authorized the issuance of $15,000 electric-light, $12,000 water-works, $9,000 ice-plant and $4,000 sewer 5% bonds by a vote of 190 to 0. We are informed that proposals will be received for these bonds until May 1. Maturity from 1926 to 1936.

Peru Bottom Drainage District No. 1, Nemaha County, Neb.—*Bond Offering.*—Proposals will be received until 1 p.m. April 30, by T. J. Majors, Secretary (P. O. Peru), for $15,000 5% bonds. Denominations $500 and $100. Maturity ten years.

Phoenix, Ariz.—*Purchase of Plant Authorized.*—Congress just prior to adjournment passed a bill (approved March 4) validating the agreement entered into Jan. 15 1907 between the City of Phoenix and the Phoenix Water Co., whereby the city purchases the plant of the water company for $90,000 in cash and assumes $60,000 first mortgage bonds of the company. The Act also authorizes the city to use the proceeds of the sale of $300,000 bonds provided for several years ago for the payment of the property and of the $60,000 mortgage assumed and for the improvement and enlargement of the water system. The matter, however, must be submitted to a vote of the people at the next general election. The new bonds will be taken, when issued, by W. R. Todd & Co. of Cincinnati, under agreement made with that firm some months ago.

Pike County (P. O. Petersburg), Ind.—*Bond Sale.*—On April 2 the $16,272 4½% coupon Madison Township road-improvement bonds described in V. 84, p. 767, were awarded to Rudolph Kleybolte & Co. of Cincinnati for $16,376 15, the price thus being 100.64.

Portland, Me.—*Note Offering.*—Proposals will be received until 11:30 a. m. April 8 by David Birnie, City Treasurer, for the discount of a temporary loan of $100,000 or $150,000 in anticipation of taxes. Notes will be dated the day of issue and will mature Oct. 1 1907.

Porto Rico.—*Bond Sale.*—For report of sale of $1,000,000 bonds see "News Items" on a preceding page.

Poughkeepsie, Dutchess County, N. Y.—*Bond Sale.*—As stated in last week's issue, the highest bid received on March 29 for the $40,000 4% 20-year registered refunding bonds was 100.50; this bid, however, was for only $2,000 of the bonds. The award was made as follows:

D. Brown, Pough. ($2,000)---100.50 | I.W. Sherrill, Pough. ($6,000)--*100.00
E.M. Weeks, Pough. ($8,000)-100.25 | Sinking Fund Committee, Pough. S.B., Pough. ($16,000)-*100.00 | Poughkeepsie ($8,000)-----100.00
*And Interest.

Princeville School District No. 97 (P. O. Princeville), Peoria County, Ill.—*Bond Sale.*—On March 18 $6,000 of the $7,000 5½% coupon building bonds, offered without success on Feb. 7, were awarded to Peter Auten, of Princeville, at par, cost of printing bonds, and attorney's fees, while the remaining $1,000 was taken by Henry C. Houston, of Princeville, at 103.40. See V. 84, p. 289, for description of bonds.

Reading, Hamilton County, Ohio.—*Bond Sale.*—The Village Council recently awarded the $7,800 4% 19½-year coupon street-improvement (village's portion) bonds described in V. 84, p. 528, to Seasongood & Mayer of Cincinnati at 103.125—a basis of about 3.773%. Following are the bids:

Seasongood & Mayer, Cinc.-$8,043 75 | Provident Savings Bank & Trust Co., Cincinnati---$7,898 25
S. Kuhn & Sons, Cincinnati 8,010 60 | Atlas Nat. Bank, Cincinnati 7,800 00
Weil, Roth & Co., Cincin-- 7,975 50 | W. R. Todd & Co., Cincin- 7,800 00
Reading Bank, Reading--- 7,919 94

Rotterdam and Niskayuna School District No. 12, Schenectady County, N. Y.—*Bond Sale.*—On April 1 the $18,000 5% 3-20-year (serial) new school-house bonds, described in V. 84, p. 767, were awarded to W. J. Hayes & Sons of Cleveland at 100.266—a basis of about 4.97%. Following are the bids:

W. J. Hayes & Son, Cleve.-$18,048 00 | W. N. Coler & Co., N. Y.--$18,013 77
Geo. M. Hahn, New York- 18,023 40 | Edm. Seymour & Co., N. Y 18,000 00

Saginaw, Saginaw County, Mich.—*Bond Offering.*—Proposals will be received until 2 p. m. April 8 by Wm. Seyffardt, City Comptroller, for $20,000 4% water refunding bonds. Authority, the City Charter. Denomination $1,000. Date April 15 1907. Interest semi-annually at the City Treasurer's office or at the current official bank in New York City. Maturity $5,000 yearly on April 15 from 1909 to 1912 inclusive. Accrued interest to be paid by purchaser. Certified check drawn on some Saginaw bank, or New York draft, for 2% of the par value of bonds, payable to the City Treasurer, is required. Bonds are tax-exempt.

San Antonio, Texas.—*Bond Sale.*—We are informed that of the $55,000 5% 20-40-year (optional) improvement district No. 9 bonds dated April 1 1905 and of the $120,000 5% 20-40-year (optional) improvement district No. 11 bonds dated Jan. 5 1906, offered without success on June 26 1906, $17,000 of the former and $53,000 of the latter have been placed. The $43,000 5% bonds of improvement district No. 10 offered last June with the above-mentioned issues have not yet been sold. See V. 82, p. 1339, for description of bonds.

Sandusky, Erie County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. April 25 by Alex. M. Wagner, City Auditor, for the $22,000 4% coupon Monroe and East and West Park Street (city's portion) paving bonds described in V. 84, p. 710. Denomination $1,000. Date March 1 1907. Interest semi-annual. Maturity March 1 1917. Certified check for $1,000 is required.

Sandusky School District (P. O. Sandusky), Erie County, Ohio.—*Bond Election.*—On April 9 a proposition to issue $35,000 school-building-improvement bonds will be submitted to a vote of the people.

Sangamon County (P. O. Springfield), Ill.—*Bond Election.* A special election will be held April 16 to vote on the question of issuing $150,000 1-10-year (serial) coupon funding bonds at not exceeding 4½% interest. Date July 1 1907. Interest annual.

Siloam Springs School District (P. O. Siloam Springs), Benton County, Ark.—*Bond Sale.*—Little Rock papers state that this district has awarded $25,000 school-building bonds to Henry Koppack of Kansas City, Mo., at 95.

Sweetwater, Monroe County, Tenn.—*Bonds Not Sold.*—No satisfactory bids were received on April 1 for the $30,000 water and $10,000 street 5% 30-year gold coupon bonds described in V. 84, p. 711.

Swift County (P. O. Benson), Minn.—*Bonds Not Sold.*—No award was made on March 20 of the $15,000 ditch bonds offered on that day. See V. 84, p. 411. We are informed that application has been made to the State for this loan.

Tisbury, Dukes County, Mass.—*Bonds Authorized.*—This place has authorized the issuance of $95,000 4% coupon water-supply-system bonds. Denomination $1,000. Date Sept. 1 1906. Interest semi-annual. Maturity yearly on

Sept. 1, $2,000 from 1907 to 1916 inclusive; $3,000 from 1917 to 1926 inclusive; $4,000 from 1927 to 1931 inclusive; and $5,000 from 1932 to 1936 inclusive.

Toledo, Lucas County, Ohio.—*Bonds Authorized.*—The City Council on March 11 passed an ordinance providing for the issuance of $105,000 4% 10-year coupon street-improvement and sewer bonds. Denomination $1,000. Date May 1 1907. Interest semi-annually at the United States Mortgage & Trust Co., New York City.

Uhrichsville School District (P. O. Uhrichsville), Tuscarawas County, Ohio.—*Bond Sale.*—On April 1 the $5,500 4% 20-year coupon school-repair bonds described in V. 84, p. 711, were awarded to Seasongood & Mayer, of Cincinnati, at 101.566 and accrued interest—a basis of about 3.887%. The following bids were received:

Seasongood & Mayer, Cin.	$5,586 13	Secur. S. B. & Tr. Co., Tol.	$5,515 50
Prov. S. B. & Tr. Co., Cin.	5,569 85	MacDonald, McCoy & Co., Cin	5,505 00
Brighton-German Bk., Tol.	5,538 25	Emery, Anderson & Co., Clev.	5,500 00

Viborg, Turner County, S. D.—*Bond Offering.*—Proposals will be received until 8 p. m. April 22 by E. C. Nelson, City Auditor, for $5,000 5% coupon water-works bonds. Authority Section 1391, Article 23, of the Revised Code of 1903; also vote cast at election Feb. 26 1907. Denomination $1,000. Interest semi-annually at the office of the City Treasurer. Maturity twenty years.

Wapella, Sask.—*Debenture Sale.*—On Feb. 18 the $4,000 6% debentures mentioned in V. 84, p. 412, were awarded to O. Leger of Montreal.

West Baton Rouge Parish Drainage District No. 1, La.—*Bond Offering.*—Proposals will be received until May 1 by D. Devall, Secretary (P. O. Chamberlin), for the $25,000 5% coupon public-improvement bonds mentioned in V. 84, p. 769. Authority Act 281, State Constitution, and Act. 145, Legislature of 1902. Denomination $100. Date May 1 1907. Interest semi-annually at the Bank of West Baton Rouge, Port Allen, La. Bonds are redeemable within ten years, at least $2,500 to be redeemed each year, by allotment. Bonds are tax-exempt.

West Branch, Cedar County, Iowa.—*Bond Sale.*—The $15,000 5% coupon water-works bonds offered without success on Feb. 12 and described in V. 84, p. 470, have been disposed of at a private sale to O'Connor & Kahler of Chicago on a basis a little lower than 5%.

West Salem, La Crosse County, Wis.—*Bond Sale.*—On March 14 $12,000 5% coupon water-works bonds were awarded to Rudolph Kleybolte & Co. of Chicago at 103.50 for bonds dated April 1 1907 and maturing $500 yearly from 1909 to 1920 inclusive and $1,000 yearly from 1921 to 1926 inclusive. The original advertisement provided for $6,000 of the bonds to be dated June 1 1907 and payable $500 yearly on March 1 from 1909 to 1920 inclusive, and $6,000 to be dated Aug. 1 1907 and payable $1,000 yearly on Aug. 1 from 1921 to 1926 inclusive. The following bids were received on this basis:

MacDonald, McCoy & Co., Chic.	102.09	Wells & Dickey, Minneapolis	100.44
F. B. Sherman & Co., Chicago	102.07	State Bank, La Crosse	100.26
Thos. J. Bolger & Co., Chicago	101.25	Trowbridge & Niver Co., Chic.	100.09
Rudolph Kleybolte & Co., Chicago	101.04	La Crosse Co. Bk., West Salem	95.00
Chas. H. Coffin, Chicago	101.00	Mrs. Gilfillan, West Salem (for $3,000)	104.00

Whitefish, Flathead County, Mont.—*Bond Sale.*—On March 23 the $20,000 10-20-year (optional) coupon water-works bonds, described in V. 84, p. 531, were awarded to John Nuveen & Co. of Chicago at 100.75 for 6%s. A bid of 100.255 for 5½s was also received from C. H. Coffin of Chicago but was not accompanied by a certified check as required.

Willis Independent School District (P. O. Willis), Montgomery County, Texas.—*Bond Sale.*—This district recently sold the $3,000 5% 5-20-year (optional) school-house bonds mentioned in V. 84, p. 471, to Montgomery County for $3,100—the price thus being 103.333.

Woodbury, Gloucester County, N. J.—*Bond Offering.*—Proposals will be received until 3 p. m. April 8 by Ernest Redfield, City Treasurer, for the $84,000 4% coupon sewer bonds offered without success on Nov. 12 1906. Authority, an Act of the State Legislature approved April 7 1890. Denomination $1,000. Date Jan. 1 1907. Interest semi-annually at the City Treasurer's office. Maturity $3,000 yearly on Jan. 1 from 1908 to 1931 inclusive and $2,000 yearly on Jan. 1 from 1932 to 1937 inclusive. Certified check for $1,000, payable to the City Treasurer, is required. Accrued interest to be paid by purchaser. Bonded debt at present, $71,500. Assessed valuation 1906, $3,084,960.

NEW LOANS.

$20,000

CITY OF HOBOKEN,

FIRE BONDS.

Public notice is hereby given in accordance with the following resolution of the Council of the City of Hoboken, passed on the 27th day of February, 1907, and duly approved on the 28th day of February, 1907:

Resolved, That the City Clerk be and is hereby directed to advertise, according to law, for the purchase of $20,000.00 fire bonds, to run twenty years from date of issue and to bear interest at the rate of four per cent per annum, payable semi-annually, said bonds to be issued under Chapter 5 Laws of 1907, entitled "An Act to enable cities to erect a fire house upon city lands, equip the same and issue bonds in payment therefor," that sealed proposals for the purchase of bonds of the City of Hoboken, to be known as "Fire Bonds" in the amount of twenty thousand dollars ($20,000), to run for a period of twenty (20) years from the date of issue, registered or coupon, at the option of the bidder, will be received at the regular meeting of the Council to be held on

WEDNESDAY EVENING, APRIL 10, 1907,

at 8 o'clock.

Bidders state prices on bonds bearing interest at the rate of four per cent per annum, payable semi-annually.

All proposals must be directed to the Mayor and Council of the City of Hoboken, N. J., and shall be accompanied by a certified check for one thousand dollars ($1,000).

The Mayor and Council of the City of Hoboken reserves the right to reject any or all bids if deemed in the interest of the city so to do.

By order of the Council.

JAMES H. LONDRIGAN,
City Clerk.

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, &c., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day have been $2,881,736,544, against $3,212,739,805 last week and $3,095,750,418 the corresponding week last year.

Clearings—Returns by Telegraph. Week ending April 13.	1907.	1906.	*Per Cent.*
New York	$1,461,268,499	$1,736,592,516	—15.9
Boston	138,320,017	133,577,741	+3.6
Philadelphia	116,714,608	98,868,036	+18.1
Baltimore	23,332,117	19,653,130	+18.7
Chicago	199,146,819	186,557,913	+6.7
St. Louis	54,312,778	51,844,149	+4.8
New Orleans	14,850,139	15,305,687	—3.0
Seven cities, 5 days	$2,007,944,977	$2,242,399,172	—10.5
Other cities, 5 days	418,004,273	365,147,691	+14.5
Total all cities, 5 days	$2,425,949,250	$2,607,546,863	—7.0
All cities, 1 day	455,787,294	488,203,555	—6.6
Total all cities for week	$2,881,736,544	$3,095,750,418	—7.0

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, April 6, and the results for the corresponding week in 1906, 1905 and 1904 are also given. Contrasted with the week of 1906 the total for the whole country shows a loss of 3.8%. Outside of New York the increase over 1906 is 8.2%.

With to-day's issue of the "Chronicle" we send to our subscribers a new number of our "State and City" section revised to date. This semi-annual publication is issued this time in April instead of in May, owing to the contemplated removal in the near future of our offices to a new building, involving very extensive preliminary work in preparation for the transfer of type-setting plant and other machinery. The next number of the "State and City" section will appear in November.

Among the editorial discussions in the present issue will be found an article on "Wealth, Taxation and Population in the United States," dealing with the statistics contained in a recent Census Bulletin, and another article on the "Municipal Bond Sales of 1906." The latter is accompanied by a full page tabular statement showing the bond disposals for the twelve months by States and geographical groups and according to rates of interest and purposes for which issued.

THE FINANCIAL SITUATION.

The monetary situation has reversed its character for call money, from abnormally high to abnormally low rates—the relief in New York communicating a like tendency elsewhere. This change has opened the stock market here to more venturesome buying, and consequently speculative operators have again been in evidence. An event of like influence was the more kindly interpretation put upon the proposal of the President as a preliminary to the physical valuation of railroad property, confining the meaning of his suggestion for taking the water out of stocks to future stock-watering and not to transactions long past—a highly commendable construction of a disturbing proposal. A further stimulus to the market was the covering movement—the effort growing in energy as values appeared to be running away from the shorts. In the meantime, as the market advanced a weak element was pari passu developing—we refer to the profit-takers, a large body of foreign and home purchasers who had secured their holdings at the very low prices recently ruling, and who at every advance became eager sellers.

It is quite interesting and useful to note that the change in money conditions which started in New York, and which, as stated, has gone on until it has affected the markets of the world, has not been a natural move. We mean by that, it has not come about through any economic policies, but has been a wholly artificial transaction, a relief that might apparently have been secured at any time within the past year or two. We have on many occasions called attention to the fact that tight money with which we had been so afflicted was not needed; that it was not due to a lack of currency, it was not due to speculation in stocks, it was not occasioned by rich men locking up money. We had more than enough to meet every want. The supply was abundant, but the surplus which the whole business public was crying for, was foolishly locked up in the Sub-Treasury and to an extent greater than has existed for several years. The last time we noted these facts was in our issue of March 9 1907 (page 534) when we compared the amount so held by the Government March 1 1907 (it being then $357,114,829) against $336,518,292 on Feb. 1 1907 (an increase in one month of about 20½ million dollars), against $316,673,545 June 1 1906 (an increase in seven months of about 40½ million dollars), and against June 1 1905 of $289,248,071, an increase since that date up to March 1 1907 of about 68 million dollars.

Our readers will readily see where the source of our trouble was. Secretary Cortelyou's action—and, mark you, his method—for relieving the situation has disclosed and proved the correctness of every criticism and promise we have written respecting the whole affair. The above, we repeat, shows that 68 million dollars were taken out of New York bank reserves between June 1 1905 and March 1 1907 and 40½ million dollars between June 1 1906 and the same date. This idle currency has been accumulating month by month, 20 million dollars of it in the last month (Feb. 1907). It does not need to be said that if, instead of these withdrawals, they had seven months ago (June 1 1906) been stopped—and since then the 20 million dollars accumulated up to that date had also been disbursed and added to New York's reserves—the strain for money we have been called upon to suffer from would never have existed. We say these funds were withdrawn from New York reserves, and we add that in no other way except by their return to New York banks could a speedy relief have been gained.

In this last particular it will be observed that Mr. Shaw's policy and Mr. Cortelyou's stand side by side in opposition. Mr. Shaw always, when he wanted to let out any funds in the Sub-Treasury, put a good part of the deposits in remote centres of trade where they did just about as much service to the country's money market as if they had been put into the Mississippi. Mr. Cortelyou, on the other hand, wanted to relieve the monetary strain, and he set the current flowing into the New York banks. What was the result? First, it showed that the only remedy the channels of commerce needed for curing the congestion was to have the Government turn the spigot and let the idle currency confined in the Treasury vaults flow out; and, second, to let it flow directly into the New York reserves, because that was the centre through which the money had passed into the Sub-Treasury, and because it was consequently the centre through which the relief would be most speedily felt and most widely disseminated throughout all monetary centres. Hence, we find that the outflow tended to relieve money everywhere—a sympathetic response coming from London, Paris, Berlin, Boston, Chicago and all other of the world's trade centres where money matters had been in any measure straitened. If one wants more proof of the completeness of Mr. Cortelyou's method of procedure, let him study the results closely all along the lines we have suggested, and he will see that the diagnosis of the Secretary was perfect.

The cotton trade generally will find the fourth semi-annual census of spindles and mill stocks in Europe, as taken by the International Federation of Master Cotton Spinners and Manufacturers' Associations, an interesting and instructive document. The compilations, which are of date February 28th, give evidence of much care in their preparation, and embrace official

returns from every manufacturing country, although reports from Great Britain and Russia are not as complete as one would desire. Where returns are missing, however, the Federation has made use of the most reliable outside authorities and is thus able to announce that there were 85,455,894 spindles in operation in Europe at the close of February, or some 5,000,000 spindles in excess of the number active at the corresponding date in 1906; the increase being about equally divided between Great Britain and the Continent.

But principal interest at this time centres rather in the amount of raw cotton held in reserve (mill stocks) at the date of the census than in the spinning capacity of the establishment In fact it is more particularly to obtain information on that point that the February returns are asked, and only actual reports are included in the compilation of stocks. To make the meaning clearer we would state that while the Federation, as remarked above, placed the total of spindles in Europe at 85,455,894, actual returns were received from but 71,054,503 spindles, and it is only the stocks at mills furnishing that aggregate that are considered. That the remaining establishments (20% of the total) held relatively as large stocks as the others seems reasonable, but in the absence of official data, it is entirely conjectural, and therefore a somewhat unsafe assumption. Furthermore, the result as disclosed by the Federation, when used in conjunction with European visible supply figures and export totals, furnishes a very good basis for finding out what became of the cotton marketed during the first half of the current season.

Turning attention first to American cotton, we find that on February 28th last the total held in European ports or on vessels bound there was 2,592,832 bales, against a total of 603,371 bales August 31st, or an increase of 1,989,461 bales. During the like interval mill stocks as reported to the Federation rose from 684,282 bales to 1,194,585 bales, or a gain of 510,303 bales. The combined augmentation in stocks, visible and invisible, was, therefore, 2,499,764 bales. Consequently, of the exports from American ports to Europe for the six months ending February 28th, which aggregated 6,152,586 bales (the remainder having gone to Japan, &c.), 2,499,764 bales went to increase stocks, leaving 3,652,822 bales as the measure of consumption for the half-year in Europe. For the corresponding six months of 1905-06 exports to Europe from American ports were 4,550,522 bales, the increase in visible and mill stocks was 1,121,410 bales and the balance for consumption 3,429,112 bales. It is seen, therefore, that the apparent increase in European consumption of American cotton for the first half of the season 1906-07 was 223,710 bales over 1905-06. Similar calculations covering Egyptian, East Indian and other cotton indicate a consumption in Europe for the six months of 1,081,842 bales in 1906-07, against 1,096,968 bales in 1905-06. The aggregate indicated consumption of all kinds of cotton in Europe was consequently 4,734,664 bales for the six months of 1906-07, against 4,526,080 bales in 1905-06, or a gain of 208,584 bales. To what an extent, if at all, this total of 208,584 bales should be decreased to allow for increase of stocks at mills not reporting the reader will have to judge for himself. We have, however, used the figures as given.

———

A bill went to the Governor in Texas a few days ago equiring all life insurance companies to invest in Texas securities and real estate 75% of the reserve on policies written in Texas, and a veto can hardly be expected. A similar bill was rejected by the Senate in Tennessee, after Mr. Cleveland, in the relation lately assumed by him to the newly-associated Presidents of a number of companies, had issued a careful brief showing the incurable defects of such legislation. If we imagine the States, one by one, to adopt such measures—and they do show a most unhappy disposition to follow bad examples in legislation about insurance—the immediate result might easily be that the bonds of some States would prove too good and those of some other States too poor in quality to enable the companies to maintain the standard of reserve as now fixed by law. The vice of such laws, however, goes beyond and is independent of their immediate results. The very bottom of the foundation of life insurance is that all funds shall be so placed as to compound at the best rates and with the least possible loss of time, due reference being had to security. The premiums are calculated and the contracts are issued to run for a long term of years on a very conservative forecast of the interest rates, and the principal States require reserve liability to be computed on specific rates ranging from 3 to 4½%. It is not so many years since the Equitable obtained from a score or more financiers their opinion as to the probable course of interest for some years ahead, and it is manifest that an unfavorable change of even a fraction in the rate realized would make a vast difference in the finances and strength of the companies as well as in the premium rates.

Now the object of such laws as the one referred to is to meet the imaginary evil of "carrying off" premiums to fructify elsewhere, to the impoverishment of a State, and to make the home loan market easy by compelling lenders. But if the securities and mortgages in a State are desirable, they will place themselves; lenders need no compulsion. If they are not desirable, forcing money into them may temporarily help the borrowers, but it must inevitably come back in loss upon the lenders, who in this case are the insured citizens of Texas. The law ought to provide specifically that any losses on investments thus made shall fall only on Texas policy-holders; but it will come to them surely enough without such specification. The inevitable result will therefore be to injure Texas policy-holders for the possible yet not certain benefit of other Texans who hold no life insurance. Heretofore we have had laws specifying in what kinds of securities trust funds may be invested. A year ago, notwithstanding all remonstrance, this State ordered the life companies to sell their stocks, regardless of quality; and now laws are beginning to command them to put funds where the managers of the funds would not put them voluntarily. Thus we are rushed, in the name of reform, from bad to worse, and blow after blow is struck upon the thirft and even the integrity of life insurance in the indiscriminating attack upon corporations.

———

There was a further recession in the discount rates in London early this week, accompanied by a temporary advance in sterling exchange in New York and by the withdrawal of our bankers from the bullion market

in London, so that the Bank of England was able to procure without competition the South African and other gold arrivals; all due to the monetary relief New York obtained through the outpour of currency from our Sub-Treasury. Later there was a reduction in contangos, indicating a small bull account at the London settlement, probably also contributing to still easier discounts. Wednesday open market rates were quoted 3¾%, foreshadowing a reduction in the Bank rate on the following day, when 4½% was officially recorded.

It would appear from the fact that there have this week been only moderate additions to the deposits of public funds in the local banks, as the result of the placing therein of customs collections, that the quota of such deposits has been filled; the amount of these deposits now is $17,510,000. Compared with the sum reported from the Treasury March 4, the aggregate of deposits now held in all banks throughout the country to the credit of the Treasurer of the United States has been increased $22,600,000; this would seem to indicate that deposits placed in other than New York institutions have amounted, in this interval, to about $5,000,000. The Clearing House statement of last week reported public deposits of $30,389,700, an increase since March 23 of $15,877,600. Refunding of redeemable 4%s of 1907 actively began this week, and they have thus far amounted to $29,632,050; presumedly the bonds so exchanged for 2%s represent actually those held by banks as pledge for circulation, and after such bonds shall have been refunded further operations of this character may be expected to make less rapid progress because of the fact that the redeemable issues are in great part privately held by bond houses.

The sharp advance in foreign exchange early this week gave rise to some expectations of gold exports in the near future. As yet, rates do not encourage that thought and bankers are of the opinion that it will be some time before sight exchange will reach the profitable gold-export point. There is apparently no inducement to ship the metal to London; gold bars in that market are now at the minimum. Under these conditions sight exchange would have to sell at about 4 88¼ to afford a profit on shipments of the metal. It may be observed, though, that exchange at Paris on London fell this week to 25f. 24c., indicating withdrawals by French bankers of balances from London; should such withdrawals continue and thus cause a further material decline in Paris exchange, there might possibly be some profit in shipping gold hence to Paris to buy exchange on London, but in order to effect such arbitration operation it would be necessary to obtain about 4 87 for the reimbursing sterling bill and Paris checks on London would have to be procured at about 10 centimes lower than current rates.

———

It is a favorite plea of the political agitator that public opinion in this country is inclining more and more strongly towards Municipal Ownership and the assumption of new and increasing functions by Government. Yet the indications appear to be exactly the opposite way. Whenever these theories are put to the test—whenever any considerable body of citizens is given the opportunity to declare itself on the issue, free from extraneous questions—the vote is sure to be adverse to the idea and, more often than not, strongly adverse. We referred last week to the vote in Chicago in the Mayoralty canvass and on the question of accepting the very liberal proposition (for the city) of extending the franchises of the trolley lines in that thriving and populous community. About the same time the citizens of an Eastern city, namely Baltimore, or at least the members of one of the leading political parties in that city, took occasion to declare themselves in no uncertain way on a somewhat similar question. Both parties in Baltimore had primary elections on Tuesday April 2 for the selection of candidates for municipal officers to be voted on next month. In the case of the Democratic party there was a schism and a spirited contest for control on the part of an opposing wing. The candidate for Mayor of the regular wing was J. Barry Mahool. There were two opposing candidates, but the opponent around whom most interest centred was George Stewart Brown, he being an anti-corporation candidate. The "Baltimore Sun" says that although, Mr. Brown did not in his platform declare in favor of municipal ownership, his candidacy was identified in the public mind with that idea, and this attracted the radical elements to his standard. The contest was a very determined one and there appears to have been no little uneasiness lest the regular candidate might suffer defeat. But what was the result? Mr. Brown got 9,285 votes while Mr. Mahool got 23,906, and the third candidate got 7,135 votes. From one end of the city to the other, the newspapers tell us, Mr. Mahool carried everything before him, winning in every one of the twenty-four wards. Mr. Brown was defeated even in his home ward.

Speaking editorially, the Baltimore "Sun" says that Mr. Brown's failure was not due to lack of confidence in the honesty, the sincerity and patriotism of his purposes and aspirations. He conducted a campaign almost unique in Baltimore. "His appeal was to the people. He went among them, talked with them, explained his views on municipal government, addressed meetings day after day with untiring determination, and wherever he went made an excellent impression by his courage, earnestness and independence. But, unfortunately for him, notwithstanding his disclaimer of any intention to support any radical policy, his cause became associated in the public mind with the idea of municipal ownership and operation." A fact which should not be overlooked is that the so-called labor vote upon which Mr. Brown had counted most confidently almost completely failed him. It is pointed out in the Baltimore papers that in the South Baltimore wards, such as the 21st, the 22d, the 23d and 24th, it had been expected that the union labor vote would be a great help to Mr. Brown. This vote, however, did not materialize, and it is stated that the candidate did not run nearly as well in that part of the city as he did in the uptown wards of Baltimore. It appears to us that these are very significant facts. Moreover, this event is merely one among a number of the same kind that have latterly come to public notice. It cannot be that repeated happenings of this nature are not without moment. Politicians and newspaper agitators advocate municipal ownership and centralization in Government simply because they imagine that that is the way to win popular favor. Let it once become generally known that the notion

that any considerable body of American people favor such propositions is fallacious, and they and their standard bearers will be quick to abandon such theories. We do not see how they can much longer ignore the signs of the times.

In an address before the company's board of directors, President Adrian H. Joline last week made some excellent remarks bearing upon the present attitude of hostility to railroad interests. Adverting to some recent statements of William J. Bryan to the effect that the trouble in the railroad world is that the railroads have "watered their stock and have compelled the public to pay dividends and interest upon fictitious capitalization," he refers to the facts in the case of his own road. The Missouri Kansas & Texas has, in round numbers, $76,000,000 of stock, namely $13,000,000 of preferred and $63,000,000 of common. In seventeen years, Mr. Joline says, since the company's reorganization it has paid, so far, just $520,000 of dividends, or 4% on the preferred stock for one year. As for the amount of money "wrested from the innocent public" to pay dividends on the common stock, it is not as much as one cent, for nothing has ever been paid on these shares. Mr. Joline also pointedly declares that taking away a railroad from its owners at the cost of reproducing its plant would be as unjust as taking away a man's business and good-will built up by years of labor and paying him only the cost of his store and stock. If a man or a set of men go into a new State or country, struggling against all sorts of obstacles, physical and financial, and succeed at last in completing the construction of a railway, in furnishing it with suitable equipment, in providing it with an efficient operating force, in developing the neighboring country in such a way as to build up great industries and business, will any man with an ordinary sense of fairness, he asks, undertake to say that he or they will be fully compensated by the payment to him or them of what it would cost under changed conditions, brought about largely by the original builders, to rebuild another railroad in the same place?

The idea of "co-operating with the Government" does not appeal to Mr. Joline. He is unable to find in the Constitution or the laws any provisions which affect or regulate co-operation between the Government and the private citizens who carry on their business under the laws. The only way to co-operate with a Government is to try to obey the law—however silly the law may be—to obey it not only in the letter but in the spirit, as well as a law can be obeyed "when you consider that you are obliged to trust to many thousands of agents of varying and often limited capacity who have most of the infirmities of man and who are neither angels nor infallible mortals." It will be the policy of the Missouri Kansas & Texas, we are told, to resist by all reasonable and legitimate methods the enactment of laws which are unjust and unfair; to bring them, if enacted, before the Courts for construction and for determination as to their validity and constitutionality, but to obey them honestly and faithfully if they are ultimately declared to be valid, even if it leads to insolvency and a receiver. He urges the wisdom of recognizing that if the people of the United States have made up their minds to destroy railroad property and the Courts decide that they have the right to do this, the roads must submit. At the same time, however, Mr. Joline does not believe that in any country which calls itself free and enlightened, such a thing can ever come to pass. Neither do we.

While the reports from some centres speak of rather quiet conditions, there does not appear to be as yet the slightest symptom of any reaction in the iron and steel trades, notwithstanding the forced restrictions in the orders of the railroads, the most important single consumer of iron and steel products. One reason for this is that, large though production is, it has thus far failed to overtake consumption, while at the same time the foreign demand for our goods continues unabated. We have an excellent illustration of the state of things in the case of the production of iron, the raw material, which lies at the basis of all the other forms of iron and steel. The make of iron is large and furnace capacity is slowly being added to, but, unfortunately, something is all the time occurring to prevent the output from increasing in the way hoped for and expected. The "Iron Age" of this city has the present week made public its usual monthly statement, and from this it appears that the March product of the coke and anthracite blast furnaces was 2,225,175 tons, as compared with 2,045,068 tons in February, a short month, and 2,235,306 tons in December, the previous maximum total for any month. It is pointed out that, while on their face these figures seem to show better results for March than for February, as a matter of fact the daily rate of production in March was only 71,780 tons, as compared with 73,038 tons for February. The explanation is found in the tremendous floods experienced during the month at Pittsburgh and Wheeling. These floods defeated the promise which appeared to exist when the month opened of a record production for March. The floods, it appears, worked the most mischief with the furnaces of the steel works. The so-called merchant furnaces have run along during the past three months at a practically uniform gait. But it is these steel works that are chiefly in need of increased supplies of iron. For April 1 the weekly capacity of the furnaces in blast is given as 497,456 tons, which compares with 511,035 tons on March 1, indicating some further falling off in the output during April. Thus there seems little likelihood that the scarcity of supplies will be relieved, and this no doubt is one of the chief influences in keeping the market strong.

The Bank of England rate of discount was reduced this week from 5% to 4½%. With this exception there was no change in official rates of discount by any of the European banks this week. Open market or unofficial rates of discount were, compared with last week, ⅞ of 1% lower at London, ⅜ of 1% at Paris and ⅝ of 1% at Berlin and Frankfort; the Continental rates were directly affected by the reduction in the English Bank rate. One feature was a fall in the quotation for exchange at Paris and at Berlin on London, due to the withdrawal of balances from the British capital, probably for more profitable employment at home.

The statement of the New York Associated Banks last week showed, as the most striking feature, a gain of $10,533,900 in cash, reflecting the distribution among local institutions of public funds, representing customs collections, which were directly placed in the

New York banks. It may be noted that the statement also showed an increase since March 23 of $15,877,600 public deposits. The surplus reserve was augmented $6,309,950 as the result of the increase of cash, less $4,223,950 gain in reserve requirements, so that the surplus now stands at $19,441,225. Loans increased $6,143,600 and deposits $16,895,800. The bank statement of this week should show a transfer of $150,000 to New Orleans and the import of $316,000 gold from Europe. Though the refunding operations, which began on Monday, contributed little to the supplies of money to the market, the 4% being exchanged, bond for bond, for the consolidated 2%, with the payment of a slight difference, it will be interesting to note that such operations during the week amounted to $29,632,050. As this is greater than the sum of the 4s of 1907 which were held as pledge for bank-note circulation, it appears probable that for all of such pledges 2% consolidated bonds have been substituted as security, so that no lawful money will be required to be deposited with the Treasurer in lieu of bonds withdrawn, and no contraction of the currency will follow. Presumedly the remainder of the $50,000,000 4s of 1907 which have been selected for refunding are largely held by bond houses and have been accumulated by them in expectation of their exchange for 2% consols; therefore, refunding operations will most likely soon be completed. Redemptions of the 4%s, under the circular of March 14, have made slow progress, and the amount so redeemed thus far is about $18,000,000.

The disclosure by the bank statement of a large increase in surplus reserve contributed to lower rates for money this week, not only on call but for fixed periods. Expectations of further supplies to the market, through the continued distributions of public deposits, and payments for redeemable bonds, tended to make borrowers reluctant to accept offerings of time money, even at the lower rates, and there seemed to be a disposition to rely upon the call loan branch of the market for accommodation instead of taking funds for short maturities. The easier monetary conditions stimulated purchases of corporation notes, but as these were in direct competition with commercial paper, rates for the latter were only farctionally lower.

Money on call, representing bankers' balances, loaned on the Stock Exchange during the week at 2½% and at 1½%, averaging about 2%; banks and trust companies loaned at 2% as the minimum. On Monday loans were at 2½% and at 1½% with the bulk of the business at 2¼%. On Tuesday transactions were at 2½% and at 2% with the majority at 2¼%. On Wednesday loans were at 2% and at 1½% with the bulk of the business at 2%. On Thursday transactions were at 2½% and at 1¾% with the majority at 2%. On Friday loans were at 2½% and at 2% with the bulk of the business at 2¼%. Time contracts on good mixed Stock Exchange collateral were 4¼@4½% for thirty to sixty days, 4½@4¾% for ninety days to four months and 5% for five to six months. Some very choice commercial paper sold at 5¾%, but the ruling rates were 6% for sixty to ninety day endorsed bills receivable, 6% for prime and 6½% for good four to six months' single names.

The Bank of England rate of discount was reduced this week from 5%, at which it has stood since Jan. 17, to 4½%. The cable reports discounts of sixty to ninety day bank bills in London 3⅝%. The open market rate at Paris is 3⅛@3¼% and at Berlin and Frankfort it is 4¾@4⅞%. According to our special cable from London, the Bank gained £1,115,931 bullion during the week and held £35,456,644 at the close of the week. Our correspondent further advises us that the gain was due wholly to heavy purchases in the open market. The details of the movement into and out of the Bank were as follows: Imports, £1,223,000 (of which £11,000 from Australia, £7,000 from the Continent and £1,205,000 bought in the open market, including £48,000 French coin); exports, £225,000 (of which £100,000 to Constantinople, £100,000 to Egypt and £25,000 to South America), and receipts of £118,000 *net* from the interior of Great Britain.

The foreign exchange market was generally strong this week, though there was some recession in rates on Tuesday due to a lighter inquiry for remittance and a better supply of bills. On Wednesday, however, there was a recovery and the tone was strong thereafter. The market was only slightly affected by the reduction in the Bank of England discount rate, this having been foreshadowed by the lower quotations for open market discounts; there was, though, a good demand for long sterling for investment and this was one of the features of the week. The London settlement, which was completed on Wednesday, was effected without the least derangement, and the demand for cables incident thereto was easily satisfied early in the week. Shifting of loans from London to New York, to take advantage of the lower rates for money ruling in our market, was chiefly noticeable on Saturday and on Monday; thereafter the movement seemed to subside. Selling in London of American securities, which was a prominent feature in the previous week, was in much smaller volume, and there was some foreign buying of such properties after Tuesday. The supplies of bankers' bills which contributed to the above-noted recession in rates came principally from drawings against a matured installment of corporation notes which was recently negotiated, and also, as reported, from the New York & New Haven loan. The fall in the rate for exchange at Paris on London and the easier discounts at Berlin had some influence upon francs and marks. The advance in short sterling seemed to give rise to expectations of an early movement of gold hence to Europe, but it seems scarcely probable that exports will soon occur, for, in the absence of inducements for shipments, through a premium on the metal, the progress of exchange towards the gold-export point would naturally be slow. It seems possible, however, that if there should be a further material decline in exchange at Paris on London, and if sterling rates here were coincidently to advance, there might be a movement of gold hence to Paris as an arbitrage operation; even in that case, though, the exports would probably not be in large volume.

Nominal quotations for sterling exchange are 4 83 @4 83½ for sixty day and 4 86½ for sight. On Saturday of last week the market was active and strong, owing to a demand to remit for stocks sold for European account and also to pay off loans abroad on American securities, and, compared with the previous day, long advanced 30 points to 4 8175@4 8180, short

45 points to 4 8565@4 8570 and cables 50 points to 4 8630@4 8640. On Monday there was an irregular fall, though the tone was generally strong, and long was 25 points higher at 4 82@4 8205, short 10 points lower at 4 8555@4 8560 and cables were off 15 points to 4 8615@4 8620. On Tuesday the market was easier and 5 points lower for long at 4 8195@4 82, 15 points for short at 4 8540@4 8545 and 25 points for cables at 4 8590@4 8595. On Wednesday there was a recovery of 25 points all around, long to 4 8220 @4 8225, short 4 8565@4 8570 and cables 4 8615@ 4 8620. On Thursday long rose 20 points to 4 8240 @4 8250, short 5 points to 4 8570@4 8575 and cables 5 points to 4 8620@4 8625. The market was irregular on Friday, with long 10 points higher and short and cables 20 points lower.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

		Fri., Apr. 5	Mon., Apr. 8	Tues., Apr. 9	Wed., Apr. 10	Thurs., Apr. 11	Fri., Apr. 12
Brown Bros. & Co.	60 days	4 83	83	83	83	83	83⅛
	Sight	4 86	86⅛	86⅛	86⅛	86⅛	86⅛
Baring & Co.	60 days	4 82	82⅛	82⅛	82⅛	83⅛	83⅛
	Sight	4 86	86⅛	86⅛	86⅛	86⅛	86⅛
Bank British North America	60 days	4 81⅝	83	83	83	83	83
	Sight	4 85⅛	86⅛	86⅛	86⅛	86⅛	86⅛
Bank of Montreal	60 days	4 82	83	83	83	83	83
	Sight	4 86	86⅛	86⅛	86⅛	86⅛	86⅛
Canadian Bank of Commerce	60 days	4 81⅝	82	82⅛	82⅛	83	83
	Sight	4 85⅛	86	86	86⅛	86⅛	86⅛
Heidelbach, Ickelheimer & Co.	60 days	4 82	83	83	83	83	83⅛
	Sight	4 86	86⅛	86⅛	86⅛	86⅛	86⅛
Lazard Freres	60 days	4 82	83	83	83	83	83⅛
	Sight	4 86	86⅛	86⅛	86⅛	86⅛	86⅛
Merchants' Bank of Canada	60 days	4 82	82⅛	82⅛	82⅛	83⅛	83⅛
	Sight	4 86	86⅛	86⅛	86⅛	86⅛	86⅛

The market closed on Friday at 4 8250@4 8260 for long, 4 8550@4 8555 for short and 4 86@4 8610 for cables. Commercial on banks 4 82@4 8210 and documents for payment 4 81⅜@4 82⅛. Cotton for payment 4 81⅜@4 81½, cotton for acceptance 4 82@ 4 8210 and grain for payment 4 82@4 82⅛.

The following gives the week's movement of money to and from the interior by the New York banks:

Week ending April 12 1907.	Received by N. Y. Banks	Shipped by N. Y. Banks.	Net Interior Movement.
Currency	$5,283,000	$6,043,000	Loss $760,000
Gold	907,000	1,464,000	Loss 557,000
Total gold and legal tenders	$6,190,000	$7,507,000	Loss $1,317,000

With the Sub-Treasury operations and gold imports, the result is as follows.

Week ending April 12 1907.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement as above	$6,190,000	$7,507,000	Loss $1,317,000
Sub-Treas. oper. and gold imports	30,400,000	25,900,000	Gain 4,500,000
Total gold and legal tenders	$36,590,000	$33,407,000	Gain $3,183,000

The following table indicates the amount of bullion in the principal European banks.

Bank of	April 11 1907.			April 12 1906.		
	Gold.	Silver.	Total.	Gold.	Silver.	Total.
	£	£	£	£	£	£
England	35,456,644	----	35,456,644	35,011,655	----	35,011,655
France	103,367,020	39,087,553	142,454,573	118,342,450	42,004,600	160,347,050
Germanya	30,761,000	10,254,000	41,015,000	34,342,000	11,448,000	45,790,000
Russia d	119,527,000	5,888,000	125,415,000	92,199,000	4,803,000	97,002,000
Aus.-Hunb	45,172,000	12,384,000	57,556,000	46,002,000	12,788,000	58,790,000
Spain	15,447,000	25,090,000	40,537,000	15,093,000	23,798,000	38,891,000
Italy	32,335,000	5,097,200	37,432,200	28,360,000	3,886,700	32,246,700
Neth'lands	5,148,100	5,628,000	10,776,100	6,053,200	5,945,200	11,998,400
Nat. Belg.a	3,350,000	1,675,000	5,025,000	3,526,000	1,763,000	5,289,000
Sweden	4,153,000	----	4,153,000	3,833,000	----	3,833,000
Total week	394,716,764	105,103,753	499,820,517	382,762,305	106,436,500	489,198,805
Prev. week	390,660,200	104,027,986	494,688,186	382,172,317	105,942,884	488,115,201

a The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

b The Austro-Hungarian Bank Statement is now issued in Kronen and Heller instead of Gulden and Kreutzer. The reduction of the former currency to sterling Pounds was by considering the Gulden to have the value of 80 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to Pounds, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

d The total of gold in the Bank of Russia includes the balance held abroad—that is, the amount held for Russian account in other Continental banks. The proportion so held and consequently duplicated in the above statement, is about one-quarter of the total.

THE NEXT STEP IN CUBA.

The visit of Secretary Taft to Cuba, where he is now in conference with the leading politicians, has brought up to renewed discussion the question of future government of the island. It is not strange that during the period of what may be called interregnum, which has existed since the rebellion of last year, was brought to an end by the intervention of this Government, controversy should have continued as to the possibility of annexation to the United States.

The attitude of our Administration on this question has in the meantime not varied. Mr. Taft in a public statement given out last Wednesday made the following concise statement of the case.

"It is hardly necessary to reiterate that the position of President Roosevelt is exactly what it was when the first proclamation was issued establishing a provisional Government under the Platt law in this island, to wit, that Cuba must be turned over to a Cuban Government, fairly elected, so soon as the conditions of tranquillity in the country permit, and that the stability of the Government established be assured."

Notwithstanding this distinct attitude of our Government, the agitation for a permanent American protectorate, if not for the absorption of Cuba as a State of the Union, has continued. Some of our newspapers have devoted themselves to this work, and have endeavored to show that normal conditions for property and industry can be restored in Cuba in no other way. It is needless to say that we do not agree with this contention; we are, in fact, inclined to think that the situation is more favorable to the establishment of an independent Cuban Government on a permanent basis than it has been at any time since the Spanish war. The events of last year have shown that certain mistakes or omissions were made in the original scheme of government. Investigation into the immediate causes of the rebellion of last year proved that the basis of representation was not fair, and that the methods employed gave indefinite opportunity for the use of coercion by the existing Government at the polls. With a good deal of reluctance; our representatives in Cuba, examining the facts in a judicial capacity, were obliged to admit that the elections of 1905 were so unfair as to give basis for the charge of the defeated party that its vote had been practically suppressed.

It is quite true that similar injustice may occur and has at times occurred, even in this country. There have been frequent occasions when the vote of a district or of a State has notoriously been turned, by the use of illegal voters, by the purchase of enough qualified voters, to shift the majority, or by the actual suppression or manipulation of important returns, from the party which really held it. Nothing that could be alleged by a defeated party in Cuba would, we should suppose, provide a parallel to what was alleged and largely proved by the party which claimed unsuccessfully a majority for Mr. Tilden in the Electoral College of 1876.

These great abuses were, however, counterbalanced by the conviction of the American people that the power to remedy them lay in the people's hands, and could in time be exercised by them. The result has abundantly justified such confidence. Abuses in the elections of our candidates still exist, but they are

fewer in number and result as a rule from novel expedients. More than this, the manner in which the wrongs of the past have been thus grappled with has strengthened belief in the power of the people to deal with all new phenomena of the sort.

In time this should be the state of affairs in Cuba. But the Cubans not only have not the advantage of an Anglo-Saxon tradition, but they are handicapped, not only through imperfect electoral machinery but by unfortunate traditions of their own, partly arising from the slower instinct of the Latin race towards self-government, but mostly from their own heritage of belief that rebellion is the only recourse against political injustice. It would have been more than strange if the Cubans, within a decade of their political enfranchisement, should suddenly forget the instinct which led them to take the field in revolt whenever the Spanish Government became unusually unfair and oppressive, or times became unusually hard. As a remedy for such a political condition, there are only two possibilities. It may be assumed that the people will forever remain incapable of decent self-government or it may be assumed that in time they will acquire the traditions of the Anglo-Saxon communities. If the first supposition is to be accepted, it surely ought to dispose at once and finally of any idea of admitting Cuba to the Union of the States. And if it be contended that nothing can cure the propensity of the Cubans to revolt whenever they are dissatisfied with restrictive legislation, then it is hard to see what reassuring features would lie in the future with the United States ruling Cuba as a colonial dependency.

The holders of such a theory seem to us, in fact, to be on the horns of a dilemma. Certainly, if there is any ground for expecting that they will struggle into the position where they can administer their own affairs, it is to the interest of the United States itself to encourage the experiment rather than to embark on the perilous sea of colonial administration. The argument is familiar that we must intervene in order to protect the new industrial development of Cuba. But it must be remembered that this very industrial development will bring with it great changes in population and habits of life, and that the old rural proletariat, which was disposed by its instinct and able by its habits of life to take up arms against the Government and escape into the interior, is likely before very long to cease to be the predominating element among the Cuban people.

Secretary Taft, in his statement to Governor Magoon, takes all this for granted in a calm and rational way. Summing up first the idea of various parties as to the length of time required to take a census on which the new elections might be based, he reaches the conclusion that no arbitrary date be fixed, but that all necessary time be allowed for the taking of such a census, and that the preliminary elections shall not be held until after the results of that census have been received. More than this, he advocates that the formal official election shall not be required to be held within six months after the preliminary election. This arrangement is likely to postpone the real inauguration of a Cuban Government until well on in 1908. We do not know that this delay is at all undesirable, always provided that the attitude of our Government be rigidly maintained and clearly understood. Much may be gained by educating the Cubans in taking for granted their own right to self-government, by which process they may at least begin to shake off their old tradition of arbitrary despotism tempered by revolt and anarchy. While this experiment goes on, it seems to us that people who clamor for the instant subversion of Cuban independence and instant absorption into the American Commonwealth deserve the thanks neither of America nor of Cuba.

THE NEW YORK CENTRAL REPORT.

The annual report of the New York Central & Hudson River Railroad Co. for the calendar year 1906, issued this week, enables one to get a pretty good insight into the situation of this important property. Like other large railroad systems, the New York Central is confronted by a set of conditions which make the outlook for the future somewhat involved. The company in recent years has been obliged to raise very considerable amounts of new capital, and is under the necessity of earning a return on this additional capitalization. The money has been employed in making additions to the road's facilities so as to meet the requirements of a steadily growing business, and in defraying the cost of extensive improvements in its terminals at this city, entered upon in response to a public demand which could not be appeased in any other way. At the same time, operating cost has been rapidly rising and will still further increase during 1907, as the result of advances in wages and the higher price of fuel, materials and supplies. As it happens, too, the Central last December made a moderate advance in its dividend, raising the rate from a basis of 5% per annum to 6% and only one-quarter of the extra 1% counted in the results for the late calendar year. The situation, therefore, is that the company will have enlarged outlays to meet in various directions, and the point of importance is, how well prepared it is to cope with such a state of things.

Obviously, conclusions on this point must be predicated on the operating and income achievements of 1906, as portrayed in the present report. Subjected to this test, the promise appears on the whole assuring. Gross earnings in 1906 increased roughly $6,000,000 ($5,994,167) on top of the large increases of preceding years, but, owing to the augmentation in expenses, not quite 1¼ million dollars of this was carried forward as a gain in the net. Nevertheless, the income account shows that over and above the dividend payments out of the year's earnings, a surplus of $3,134,762 remained on the operations of the twelve months, this comparing with a surplus for 1905 above the smaller dividend payment of that year of only $2,113,348. It deserves to be noted that the surplus in both years is the sum remaining after certain specific appropriations for new construction and new equipment had been included directly in the expense accounts. For 1906, the amount of such outlays charged to expenses for construction and equipment was $1,308,260. What disposition was made of the surplus of $3,134,762 remaining on the operations of the twelve months of 1906? The sum of $2,800,000 was set aside as a special improvement fund for new equipment and betterments and $315,328 was charged off for sundry uncollectible items and reduction in the value of assets, leaving only $19,434, which was carried forward to the credit of profit and loss.

As already intimated, increases will have to be counted on during 1907 in many different items. The dividend payments for 1906 represented 5¼% on $149,197,800 stock, calling altogether for $7,832,884. The company's share capital now is $178,182,700. Assuming that the 1½% paid for the December quarter will be continued through 1907, the company will have 6% to meet on this $178,182,700 of stock, making the dividend call $10,690,962, or $2,858,078 more than was paid for dividends in 1906. Other things being the same, the $3,134,762 surplus remaining for 1906 would more than suffice to take care in 1907 of this additional payment of $2,858,078 for dividends. The company would in that event have to forego the $2,800,000 special appropriation for improvements made out of the surplus of 1906, but would not have to trench upon the $1,308,260 applied towards new construction and new equipment in 1906 and charged directly to the expense account.

This computation, however, leaves altogether out of consideration the increase in the company's income from investments. The advance in the Central's own dividend rate in December was coincident with enlarged dividend declarations by the Michigan Central and the Lake Shore & Michigan Southern companies, the bulk of the stock of both of which the Central owns. The Michigan Central rate was increased from 4% per annum to 6% and the Lake Shore rate from 8% to 12%. As the larger declarations related to the last six months alone, and came at the very close of the year, only a part of the increase got into the income from investments in 1906. As was pointed out by us last December in reviewing the company's preliminary figures for the year, the method adopted was to take into the 1906 accounts only such portion of the higher dividends as actually accrued in 1906. As the dividends were payable the latter part of January 1907, this means that the 1906 results got the benefit of the higher dividends for only five months. The Central owns $45,289,200 of the stock of the Lake Shore Company, on which the 4% additional dividends will yield $1,811,568 per annum, whereas only $754,820 of this increase appears in the 1906 accounts, leaving $1,056,748 more to come in 1907. Of Michigan Central stock, the New York Central owns $16,814,300, and on this the 2% extra which that company is paying will afford an added income of $336,286, of which only $140,119 entered into the 1906 accounts, leaving $196,167 more to come in 1907, provided the same rate of dividends is maintained. Altogether, it will be seen the higher, rate of dividends on these two stocks will yield $1,252,915 more in 1907 than the sum credited in 1906. This $1,252,915 will just meet the 1¼ million dollars interest on the $25,000,000 of 3-year 5% notes put out by the Central since the close of 1906.

There remains for consideration the question of increased operating cost. In this case it is not possible to give any exact or definite figures because so many unknown factors enter into the question. Thus, no one can tell what the company will be obliged to pay later in the year for many of the supplies needed in its operations. Should trade slacken somewhat, perhaps it will be possible to purchase materials and supplies on more advantageous terms than at present seems likely. On the other hand, the increases in wages cannot be escaped. For certain classes of employees, the advance, we understand, amounts to 10%, though we have no means of knowing the aggregate of the augmentation in expenses that will result from that cause. Whether any offset through savings in expenses in other directions will be possible is also problematical. Though operating methods on the Central in recent years have been brought up to high standards, as is evident from the fact that the train-load both in 1906 and 1905 averaged 459 tons, operating cost keeps steadily advancing. Entirely exclusive of the large taxes paid (amounting in 1906 to over $4,000,000), and not counting the charges to expenses for new construction and new equipment, the ratio of expenses to gross earnings in 1906 was no less than 70.53%, this comparing with 69.65% in 1905 and 69.45% in 1904. It is probable, however, that some saving can be effected in the expenditures for renewal of equipment, since the equipment is now in very superior physical condition.

The matter therefore resolves itself into a question of whether a continued improvement in the gross receipts can be depended upon. Should the gains in gross be large, they would overcome the increase in the expense account. On the other hand, should they be of only moderate extent, they would not suffice to offset the augmentation in expenses. Which is the most likely outcome will obviously depend on the course of general trade the remainder of the year. Not a few well-informed persons contend that some recession in business must be looked forward to in the early future, and the fact that the borrowing power of our railroads has been so largely curtailed, making it necessary for them to curtail their new capital expenditures, gives more or less force to the idea. We claim no prophetic vision in that respect. Nor is it within the ken of any one to tell what the agricultural outcome the coming season, upon which also so much will depend, is likely to be. This much, however, can be affirmed, that in the Central's case there are special circumstances and conditions that warrant expectations of improved revenues apart from the question whether our industries are to go on thriving and expanding or not. We have referred above to the increase in gross earnings in the late year as having been $5,994,167. On examination it is found that $2,807,391 of this increase came from the passenger department—that the increase in freight revenues was only $2,511,951. This appears rather small for a year of trade activity like 1906, and the impression is strengthened when we look at the tonnage moved and discover that this increased only 708,578 tons, or less than 2%.

Examining now the classified statement of traffic we discover that no less than 21 out of the 39 items of freight separately given show lower amounts carried in 1906 than for 1905. We need refer to only two of these, since they furnish the key to the whole situation. The Central has in recent years become a very large carrier of coal, as has been many times pointed out in these columns, and the statistics bring out the fact that the bituminous coal traffic decreased no less than 1,271,327 tons in 1906 and the anthracite coal traffic decreased 380,588 tons, making together a loss in coal tonnage of over 1½ million tons. This loss, we should judge, will be regained in 1907. The report ascribes the shrinkage in the coal tonnage to the four-months' strike in the bituminous fields and the subsequent inability to concentrate the scattered car supply for coal movement. Not being in use, the cars drifted far away from home, and it was no easy matter to get

them returned to the points where they were needed. For this reason the effects of the suspension of coal mining may really be said to have extended over a period of fully six months. There will be no such disturbance in 1907 and consequently the coal traffic seems likely to increase again. Altogether, then, are we not warranted in assuming that the increase in the pay-roll and other items of expenses may reasonably be expected to be met by an expansion in the volume of business?

Financially, the Central is evidently in good shape; and though it is carrying on a very extensive series of improvements, the company would seem to be adequately supplied with funds for a considerable time to come. The stock was increased twice during 1906, namely in March by the issue of $16,947,800, and again the latter part of the year by a further issue of $28,984,900, making together no less than $45,932,700. It appears from the balance sheet that the company's investments in the stock and bonds of other companies increased during the twelve months from $143,566,811 to $154,411,053. The increase is mainly accounted for by the purchase of $6,000,000 more of the stock of the Mohawk Valley Ry., controlling street railway properties in which the Central is interested, and the purchase of $574,800 of the stock of the Boston & Maine RR—the latter an announcement which is new. The funds raised, however, were for the purpose of carrying on the company's extension and improvement work; and though a part of the amount went to reimburse the company for new capital outlays made the previous year, and another part went to meet the capital expenditures of 1906, a considerable portion of the whole amount raised still remained unexpended at the close of the year. This is evident from the fact that while, on Dec. 31 1905, the current assets were reported $27,933,659, with current liabilities of $26,378,928, showing an excess of assets of only about 1½ millions, on the other hand, for Dec. 31 1906 the balance sheet reports current assets of $37,765,112 with current liabilities of $18,894,078, leaving an excess of assets in the sum of almost 19 million dollars. Now, add to this the fact that in February of the present year the company negotiated $25,000,000 of 3-year notes, and there would appear to be no escape from the conclusion that it must be well supplied with funds for some time to come.

STOCK-WATERING: WHAT IS IT?

The term "stock-watering" is much more easily used than defined. It is exceedingly doubtful whether those from whose tongues it most glibly runs have, commonly, any clear idea of what they mean when they use it.

A merchant paid $1,200 for a corner lot, erected a $4,800 store upon it and for a quarter of a century conducted a moderately successful business therein. During this time the city in which he was located grew rapidly, and the corner he had selected became the centre of its most prosperous retail district. Property adjacent sold repeatedly and each successive sale was at a higher price. Yet the conservative merchant always carried the property on his books at the cost price, $6,000. At the end of the period of twenty-five years his heirs tore down the building he had erected, built an office building costing $350,000 on the site, secured a loan of $250,000 on the property at 4½% per annum and turned the equity over to a corporation with stock having a par value of $250,000, on which they were able to pay 4% semi-annual dividends. Did they water the stock? This stock was listed on a local exchange, speedily sold for $150 each $100 share, and remained at about that figure. Did the exchange, or the buyers or the sellers on the exchange, water the stock? Later the corporation purchased adjacent property and added to its building, expending for the purpose $125,000, which it obtained by selling shares to its stockholders at $125 per $100 in par value. Was this stock-watering?

A street railway corporation spent $10,000,000 to build a cable system, and secured that amount by selling $7,500,000 at 80 in 4% bonds and an equal par value in stock to a banking corporation for the ($4,000,000) balance of the sum needed. Without the $7,500,000 stock the bonds could not have been floated; and yet the bonds with the aid of the street railway they helped to build sold within a moderate time in the market at $900 per $1,000 in par value and the shares for $50 per $100 par value, making a total of $10,500,000. Was this stock-watering? Long before the cable system became worn out the people of the city it served came to regard it as obsolete and unsatisfactory on account of the development of electric service in the streets of other cities. Therefore, while it still regarded the cable system as worth what it had cost, while all the stock and bonds referred to were still outstanding, after a short period, during which the wear and tear of daily usage had been fully offset by liberal maintenance expenditures, the street railway corporation consented, at the earnest solicitation of its patrons, to substitute an electric system. The change cost $5,000,000, and this amount was obtained by a new issue of $6,250,000 in bonds sold at 80, secured by a second mortgage and carrying 5% interest. Can any "water" be detected and charged to exist in this case of capitalization?

It finally came about that a new corporation was organized to consolidate all the street railways in the city referred to. It took up all of the $7,500,000 in par value of shares, the $7,500,000 of 4% bonds and the $6,250,000 of 5% bonds, and in exchange for them issued $15,000,000 in 3½% bonds running for 99 years and $15,000,000 in stock, an imaginary security helping to effect reorganization. The old stock had never paid any dividends, there was no promise of dividends on the new stock, and plainly no promise in the condition of the city on its chance of immediate growth that dividends would soon be paid or earned. The old bonds had required the payment of $612,500 interest per annum; the new bonds, although bearing an aggregate face value of $1,250,000 more than their predecessors, called for but $525,000, or $87,500 less of annual interest. Did this reorganization of capitalization add "water" to the securities outstanding?

A railway, originally built through a sparsely populated region for $20,000 per mile of scantily ballasted, poorly equipped, single-track line, became at once a sharer in the exceptional prosperity which resulted from opening a new territory exceptionally rich in natural resources to settlement and industry; and while abundant prosperity came to all whom it served, was able, out of revenue, to improve its property by

spending another $20,000 per mile upon it. Having done so, it issued a stock dividend of 100%, the aggregate of which just equaled the aggregate expenditure for actual betterments. Was this watering the stock? Later, when the $50,000,000 in par value of shares of this company had long been paying 7% annual interest, which might easily have been increased, the company, desiring to make important new extensions, made a 100% new issue of stock, the stockholder to pay par in cash for his allotment. Was there a creation of "water" by these transactions?

Now all of the foregoing are typical cases of what is occurring nearly every day, or has frequently occurred in the past, in the development of the private and quasi-private (if, also, quasi-public) industries of the United States. They represent just those things which are the subject of popular opprobrium and the object of radical agitation and demagogic legislative suggestions at the present moment. If any one has been harmed by them it ought to be possible to point him out and expose the exact nature and the precise extent of his injuries. In the absence of such evidence it may not be unfair or unreasonable to assume that those who denounce over-capitalization do so without accurate knowledge of the thing they condemn, of the conditions under which it happens or of the effects which it produces.

If we return to the case of the merchant and the office building erected by his heirs, we see that the low capitalization at which the merchant carried the property on his books did not interfere with his actual accumulation of profits. He received no more and no less for his goods, the property itself was worth no more and no less at his decease. Yet there is no monopoly more exclusive than that of an advantageous business site in a thriving community. When his heirs brought the capitalization of this real estate up to an equality with the reasonable valuation of surrounding lots, they did not affect its salable value or increase their own wealth, or enable themselves to obtain higher rates. What they did was, in effect, just what the Kansas farmer does when he asks and gets for his farm ten times its cost. The transaction in each case is an adjustment of what was actually little more than a bookkeeping valuation to the real value as established by the large number of purchasers arriving and income from crops or by the income from rents fixed by the demand for and the supply of offices for rent or farms for sale in that section or city. As in their inherited conservatism the owners of the city lot adopted a percentage rate of capitalization of the annual net income that was higher than the current rate on equally secure investments, the market price of the shares they sold quickly adjusted itself to the real value which they had underestimated. If any one was injured it must have been the very early vendors of these shares.

Was any one hurt by the successive transactions of the street railway corporation? Of these the one most likely to be questioned is perhaps the issue of $6,250,000 to pay for the change from cable to electricity. Yet, without this issue, the company would have gone along earning a fair rate on its original issue of bonds and nothing on its stock, and would only have suffered, in common with all the citizens and industries of the city, by the fact that the whole community was tied to an antiquated system of urban transit. To build the cable system was no error of judgment when it was built, to make the change was costly, but wise and necessary; why ought not the whole expense to be a proper charge to the capital account? It will be admitted that shareholders would be better off if all such changes could be provided for out of earnings; but such a policy would often indefinitely postpone progress demanded by the public, for users would not be willing to pay the rates necessary to meet this form of depreciation. That capital would bear it and do so without demanding an immediately augmented return was vastly to the advantage of every user. This is equally true of the readjustment accompanying the consolidation. We believe that candid examination will show that the same is true with regard to the other examples. The fact is that these transactions are wholly between owners and potential owners and have no direct effect upon users. They do affect charges and services supplied indirectly, in so far as by attracting a repelling capital they tend to increase or diminish the supply of facilities and augment or reduce the current rate of interest demanded. In other words, if entrepreneurs are permitted, by liberal laws as to capitalization, to make their offers for capital on terms which appeal to the widest possible circle of investors the supply of capital will be greater, facilities will be better and more ample and charges will be lower. The attitude of the general public, exclusive of investors, toward this subject should be to let it alone, for in that way will the general interest be best served.

GROWTH OF ELECTRIC RAILWAY OPERATIONS.

At the end of this article we present certain elaborate compilations which serve to illustrate the growth and development of electrical railway enterprises in the United States. In these compilations we undertake to show, as comprehensively as may be, the earnings of street and electric railways for the last two calendar years. The course of electrical railway development in this country is, of course, familiar to our readers. At first the process consisted simply of the conversion of the ordinary street railway from horse power to electrical power. As it was quickly demonstrated that the new means of propulsion meant great economy in operation, the use of this form of energy as motive power was rapidly extended. Local tramways were no longer kept confined within city limits, but extensions were built into the suburbs and out into surrounding country. Then a step further was taken and the electric railway became interurban and inter-State in character, and now we have numerous instances of roads that run through different States and connect wide stretches of territory.

Under these circumstances it is not strange that electric railways are growing in importance and that through steady increase the aggregate of their income keeps rising from year to year and is now represented by figures of large magnitude. We have undertaken to procure returns of gross and net earnings for the calendar year 1906 as compared with the calendar year 1905 in the case of practically all the street and electric roads of any size in the country. The success attending our efforts can be judged from the tables which conclude this review. The task has not been an altogether easy one. Where companies furnish monthly returns

of their earnings it has of course not been difficult to make up the figures. But the number of companies making such returns is still exceedingly meagre, notwithstanding that with the increase in the capital invested in these properties the policy of secrecy in their affairs, so characteristic of their management in the past, has in large measure given way to more enlightened methods.

Another obstacle in obtaining statements for the calendar year has been the fact that the fiscal year in hardly any of the States corresponds with the calendar year. It is true that only in the case of a few of the larger Eastern States are periodic returns required to be made to the State authorities, but even among these there is but one State which calls for reports for the calendar year. The exception is New Jersey, and there the information is so meagre as scarcely to warrant the designation of a report. In Massachusetts the annual statements cover the twelve months ending September 30, and in New York, Connecticut, Pennsylvania, Maine and a few of the minor New England States they cover the year ending June 30. Outside of the returns from these States very little of an official character can be obtained from public documents, since hardly much attempt is made to collect statistics of any sort concerning the electric railways, and where the information is collected, it is rarely rendered available for use.

Nevertheless, we have succeeded in securing a very comprehensive body of returns. Our exhibit comprises no less than 181 separate roads, and these show aggregate gross earnings for the twelve months of 1906 of $215,153,525 as against $192,672,458 for the twelve months of 1905, and aggregate net earnings of $92,442,309 against $82,873,597. From these figures alone it is easy to see how important the electric railways have become. But the additional figures we present make the fact still more plain. It will be noticed that the increase in the gross earnings has been $22,481,067, or 11.67%, and the increase in the net earnings $9,568,712, or 11.54%. The close correspondence between the ratio of gain in gross and the ratio of gain in the net attracts attention. From the amount of the increase in expenses it is apparent that the electric railways, like the steam roads, have felt the augmentation in the cost of labor, fuel, materials and supplies. Yet these electric railways must be deemed fortunate in being able to show a ratio of improvement in the net only fractionally smaller than the rate of increase in the gross.

In addition to the roads which have furnished returns of both gross and net earnings, 37 other roads have favored us with comparative figures of gross earnings, but not with the net earnings. Adding these on, the number of roads is raised to 218 and the total of the gross to $238,086,523 in 1906 as against $213,518,518 in 1905. The increase in this case is $24,568,005, giving a ratio of gain which does not differ much from that in the other case, being 11.51%.

These totals all relate, as already stated, to roads which have favored us with statements for the calendar year or whose figures we have been able to make up for that period of twelve months. It will be interesting to carry the investigation a step further, as we have done on some previous occasions, and take into account the roads whose figures are available for other periods, and particularly for the fiscal years ending with June 30 or September 30. While this method is open to the objection that the results do not cover a uniform period, it is well to bear in mind that in the case of these electric railways it is simply impossible to get returns for them all for a common period. This was made plainly apparent at the time of the Census inquiry. In compiling its elaborate volume covering 1902 the Census had to rest contented, it may be recalled, with the same methods, its figures covering mixed periods—that is, in many cases being for the fiscal years of the companies reporting instead of for the fiscal year selected by the Census Bureau.

In the table which follows we start with the total of gross and net for the calendar years 1906 and 1905, as given in our detailed summary, and then add two other lines of figures, one recording the earnings of all the roads for which we have returns for the twelve months ending June 30, and the other the earnings of all the roads for which we have the figures for the twelve months ending September 30. The three combined make a very comprehensive aggregate.

	Gross		Net	
	1906.	1905.	1906.	1905.
	$	$	$	$
For calendar year as below (181 roads)	215,153,525	192,672,458	92,442,309	82,873,597
For years ending Sept. 30 (85 roads)	23,708,187	21,903,055	6,798,100	6,362,720
For years ending June 30 (202 roads)	61,705,741	55,020,038	27,339,786	24,787,759
Grand total (468 rds.)	300,567,453	269,595,551	126,580,195	114,024,076
Increase	30,971,902 (11.49%)		12,556,119 (11.01%)	

In this way, it will be seen, we get total gross earnings (comprising 468 roads) of $300,567,453 for 1906 against $269,595,551 for 1905, and aggregate net earnings of $126,580,195 against $114,024,076. The increase in the gross in this instance is $30,971,902, or 11.49%, and in the net it is $12,556,119, or 11.01%. Here again the ratios of gain in gross and net vary very little.

It should be clearly understood that this is not an attempt to indicate the aggregate of the gross and net earnings of all the street and electric railway undertakings in the United States. It is simply making use of all the figures that have been placed at our disposal or which are available. The totals in the foregoing fall considerably short of recording the entire earnings of electric railways in the United States. The minor roads not represented would not swell the amount to any very great extent, but the fact is that some of the large companies are also missing because no data concerning their income could be obtained. Among these may be mentioned the Chicago Union Traction lines, the Cleveland Electric Railway, the Cincinnati Street Railway, the Indiana Columbus & Eastern Traction Company, the Public Service Corporation of New Jersey, the Pacific Electric Railway of California, the Los Angeles Interurban Railway, the Omaha & Council Bluffs Street Railway, the Virginia Passenger & Power Company, the Spokane & Inland Empire Railroad and the Wheeling Traction Company. It is apparently within bounds to say that if we could have returns covering all the electric railways in the country, the total of the gross would reach $375,000,000—which indicates to what proportions the business of the electric railways has risen. Of course, many of the electric railways furnish electricity for lighting and power purposes in addition to doing a railway business, and the earnings from that

source of course form part of their total income. On the other hand, in a number of cases the earnings from lighting and other sources have been separated from the street railway income, and the latter alone is included in our tables. This is true, for instance, of the Columbus Railway & Light Company and the Elmira Water, Light & Railroad Company.

The following is the detailed statement already referred to and which shows separately the comparative figures for each road contributing returns for the last two calendar years.

STREET RAILWAY GROSS AND NET EARNINGS FOR CALENDAR YEAR.

RAILROAD GROSS EARNINGS FOR THE MONTH OF MARCH.

As far as can be judged from the returns of the roads furnishing early figures, *gross* earnings of United States railroads (whatever may be the situation as to the *net*) are again beginning to record considerable amounts of gains. In January and February, it will be recalled, our early preliminary compilations showed comparatively small increases—for January only $1,544,739 increase, or 2.23%, and for February $1,317,809 increase, or 2.06%. For March, on the other hand, the preliminary statement which we present to-day shows a gain of $5,644,198, or 7.85%, the statement covering 92,828 miles of road and embracing substantially the same companies and systems as our early statements for the previous months.

One reason why the improvement now is of larger extent is that in January and February the trans-continental lines on the extreme north, more particularly the Great Northern and the Northern Pacific, suffered large losses because of snow blockades and unfavorable meteorological conditions, and that the railroads elsewhere had to contend with low temperatures and severe weather, while comparison was with an unusually mild winter in these two months last year. In March the present year there was also much bad weather, especially from floods—Pittsburgh, for instance, having encountered one of the worst floods in its history—but at least the Northern trans-continental lines experienced great relief, and, furthermore, there had been more or less damage from overflow in different parts of the country in March last year, too. It might also be noted that in January and February, largely by reason of the exceptionally favorable weather conditions in 1906, we were comparing with extraordinary amounts of gain; but for March we are comparing with gains of more moderate proportions.

As concerns the influences affecting traffic movements, these were unusually satisfactory in March 1907. Trade and business continued active in the extreme. The slump in Wall Street would not, in any event, be immediately reflected in trade affairs, and, as a matter of fact, there is no indication at all as yet that trade is undergoing any reverse. It follows from this that the merchandise and general traffic of the roads must have continued large and that passenger business also must have been very good. In addition, Southern roads had the advantage of a greatly increased cotton movement and Western roads the benefit of an increased grain movement.

In the case of the separate roads, the change which has occurred in the character of the revenue returns is indicated by the appearance of quite an extensive list of gains, some for very considerable amounts—a feature missing in January and February—and by the fact that there are relatively few decreases and these for small amounts, whereas in the month preceding some of the decreases were very heavy. The Great Northern and the Northern Pacific have gains of $373,685 and $346,470 respectively, as against their striking decreases for the month preceding, while in the Canadian Pacific case the gain reaches $1,047,000. Besides this, the returns are good from other parts of the country. Thus, the Louisville & Nashville in the South has added $544,934 to its last year's total, the Missouri Kansas & Texas in the Southwest has added $500,902 and the Illinois Central in the Middle West has added $341,279. The following shows all changes for the separate roads for amounts in excess of $30,000, whether increases or decreases.

PRINCIPAL CHANGES IN GROSS EARNINGS IN MARCH.

Central of Georgia	78,500	Total (6 roads)	$340,274

v These figures are for three weeks only; fourth week of March not yet reported.

The Western grain movement was larger in the case of every one of the leading cereals. Of wheat the receipts for the four weeks ending March 30 this year were 15,860,232 bushels, against 11,303,017 bushels in the corresponding four weeks of 1906; of corn 19,872,806 bushels, against 10,938,131 bushels; of oats 15,678,322 bushels, against 13,596,588 bushels; of barley 5,915,723, against 4,223,470, and of rye 613,655, against 246,281 bushels. Altogether the receipts of the five cereals for the four weeks this year were 57,940,738 bushels, against only 40,307,487 bushels in 1906. The following shows the details of the Western grain movement in our usual form.

The Western live-stock movement does not appear to have varied greatly in the two years. At Chicago the deliveries comprised 21,628 car-loads, against 22,256; at St. Joseph 4,387, against 4,529; at Omaha

7,646, against 7,654, and at Kansas City 10,504, against 10,003, making for the four markets 44,165 car-loads, against 44,442 car-loads.

The cotton movement, as in preceding months, increased very materially over the same period last year. The shipments overland were 215,646 bales, against 119,142 bales, and the receipts at the Southern outports were 662,646 bales, against 451,290 bales. We annex our usual statement giving particulars of the movement at the ports.

We have stated above that the comparisons of earnings for March are with a period last year which had recorded gains, but of less striking proportions than the gains for January and February. Our compilations then recorded $5,334,881 increase, or 9.61%, and this succeeded $5,199,940 increase, or 10.21%, in 1905 over 1904. The table we now give shows the monthly totals back to 1897. It will be observed that except for a small loss in 1904 the record of improvement is a continuous one.

b Of this amount 10 shares were sold at the Stock Exchange.
x Sold at the Stock Exchange.

—Trading in mining, industrial and miscellaneous securities and bonds on the New York Produce Exchange will begin on Monday next, the 15th inst. Announcement of the plan to list such securities has previously been made in these columns, and the rates of commission for the purchase or sale of stocks were given in our issue of March 9. The temporary trading list which has been prepared comprises more than 150 securities, and is composed principally of mining shares. Among the industrial securities included in the list are the American Brass Co., American Chicle Co., Barney & Smith Car Co., Hall Signal Co., Herring-Hall-Marvin Safe Co., Niles-Bement-Pond Co., Otis Elevator Co., Pratt & Whitney Co., Royal Baking Powder Co., Safety Car Heating & Lighting Co., Standard Oil Co., Trenton Potteries Co., United Bank Note Co., &c., &c. The Western Union Telegraph Company, it is announced, will send out continuous quotations over the grain ticker from the Exchange.

—The appointment of A. W. Engle of Seattle as Bank Examiner of the State of Washington is announced. Mr. Engle's appointment is made in accordance with the new bank law passed at the recent session of the Washington Legislature regulating the organization and management of State banks, and providing for the creation of the office of Bank Examiner. The new measure goes into effect June 14. Its enactment was in a large measure due to the efforts of the Washington Bankers' Association, which at its meeting last year took up in earnest the question of proper State bank legislation. A resolution was at that time adopted instructing the Executive Committee to prepare and introduce in the Legislature a suitable bill for the supervision of State institutions, and the new law is in much the same form as drafted by the committee.

Under the provisions of the newly adopted measure, the amount of capital for State banking institutions is graded according to population, ranging from $10,000 for municipalities with a population of less than 1,000 to $100,000 for cities with a population of 50,000 or more. This, however, is not applicable to banks or trust companies organized and doing business at the time of the passage of the Act. It is further stipulated that at least 50% of the capital is to be paid in before beginning business, the remainder to be paid in monthly installments of at least 10%. It is also provided that before the declaration of a dividend not less than one-tenth of the net profits for the preceding half-year, or such period as is covered by the dividend, shall be carried to a surplus until such surplus shall amount to 20% of the capital. At least three reports a year are required to be made to the Examiner, on days designated by the Comptroller of the Currency, on which national banks shall make reports. The duties to be performed by the State Bank Examiner are those now imposed upon the Auditor of State with respect to the laws governing the business of banking.

—The Executive Council of the American Bankers' Association will meet at Hot Springs, Va., on May 6 and 7, to decide where the next annual convention shall be held this autumn. Usually the Council meets in New York for this purpose. There seems to be an opinion prevailing that the organization should select the cities for the annual convention without regard to invitation. Heretofore the Council has chosen some place for the yearly meetings from among the cities desiring the convention; now it is believed that the Association has passed the adolescent stage, is to-day large and strong enough to bear the burden of its convention expenses, and should not be entirely dependent on local hospitality and initiative. Its membership is close to 8,800.

—In accordance with plans heretofore referred to in these columns, the directors of the Trust Company of America and the Colonial Trust Company of this city on Tuesday entered into an agreement of merger of the two companies. Their action is to be ratified by the shareholders on the 25th inst. The merger will probably become effective within the next three weeks, until which time the present status of neither company will be changed. The business will thereafter be carried on under the name of the Trust Company of America, the present offices of the Colonial Trust at 222 Broadway being continued as the Colonial Branch of the Trust Company of America. Pending the completion of the latter's building, now in course of erection at 37-43 Wall Street, the principal office at 135 Broadway and the branch office at 36 Wall Street will be maintained.

—Additional capital of the Fourteenth Street Bank of this city to the amount of $900,000 has been listed on the New York Stock Exchange, making the total amount listed $1,000,000. The $900,000 increase in the capital has been made within the last two years; in May 1905, when arrangements were made for the merger of the Gansevoort and Fourteenth Street banks, the amount was increased from $100,000 to $500,000; the further increase to $1,000,000 was made several months ago, the new stock being sold at $150 per share, thereby adding $250,000 to the surplus fund. The latter now (February 26) stands at $350,000, while the undivided profits are $73,984. The deposits on the same date were $7,679,495 and the total resources $9,104,979.

—A dividend of 15% (in liquidation) will be paid on the 15th inst. to the stockholders of the Gansevoort Bank of this city, making in all 75% since the merger of the institution with the Fourteenth Street Bank.

—A new departure for the Farmers' Loan & Trust Company of 16-22 William St. and 475 Fifth Avenue, New York City, is the announcement this week that it has perfected arrangements to issue travelers' letters of credit, payable throughout the world, foreign checks and bills of exchange, cable transfers and make collections in all countries. In entering the foreign exchange field, its officials have been quietly at work carefully organizing this department for over a year, and it is their belief that no company has a more thoroughly established system of credits, as there is no European or foreign city of prominence where this institution's letters of credit will not be available. In London at 18 Bishopsgate St. and in Paris at 78 Rue de Richelieu the company maintains offices with a full banking staff. Total resources of the institution are $91,961,595, capital and undivided profits $8,731,933 and deposits $83,000,000.

—The Treasury Department has sanctioned the application for permission to establish a bank in the new Brunswick Building, at the corner of 26th Street and Fifth Avenue, under the name of the Brunswick National Bank. The petition is presented by Walter Geer, President of the Architectural Terra Cotta Company; John A. Hill of Mt. Vernon, B. P. Willett. Paul Pfotanhauer, Peter Gilsey and Leslie R. Palmer, Secretary of the Brunswick Site Company, owner of the building in which the proposed bank is to be housed. It is planned to organize with a capital of $200,000 and a paid-in surplus of the same amount.

—Both the Trust Company and Savings Bank sections of the American Bankers' Association this time issue separate reports giving the detailed proceedings of last year's annual convention. The books are edited by James R. Branch, Secretary of the American Bankers' Association, and are identical in style with the report containing the proceedings of the regular convention. In each instance there is furnished, in addition to the full transcript of the proceedings, the by-laws of the sections, their officers, rates of membership and list of members. The meetings were held at St. Louis on October 16—the day preceding the opening of the general Convention. Mr. Branch is Secretary of the Trust Company Section and William Hanhart, of 31 Nassau Street, is Secretary of the Savings Bank Section.

—The stockholders of the proposed Irving Trust Company of this city on Tuesday voted favorably on the proposition to increase the capital of the institution from $500,000 to $750,000. The new stock will be issued at $205 per share (the rate of issuance of the original capital), giving a surplus of $750,000. The increase in capital is part of the arrangement reached a month ago to amalgamate the interests of the Irving and Atlas trust companies, and the change in the name to the Fidelity Trust Company, yet to be made, is also a result of the combination of these interests. The company will have as officers, President, Samuel S. Conover; Vice-Presidents, William H. Barnard, of W. H. Barnard & Co., silk importers, Howard Street, and John W. Nix; Secretary, Andrew H. Mars, Assistant Secretary of the Home Trust Company of New York, Brooklyn Borough.

—Walter F. Albertsen has tendered his resignation as National Bank Examiner as New York to become Cashier of the National Copper Bank of this city, which is to commence business next month in the new Trinity Building. Mr. Albertsen has served as Bank Examiner for six years—one year in New York and five years in Washington. As stated in an earlier issue, Charles H. Sabin, Vice-President of the National Commercial Bank of Albany, will be President of the new Copper Bank.

—The Stock Exchange firm of Arnold Leo & Co. of this city, which suspended on December 22 1906, has decided not to resume business. Edgar F. Leo, of the firm, has disposed of his Stock Exchange seat, and, it is understood, will become a member of a new firm. It is stated that with the proceeds derived from the sale of the seat at $70,000, and other money on hand, nearly 50 cents on the dollar has been or will be paid to the creditors.

—The proposed consolidation of the First National and National Exchange banks of Albany, N. Y., which was approved several weeks ago by the stockholders of the first-named institution, was agreed to on Thursday by the stockholders of the National Exchange. The latter is to be placed in voluntary liquidation. The officers chosen for the consolidated institution, which retains the name "First National," are Frederick A. Mead, President; John J. Gallogly, First Vice-President and Cashier; John A. Dix and Horace G. Young, Vice-Presidents; Cantine Tremper, Charles C. Bullock Jr. and Hugh A. Arnold, Assistant Cashiers. The enlarged bank will have a capital of $600,000 and surplus of $200,000 and will begin business May 1. Further details were given in our issue of January 26.

—Raymond E. Winfield has been chosen Cashier of the Central National Bank of Buffalo, N. Y., to take the place of S. T. Nivling, resigned. Mr. Winfield was previously Assistant Cashier.

—Webster F. Putnam & Co., 50 Congress Street, Boston, made an assignment on the 6th inst. to Arthur P. French. The firm is a member of the Boston Stock Exchange and is composed of Webster F. Putnam, the Exchange member, and L. H. Parkhurst. The failure is not considered important.

—The Lincoln Savings & Trust Company of Philadelphia was closed on Wednesday by the State Banking Department, owing, it is claimed, to an impairment of $57,000 in its paid-up capital of $132,000. In a statement issued on Wednesday evening the total liabllities are given as $415,397. The deposits are less than $300,000. The City of Philadelphia is a depository to the amount of $17,000. The company was organized in 1895; James I. Comly was President. Bank Examiner Joseph S. Riley is in charge of the company's affairs.

—John B. H. Dunn has lately been chosen Second Assistant Cashier of the Merchants' National Bank of Baltimore, Md.

—The Central National Bank of Washington, D. C., was placed in voluntary liquidation on March 28, its business having been consolidated with that of the National Bank of Washington.

—The proposition to increase the capital of the Potter Title & Trust Company of Pittsburgh was ratified on the 4th inst. by the stockholders. The company has removed to new quarters in the Berger Building, where it has opened a banking department in charge of W. K. Gamble, Treasurer.

—The directors of the Mellon National Bank of Pittsburgh have decided to increase the surplus from $1,700,000 to $1,800,000 through the addition of $100,000 from the profits of the quarter. The usual quarterly dividend of 1½% has been declared on the $4,000,000 capital.

—M. J. Murphy has been chosen to succeed F. W. Wollerton as Cashier of the Traders' National Bank of Scranton, Pa., the latter resigning to take the cashiership of the Union National Bank of Scranton, now organizing.

—It is announced that arrangements have been completed for the consolidation of the City National Bank of Canton, Ohio (capital $200,000) and the People's Savings Bank of that city (capital $50,000).

—Theodore D. Buhl, who was identified with a number of financial and industrial organizations in Detroit, died suddenly in this city on Sunday. Mr. Buhl was Vice-President of the Old Detroit National Bank, Vice-President of the Detroit Trust Company, President of the Buhl Malleable Iron Works, President of the National Can Company, President of the Buhl Stamping Company, President of Parke, Davis & Company, Vice-President of the Detroit Copper & Brass Rolling Mills, &c. He was sixty-two years of age.

—A proposition to increase the capital of the Bank of Saginaw at Saginaw, Mich., from $200,000 to $400,000 has been approved, and the charter of the institution is to be amended to enable it to conduct a savings department in connection with its commercial banking business. The subscription price of the additional stock is $225 per $100 share. As it has all been subscribed for, the increased capital will become effective very promptly. The purchase of stock in the Savings Bank of East Saginaw by stockholders in the Bank of Saginaw was effected some months ago, and we understand the latter will absorb the Savings Bank of East Saginaw. The last named bank was organized in 1872 and has a capital of $100,000. Its deposits exceed $3,000,000.

—The Federal Grand Jury on the 5th inst. returned an indictment containing 175 counts against John R. Walsh, former President of the Chicago National Bank of Chicago. The charge, it is said, is misapplication of the funds of the bank. A similar indictment of 182 counts was returned against Mr. Walsh by the Grand Jury on January 18, 22 of which were subsequently annulled by the court.

—The First National Bank, capital $200,000, and Illinois State Trust Company of East St. Louis, Ill., capital $250,000, were recently united under the title of Illinois State Trust Company Bank. J. C. Van Riper, who was at the head of both institutions, is President of the consolidated bank; Thomas L. Fekete, H. J. de Haan and Paul W. Abt are Vice-Presidents; R. L. Rinaman is Vice-President and Secretary; F. T. Joyner, Vice-President and Cashier, and James E. Combs, Assistant Cashier.

—The Bankers' Trust Company has been organized in Richmond, Va., by interests in the Bank of Richmond. The new concern has an authorized capital of $100,000 (in shares of $100 each), of which $50,000 will be paid in. While it is authorized to engage in a general banking and trust business, we are advised that it will hardly avail of these privileges at present, its main object being to own stocks in other banks. The officers of the company are: F. E. Nolting, President; T. K. Sands, Vice-President, and R. Fleet, Secretary.

—The Comptroller of the Currency has approved the application made by the State Bank of Virginia at Richmond to convert the institution to the national system, under the name of the National State Bank of Richmond. The proposed change was authorized by the bank's stockholders on the 2d inst.

—The First National Bank of Nashville, Tenn., under the call of March 22, reports deposits of $4,131,294, as compared with $3,081,745 a year ago. The aggregate resources in the same time have risen from $3,994,403 to $5,652,328. This growth during the twelve months is no doubt due in part to the consolidation of the Merchants' National with the First National, which occurred last May, when the capital of the First was increased from $400,000 to $500,000. The latter also has surplus and profits of $270,917. F. O. Watt is President and Randall Curell Cashier.

—The Louisiana Bankers' Association will hold its annual convention next week on the 17th and 18th inst. at Shreveport. Addresses will be delivered by Newton C. Blanchard, Governor of Louisiana; W. L. Young, State Bank Examiner; Charles G. Dawes, President of the Central Trust Company of Illinois, Chicago, and S. Wexler, Vice-President of the Whitney-Central National Bank of New Orleans.

—It is proposed to open the new Lumberman's National Bank of Houston on May 1. As noted last week, the capital is to be $400,000 and there will also be a surplus of $100,000. The officers will be S. F. Carter, President; Jesse H. Jones, J. P. Carter, W. E. Richards and Guy M. Bryan, Vice-Presidents, and A. S. Vandervoort, Cashier.

Monetary and Commercial English News

(From our own correspondent.)

London, Thursday, March 28 1907.

The week has been an exceedingly anxious one upon the Stock Exchange. Feeling on Monday, indeed, was more depressed and apprehensive than it has been for a long time past. In the morning the markets opened comparatively cheerful. Members of the House began to hope that the fear of failures had been exaggerated, and that the settlement would be carried through better than had been anticipated. This took place notwithstanding that there had been a very sharp fall on Saturday upon the Berlin Bourse.

The market here did not take much notice of the troubles in Berlin, but when the opening prices from New York were received and showed a resumption of liquidation alarm spread through the Stock Exchange and an exceedingly depressed feeling was created. Since then there has been a recovery. But there is still much apprehension, although the belief has been growing ever since the beginning of the week that most of those who were in difficulties have received assistance, and that the failures will be much fewer than had been dreaded. During the settlement yesterday evening there were only three failures, each of them small. In Paris there has also been a sharp fall, chiefly in copper shares, the price of copper on the metal exchange in London having dropped heavily at the end of last week.

In Germany speculation has been rampant for a long time past. In vain the Imperial Bank has sounded a note of warning. In vain the other banks have recommended their customers to decrease their commitments. The public was in an optimistic spirit and clung to the securities it had purchased. Apparently the advance in its rate of disconnt by the Bank of France on Thursday of last week proved to be the turning point. The banks in Germany took it to mean that the Bank of France was determined that no financial assistance should be given to Germany, and accordingly they called in loans upon a large scale. This put in motion a great liquidation, which so alarmed operators that they threw stocks wildly upon the market. The position is undoubtedly critical, though there is no reason to fear serious troubles. The reports of the various banks for 1906 show clearly that they have locked up a very large proportion of their funds in unsalable securities. Therefore they are compelled to call in loans just at a moment when the public is in an almost panicky state of mind. Under the circumstances the Imperial Bank of Germany took a very wise step and obtained gold from the Austro-Hungarian Bank. Germany is indebted to the rest of the world, as is evident from the fact that the foreign exchanges have been against Germany for a very long time past. The influence of the Imperial Bank has prevented the export of gold on any considerable scale. But the unfavorable exchanges have also made it impossible to import gold. Under these circumstances the Imperial Bank judged it necessary to obtain assistance from the Austro-Hungarian Bank. It is understood that the sum already advanced will be followed by further remittances. During the present week, which is the last of the first quarter of the year, the demands for banking accommodation will be on an immense scale, and it was urgently necessary that the Imperial Bank should increase its gold reserve. According to its last report, the total cash held on March 23 was under 46 millions sterling, of which somewhat over nine millions sterling was in silver. Consequently less than 37 millions sterling were in gold. At the same time the note circulation exceeded 67½ millions sterling, and it is considered not improbable that the increase in the circulation in the current week will run up from 15 to 20 millions sterling

Unlike the Stock Exchange, the money market is comparatively cheerful. It takes a rather optimistic view of the situation and considers the fears of the Stock Exchange grossly exaggerated. Especially, it laughs at the alarmist rumors which have circulated so widely throughout Stock Exchange circles during the week. Money is in good demand, and the rates of interest and discount are well maintained. It is believed that practically the demands for gold of both India and South America are now at an end, and it is hoped that New York will not need to take gold from the Bank of England. On Monday New York bought somewhat under £400,000 offering in the open market, the total amount disposable having been somewhat over £550,000. From this it is hoped that New York will be able to satisfy its demands by purchases in the open market and will not draw upon the Bank of England. If so, there will be no advance in the Bank of England rate. The favorable view is greatly strengthened by the action of Mr. Cortelyou in accepting other than United States bonds as security for Treasury deposits, and in ordering Custom House officials to deposit customs receipts with the depository banks. This action has made an excellent impression not only in the money market but also on the Stock Exchange.

The India Council offered for tender on Wednesday 50 lacs, and the applications exceeded 323 lacs, at prices ranging from 1s. 4 3-32d. to 1s. 4 5-32d. per rupee. Applicants for bills at 1s. 4 3-32d. and for telegraphic transfers at 1s. 4 5-32d. per rupee were allotted about 15% of the amounts applied for.

The rates for money have been as follows:

	March 28.	*March 22.*	*March 15.*	*March 8.*
Bank of England rate	5	5	5	5
Open Market Rate—				
Bank bills—3 months	5 1-16@5⅛	5@5 1-16	5 1-16@5⅛	4⅞
—4 months	5@5⅛	5@5 1-16	5 1-16@5⅛	4¾

Copenhagen	6	5½	6	5½	6	5½	6	5½

Messrs. Pixley & Abell write as follows under date of March 27:

GOLD.—Of this week's arrivals New York has secured about £350,000, while the Bank has taken about £150,000, and the balance has gone to India. Since our last £486,000 has been bought by the Bank, of which £286,000 is in bars, and £66,000 has been withdrawn for export. £780,000 is expected from South Africa next week. Arrivals—South Africa, £550,000; West Africa, £77,000; Australia, £18,000; total, £645,000. Shipments—Bombay, £88,000; Calcutta, £18,000; total, £106,000.

SILVER.—The market continued steady, with a small improvement in prices, until the 23d inst. On the 25th, however, further sales on China account, coming on a dull market, forced the quotation down ½d. to 30 7-16d., while forward fell 7-16d. Yesterday and to-day there has been a recovery to 30 13-16d. on some covering orders for bears, and less selling by China. The market closes quiet. The Indian price is Rs. 79 13-16 per 100 Tolahs. Arrivals—New York, £172,000. Shipments—Bombay, £94,000; Calcutta, £63,500; total, £157,500.

MEXICAN DOLLARS.—There are no transactions to report. Arrivals—New York, £14,000. Shipments—Bombay, £43,000; Calcutta, £59,500; total, £102,500.

The quotations for bullion are reported as follows:

15 Fidelity Fire Ins. Co. of New York	250	20 Cayey Caguas Tobacco Co., preferred $25 each	$475 lot
45 Carnegie Trust Co	225		

Statement of New York City Clearing-House Banks.—The following statement shows the condition of the New York City Clearing-House banks for the week ending April 6. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

We omit two ciphers (00) in all cases.

Banks 00s omitted.	Capital.	Surplus.	Loans.	Specie.	Legals.	Deposits. a	Re-s've
	$	$	$	$	$	$	%

COMMISSION ORDERS EXECUTED FOR CASH ONLY

Bankers' Gazette.

For Dividends see page 849.

Wall Street, Friday Night, April 12 1907.

The Money Market and Financial Situation.—There has been a considerable reduction in the volume of business at the Stock Exchange in both the bond and shares departments, and the advance in prices noted last week has not been maintained. Commission houses report a dearth of orders, showing that the lower prices now prevailing do not attract the public, and that a large portion of the business reported from day to day is carried on by traders on the floor of the Exchange for their personal account.

The money market shows the effect of increased Government deposits and larger bank reserves. The financial situation abroad has also improved to such an extent that the Bank of England has reduced its minimum discount rate from 5 to 4½%. It is an interesting and significant fact that all the principal money markets of Europe show a decided relief from the more or less strained conditions which have existed for some time past immediately following the easier condition here.

Government crop reports are beginning to attract attention, but of course, aside from the matter of acreage, they are as yet of little importance.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1½ to 2½%. To-day's rates on call were 2@2½%. Prime commercial paper quoted at 6% for endorsements and 6% for best single names.

The Bank of England weekly statement on Thursday showed an increase in bullion of £1 115,931, and the percentage of reserve to liabilities was 43.55, against 41.42 last week.

The discount rate was reduced from 5 to 4½%. The Bank of France shows an increase of 2,700,000 francs in gold and 3,075,000 francs in silver.

NEW YORK CITY CLEARING-HOUSE BANKS.

	1907. April 6.	Differences from previous week.	1906. April 7.	1905. April 8.
	$	$	$	$
Capital	128,100,000	----------	116,472,700	115,972,700
Surplus	159,990,500	----------	145,655,100	137,656,510
Loans and discounts	1,062,688,800	Inc. 6,143,600	1,032,709,400	1,090,759,600
Circulation	50,398,800	Dec. 421,200	51,717,400	44,120,400

Surplus reserve	19,441,225	Inc. 6,309,950	df.2,560,625	8,682,525

a a $30,389,700 United States deposits included, against $18,093,600 last week and $11,730,800 the corresponding week of 1906. With these United States deposits eliminated, the surplus reserve would be $27,038,650 on April 6 and $17,654,675 on March 30.

Note.—Returns of separate banks appear on the preceding page.

Foreign Exchange.—Though irregular, the market was generally strong this week, with long influenced by lower London discounts, and short and cables by a demand for remittance and moderate offerings of bills.

To-day's (Friday's) nominal rates for sterling exchange wese 4 83@4 83½ for sixty-day and 4 86½ for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8250@4 8260 for long, 4 8550@4 8555 for short and 4 86@4 8610 for cables. Commercial on banks 4 82@4 8210 and documents for payment 4 81⅞@4 82⅛. Cotton for payment 4 81⅞@4 81½, cotton for acceptance 4 82@4 8210 and grain for payment 4 82@4 82⅛. To-day's (Friday's) actual rates for Paris bankers' francs were 5 21⅞*a*@5 21⅞ for long and 5 19⅜*d*@5 19⅜ for short. Germany bankers' marks were 94 3-16@94 5-16 for long and 94 13-16*d*@94 13-16 for short. Amsterdam bankers' guilders were 40 19@40 21 for short.

Exchange at Paris on London to-day 25f. 24c.; week's range 25f. 27c. high and 25f. 24c. low

The week's range for exchange rates follows:

	Long		Short		Cables	
Sterling Actual—						
High	4 8250	@ 4 8260	4 8570	@ 4 8575	4 8630	@ 4 8640

Amsterdam Bankers' Guilders—						
High	----------		40 10	@ 40 21	----------	
Low	----------		40	@ 40 1-16	----------	

Less: *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus: *k* 1-16 of 1%. *x* 1-32 of 1%. *y* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah 50c. per $1,000 discount; selling 75c. per $1,000 premium. Charleston selling $1 per $1,000 premium. New Orleans 70c. per $1,000 discount; commercial $1 per $1,000 discount. Chicago 20c. per $1,000 discount. St. Louis 10c. per $1,000 premium. San Francisco, par.

State and Railroad Bonds.—Sales of State bonds at the Board include $34,000 Virginia 6s deferred trust receipts at 20½ to 22 and $2,400 North Carolina 4s at 100¼.

The increased demand for railway and industrial bonds noted last week has not continued. On the other hand, the transactions have steadily diminished from an average of about $3,000,000, par value, per day to less than half that amount. Prices have been irregular.

Chicago Terminal Transfer 4s are exceptional in showing an advance of about 4 points; a few other issues are fractionally higher. On the other hand, about an equal number are about a point lower.

United States Bonds.—No sales of Government bonds have been reported at the Board this week. The following are the daily closing quotations; *for yearly range see third page following.*

* This is the price bid at the morning board; no sale was made.

Railroad and Miscellaneous Stocks.—The stock market has been relatively dull, the transactions averaging well under 1,000,000 shares per day, and prices have receded from the higher level at which they were quoted last week. The market held generally steady until Tuesday, when the recession set in, which continued through to-day and has resulted in a loss of from 2 to 6 points for practically the entire railway list.

Among the exceptional features is Delaware & Hudson, which has been notably strong. It covered a range of over 9 points, closes near the highest and is the only railway issue showing a net gain during the week. Union Pacific and Reading have been leaders of the market, both in the matter of activity and wide fluctuations. Northern Pacific also covered a range of over 6 points.

Smelting & Refining sold 10 points higher on Tuesday than on Monday and closes nearly 5 points higher than last week. Virginia Iron, Coal & Coke has also been a strong feature, and the U. S. Steel issues are only fractionally lower. Otherwise the industrials have followed a course similar to that of the railway list.

For daily volume of business see page 859.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Outside Market.—Aside from the sharp upward movement in Standard Oil stock, the "curb" market has been without feature this week. Trading has been extremely dull, though prices have fluctuated more or less. From last Friday's close Standard Oil advanced almost 50 points, running up from 515 to 564. Subsequently it receded to 546. American Tobacco rose 5 points to 327 but dropped back to 315. Manhattan Transit was active and higher, moving up from 4 to 5⅜ and down finally to 4½. New York & Cuba Mail SS. sold up from 26½ to 28 but reacted to 27¼. Royal Baking Powder preferred lost 1½ points to 103½ but recovered to 104½. Waterbury Company common was weak, sinking from 49¼ to 46½. The close to-day was at 45½. Western Ice was lower, dropping from 27⅛ to 26¼ and closing to-day at the low figure. Chicago Subway from 20⅜ fell to 19¼, advanced to 21 and ends the week at 19⅝. Copper shares were dull and heavy, owing to the decline in the price of the metal. United Copper common displayed firmness, advancing from 62½ to 64, but closes at 62⅝. Greene Cananea rose a point to 17⅝, dropped to 15⅞ and rallied to 16. Greene Consolidated Copper advanced from 25⅛ to 26, then sold down to 24. Balaklala lost most of the recent advance, dropping from 11⅝ to 10⅛ and to-day to 9¾. Butte Coalition Mining went up from 27½ to 28¼, sank to 25¾, recovering finally to 26¼. Trinity Copper dropped from 23 to 20⅞. Boston Consolidated Copper sank from 26½ to 25.

Outside quotations will be found on page 859.

Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

ROADS.	Latest Gross Earnings. Week or Month.	Current Year.	Previous Year.	July 1 to Latest Date. Current Year.	Previous Year.

Chicago Indiana & Southern RR.

(Report for Fiscal Year ending Dec. 31 1906.)

This company, whose $20,000,000 capital stock is owned by the Lake Shore and the Michigan Central ($17,000,000 being held by the former and $3,000,000 by the latter), reports as follows through its President, W. H. Newman:

Consolidation.—The report covers the operation of the following mileage: Indiana Harbor, Ind., to Danville, Ill., 109.09; South Bend, Ind., to Ladd, Ill., 202.96; total mileage owned (excluding Dune Park extension, 16.34 miles, which is operated by the Indiana Harbor RR. Belt Line), 312.05; lines operated under trackage rights, 28.02; total mileage operated, 340.07. The company was formed by the consolidation of the Indiana Illinois & Iowa RR. Co. and the Indiana Harbor RR. Co., an Indiana corporation, under date of April 9 1906. On the same date the company acquired the entire capital stock of the Danville & Indiana Harbor RR. Co. Although the new company was not formed until April 9 1906, this report covers operations of the former companies, which were merged at that time, from Jan. 1, so that a full year's results are shown.

Fifty-year 4 % gold bonds are authorized to the amount of $20,000,000; of these there are issued and outstanding $10,000,000, leaving a balance unissued of $10,000,000. There are also outstanding first mortgage bonds of the Indiana Illinois & Iowa RR. Co., for which a like amount of the 50-year gold bonds are reserved, for the purpose of exchanging, refunding, redeeming or paying same, $4,850,000, leaving a balance available for general purposes of $5,150,000.

General Results.—The gross earnings for the year were $2,332,732, an increase of $217,687 as compared with last year. The freight earnings were $2,080,406, an increase of $180,416 over last year. This increase is accounted for by the opening for business of the Danville Division and the increased tonnage accruing from that source. The passenger earnings were $174,864, an increase of $61,677. The rent and miscellaneous earnings were $55 664, a decrease of $26,426. This decrease is accounted for by the conversion to the company's use of real estate from which revenue was derived in prior years.

The operating expenses for the year were $1,826,952, an increase of $143,618 over last year. Maintenance of way and structures decreased $3,745. Maintenance of equipment shows an increase of $74,572. This is due to additions to the rolling stock of all classes and a corresponding increase in mileage. Conducting transportation increased $53,279. This increase is very evenly divided among the various items, with the exception of car mileage, which shows a decrease of $191,761. The decrease in this item is explained by the increase in rolling stock. General expenses show an increase of $19,512 on account of completing organization of the consolidated company. Interest on floating debt and on gold bonds issued to Dec. 31 1906 for account of new line under construction has been charged to cost of road and equipment. In addition to the regular charges for maintenance there are included in income account items for new structures, tracks, &c. (as shown in table below), which aggregate $24,726.

RESULTS FOR CALENDAR YEARS.

Long Island Railroad.

(Report for Fiscal Year ending Dec. 31 1906.)

The report, signed by President Ralph Peters and Secretary Frank E. Haff, says in substance:

General Results.—The operations for the year show an increase in gross earnings of $1,094,129, or 12.9 %. The freight tonnage shows an increase of 245,229 tons, or 8.9 %, the tonnage mileage an increase of 3,522,744, or 5.1 % and the freight train mileage an increase of 9.9 %. The number of passengers carried increased 3,427,228, or 18.8 %; the passenger mileage increased 22 %, and the passenger train mileage increased 16.40. The large increase in passenger business is particularly gratifying in view of the fact that the previous year's report showed a decrease in passengers carried as compared with 1904.

The operating expenses show an increase of $848,962, or 12.8 %. This is due to increased train service, extraordinary expenditures on locomotives and car equipment, the continued outlay in connection with electric service, the exclusive use of anthracite coal upon locomotives in Greater New York, and the general increase in prices of labor and material of all kinds. It must also be borne in mind that under the adjustments of wages made with all classes of your employees during the past year, and covering the compensation of about 8,000 men, your expenses will be increased about $250,000 during the current year.

The income account shows a deficit of $28,359, but taking into account the increased interest charges, and the fact that the loss in the operation of the Montauk Steamboat Co., Ltd., amounting to $56,822, was charged against that account, the result is not unsatisfactory.

The passenger statistics show a slight decrease in the earnings per passenger per mile, the average rate received now being 1.5 cents, due to a lowering of the rates on commutation and excursion business. It is believed that this revision of the rates will please the public and increase our revenue.

Improvements.—Heavy expenditures for improvements continued throughout the year upon the Atlantic Avenue improvement, the revision of your line to Bay Ridge and Manhattan Beach, and the electrification of your lines in Brooklyn and Queens. Extensive charges to capital account were also made, covering cost of additional running tracks, new passenger stations, improved docks and wharves and other freight facilities, and extensions of shops and other buildings.

The funds to meet these outlays were provided through the sale of $4,517,000 of 4 % refunding mortgage bonds.

As the work on the Atlantic Avenue and Bay Ridge improvements, and the purchases of land in connection therewith, necessitated capital expenditures extending through several years, and from which no additional revenue can be derived until their completion, a proper proportion of the interest on the securities issued to provide funds therefor has been charged into cost of construction.

Charges to Capital Account—Special Improvements aggregating $2,390,863.

Atlantic Ave. improvement ($823,536) and Atlantic Ave. trolley ($198,485)	$1,022,021
Bay Ridge improvement and elimination of Brooklyn grade crossings	836,956
Electrification of lines	531,888
Other Charges to Capital Account Aggregating (Net) $1,413,812.	
Cost of road and real estate	$646,814
Thirty-fourth St., N. Y., ferry terminal improvements	64,596
Second track, Babylon to Oakdale, Whitestone Junction to Flushing, Main St., and Jamaica to Springfield Junction	212,704
Third track, Valley Stream to Springfield Junction, and Hollis to Brushville	10,163
Express facilities, Brooklyn	80,410
New rails, balance (authority of 1905)	6,120
Additional docks, Newtown Creek	120,555
Passenger stations at Locust Valley, Lawrence, Sayville and Broadway	54,990
Freight yards, freight houses, &c	172,029
Extension and improvement of shop buildings	34 284
Elimination of grade crossings	7,197
Signals and inter-locking	15,418
Less credits	$11,469

The work on the Atlantic Avenue improvement in Brooklyn has been entirely confined to the freight and passenger terminals, the line work having been completed in 1905. The terminal work has progressed satisfactorily, notwithstanding many obstacles which had to be overcome, and should all be completed this year. The Bay Ridge improvement has progressed satisfactorily during the year. A large portion of the work of depressing the tracks and elevating other portions of the line has been successfully prosecuted, and several principal grade crossings eliminated.

Electric Lines.—The line between Springfield Junction and Valley Stream was electrified, thus completing a loop service from the Far Rockaway branch to the Old Southern Road, which is the short line between Jamaica and Springfield Junction. This makes a total of about 100 miles of single track now operated by electric third rail. Its workings during the year have been very successful, and while it has not yet been economical, owing to the fact that your power is not fully employed, it has materially increased your passenger traffic.

Plans are being prepared for the electrification of your lines from Long Island City to Port Washington and to Whitestone Landing; and as soon as the tunnels under the East River are completed, your lines will be electrified to Jamaica and to Woodhaven Junction, via the Glendale cut-off, a connection between the main line, the Montauk division and the Rockaway Beach division. Plans are also being made for an enlarged terminal at Jamaica, where the change from steam to electric locomotives will be made.

Equipment.—Through the equipment trust, referred to in the last report, your company has added to its equipment: 2 ferryboats, 2 car floats, 25 locomotives, 100 box cars, 34 gondola cars, and there are now under construction 66 gondola cars and one tugboat. The locomotive equipment shows a decrease of five during the year on account of old, small-type engines which were sold or broken up. Twelve parlor cars were purchased during the year, and their cost charged to expenses.

Rails and Ties.—There were 2,110 tons of new steel rail and 115,464 ties used for renewals, and 1,165 tons of new and 2,065 tons of second-hand rail and 64,836 ties used in the construction of additional tracks and sidings.

Second Track.—Appropriations have been made for and preliminary work started on second track as follows: Flushing to Great Neck, 5.0 miles; Whitestone Junction to Whitestone Landing, 4.7 miles; Roslyn to Glen Cove, 5.1 miles; Oakdale to Patchogue, 6.5 miles.

Long Island Consolidated Electrical Companies.—In the report for 1905 attention was called to the organization of the Long Island Consolidated Electrical Companies (compare V. 80, p. 2462; V. 82, p. 100, 864; V. 83, p. 800). That company has completed the acquisition of a one-half interest in the New York & Long Island Traction Co. and in the Long Island Electric Railway Co., and has also purchased during the year the Babylon RR., a small line in the village of Babylon. The company has also planned the construction of a cross-island line from Huntington to Babylon via Farmingdale and Amityville, and the necessary franchises for this extension have been secured. It is proposed to obtain the funds for this purpose through the sale of the Electrical Companies bonds, guaranteed by your company.

Industrial Development.—In connection with the development of the property, your company has undertaken to demonstrate the agricultural possibilities of Long Island by the establishment of two experimental farms, one at Wading River and one at Medford. The farm at Wading River has been in operation for more than a year, and the results from the work have been very encouraging. During the year 4,836 dwelling-houses, 282 stores, 15 factories and 178 miscellaneous buildings were constructed in villages on your lines outside of Long Island City and Brooklyn.

Union Bag & Paper Co.

(Report for Fiscal Year ending Jan. 31 1907.)

President L. G. Fisher says in substance:

Our last year's report mentioned the purchase of 800 square miles of timber limits in Canada, and negotiations in progress for the purchase of another large property in the same territory which was owned by the Gres Falls Co. of Three Rivers. This last has been acquired and includes about 1,200 square miles of timber limits, about 200 acres of freehold land at the junction of the St. Maurice and St. Lawrence rivers, a large lumber and pulp-wood preparing mill, with ample piling ground, docks, railroad sidetracks and all the necessary facilities for carrying on the entensive pulp wood and lumber business at Three Rivers. It also includes a magnificent water-power of about 25,000 horse-power 11 miles from the St. Lawrence, with a large tract of land at the site of the Falls. The St. Maurice Valley RR. extends through the property at this point. We also purchased all of the assets of the company, including the logs cut by it the preceding winter. We now own about 2,300 square miles of Canadian timber limits (in addition to our Adirondack holdings), which, with the Gres Falls water-power, are considered among the most valuable assets of the company and most likely to show a great increase in value and earning power hereafter.

We have been negotiating for several years for the purchase of the property of Allen Brothers Co. of Sandy Hill, N. Y., adjoining our east side plant there. This deal was consummated last fall (V. 83, p. 1596) and the property turned over to us in full operation in January. It consists of paper mills with a capacity of 60 tons per day, a wood-pulp mill, capacity of 30 tons per day, and water-power which, with our own, includes all of the water-power of the Hudson River at that point. There has been litigation for years between that company and ours as to the exact rights of each to these waters. This is now settled and we have undisputed possession of at least 10,000 additional horse-power (heretofore undeveloped) which we have already started to harness and which in time will give our company a large income.

The new mills alone are capable of earning fair interest on the total investment. Without these additional facilities we should have been obliged to build, as our demand for paper and bags had outrun our capacity. The above purchases explain the large capital expenditure for the year. The profits for the year of the woodland operations of the Charlemagne property purchased in 1905, and the Gres Falls property purchased in 1906, were sufficient to pay interest and sinking fund charges on the bonds issued in connection with the acquisition and operation of these properties, and at the same time we secured an ample supply of pulp wood suitable for our use without being compelled to purchase in the open market at a probably greatly enhanced price.

It should have been apparent to buyers of pulp wood a year ago that, supply and demand considered, existing prices were too low. In the late fall prices suddenly advanced about 25% and a scarcity of supply developed. That interrupted production of paper generally and promises to further advance cost of raw material. Without our recent purchases of Canadian woodland—using, as we do, over 100,000 cords of pulp wood annually—this condition would have been a menace to the company. As it is, our own supply being absolutely secured at old cost, the scarcity enables us to get higher prices for sulphite wood pulp, bags and paper, the benefits of which will be felt during the coming year. It is not probable that pulp wood will ever recede to prices of 1905 and 1906. It is possible to-day's prices may be exceeded.

The inventory of logs and pulp wood increased somewhat, due to the abnormally low water conditions in Canada, on account of which a full supply of logs was not received at the saw mills, thus preventing them from operating at full capacity or at even reasonable efficiency. On this account amounts of lumber and pulp wood produced were less than expected but sufficient stock was furnished so that our pulp mills were in no way embarrassed

The purchase money obligations are deferred payments on account of the property purchases made, much of which extends over a series of years.

Manufacturing costs have been materially increased, due largely to increases in rates of wages paid, combined with decreased working hours, and partially from increased cost of all raw materials and supplies. During the greater part of the year the selling prices of bags, paper and sulphite were even lower than the preceding years. Near the end of the year there was a very considerable improvement in these prices, which, however, we did not practically feel at all until the commencement of the present fiscal year. Owing to the causes mentioned, it was necessary, in the opinion of the directors, to reduce the dividend rate during the course of the year. Two quarterly dividends are paid at the rate of 7% and two at the rate of 4% per annum.

In addition to charging the expense of repairs and maintenance to operating costs, we have written off depreciation amounting to $85,942 and have also charged against the profits for the year the sinking fund requirements of our bonded indebtedness, amounting to $64,000.

The profits for the year ending Jan. 31 1907 contrast with the results for previous years as follows:

	1906-07.	1905-06.	1904-05.	1903-04.
Profits per year	$934,487	$833,352	$906,419	$812,498
Interest on bonds	106,875	29,721	------	------
Int. on 6% purch. notes	38,750	------	------	------
Dividends on pref.	(5½%) 605,000	(7%) 770,000	(7%) 770,000	(7%) 770,000
Depreciation, &c.	x92,942	------	------	38,013
Sinking fund for bonds	64,000	------	------	------
Surplus	$26,920	$33,631	$136,419	$4,485

x The "cost of properties" as per balance sheet was increased during the year $2,235,984 for additions, &c. (viz.: "additions to real estate, buildings, plant, machinery, patents, dams and flows, for additional timber limits and for discount and expenses on issue of bonds and expenses incidental to perfecting and experimenting on new machinery, less proceeds of sale of machinery and real estate"); V. 81, p. 564, 269. It was reduced by $413,925 on account of "extinguishment, depreciation and sinking fund."

BALANCE SHEET JAN. 31.

—V. 83, p. 1596

Rubber Goods Manufacturing Company.

(Report for Fiscal Year ending March 31 1907.)

President Charles H. Dale, April 11 1907, says in substance:

General Results.—The report of the Treasurer shows quite a large increase in the volume of business as well as in the profits over all preceding years. This good showing is largely attributable to our close association with the United States Rubber Co. through the latter's large holding of the capital stock. During the year the distributing agencies of the United States Rubber Co., both in this country and in Europe, have been marketing the products of our subsidiary companies, thus affording us a greatly enlarged selling organization without additional expense.

Another important advantage in this co-operation is in the purchase of crude rubber through the joint ownership of the General Rubber Co. It may be confidently stated that no other company in the world manufacturing rubber goods has such a well-equipped organization for the obtaining of supplies of crude rubber, or can obtain a comparable advantage in the acquisition of crude material.

A committee has been appointed for the purpose of effecting the liquidation of the company, thus bringing our subsidiary companies into still closer relation with the United States Rubber Co.

Dividends.—The usual quarterly dividends of 1¾% each have been paid during the year on the preferred stock and a dividend of 1% has been paid on the common stock. The question of paying further dividends upon the common stock has been under consideration by your directors, whose decision was that further dividends upon the common stock should be deferred for the present.

Litigation.—An amicable settlement has been effected of the controversy with the Pope Manufacturing Co., which has been in litigation during the past three years. The adjustment gives entire satisfaction to both parties, the result being that your company now has the Pope Manufacturing Co., one of the largest manufacturers of bicycles and automobiles in the country, as firm friends and customers.

New Plant.—The new plant of the Morgan & Wright Co. at Detroit, Mich., referred to in our last report, has been in complete operation since last summer and is without doubt the most modern and economical plant in the world for the manufacture of tires and miscellaneous rubber goods.

Maintenance.—All the plants of our subsidiary companies have been maintained at their usual high standard, and in many instances large additions have been made to keep pace with increasing business.

Product.—Our mechanical rubber goods are regarded in the trade as standard and our companies engaged in the manufacture of automobile and vehicle tires have made great advances, more than doubling in a few years their percentage of the total tire business of the country. This last results largely from important improvements, notably the Midgely detachable rim and the Midgely wire grip, or "anti-skid," and, fundamentally, also to the fact that the Dunlop and Clincher tires, as manufactured by the Hartford, Morgan & Wright and G. & J. companies, are not excelled by any other make.

Outlook.—Reports from subsidiary companies on business done since the close of their fiscal year, Dec. 31 1906, which is not covered in the reports appended, show that such companies have maintained the ratio of increased sales shown during the year covered by this report, and the orders for future delivery are greater than ever before.

Total	12,277,458	10,936,412	Total	12,277,458	10,936,412

The proposed increase of $300,000 in the preferred stock was mentioned last week (V. 84, p. 806). An official statement says in substance:

The properties to be acquired consist of the entire $100,000 capital stock of the Imperial Pneumatic Tool Co. of Athens, Pa. This plant manufactures all kinds of pneumatic tools and is a competitor of the Chicago Pneumatic Tool Co. It is proposed to double the capacity of the Athens plant as soon as the new financial plan is completed. We will also acquire the largest part of the new issue of stock to be made by the Canadian Rand Co., Ltd. This company is now capitalized at £125,000 (par of shares $100) and is about to double this, making it £250,000. The contracts for these acquisitions have been made, and only await the issue and sale of the new preferred stock by the Ingersoll-Rand Co. for consummation. The company will also build a foundry and make large extensions to the plant of the Imperial Engine Co. at Painted Post, N. Y.—V. 84, p. 806.

American Grass Twine Co.

(Balance Sheet of Dec. 31 1906.)

President J. M. Robinson says:

The year has been a prosperous one. The sales were 33 1-3% larger than for 1905 and net profit over all expense $95,058. Of our indebtedness we have paid on notes and interest $170,430; bonds on Oshkosh plant and interest $25,750; payments on grass lands and interest $6,239. The infringement suit against the Oshkosh Grass Matting Co. was decided against us in the Circuit Court, but our patent attorneys feel confident that we will win in the Circuit Court of Appeals.

Our contracts for 1906 all showed a substantial profit. The business done so far in 1907 shows a gain of 16% over the corresponding months in 1906. The future looks encouraging and conditions are much better than ever before.

BALANCE SHEET DEC. 31.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

Astoria & Columbia River RR.—*Change in Control.*—The recent report that this line, extending from Goble to Seaside, Ore., &c., 82 miles, has been sold to the Hill interests (at a price said to be $3,500,000 or more) has been confirmed by the election as President of C. M. Levey, who is also the President of the Portland & Seattle Ry., which is owned jointly by the Great Northern Ry. and the Northern Pacific Ry. (compare report of last-named co. in V. 83, p. 1111).

The directors of the Astoria & Columbia River RR. are now:

O. M. Levey, President; Judge L. G. Gilman, of Seattle, Vice-President and M. P. Martin, of Tacoma, Secretary and Treasurer; John McGuire, Superintendent; A. D. Charlton and William Harder, Portland; and F. D. Kuettner, Astoria.—V. 77, p. 2158.

Atchison Topeka & Santa Fe Ry.—*Repassed.*—Governor Campbell, of Texas, vetoed the bill authorizing the consolidation of the Gulf Colorado & Santa Fe, Gulf Beaumont & Kansas City and other lines, on the ground that it would contravene the constitutional provision forbidding the merger of parallel and competing lines. On Thursday, however, the bill was passed over the vote. (Compare V. 83, p. 1347).—V. 84, p. 803, 569.

Buffalo Rochester & Pittsburgh Ry.—*New Mortgage.*—A circular dated Feb. 28 and signed by President A. G. Yates and Secretary J. H. Hocart announces substantially as follows the calling of a meeting of the shareholders (for April 25) to authorize an issue of $35,000,000 50-year consols, bearing not more than 4½% interest.

Your board of directors has determined to ask the stockholders for authority to create a mortgage on the property to secure $35,000,000 50-year consolidated mortgage bonds bearing interest at not over 4½% per annum to provide for the consolidation of the debt of the company, for extensions double-tracking, improvements, betterments, equipment, &c.

Purposes for which the $35,000,000 Bonds May Be Issued.

For immediate delivery to the company for present corporate uses	$3,000,000
For retirement of underlying obligations at or before maturity	18,145,000
For future requirements, to be issued after July 1 1908, at not exceeding $1,500,000 per annum. The stockholders, however, can authorize a larger issue in any one year for such purposes as may be found necessary to meet the growth of the company and of its business	13,855,000

Since Sept. 1 1887 no mortgage lien has been placed upon your property, while large amounts have been expended for construction, for new equipment purchased in lieu of bonds not offered to the sinking fund and for other purposes. To provide for such expenditures not taken care of by the issue of new capital or by the "construction and improvement notes"—particulars of which will be found in the annual reports—and to reimburse the treasury for construction now under way or contemplated, including equipment not provided for by equipment bonds, it is proposed to issue the $3,000,000 of new bonds first above mentioned.—V. 84, p. 270.

Central California Traction Co.—*Bond Offering—Further Facts.*—The first mortgage 5% 30-year sinking fund gold bonds offered at 97½ and interest by the California Safe Deposit & Trust Co. of San Francisco, the mortgage trustee, are dated Sept. 1 1906 and are due April 1 1936, but redeemable on any interest day, after 60 days' notice, at 105 and interest. Denomination $1,000. Interest payable April 1 and Oct. 1 at office of trustee. Sinking fund $15,000 for 10 years, $30,000 for next 10 years and $45,000 for the following 4 years. Bonds authorized, $1,500,000; issued, $500,000; reserved in the treasury to be used for further extensions and improvements, $1,000,000. A circular says:

Organized under the laws of California Aug. 1905 with a capital of $2,500,000 (all common, par $100—Ed.) Directors: W. J. Bartnett, Vice-President; J. Dalzell Brown, Treasurer; John Treadwell, David F. Walker, Mortimer Fleishhacker, Herbert Fleishhacker, A. Mack, Alden Anderson, Walter Arnstein, H. H. Griffith, George W. Peltier. W. J. Bartnett, J. Dalzell Brown, John Treadwell and David F. Walker were the projectors and organizers of the Western Pacific Railway Co.

The company was organized to construct and operate an interurban system of electric railroads for passenger and freight traffic in the great central valleys of California, having as its initial point the city of Stockton—thence north about 50 miles to Sacramento, which will be the first division of the system. Franchises in all the cities of the system run for 50 years. All rights of way, other than those obtained in the cities, are the company's private property. The company's street car line in Stockton is finished and in full operation, and consists of 10 miles of track, standard construction, 65-lb. steel rails, power-houses and car barns. About a mile of track has been graded in a northerly direction toward Lodi, outside of the city limits. All this has been installed at an approximate cost of $300,000, paid for by moneys subscribed by the stockholders. The company now proposes to prosecute the construction of the road to its first objective point, which is Lodi, a distance of 14 miles northerly from Stockton. The cost of this work and equipment will be about $350,000. The electric power is furnished by the American River Electric Co., which is installed in Stockton and in Sacramento, and the company is controlled by Messrs. Fleishhacker.

It is expected that freight and passenger traffic connections will be made with the Western Pacific Ry. and the Santa Fe by an interchange of freight and passengers to and from points reached by the lines of the Central California Traction Co., which will act as a feeder to the railroad, and vice versa. The richness of the country to be traversed, the products of the soil, and the cities on the routes, makes substantial foundation for the enterprise. The road in Stockton is earning enough to provide for the fixed charges, and the freight earnings alone, in sight and assured, make the undertaking an attractive and profitable investment.—V. 84, p. 507.

Chicago Terminal Transfer RR.—*Stockholders' Protective Committee.*—A committee consisting of George L. Malcolm, Chairman, George D. Mackay, Edward A. Morgan, Edward L. Oppenheim, James L. Laidlaw, with H. S. Mott, Secretary, 100 Broadway, N.Y. City, announces by advertisement:

In view of the published notice of the proposed early foreclosure sale of the properties, the undersigned, at the request of the holders of large amounts of both the preferred and common stock have agreed to act as a committee to protect the interests of the stockholders. Stockholders should communicate with the Secretary of the committee immediately, as the foreclosure sale is advertised for May 3 1907.

Reply to Petition of B. & O. RR. for Permission to Pay the Bonded Debt.—The company's attorney on April 5 made answer to the petition filed by the Baltimore & Ohio RR. Co. in the United States Circuit Court on March 30 last for permission to pay the principal of the bonded debt and the accrued interest for two years, the purpose being to place the B. & O. lease of the terminals ahead of the present lien of the mortgage. The application will come up for a hearing on April 18. The company, in its answer, petitions the court to deny the plea of the B. & O. on the ground that if it is allowed to assume the entire bond indebtedness it will have a tendency to eliminate competition when the road is offered at foreclosure sale. The company also contends that its property is worth more than the bonded debt. It is thought by some that the Hill roads will bid for the property.—V. 84, p. 748, 693.

Coney Island & Brooklyn RR.—*New Stock.*—The State Railroad Commission on April 11 granted the company authority to increase its capital stock from $2,000,000 to $3,500,000, but only $1,000,000 of the new stock is to be issued without further action by the Commission. The money is to be used for improvements.—V. 84, p. 626, 569.

Cleveland (O.) Electric Ry.—*Dividend Reduced.*—The directors recently declared a quarterly dividend of ¾ of 1% on the $23,400,000 capital stock, payable April 15. Quarterly dividends of 1¼% were paid in 1906. From 1901 to 1905

inclusive the rate was 4% per annum, or 1% quarterly. The present reduction is said to be due to the losses incident to the experiment of selling seven tickets for 25 cents.

Fares Raised.—On April 7 the directors declined to consider the offer of an "irresponsible holding company" to pay $60 a share for their stock, and ordered the rate of fare back to eleven tickets for 50 cents with cash fares 5 cents. On the Central and Quincy Ave. lines, on which the franchises have expired, the 3-cent-fare rate will not be changed for the present. Compare V. 84, p. 101, 157, 390.

New Directors.—John Sherwin and H. P. McIntosh have been added to the board of directors, making 17 in all.

Citizens May Vote.—The City Council on April 2 adopted the report of its special committee, recommending that the question of public ownership of street railway franchises, low fares and other issues involved be submitted to popular vote.—V. 84, p. 390, 157.

Delaware & Hudson Co.—*New President.*—L. F. Loree, at present Chairman of the executive committee of the Kansas City Southern Ry., in 1904 President of the Rock Island, and still earlier President of the Baltimore & Ohio, has been unanimously elected President and a Manager of the company, to succeed David Willcox, who resigns on account of impaired health.

Mr. Willcox retains his place on the Board of Managers, and a place on the board for Mr. Loree has been made by the retirement of William S. Opdyke, General Counsel of the road. Alexander E. Orr, for many years Vice-President, has also retired, his office having been an honorary one. Mr. Loree, it is stated, will retain his position with the Kansas City Southern.

Note Issue Talk.—There has been talk this week respecting the likelihood of the company's making an issue of two-year or three-year notes. The rumor met with official denial and it is supposed that, if such a plan has been suggested, it will be held in abeyance for some time to come. Compare V. 84, p. 338, 623.

Hanford Irrigation & Power Co., Seattle.—*Bond Issue.*—This company, which was incorporated in the State of Washington in Nov. 1905 with $250,000 capital stock, in shares of $100 each, has filed a mortgage to the Washington Trust Co. of Seattle, as trustee, to secure $300,000 bonds, of which $200,000 are outstanding.

The mortgage covers some 330 acres of land near Priest Rapids, Yakima County, Wash., the electric power plant which is being built thereon, the distributing system, &c. Bonds dated Jan. 1 1907 and due Jan. 1 1917, but subject to call after three years at 105. Interest payable July 1 and Jan. 1 at Seattle. The trustees are: Judge C. H. Hanford, C. J. Smith, J. H. McGraw, W. R. Todd, J. B. Howe, M. B. Haynes, H. K. Owens, J. A. Kerr and George A. Burch. J. H. McGraw is President and M. B. Haynes is Secretary, Scheuerman Block, Seattle.

Hudson Pelham & Salem (Mass.) Street Ry.—*Foreclosure Sale.*—At Concord, N. H., on April 8, Judge Edgar Aldrich, in the United States Circuit Court, issued a decree of foreclosure and sale against the company in the suit of the New York Trust Co., the mortgage trustee. The company is controlled by the New Hampshire Electric Railways Co. which, it is understood, owns the outstanding bonds (V. 82, p. 1157).—V. 83, p. 155.

Interborough-Metropolitan Co.—*Possible Extension.*—See Rapid Transit in New York City below.

Fire.—See Metropolitan St. Ry. below.—V. 84, p. 570.

Kalamazoo Lake Shore & Chicago Ry.—*Lease.*—This company, whose road, known as the "Fruit Line," was completed in Jan. 1906 and is now in operation from Kalamazoo to Paw Paw, Mich., 22 miles, has acquired from the Pere Marquette RR. Co. (see V. 83, p. 1525) under 25-year lease the South Haven & Eastern branch, extending from South Haven to Lawton, Mich., 37 miles, possession to be taken April 15. Rental $1,500 per month for first five years and higher for remainder of term, lessee paying all taxes and maintenance. S. J. Dunkley, Kalamazoo, is President of the K. L. S. & C. Ry. Co.

Long Island Consolidated Electrical Companies.—*Acquisitions.*—See report of Long Island RR. under "Annual Reports" on a preceding page.—V. 84, p. 749.

Maine Central RR.—*Lease.*—The shareholders will meet April 26 to ratify a 999-year lease of the Portland & Rumford Falls RR., which see below.—V. 84, p. 804.

Manila Electric Railroad & Light Corporation.—*Listed.*—The New York Stock Exchange has listed $22,000 additional capital stock of this holding company, making the total listed $5,000,000.

Results for Calendar Year 1906.

	Gross Income.	Net Income.	Bond Interest.	Rents.	Dividends.	Balance, Surplus.
Holding Co	$352,596	$350,238	$233,208	-------	(2%) $99,560	$17,470
Operating Co	804,960	441,278	180,000	$35,000	116,667	109,611

The income of the holding company includes: Dividend from Manila Electric Railroad & Light Co. (operating company, shown above) $116,667; bond interest from said company, $180,000; four months' interest on $1,000,000 note of that company, $20,000; dividend (as rental out of $35,000 above), on La Electricista stock, $34,396; interest on deposits, $1,533; total, $352,596. Compare V. 84, p. 220, 102.

Memphis Street Ry.—*Decision as to Fares.*—Judge Pittman, in Division 8 of the State Circuit Court, on March 27 rendered a decision sustaining the validity of the city ordinance (known as the Malone ordinance) passed Nov. 28 last providing that the company shall sell 6 tickets for 25 cents, 12 for 50 cents and 25 for $1.

The company interposed a demurrer, claiming that the ordinance of Nov. 20 1895, which provided for a 5-cent fare, was a contract binding on the city, and that the later contract was therefore null and void. The court overruled this contention, holding that the ordinance of 1895 is not a contract because it was not passed in the manner required by the charter of the taxing district (or city of Memphis) in force in 1895 for the making of contracts.

Suit.—Geo. M. Clark and two others, citizens of Louisville, Ky., as the owners of 175 shares of the common stock, on Jan. 25 brought suit in the Chancery Court at Memphis to set aside the sale of control to the American Cities Railway & Light Co. and to recover on behalf of the company from Isidore Newman & Son the sum of $105,000 alleged to have been improperly derived by them from the purchase and sale of $1,500,000 of the company's bonds. Compare V. 82, p. 1438; V. 83, p. 38.

Metropolitan Street Ry., New York.—*Fire.*—A fire early Monday morning destroyed the company's car barns and between 200 and 300 cars therein at Lenox Avenue and 146th Street. The electrical room of the power-house was practically uninjured. The loss was over $1,000,000, largely covered by insurance.—V. 84, p. 508.

New Hampshire Electric Rys.—See Hudson Pelham & Salem Street Ry. above.—V. 82, p. 115.

New Orleans (La.) Railway & Light Co.—*Report.*—For calendar year:

Year—	Gross.	Net.	Charges.	Pref. Div'd.	Bal., sur.
1906	$5,773,190	$2,699,175	$1,900,901	(5%) $500,000	$298,274
1905	5,093,710	2,422,249	1,784,226	(1¼) 125,000	513,023
1904	4,674,344	2,175,821	2,149,840	----------	25,981

—V. 84, p. 339.

Niagara Gorge RR.—*Purchase.*—This company has purchased a majority of the $134,000 capital stock of its leased line, the Lewiston & Youngstown Frontier RR., but no consolidation, we are informed, is proposed, nor are the $150,000 bonds of the Frontier line assumed.—V. 68, p. 1133.

Northern Pacific Ry.—*Listed.*—The New York Stock Exchange has listed $1,023,000 prior lien 4% bonds, due 1997, issued to pay for new construction, equipment, etc., making total amount listed $102,415,500.

Acquisition.—See Astoria & Columbia River RR. above.

Earnings.—For half-years ending Dec. 31:

6 mos.	Gross.	Net.	Int. & Rents.	Taxes.	Dividends.	Bal., Sur.
1906	$36,898,975	$19,465,476	$3,586,975	$1,266,450	(3½%) $5,425,000	$9,187,051
1905	32,966,206	---------	--------	--------	--------	--------

From the surplus here shown deduct improvements and betterments, $1,812,220; balance to surplus account, $7,374,831.—V. 84, p. 508, 221.

Passenger Fares.—*Reduction of Rates by Legislation.*—Governor Stuart of Pennsylvania on April 5 signed the Dunsmore bill, enforcing a maximum passenger rate of two cents a mile in that State. President McCrea of the Pennsylvania RR., in a letter to the Governor protesting against the enactment of the bill, shows ("Financial Bulletin" of Philadelphia for April 6) that of this company's total passenger business in Pennsylvania in 1906, 51% was represented by "one way" tickets at an average rate of 2.51c. per mile. The remainder was made up of round-trip and excursion tickets, 27%, at 2.009c.; commutation, 9%, at 1.061c., and mileage, 13%, at 2c. Total average, 2.055c. He then says:

In 1906 the lines east of Pittsburgh failed to earn 6% on the capital invested in doing a passenger business by	$500,000
With the average rate in one-way tickets reduced from 2.51c. per mile to 2c., the reduction on the business of 1906 would amount to one-fifth of 51% of $26,284,732, equal to	2,660,737
Making that deficiency	$3,260,000

Bills or orders reducing passenger rates to 2c. per mile have also been reported as acted upon as follows:

	Passed by—	Remarks.
Indiana	Both Houses	Takes effect on date to be fixed by Governor.
Minnesota	Both Houses	Signed by Governor. Goes into effect May 1.
Missouri	Both Houses	Sent to Governor.
Nebraska	Upper House	1,000-mile mileage books for $20.
Michigan	Upper House	2c. on all roads in Lower Peninsula earning over $1,200 per mile net.
Mississippi	RR. Commis'n	Mileage books at 2c. per mile generally accepted.
Ohio	Both Houses	Passed early in 1906.
South Dakota	Bill defeated.	
Arkansas	Both Houses	Was to go into effect April 11.

The Wisconsin RR. Commission on Feb. 18 ordered a 2 ½c. fare and the Alabama Legislature in the same month fixed the same rate. Because of the reduction in rates, the Western roads, it is stated, will on June 9 reduce the speed of trains. In other cases litigation is promised.—V. 82, p. 693.

Pennsylvania RR.—*Law Decreasing Passenger Rates in Pennsylvania.*—See "Passenger Fares" below.

Retrenchment.—The policy of the management regarding improvements in the immediate future was announced April 9 as follows:

The demand for increased capital from other railways, and substantially from all branches of industry, has made the present rates for money exceptionally high. This, together with the increased cost of labor and material, the legislation, both State and municipal, to increase taxes, reduce rates and fares, and force upon the railways large expenditures that yield no direct return, would seem to make it a wise policy on the part of your company to reduce its capital expenditures to a minimum, avoid new undertakings and restrict its expenditure, for the present, to such work as is now under way and must be completed.—V. 84, p. 626, 574.

Pere Marquette RR.—*Lease of Branch.*—See Kalamazoo Lake Shore & Chicago Ry., above.—V. 84, p. 804, 749.

Philadelphia Rapid Transit Co.—*Assessment.*—Touching the $5 assessment announced April 4, an advertisement says:

The board of directors have this day called an assessment of $5 per share, payable on or before May 6 1907, and for the purpose of preparing a list of stockholders as of May 6, the transfer books will be closed from 3 p. m. April 29 to 10 a. m. May 7 1907. Installments will be received at 1036 Land Title Building, Philadelphia, Room 23, 820 Dauphin St., Philadelphia, and at Central Trust Co., New York City.—V. 84, p. 804, 749.

Pittsfield (Mass.) Electric Street Railway Co.—*New Bonds.*—The Massachusetts Railroad Commission has authorized the company to issue $100,000 4% bonds, maturing July 1 1923, for retirement of floating debt and construction purposes.—V. 79, p. 1267.

Portland & Rumford Falls RR.—*Lease of Old Companies.*—This new company, incorporated on April 4 1907, with $1,000,000 authorized capital stock, Galen C. Moses, Bath, being President, and H. S. Bryant, of Portland, Treasurer,

has leased the Portland & Rumford Falls Ry. and the Rumford Falls & Rangeley Lakes RR., and will itself be leased to the Maine Central RR. The following statement was given out in Portland on April 4:

The Portland & Rumford Falls RR., recently incorporated under the laws of Maine, has accepted its charter and organized thereunder, and, at its meetings held in Portland this week has leased the properties of the Portland & Rumford Falls Ry. and the Rumford Falls & Rangeley Lakes Railroad Co., assuming all the liabilities of the two roads last named.

The leases provide that the new company will pay to the stockholders of the Portland & Rumford Falls Ry. dividends upon the stock of that company at the rate of 8% per annum and to the stockholders of the Rumford Falls & Rangeley Lakes RR. (on its $300,000 stock) dividends at the rate of 2% per annum.

The new railroad has acquired from Hugh J. Chisholm all the real estate recently transferred to him in South Portland and in East Deering.

The offices of the new company will be at 120 Exchange Street, those heretofore occupied by the Portland & Rumford Falls Ry.

The bonded debt of the Portland & Rumford Falls Ry. will be found on page 26 of the "Railway and Industrial Section" for Jan. 1907. Compare also V. 83, p. 626.

The Rumford Falls & Rangeley Lake RR. extends from Rumford Junction to Rumford Falls and from Canton to Oquossoc, 36 miles, making with the Portland & Rumford Falls Ry. a line about 100 miles in length. It has outstanding $400,000 40-year 5% consolidated mortgage sinking fund gold bonds dated Oct. 31 1897 and due Oct. 1 1937, and $278,000 of an authorized issue of $300,000 20-year mortgage bonds dated Nov. 2 1903, and due Nov. 2 1923.

Lease to Maine Central RR.—See that company, above.

Portland & Rumford Falls Ry.—*Lease.*—See Portland & Rumford Falls RR., above.—V. 83, p. 626.

Puget Sound Electric Ry.—*New Issue of Notes Offered.*—Boston bankers are offering at 94¾ and interest, at which they yield about 6¼%, $500,000 of the new authorized issue of $1,000,000 convertible 5% gold notes, dated Feb. 1 1907, due Feb. 1 1912; callable at company's option on any interest date at 102½ and interest and convertible at option of holder at par into 6% preferred stock on or after Feb. 1 1909. Principal and semi-annual interest (Feb. 1 and Aug. 1) payable in gold in Boston. An issue of $1,000,000 similar notes, due Feb. 1 1911, was placed in 1906.—V. 82, p. 1269.

Rapid Transit in New York City.—*Bids.*—The Rapid Transit Railroad Commission, 320 Broadway, is advertising (see "New York Times" of April 11) for bids until noon April 25 for building the section of the subway railroad system to be known as the Lexington Avenue route. The following bids, contrasting with a previous estimate of $2,600,000, were opened on Thursday:

First section of the subway loop connecting the East River bridges, viz.: the section in Centre St. between Pearl and Canal; From Degnon Co., tunnel, $2,052,000, and pipe galleries, $83,000; from Cranford Co., tunnel, $3,775,000, and pipe galleries, $50,000.—V. 83, p. 214.

Rumford Falls & Rangeley Lake RR.—*Lease.*—See Portland & Rumford Falls RR., above.—V. 65, p. 1025.

South Dakota Central Ry.—*Bonds Offered.*—E. H. Rollins & Sons, Chicago, Boston, &c., are offering at par and interest $200,000 first mortgage 5% bonds, due Jan. 1 1927, but subject to redemption at 105 and interest on any interest date on and after Jan. 1 1917. The road is in operation from Sioux Falls, So. Dak., to Rutland, So. Dak., 42 miles, and is to be extended to Watertown, So. Dak., making 100 miles in all. A circular says:

These bonds, when issued to the amount of $750,000, will constitute an absolute first mortgage at the rate of only $7 500 per mile on a standard-gauge steam railroad connecting Sioux Falls, S. D., with Watertown, S. D., 100 miles, and passing through an unusually rich territory, a large portion of which is practically non-competitive. Forty-two miles of the road running to Sioux Falls are now under operation and contracts are being entered into to complete the 100 miles into Watertown during the year 1907. Favorable traffic arrangements are in effect with large railroad systems. The net earnings received from the operation of 42 miles of road for the year 1906 were $41,961, which were about 2¾ times the interest charges on $300,000 issued against that mileage or more than the interest charge on the bonds to be issued against the entire 100 miles. The liberal sinking fund will retire over $300,000 of the bonds. (Amended articles of incorporation were filed in South Dakota in June 1905. At last accounts P. F. Sherman, of Sioux Falls or Colton, S. D., was President.)

Southern Pacific Co.—*New Director.*—W. Bayard Cutting has been elected to the board to succeed D. O. Mills, who resigned.—V. 84, p. 804.

Tennessee Central RR.—*Settlement with City of Nashville as to Subsidy*—$1,000,000 *City 4% Bonds Turned Over, with Interest from May 1 1904.*—See "Nashville" in "State and City Department" of this issue.—V. 84, p. 571.

Terre Haute Indianapolis & Eastern Traction Co.—*Deeds and Leases Filed.*—The "Indianapolis News" of April 4 says:

Three deeds and two leases filed with the recorder of Marion County to-day convey to the company five interurban railway lines in the State. The lines leased are the Indianapolis & Northwestern Traction Co. and the Indianapolis & Martinsville Rapid Transit Co., while the Indianapolis & Western RR. Co., the Indianapolis & Eastern Ry. Co. and the Indianapolis Coal Traction Co. are bought outright.

The leases each run for a term of 999 years. As rent, the company will pay the interest on the bonds of the Martinsville line, whatever sinking fund is required, and $500 a year to keep the company in existence. To these provisions in the case of the Indianapolis & Northwestern Traction Co. it is provided that 1¼% interest shall be paid on the present outstanding capital stock of the company.—V. 84, p. 572.

Texas Western Ry.—*Sold.*—At Houston on April 2 this company's property was sold at auction under order of the court to satisfy a judgment for $165,541 (representing $125,000 on a note with interest from 1900), and was bid in by Elijah Smith, holder of the judgment for $10,000. The "Dallas News" says:

The road was constructed as far as Sealy, 52 miles, when the panic of 1873 forced it to the wall. After lying idle for years, it was resuscitated in 1900 and sold to a company organized under the name of the Houston Brazos & Northern to reconstruct it. Cash to the amount of $25,000 and a note for $125,000 was given as payment, but the note was defaulted. In October of last year Judge Walter Burns ordered the remnants (unoperated) to be sold to satisfy the judgment. Compare V. 83, p. 1291.

United Railways & Electric Co., Baltimore.—*Report.*—For calendar year 1906, compared with 1905:

Year—	*Gross*	*Net.*	*Oth. Inc.*	*Chgs., &c.*	*Bal., sur.*
1906	$6,583,102	$3,362,160	$4,725	$2,365,586	$1,001,299
1905	6,023,698	2,258,407	2,725	2,230,067	31,065

Of the surplus of $1,001,298 for the fiscal year there was credited to extraordinary expenditures $980,000, leaving a balance of $21,298. Of the $13,040,000 income bonds, $13,584,000, it is announced, have accepted the financial plan of July 15 1906 (V. 83, p. 156).

New Officers.—Acting President William A. House has been elected as President, Thomas A. Cross as General Manager and Frank A. Furst as Vice-President. Harry A. Orrick succeeds Henry A. Parr on the board.—V. 84, p. 627.

Wabash RR.—*Sale of Notes to Retire* $6,160,000 *5% Notes that Mature May* 10 1907.—In order to provide for the retirement of the $6,160,000 5% notes maturing May 10, there have been sold to Tailer & Co., 27 Pine Street, New York, $6,160,000 Wabash RR. Co. "two-year collateral 5% gold coupon notes," dated May 10 1907, due May 10 1909. An authoritative statement says:

Interest payable May and Nov. 10. Authorized and issued, $6,160,000. Denominations $1,000, $5,000 and $10,000. Industrial Trust Co., Providence, R. I., trustee. Coupons will be paid in Providence at the office of the trustee and in New York at the First National Bank. Secured by $6,600,000 of the first mortgage 50-year 4% bonds of the Wabash-Pittsburgh Terminal Ry. Co. of 1954 and $4,800 000 Wabash RR. Co. first refunding gold 4% bonds, due 1956, and by the entire $10,000,000 capital stock of the Wabash-Pittsburgh Terminal Co. The above collateral shows over 40% margin. These notes have been actively traded in on a 6½% basis and the greater part have been sold

The Industrial Trust Co. of Providence has arranged with the First National Bank of New York to issue temporary receipts for the above notes, bearing interest at the rate of 5% per annum, until the engraved notes are ready.

The new notes are secured by the same collateral as the old, with the addition of $4,800,000 of Wabash 4% first refunding bonds.—V. 84, p. 804, 272.

Washington (D. C.) Terminal Co.—*Progress of Construction.*—The "Railroad Gazette" of April 5 has an illustrated article regarding the progress of this new union station, in which it is stated that 75% of all the work has been finished, the remainder being of a kind that can be completed speedily. It is expected that the trains of the B. & O. will begin running into the new station during the present year.

Dissolution of Syndicate.—The "Boston News Bureau" of April 6 said:

The syndicate which in February 1905 took over at 96⅜ $10,000,000 3½% 40-year gold bonds dissolves to-day. Only 47% of the securities taken by the syndicate have been sold, and the remainder will be distributed among participants. The bonds sold yesterday on the curb at 90, but it is said that only recently syndicate participants have sold a block at 87½.—V. 83, p. 493.

Winnipeg Electric Street Ry.—*Earnings.*—For. cal year:

Year—	*Gross.*	*Net.*	*1st Chges.*	*Dividends.*	*Bal., Sur.*	*Total Sur*
1906	$1,416,305	$714,341	$251,038	$248,668	$214,635	$761,538
1905	1,119,768	544,021	149,570 (5%)	200,000	194,451	546,052

Passengers carried, 17,229,554 in 1906 and $13,081,249 in 1905; increase, 31.71%. Capital stock outstanding Dec. 31 1906, $4,375,200, against $4,000,000 Dec. 31 1905; bonds, $5,400,000, against $3,500,000; due Bank of Montreal, $334,912, against $918,904. Compare V. 83, p. 1525.

Yellowstone Park RR.—*Foreclosure Suit.*—A press despatch from Helena, Mont., on April 11, states that Henry D. Tudor, Rufus L. Sewall and Alan M. Fay, of Boston, as holders of $38,000 bonds, have brought suit in the Federal Court at Helena, Mont., for the foreclosure of the mortgage given to secure a $3,000,000 bond issue, dated July 1 1905. The coupons of July 1906 remain unpaid. The road is in operation from Bridger on the Northern Pacific Ry. to Bear Creek, etc., 31 miles, and projected and partly built toward Cooke City, 125 miles in all. Compare V. 81, p. 1494.

INDUSTRIAL, GAS AND MISCELLANEOUS.

American Pneumatic Service Co., Boston.—*No Preferred Dividend at Present.*—The directors on April 10 voted:

That on account of the increased business of the company in acquiring and completing valuable contracts, we believe that it is to the best interest of the stockholders that no dividend be declared on the preferred stock at this time.—V. 84, p. 572, 510.

American (Bell) Telephone & Telegraph Co.—*New Business.*—The instrument output for February 1907 and the two months ending Feb. 28 1907, with the corresponding figures for three years, are stated as follows (each telephone being two "instruments," viz., one receiver and one transmitter):

February—	1907.	1906.	1905.	1904.
Gross output	148,762	161,775	134,301	84,402
Net output	93,351	112,033	86,724	47,309
Jan. 1 to Feb. 28—				
Gross output	323,068	338,382	264,935	175,046
Net output	190,250	226,316	179,658	101,090
Total outstanding Feb. 28	7,298,086	5,924,574	4,660,222	3,380,616

Compare annual report in V. 84, p. 800, 815.

(J. G.) Brill Co.—*Purchase Completed.*—See Wason Manufacturing Co. below.—V. 84, p. 751.

British Columbia Packers' Association, Toronto.—*Payment of Back Dividends.*—A dividend of 3½% has been declared on the $1,270,000 preferred stock for the period from May 20 1905 to Nov. 20 1905. Books close May 10th to 20th.

This dividend makes 21% of back dividends paid within the year. There now remains only 1½ years of back dividends, which should be paid off this year, and the common stock should then come in for dividends.—V. 84, p. 222.

Chattanooga (Tenn.) Gas Co.—*Bonds Offered.*—E. H. Rollins & Sons, Chicago, Boston, Denver and San Francisco, are offering at par and interest by advertisement on another page of this issue $225,000 first mortgage gold 5% bonds, being the unsold portion of the present issue of $500,000, fully described, in connection with statement as to the earnings, property and organization of the company, in last week's "Chronicle." See p. 805.

Consolidated Railway Lighting & Refrigerating Co.—*Decision.*—Judge Kohlsaat in the Circuit Court of the United States for the Northern District of Illinois, Eastern Division, on March 15, in the suit of the subsidiary Consolidated Railway Electric Lighting & Equipment Co. against the Adams & Westlake Co., handed down a decision restraining the latter from infringing a certain patent (No. 740,982, issued to Patrick Kennedy and assigned to the complainant) relating to the outside suspension of dynamos to car trucks in electric-lighting equipment. The Court says:

"No device in the prior art combines all the enumerated elements or accomplishes the same results. The evidence shows the device has taken hold of the market and is supplanting its predecessors in the art. Kennedy was the first to assemble and put into practical commercial shape the various elements and combinations of the patent in suit."—V. 82, p. 1325.

Consolidated Steamship Lines.—*Amalgamation.*—The New York & Porto Rico Steamship Co. (which see below) it is said, will be included in the amalgamation shortly expected to take place under this title. An exchange says:

The shares of the Eastern, Metropolitan, Clyde, Mallory, New York & Cuba and New York & Porto Rico, will be exchanged for 4% bonds of the Consolidated Steamship Co. on the basis of one bond for each ten shares of stock. Compare V. 84 p. 53, 161, 393, 223.

Dayton (O.) Gas, Light & Coke Co.—*Report of Expert.*—At Dayton, Ohio, on April 5 the grand jury brought in an indictment against Secretary George M. Smart for embezzlement on nineteen counts. According to a press dispatch from Dayton the total amount of the defalcation is said to be approximately $189,000. See "Cincinnati Inquirer" of April 6 and compare V. 84, p. 223, 162.

Denver Gas & Electric Co.—*Dividend Expected.*—A circular has been sent to the stockholders stating the intention of the directors to declare a dividend, the amount of which will be decided upon at a meeting to be held in May.—V. 84, p. 628, 105.

Eastman Kodak Co. of New Jersey.—*Listed.*—The New York Stock Exchange has listed $175,000 additional 6% cumulative preferred stock and $11,500 common stock, making total amount listed $6,165,700 6% cumulative preferred and $19,536,200 common stock.—V. 84, p. 806, 801.

Economy Light & Power Co., Joliet, Ill.—*New Bonds—Offer of Exchange.*—The 5% bonds, due 1915, having been called for redemption, Redmond & Co., New York, and the Royal Trust Co., Chicago, offer holders the privilege of exchanging their maturing bonds for the first mortgage 5% gold bonds due 1956 on the basis of par and interest in the new bonds, for the maturing bonds, at 107½ and interest, the price at which they are called for redemption.

The new issue is limited to $3,000,000, of which $2,000,000 has been sold and $1,000,000 is reserved for future improvements and additions at not exceeding 85% of cost. Bonds dated Dec. 1 1906 and due Dec. 1 1956, without option of earlier redemption. Denomination $1,000 c*. Interest payable June 1 and Dec. 1. Royal Trust Co., Chicago, trustee. The underlying issues will be paid off in May and June next, leaving the new bonds an absolute first lien. The capital stock is now $3,000,000.—V. 73, p. 844.

Edison Electric Illuminating Co. of Boston.—*New Stock.*—The offering of $1,140,500 of new stock at $215 a share to stockholders of record March 6 came at a time when the money market was greatly disturbed and only about 6% of the issue, it is understood, was taken by the stockholders, so that unless the Gas and Electric Commission authorizes an offer to the shareholders at a lower price, the unsold stock will probably be offered at auction as soon as conditions are favorable. On Jan. 1 there were $2,500,000 notes payable, but none of these, it is stated, mature in the near future. The "Boston Financial News" says:

The earnings are giving satisfaction—in fact exceeding all expectations. The company reduced its prices the first of last July, the reduction being equivalent to about $200,000 of gross earnings and almost an equal amount in net. The business is growing faster than at any time in the company's history, so that notwithstanding this reduction earnings for the nine months of the current fiscal year compare favorably with those of the corresponding period in the previous year.—V. 84, p. 573, 510.

Federal Sugar Refining Co.—*Dividends.*—The directors have declared a dividend, No. 3, of 3% on the preferred stock, payable May 1. Dividend No. 1, paid Feb. 7 1905, was 12%; No. 2, paid Aug. 25 1906, 3%. Total accumulated arrears as of May 1 1907, 9%. Compare V. 84, p. 691.

(John R.) Ferrier of New York.—*Suit.*—The Standard Trust Co. of New York, as mortgage trustee, has instituted proceedings to foreclose the mortgage of John R. Ferrier under which $1,162,000 4½% bonds are outstanding, covering the property sold to the Hackensack Meadows Co. (V. 80, p. 1237; V. 82, p. 871, 1159). Control of the last-named corporation was acquired in May 1906 by the New Jersey Terminal Dock Improvement Co. Compare V. 81, p. 1378; V. 82, p. 1159; V. 84, p. 511.

The "Jersey City Journal" of April 5 said:

In 1901 Mr. Ferrier, who was heavily indebted, issued 20-year bonds to his creditors and turned over his property to the trust company as collateral, executing a mortgage upon the land which is now the subject of the foreclosure suit. At the same time he conveyed the title of the property to Henry L. Sprague, who soon afterwards deeded it to the Hackensack Meadows Co. The trust company claims that there is still due on the mortgage $1,162,000, together with large arrears of interest. A majority of the bondholders have requested the trust company to foreclose.—V. 82, p. 1159.

Fort Wayne (Ind.) Gas Co.—*Plan.*—See Ohio & Indiana Consolidated Natural Gas & Illuminating Co. below.—V. 82, p. 1442.

Gas Light Co. of Augusta, Ga.—*Bonds Offered—Status.*—Devitt, Tremble & Co., First National Bank Building, Chicago, are offering at 98½ and interest $150,000 first mortgage 5% serial gold bonds, dated April 2 1906, and due in annual installments of $25,000 on April 1 from 1931 to 1936, both inclusive, but redeemable on any interest date prior to 1911 at 110 and interest, and thereafter at 105 and interest. Total authorized issue, $1,000,000; outstanding, including the above, $448,000; remainder, held in escrow under conservative restrictions, $552,000.

Results for Year ending Dec. 31.

	1905.	1906.	% Inc.
Gas output (cubic feet)	58,070,700	67,028,800	15.4
Meters in use	2,828	3,398	20.1
Gas stoves and other appliances in use	1,550	2,262	45.9
Arc lamps in use	676	1,146	69.5
Gross earnings	$70,454	$93,915	33.30
Operating expenses (includ. taxes and ins.)	44,600	55,877	25.28
Net earnings	$25,854	$38,038	47.12
Interest on first mortgage bonds outstanding during year		16,450	
Surplus		$21,588	

"A similar increase in net earnings is expected for several years to come" under the new management. See further particulars in V. 82, p. 872.

Greene Cananea Co.—*In Full Possession.*—The company took title to its Cananea Central properties on April 5 when it paid the final installment of $1,500,000 on the purchase price of $2,250,000. The previous installments were $250,000, which was paid when the option was exercised, and $500,000 paid March 1. Compare V. 84, p. 806, 510.

Hackensack Meadows Co.—See John R. Ferrier, above.—V. 81, p. 1377.

Hartford (Conn.) Electric Light Co.—*Called Bonds.*—The unregistered first mortgage bonds amounting to $165,000 issued under mortgage dated May 1 1896, securing an issue of $200,000 5% bonds have been called for redemption on June 1 at the office of the Security Company, Hartford, Conn., trustee. Compare V. 84, p. 393, 341.

Houston Oil Co.—*Increased Payments from Kirby Lumber Co.*—The receiver of the Houston Oil Co. and the Kirby Lumber Co. have come to an agreement under which the latter is to cut 24,000,000 feet of timber per month and to pay the Oil Company therefor at the rate of $5 per thousand, aggregating $120,000. This agreement goes into effect at once and remains in force until Feb. 1 1908. It will increase the Oil Company's income at the rate of $500,000 per annum.—V. 84, p. 696.

Hudson River Water-Power Co.—*Judgment Affirmed.*—The Appellate Division of the Supreme Court, First Department, has handed down a unanimous decision affirming the report of Hon. Alton B. Parker, referee, in the suit of the National Contracting Co. against the Power Co. The complaint is dismissed and jdugment awarded to the Hudson River Water Power Co. on its counterclaim for $287,253, this modification of the amount of the counterclaim being consented to by the latter. Compare V. 83, p. 754.

Imperial Paper Mills of Canada.—*Bonds.*—The proposed issue of £400,000 5% mortgage debentures, it is stated, has been authorized. Compare V. 84, p. 806.

Indiana Natural & Illuminating Gas Co.—*Plan.*—See Ohio & Indiana Consolidated Natural & Illuminating Gas Co. below.—V. 81, p. 1045.

Jeffrey Manufacturing Co., Columbus, O.—*First Dividend on Preferred Shares.*—The company early this month paid its first quarterly dividend of 1½% on its preferred stock, recently issued. Compare V. 84, p. 573.

Keystone Telephone Co., Philadelphia.—*Notes Issued.*—The company has made an issue of $600,000 3-year 6% gold notes of $1,000 each, dated 1907 and due March 1 1910, but redeemable March 1 or Sept. 1 1909; interest payable Sept. 1 and March 1. These notes are secured by deposit with the trustee of $720,000 of the company's first mortgage bonds, of which $4,485,000 have been sold and are now outstanding. For the calendar year 1906 the gross earnings were $901,233, contrasting with $790,221 in 1905; "net available for interest" $398,752, against $376,119.—V. 84, p. 218.

Kirby Lumber Co.—*Agreement.*—See Houston Oil Co. above.—V. 84, p. 697, 751.

La Fayette Gas Co.—*Plan.*—See Ohio & Indiana Consolidated Natural & Illuminating Gas Co. below.—V. 81, p.1045.

Lake Superior Corporation.—*Notes Renewed.*—The Canadian Improvement Co. notes which came due on April 1, and which were guaranteed by the Province of Ontario, have been renewed for a period of six months. The rate of interest on these notes is 5%.—V. 84, p. 697.

Las Animas Light, Power & Manufacturing Co., Trinidad, Col.—*Denied.*—Superintendent C. H. Paul writes that there is "no foundation for the report" that the bondholders have applied for a receiver.

Liquid Air Power & Automobile Co.—*Shares at Auction.*—At auction in this city on April 3 five shares of $10 each were sold for $2 for the lot.—V. 73, p. 187.

Logansport & Wabash Valley Gas Co.—*Plan.*—See Ohio & Indiana Consolidated Natural & Illuminating Gas Co. below.—V. 81, p. 1045.

Mackay Companies.—*Listed in Boston—Preferred Shares Subject to Call.*—The Boston Stock Exchange has listed this company's outstanding share capital, namely $41,380,400 common and $50,000,000 preferred. The "Declaration of Trust" provides in substance:

The preferred shares are entitled to receive dividends in each year out of the net earnings of the companies at the rate of 4% per annum and no more, payable quarterly on the first day of January, April, July and October, which shall be paid or set apart before any dividends shall be set apart on the common shares. These preferred dividends are cumulative, and if, in any period of three months, quarterly dividends at the rate of 4% per annum are not paid on said preferred shares, the accrued and unpaid dividends shall be a charge on the net earnings, payable subsequently before any dividends are paid or set apart on the common shares. In the event of liquidation, the proceeds of liquidation shall first be applied to the payment on the preferred shares, $100 per share, and any accrued and unpaid dividends thereon, and the balance remaining thereafter shall be divided among the holders of common shares in the proportion to their holdings.

All or any of the preferred shares shall be subject at any time to redemption by the trustees at 106, and any unpaid cumulated dividends past due thereon. The holders of the preferred and common shares are entitled to equal voting powers.—V. 84, p. 807, 447.

Montgomery (Ala.) Light & Water Power Co.—*Bonds Offered.*—Cramp, Mitchell & Shober of Philadelphia, who, are offering at 82½ and interest $125,000 first consol. gold 5% bonds due Jan. 1 1943, issued to retire old bonds, report:

Earnings for Year Ending Feb. 28 1907.

Gross	$282,688	Interest on outstanding bds.	$100,801
Net	158,974	Surplus	58,173

First consolidated bonds authorized, $3,000,000. Total bonds outstanding, including underlying bonds, $2,085,000. —V. 80, p. 1426.

Newhouse Mines & Smelters.—*On "Unlisted" List.*—The New York Stock Exchange has granted a quotation in the unlisted department to the $6,000,000 capital stock (par value $10), the stock to be traded in at dollars per share.

There are also outstanding $1,500,000 first mortgage 6% gold bonds, dated June 1 1903 and due in 1913, but subject to call, any or all, at par at any time on sixty days' notice. Sinking fund, $100,000 yearly after May 1 1907. This is a New York corporation owning copper, &c., properties at Newhouse, Utah. President Samuel Newhouse. Office, 71 Broadway, New York.

New Jersey Terminal Dock & Improvement Co.—*Foreclosure Suit.*—See John R. Ferrier above, and compare V. 84, p. 511.

New York & Porto Rico Steamship Co.—*Successor Company.*—A company with this name and $10,000,000 of authorized capital stock was incorporated under the laws of Maine on April 8 as successor of the company with the same title, which was recently purchased by Charles W. Morse and associates. The officers and directors are:

President, Clarence B. Height, Brookline, Mass.; Treasurer, H. F. Sweetzer, Portland; Clerk, Frederick H. Low, Bath; Directors: L. L. Height and H. L. Cram, Portland; P. E. Coyle, Brookline; and E. C. Ramsdell, Boston.

(Of the 100,000 shares of stock, par $100, 80,000 shares, it is said, will be issued, including some 20,000 taken by bankers at. It is supposed, about $30 a share. It is thought probable that all the outstanding shares will be turned in for exchange for the stock and bonds of the Consolidated Steamship Lines, which see above.—Ed.)—V. 84, p. 452

Ohio & Indiana Gas Co.—*Plan.*—See Ohio & Indiana Consolidated Natural & Illuminating Gas Co. above.—V. 81, p. 1046.

Ohio & Indiana Consolidated Natural & Illuminating Gas Co.—*Reorganization Plan for Controlled Companies.*—A plan of reorganization dated April 5 1907 has been prepared for this corporation and its constituent companies, namely the La Fayette Gas Co., Indiana Natural & Illuminating Gas Co., Ohio & Indiana Gas Co., Logansport & Wabash Valley Gas Co. and Fort Wayne Gas Co., by the committee consisting of

James N. Wallace, Anthony N. Brady, Charles F. Dieterich, James P. Lee, Albert Tag and F. S. Hastings, with Fred C. Randall as Secretary, 54 Wall Street.

A circular says in substance:

During the past year and a half the committee has been called upon to consider many difficult questions, due to the physical condition of the properties, the fact that the period has been one of transition between natural and artificial gas, and also to the attempt by some of the municipalities, and even the State of Indiana, to fix a maximum price for artificial gas which would not provide an adequate return upon the reasonable value of the property. Improvements have been made in the readjustment of the properties so as to adapt them to the use of artificial gas; and the outlook for their future is encouraging, if reorganized upon a conservative basis and if confiscatory rates are not imposed by the municipal or State authorities.

While there is still a considerable amount of natural gas supplied by some of the companies, the committee have not deemed it wise to rely upon the continuance of returns therefrom, except as such returns will aid in the upbuilding of the artificial gas business. Excluding any profits from natural gas, it is confidently expected that a sufficient income will be derived from the plants to pay the interest on the proposed issue of new bonds, with a substantial surplus for the preferred stock.

The territory occupied by the companies is such that it can be served more economically and efficiently by a single corporation. In the plan adopted, the bondholders will receive, in new bonds and preferred stock, the entire value of the properties, based upon any return likely to be derived from the properties during the next few years.

A decree of foreclosure will shortly be entered in the case of each company, and the properties will thereupon be sold at the respective foreclosure sales. Notice of the plan has been published, the first publication being made on April 6 1907. Any bond, except bonds of the Logansport & Wabash Valley Gas Co., heretofore deposited may be withdrawn on or before April 26, upon surrender to the Central Trust Co. of New York of the certificate of deposit and payment of $5 upon each bond, as a fair contribution to the expenses and liability of the committee. The bonds of the Logansport & Wabash Valley Gas Co. were pledged to secure a loan for the purpose of completing the artificial plant of the company, and can be withdrawn only upon the payment of $60 per bond. A large majority of the bonds of each company have been deposited under the different bondholders' agreements, and the committees have decided to permit the remaining bondholders to participate in the reorganization upon condition that their bonds be deposited on or before May 1 1907.

Plan of Reorganization.

A new company will be organized under the laws of Indiana, or such other State as may be determined upon by the committee, with the title, "The Indiana Consolidated Gas Company," or with some other title.

Stock and Bonds of the New Company.

4% non-cumulative preferred stock (preferred as to assets and as to earnings to the extent that the same may be declared in dividends, but not to be cumulative), all issuable to old bondholders	$4,500,000
Common stock issuable as bonus in sale of new bonds	$2,250,000
First mortgage 50-year 4% gold bonds (redeemable at 102 and accrued interest). Total par value not exceeding	$5,000,000
Issuable in partial exchange for old bonds	3,000,000
To be sold to meet the cost of foreclosure and reorganization, including the amounts borrowed by the committee for the improvements. Not expected to exceed	400,000
To remain in treasury for future requirements, say	1,600,000

Allotment of New Bonds and Preferred Stock to Bondholders

	Bonds to be Retired.	Issuable therefor New Bonds.	Issuable therefor New Pref. Stock.	Pr $1,000 Old Bonds.	Pr $1,000 Old New Pf. Stock.
	$	$	$	$	$
La Fayette Gas Co	960,000	500,000	750,000	520 00	780 00
Indiana Nat. & Illum. Gas Co.	820,000	100,000	150,000	122 00	183 00
Ohio & Indiana Gas Co	1,940,000	750,000	1,125,000	386 50	579 75
Logansp. & Wab. Val. Gas Co.	1,690,000	650,000	975,000	384 50	576 75
Fort Wayne Gas Co	1,940,000	1,000,000	1,500,000	515 50	773 25
Total	7,350,000	3,000,000	4,500,000		

Allotment of New Common Stock.

In order to obtain a market for the bonds now to be sold (not expected to exceed $400,000) as aforesaid, and thus to relieve the present bondholders of a heavy assessment, the common stock will be issued to the purchasers of the new bonds, and the privilege of subscribing for such bonds will be given, in the first instance, to the stockholders of the present companies. Inasmuch as substantially all the stock of these companies is held by the Ohio & Indiana Consolidated Natural & Illuminating Gas Co., the privilege of subscribing for the said new bonds will be given to the stockholders of that company, pro rata. If the said stockholders should not fully exercise this privilege, the committee will use the common stock remaining, in the same manner, for the purpose of inducing a syndicate to underwrite the necessary amount of new bonds.

Offer from Syndicate.—Alex Le Vino, 52 Broadway, New York, announces by advertisement:

On behalf of a responsible gas syndicate I am instructed to offer the La Fayette Gas bondholders and Fort Wayne Gas bondholders 4% interest per annum guaranteed for 99 years on the face value of their bonds, provided a sufficient number of bonds can be secured.

Within a short time the same syndicate will offer to the bondholders of the Indiana Natural and Illuminating Gas Co., Ohio & Indiana Gas Co. and Logansport & Wabash Valley Gas Co. an equally favorable proposition, provided the La Fayette Gas and Fort Wayne Gas bondholders assent in sufficient number.—V. 82, p. 1500.

Ohio & Western Lime Co., Toledo, O.—*New Stock.*—This company, incorporated in Ohio in February 1906 as successor of the Ohio Lime Co., &c., recently increased its stock from $1,000,000 to $1,500,000. Peter M. Martin of Huntington, Ind., is President and W. B. Whiting, Chamber of Commerce Building, Toledo, is Secretary. A press dispatch from Marion, O., on Feb. 7 1907 said:

Peter Martin to-day obtained control of the Norris & Christian Stone & Lime Co. and the Central Stone & Lime Co., the consideration being over $500,000. The Ohio & Western Lime Co., of which Martin is President and General Manager, now owns and controls plants at Huntington, Bedford and Mitchell, Ind., and at Lucky, Fostoria, Gibsonburg, Sugar Ridge, Tiffin, Genoa, Limestone, Lime City and Portage, Ohio. Mr. Martin is also affiliated with Caleb Gowan of Cleveland, who operates extensive plants at Kelley's Island and Sandusky.

Philadelphia (Pa.) Electric Co.—*Report.*—The results for the calendar year 1906, presented at the annual meeting on Wednesday, compare with 1905 as follows:

Cal. Year.	Gross Income.	Oper. Exp. & Charges.	Balance, Surplus.	Divid'ds Paid.	Surp. for Year.	Tot. surp. Dec. 31.
1906	$4,503,878	$3,683,161	$820,717	$499,935	$320,782	$1,732,520
1905	4,104,113	3,293,097	811,016	499,935	311,081	1,411,737

Equivalent of 16-candle-power lamps connected Dec. 31 1906 was 1,273,862, an increase of 201,719, or 18.8%.—V. 82, p. 1209.

Shelby Steel Tube Co., Pittsburgh.—*Favorable Decision.*—Judge Archbald in the Circuit Court of the United States for the Eastern District of Pennsylvania decided in favor of the company (a subsidiary of the United States Steel Corporation) the suit pending for several years against the Delaware Seamless Tube Co. of Auburn, Pa., and others, involving the validity of the original Stiefel piercing mill, which is described as "the foundation principle in the manufacture of seamless steel tubing."

The claim of infringement of patent (No. 551,340) granted to R. C. Stiefel Dec. 1905 and assigned to the Shelby Company was sustained. The opinion was given at length in the "Iron Age" of April 4.—V. 73, p. 444.

Tower Hill Connellsville Coke Co.—*New Enterprise—Bonds Subscribed.*—This company was incorporated recently under the laws of West Virginia with $5,500,000 capital stock, practically all outstanding ($1,500,000 being 6% cumulative preferred; par of shares $100), and purchased 2,000 acres of Connellsville coking coal with 700 acres of surface in Luzerne and Redstone townships, Fayette County, Pa., for the purpose of establishing a large coke oven plant. A first mortgage has been made to The Citizens' Savings & Trust Co. of Cleveland, as trustee, to secure an issue of $2,500,000 5% gold bonds, substantially all outstanding, dated Jan. 1 1907 and due $500,000 Jan. 1 1917, $500,000 Jan. 1 1922, $500,000 Jan. 1 1927 and $1,000,000 Jan. 1 1932; but subject to call on any interest-paying date, in the inverse order of their numbers, at 105 and accrued interest. Interest payable Jan. 1 and July 1 at office of trustee. Sinking fund 25 cents per ton of coke and 15 cents per ton of coal shipped. The Tower Hill Connellsville Coke Co. of West Virginia owns the entire capital stock ($5,000) of the Tower Hill Connellsville Coke Co. of Pennsylvania. The West Virginia corporation will be the operating company. The company paid $1,700 per acre for the 2,000 acres of Connellsville coking coal, or $3,400,000. The company will expend $1,000,000 for improvements and for this purpose $1,000,000 bonds out of the issue of $2,500,000 are being held by the company, and proceeds can be used only in the development of the property. The "Iron Age" of Feb. 7 1907 said:

On this property the company will erect 1,000 coke ovens of modern design, 800 at once, and 200 more as soon as the coal is sufficiently developed. The company intends to begin sinking the shafts by March 1, which will probably enable it to reach coal and begin to produce coke by fall. The property adjoins the plants of the Orient, H. C. Frick, Clairton, Republic and Thompson Connellsville Coke companies and is located on the Pennsylvania, Pittsburgh & Lake Erie and Baltimore & Ohio railroads.

The President is George D. Howell, Uniontown, who is Vice-President of the McCrum-Howell Co. of New York and a director in the Rich Hill Coke Co.; First Vice-President, F. M. Osborne, Cleveland, Ohio, President of the Youghiogheny & Ohio Coke Co. and formerly President of the Pittsburgh Coal Co.; Second Vice-President, J. V. Thompson, Vice President of the Thompson-Connellsville Coke Co.; Secretary and General Manager, L. W. Fogg, Uniontown, formerly General Manager of the Brier Hill Coke Co.; Treasurer, J. R. Nutt, Cleveland, Ohio, Secretary of The Citizens Savings & Trust Co.; Assistant Treasurer, John R. Thompson. Besides the officers the directors include Andrew Squire, Cleveland, Ohio; George H. Burr, New York, and Lloyd G. McCrum, New York, President of the McCrum-Howell Co. and a director of the Thompson Connellsville Coke Co

Reports and Documents.

NEW YORK CENTRAL & HUDSON RIVER RAILROAD COMPANY.

THIRTY-EIGHTH ANNUAL REPORT—FOR THE YEAR ENDED DECEMBER 31 1906.

To the Stockholders of the New York Central & Hudson River Railroad Company:

The Board of Directors herewith submits its report for the year ended December 31 1906, with statement showing the results for the year and the financial condition of the company.

The report covers the operation of the system east of Buffalo, as follows:

	Miles.
Main line	806.69
Proprietary lines	3.06
*Lines leased	2,620.55
Lines operated under contract	81.87
Trackage rights	271.73
Total road operated	3,783.90

* The Dunkirk Allegheny Valley & Pittsburgh Railroad, 90.51 miles, is also leased by this company, but its mileage and operations are not included in this report. Separate accounts are kept and independent reports prepared in its behalf.

There was no additional road mileage acquired by lease or otherwise during the year. The net increase over 1905 of 9.55 miles was due to re-measurement and change of alignment at various points on the system, new mine branches built or existing branches extended on the Beech Creek Railroad and the construction of additional mileage of the Cherry Tree & Dixonville Railroad.

A statement showing in detail miles of road and track operated will be found upon another page. (See pamphlet report.)

The capital stock authorized and outstanding is as follows:

Authorized to December 31 1905	$150,000,000 00	
Additional stock authorized by the stockholders on April 18 1906	100,000 000 00	
Total amount authorized to Dec. 31 1906		$250,000,000 00
Total amount issued and outstanding to December 31 1905	$132,250,000 00	
Issued on March 31 1906, being part of the unissued balance of $150,000,000 authorized to December 31 1905	16,947,800 00	
Of the $100,000,000 authorized by the stockholders on April 18 1906, the Board of Directors on September 19 1906 approved the issue of $29,839,560, which was offered to the stockholders, at par, in the proportion of one share of new stock to each five shares owned. The new stock is to participate in all dividends declared after that payable January 15 1907. There was issued on this account to December 31 1906	28,984,900 00	
Total amount issued to December 31 1906		178,182,700 00
Balance authorized but not issued		$71,817,300 00
The funded debt was not changed during the year 1906 and remains at		$230,414,845 00
